

Institution	Program Name	Description	Instructional Modality	Targeted Industry	Program Length	Program Price
CSN	Advanced Manufacturing Automation	A program that prepares individuals to apply basic engineering principles and technical skills in support of engineers and other professionals engaged in developing installing calibrating modifying and maintaining automated systems. Includes instruction in computer systems electronics and instrumentation programmable logic controllers PLCs electric hydraulic and pneumatic control systems actuator and sensor systems process control robotics applications to specific industrial tasks and report preparation.	Academic and lab courses are held on campus with clinical experiences in our Faculty	Advanced Manufacturing	21-weeks/day schedule. 24-weeks/night schedule	\$5,000.00
CSN	Advanced Manufacturing CNC Machining	A program that generally prepares individuals to apply technical knowledge and skills to operate maintain and repair electrical and electronic equipment. Includes instruction in electrical circuitry simple gearing linkages and lubrication of machines and appliances and the use of testing equipment.	Academic and lab courses are held on campus with clinical experiences in our Faculty	Advanced Manufacturing	12-weeks	\$5,000.00
CSN	Digital Marketing Program	A program that generally prepares individuals to undertake and manage the process of developing consumer audiences and moving products from producers to consumers. Includes instruction in buyer behavior and dynamics principle of marketing research demand analysis cost-volume and profit relationships pricing theory marketing campaign and strategic planning market segments advertising methods sales operations and management consumer relations retailing and applications to specific products and markets.	Online	Business	15-weeks	\$4,200.00
CSN	Plumbing - Certificate of Completion	This training program is designed to provide foundational plumbing skills for local employers and to meet the training requirements for the plumbing industry. Training will involve a hybrid of online, in-class and hands on experiences. Our goal is to certify those who demonstrate mastery of the core competencies of plumbing industry.	Academic and lab courses are held on campus with clinical experiences in our Faculty	Other		
CSN	Core: Introduction to Basic Construction Skills	A program that prepares individuals to apply technical knowledge and skills to residential and commercial building construction and remodeling. Includes instruction in construction equipment and safety site preparation and layout construction estimating blueprint reading building codes framing masonry heating ventilation and air conditioning electrical and mechanical systems interior and exterior finishing and plumbing.	Academic and lab courses are held on campus with clinical experiences in our Faculty	Other	10-weeks	\$1,300.00

CSN	Dialysis Patient Care Technician - Certificate of Completion	<p>The Patient Care Dialysis Technician program will train students to work with patients who have end stage renal disease (ESRD/Kidney failure) and need help removing harmful substances from the blood stream. This course is based on the National Association for Nephrology Technician (NANT) standards and after 4-6 months of clinical experience, the technician will be allowed to take the National Certified Clinical Hemodialysis Technician (CCHT) examination. As of 2010, National certification is required to work in the field and this program will provide a minimum of 100 (Hrs.) of lecture/ lab coursework and 210 (Hrs.) of clinical practice. The course will cover: Clinical, Technical, and Environmental technician support; basic Renal Anatomy &amp; Physiology, and Role of the Patient Care Technician.</p>	Academic and lab courses are held on campus with clinical experiences in our Faculty	Healthcare	22-Weeks	\$5,000.00
CSN	Basic EKG	<p>A program that prepares individuals under the supervision of physicians and nurses to administer EKG and ECG diagnostic examinations and report results to the treatment team. Includes instruction in basic anatomy and physiology the cardiovascular system medical terminology cardiovascular medications and effects patient care EKG and ECG administration equipment operation and maintenance interpretation of cardiac rhythm patient record management and professional standards and ethics.</p> <p>Course is designed to prepare student for monitor-telemetry tech positions in a hospital setting. Participants will receive theoretical and practical application time identifying normal EKG rhythms vs. lethal and potentially lethal rhythms seen in telemetry and Intensive Care Units and when to alert the nurse assigned to the patient</p>	Lecture, Demonstrations, Hands on	Healthcare	4 Days	\$225.00

CSN	Basic Medical Terminology	This course will help participants understand the language of medicine, called medical terminology. Participants will learn basic prefixes, suffixes, word roots, plural rules, word building, spelling and pronunciation of medical terms. The participants will also learn the 12 body systems and be able to identify terminology related to organs, body systems, diagnostic tests and interventions related to common pathological conditions in medical settings. This course will focus on application to real life coding scenarios.	Lecture, Demonstrations, Hands on	Healthcare	7-Weeks	\$420.00
CSN	Community Health Worker	This course is designed to train Community Health Workers to assist individuals and communities to adopt healthy behaviors through providing information, education, training and workshops, social support, and informal counseling.	Lecture, Demonstrations, Hands on	Healthcare	8-Weeks	\$989.00
CSN	Health Unit Coordinator - Certificate of Completion	A program that prepares individuals under the supervision of nurses or ward supervisors to perform routine administrative and reception duties in a patient care unit within a hospital or other health care facility. Includes instruction in receiving and directing visitors transcribing medical and nursing orders preparing requisition forms scheduling patient appointments and procedures monitoring patients and personnel and interpersonal skills.	Academic and lab courses are held on campus with clinical experiences in our Faculty	Healthcare	7-Weeks	\$2,384.00
CSN	Home Healthcare Aide - Certificate of Completion	This course is designed to prepare the student to work as a Home Care Aide, to competently assist elderly and disabled adults with activities of daily living. An emphasis is placed on infection control procedures, safety, client rights, effects of aging, common disease processes, mental health and caregiver etiquette while in the home.	Academic and lab courses are held on campus with clinical experiences in our Faculty	Healthcare	5-Weeks	\$1,640.00

CSN	IV Certification LPN	<p>A program that prepares individuals under the supervision of physicians and other health care professionals to draw blood samples from patients using a variety of intrusive procedures. Includes instruction in basic vascular anatomy and physiology blood physiology skin puncture techniques venipuncture venous specimen collection and handling safety and sanitation procedures and applicable standards and regulations. Prepares the LPN in Nevada to perform IV therapy in accordance with the Nevada Nurse Practice Act and published standards and federal regulations. From this class-room instructions and simulations, the participant will move on to working with a preceptor and actual patients in their clinical setting. Recent technologies will also be covered such as visualization technologies, care of new peripheral IV systems such as extended dwell peripheral catheters and midline vascular catheters, care, and recognition of central venous catheters. Participants will also be prepared to assist in the placement of OI devices for patients with urgent need or limited vascularity. Complications of peripheral/central venous access systems will also be discussed. IV medications appropriate for LPN administration will be covered in some detail. IV related calculations will be presented, and participant must score at least 85% on these modules. This program is not intended to provide certifications nor is it a statement about competency of</p>	Academic and lab courses are held on campus with clinical experiences in our Faculty	Healthcare	4 Days	\$599.00
CSN	Nursing Assitant Skills Certificate Course	<p>Under the direction of a licensed nurse, nursing assistants perform basic nursing services that involve hygiene, protection of patient safety &amp; rights, observation &amp; reporting. Students take 180 hours of lecture, lab, &amp; clinical coursework. Upon successful completion, students receive a Skills Certificate and are eligible to apply for state certification by examination.</p>	Academic and lab courses are held on campus with clinical experiences in our Faculty and Online Learning	Healthcare	16-Weeks	\$1,500.00

CSN	Patient Care Aide Training	This course is designed to prepare the student to work as a Patient Care Aide, to competently assist in-facility patients: long term care, acute care, assist living, and group homes. Also, elderly, and disabled adults with activities of daily living. An emphasis is placed on infection control procedures, safety, client rights, effects of aging, common disease processes, and caregiver etiquette while in the home. Communication skills and understanding of individual client needs are stressed. Employment options and career opportunities are integrated into the curriculum with the objective of placing students in jobs or continuing their education. CSN	Student Health Assistant	Based on the successful completion of the School Health Assistant (SHA) training program for over 500 Clark County health office workers, the College of Southern Nevada is pleased to offer similar and customized training for all school districts in Nevada. The SHA training includes 60 hours of online didactic medical training via Canvas learning management system plus 2 days of 10-hour live skills practice and pass-off for a total of 80 training hours.	Academic and lab courses are held on campus with clinical experiences in our Faculty and Online Learning	Healthcare	5-Weeks	\$2,000.00
CSN	Back End Software Developer	In the Back End Software Development program, students take three courses to learn the skills and technologies necessary to enter the industry as a Back End Software Developer: Introduction to Java, Relational Databases with MySQL, and Web API Design with Spring Boot. Skills and technologies learned include Java 1.8, Algorithms, OOP, Design Patterns, Unit Testing, SQL, DDL, DML, Database Concepts, JDBC, Spring Boot, Spring Data, REST, JPA, JWT, AWS, and more.	Online	Information Technology	18-weeks	\$4,200.00

CSN	Data Analyst Certificate Training Program	<p>This self-paced, online Data Analyst Career Certificate Program provides you a college career certificate and the knowledge, practical experience, competency and confidence to qualify for high-paying data analyst jobs. Data Analysts are professionals who collect, process, and perform analyses on enterprises' huge quantities of data to help them make better and faster business decisions. Virtually all enterprises now have reached "data overload" and need data analysts to help them make sense of massive amounts of data. There is a shortage of qualified Data Analysts in fields ranging from healthcare to finance, marketing, retail, operations, IT systems and business intelligence. Employment of data analysts is projected to grow 25 percent from 2019 to 2029 (source: discoverdatascience.org). Median wages in the United States range from \$79,000 to \$120,000 (source: US Bureau of Labor Statistics). This program is suitable for you if you are seeking to enhance your career or looking for a new career in a high-demand occupation. You will learn how to do it all in data analytics: from cleaning data to presenting it in visual form, performing qualitative and quantitative analysis of data, interpreting data and making predictions. You will also be prepared to pass the CompTIA Data+ certification exam. Most trainees complete the training in as little as 6-12 months. Trainees enrolling in this program receive regular weekly support from a coach, and have access to the NCLab</p>	Online	Information Technology	Open-Enrollment	\$5,600.00
-----	---	--	--------	------------------------	-----------------	------------

CSN	Computational Literacy for Modern Careers	<p>Qualify for exciting new automation-based jobs by taking this training. When you graduate, you will have acquired automation-related skills that are in very short supply and that employers are universally placing great value on. This training program is 80 hours in length, and it is all hands-on learning. Your personal situation will determine how long it will take you to graduate. During the program, you use a virtual robot to solve various simple tasks. In this way you learn essential skills such as how to identify repeating patterns and how to break complex problems into simpler ones. Upon completing the program, you have acquired the mindset and skills needed to successfully deal with automation and intelligent machines. Hard skills that you will be developing include computational thinking, logic, and how to use computers to solve problems. At the same time as you learn new hard skills, you'll develop important soft skills, including the ability to focus, pay attention to detail, communicate, solve problems, use logic and make correct decisions, plan ahead and do it right the first time, persevere, learn from failure, and adapt to changing conditions, among others. The hard and soft skills that you will learn will serve you well throughout your working life.</p>	Online	Information Technology	Open-Enrollment	\$995.00
CSN	Data Engineering Program	<p>A program that focuses on the general writing and implementation of generic and customized programs to drive operating systems and that generally prepares individuals to apply the methods and procedures of software design and programming to software installation and maintenance. Includes instruction in software design low- and high-level languages and program writing program customization and linking prototype testing troubleshooting and related aspects of operating systems and networks.</p>	Online	Information Technology	28-weeks	\$5,000.00

CSN	Front End Software Developer	In the Front End Software Development program, students take three courses to learn the skills and technologies necessary to enter the industry as a Front End Software Developer: Introduction to JavaScript, Front End Technologies, and Web App Design with React. Skills and technologies learned include JavaScript, Algorithms, OOP, Design Patterns, Unit Testing, HTML, CSS, JQuery, Bootstrap, AJAX, React, JSX, REST, NPM, AWS, and more.	Online	Information Technology	18-weeks	\$4,200.00
CSN	Python Developer Career Training Program	This self-paced online Python Developer Career Certificate Program provides you the knowledge, practical experience, competency and confidence to qualify for high-paying Python programmer jobs. The program is suitable for anyone seeking to enhance their career or looking for a new career in a high-demand occupation. Python development is a rapidly growing field where the demand for qualified candidates far outstrips the supply. Python is the most popular programming language for applications in data analytics, machine learning, Artificial Intelligence, business and finance. The TIOBE Index ranks Python as the #1 programming language as of September 2022. Big players like Quora, Facebook, YouTube, Dropbox, Pinterest, Reddit, and Netflix have most of their new code written in Python. Average salaries in the United States range from \$82,000 to \$133,000 yearly (source: glassdoor.com). This online program utilizes active, self-paced, Learn-By-Doing training. This innovative approach provides bite-sized lessons, requiring you to show that you have mastered each concept by completing exercises before moving on to the next module. This competency-based approach builds your knowledge as well as your practical experience, both of which are needed to qualify for most Python developer job openings. In addition, this program prepares you for passing the Python Institute's PCEP certification exam. Most trainees complete the training in	Online	Information Technology	Open-Enrollment	\$5,600.00
CSN	Personal Injury Case Management	A program that prepares individuals to perform research drafting investigatory record-keeping and related administrative functions under the supervision of an attorney or court. Includes instruction in legal research drafting legal documents appraising pleading courthouse procedures and legal specializations.	Lecture, Demonstrations	Other	8-weeks	\$6,800.00

CSN	Class A Commercial Driving Program: Automatic Transmission	<p>Ahern ACT's CDL Program will prepare students to complete all of the requirements necessary to successfully obtain a Nevada Commercial Learners Permit (CLP) and master the necessary skills and knowledge required by federal, state, and local municipalities, to safely operate a commercial vehicle and obtain the privilege of possessing a Commercial Driver's License (CDL). Per the Nevada State Commercial Driver License Manual (NV CDL Manual), Section 1: A student must pass the applicable CDL Knowledge Tests which include: General Knowledge Test, Air Brake Test and the Combination Vehicle Test. In addition to the knowledge tests, the student must also pass the Skills Tests which consists of three segments: Vehicle Inspection, Basic Vehicle Control and On-Road Driving. In addition to providing the student with the required knowledge and skills necessary to acquire a CDL, Ahern ACTs Commercial Driving program exceeds the criterion by teaching the students the practical skills that are safe, essential, and efficient to daily Commercial Motor Vehicle operation, which include: Map Reading and Trip Planning, Calculating Axle Weights Per Bridge Formula, Tandem Axle and 5th Wheel Sliding, Calculating Fuel Cost, Fuel Weight, and Fuel Economy, Ahern ACT's Commercial Driving Program meets the FMCSA's Entry-level driver training (ELDT) requirement and can be found on the FMCSA's Training Provider Registry. The ELDT</p>	Lecture, Demonstrations, Hands on	Transportation & Logistics	5-weeks	\$7,655.00
-----	--	--	-----------------------------------	----------------------------	---------	------------

CSN	Class A Commercial Driving Program: Manual Upgrade	<p>Ahern ACT's CDL Manual Program Upgrade is intended for a student who has completed the Class A Commercial Driving Program in Automatic and/or a student who wishes to remove the automatic restriction. This program will prepare students to take the On-Road Driving test in a manual truck. In addition to providing the student with the required knowledge and skills necessary to acquire a CDL, Ahern ACT's Commercial Driving program exceeds the criterion by teaching the students the practical skills that are safe, essential, and efficient to daily Commercial Motor Vehicle operation, which include: Map Reading and Trip Planning, Calculating Axle Weights Per Bridge Formula, Tandem Axle and 5th Wheel Sliding, Calculating Fuel Cost, Fuel Weight, and Fuel Economy. Ahern ACT's Commercial Driving Program meets the FMCSA's Entry-level driver training (ELDT) requirement and can be found on the FMCSA's Training Provider Registry. The ELDT regulations are intended to enhance the safety of commercial motor vehicle (CMV) operations by establishing more uniform requirements for both behind-the-wheel (BTW) and theory training after obtaining a Commercial Learner's Permit.</p>	Lecture, Demonstrations, Hands on	Transportation & Logistics	1-week	\$1,000.00
-----	--	---	-----------------------------------	----------------------------	--------	------------

CSN	Class A Full Time Skills Commercial Driving Program: Automatic Transmission	Aherns CDL Skills Training is for students who already have a Nevada Commercial Learners Permit (CLP). The training will aid in mastering the necessary skills and knowledge required by federal, state, and local municipalities, to safely operate a commercial vehicle and obtain the privilege of possessing a Commercial Driver's License (CDL). Per the Nevada State Commercial Driver License Manual (NV CDL Manual), Section 1: A student must pass the applicable CDL Knowledge Tests which include: General Knowledge Test, Air Brake Test and the Combination Vehicle Test. In addition to the knowledge tests, the student must also pass the Skills Tests which consists of three segments: Vehicle Inspection, Basic Vehicle Control and On-Road Driving. CSN	OSHA 10/Forklift Training	This training program is designed to provide safety training to the OSHA 10 General Industry standards combined with a Sit-Down Counterbalance Powered Industrial Truck (forklift) training. This should prepare students for entry level jobs in a warehouse/logistics facility.	Academic and lab courses are held on campus with practical driving experience on an immersive simulator as well as a Sit-Down Counterbalance Powered Industrial Truck (forklift) in a realist outdoor course.	Transportation & Logistics		

GBC	Advertising and Outreach Specialist	Nearly every business uses some form of advertising to promote their products or services. Even in today's digital marketing arena, advertising professionals play a vital role in driving product awareness. This course will teach you how to create advertisements for print and digital media. Being successful in advertising requires more than just creative thinking, it requires research and project management skills. You will learn how to analyze consumer motives, research markets, and use this data to plan and create advertisements.	Online	Business	6 months	\$1,295.00
GBC	Business Operations Specialist	Regardless of company size, operational management drives business success. This practical online course will teach you the fundamentals of business management and operational planning. You will gain essential skills and strategies that you can put into action at your workplace, such as risk management, scheduling, and control.	Online	Business	6 months	\$1,895.00
GBC	Career Counselor	The average worker switches jobs more than 10 times in their career. With career pathways becoming more varied, good career advice is in demand. Career counselors help others develop their career with smart goals and clear directions. If you love to help others, career coaching can be a great profession.	Online	Business	6 months	\$1,295.00
GBC	Certified Digital Marketing Professional	A digital marketing professional is a 360-degree digital marketer with a solid foundation and working knowledge of all digital marketing domains. The primary objectives of a digital marketing specialist are to increase brand awareness, promote products, build traffic on the branded website, acquire new customers, generate product interest among prospects and create high product visibility among distinct audiences.	Online	Business	9 months	\$1,995.00
GBC	Procurement & Purchasing Management	The Procurement and Purchasing Management course will introduce you to the basics of the supply chain process, management, purchasing, and contracting issues to provide you with the skills you need for a successful career. It is designed for anyone working in or interested in working in purchasing, logistics, or procurement.	Online	Business	6 months	\$2,295.00

GBC	Clinical Dental Assistant	This online dental assisting course is the most comprehensive you will find. You will learn about every aspect of professional dental assisting, including invaluable real-world perspectives from experienced dental assistants and essential information about anatomy and physiology, preventive dentistry, patient care, and communication, radiology, pharmacology, anesthesia, assisting in specialty practices, employment strategies, and much more.	Online	Healthcare	12 months	\$2,995.00
GBC	Pharmacy Technician	In this course, you'll gain the skills and knowledge to qualify for entry-level positions in pharmacies and be prepared for national certification. Upon completion of this course, you will be prepared to sit for the Pharmacy Technician Certification Exam (PTCE), offered by the Pharmacy Technician Certification Board (PTCB).	Online	Healthcare	12 months	\$2,495.00
GBC	Physical Therapy Aide	There's a growing need for physical therapy aides. In fact, PT aide jobs will grow over 29 percent through 2029. This online course will help you master the skills you need to work as a physical therapy aide. Not only will you be prepared for the AMCA's Physical Therapy Technician/Aide certification exam, but an externship starter kit will also walk you through everything you need to know to land a PT aide externship.	Online	Healthcare	9 months	\$2,145.00
GBC	Veterinary Assistant	This intensive course will provide the information you need to become a productive member of a veterinary team. The course is designed for people who want to work as veterinary assistants at veterinary hospitals and for those already employed in related positions. Upon completion of the course, you will also have the opportunity to gain access to an Externship Starter Kit.	Online	Healthcare	6 months	\$2,145.00

GBC	Catering Professional	The Catering Professional provides the foundational skills needed for a career in the catering and events industry by teaching the elements of catering services, including overseeing events and functions and collaborating with other catering services. You will gain the ability to plan for successful food preparation and apply beverage management requirements. This course will also demonstrate best practices for marketing a catering business, considerations for preparing and executing contracts, effectively manage human resources, and applying basic accounting principles. It will also prepare you for the Certified Professional in Catering and Events (CPCE).	Online	Hospitality, Tourism, Sports, & Creative Industries	6 months	\$1,295.00
GBC	Event Management and Design	This program will equip you with the knowledge to build a foundation that you can use to build a career in special events or start your own special event business. Corporate events, weddings, parades, festivals, and more are covered. You'll learn about the practicalities of planning events and the dazzle of designing them. From permits to pyrotechnics, this course will teach you how to design, plan, implement, and evaluate special events.	Online	Hospitality, Tourism, Sports, & Creative Industries	6 months	\$1,995.00
GBC	Data Analytics	Data analytics is a rapidly growing field where the demand for qualified candidates far outstrips the supply. Get ready to leverage data to deliver meaningful results. When you get done with your training, you will be able to do it all; from cleaning data to presenting it in visual form, performing qualitative and quantitative analysis of data, interpreting data, and making predictions. This program features self-paced learn-by-doing training and verified learning assessment.	Online	Information Technology	12 months	\$5,600.00
GBC	Python Developer	Complete this program and get ready to enter the workforce as a fully qualified Python software developer. Python software developers are in very high demand and salaries are commensurate. Python is a powerful and modern high-level programming language used for data analysis, machine learning, business, finance, engineering, and more.	Online	Information Technology	12 months	\$5,600.00

GBC	Home Inspection Certificate	The Home Inspection Certificate Course covers the principal components, procedures, and processes of home inspection. This course has also been approved by the American Society of Home Inspectors (ASHI) and various home inspector organizations and regulatory boards.	Online	Other	12 months	\$2,495.00
GBC	Plumbing Foundations	There is a shortage of skilled plumbers. With an aging infrastructure and dwindling trade workforce, the demand for plumbers has never been greater. In fact, the Bureau of Labor Statistics predicts that plumbing jobs will increase at a faster than normal rate over the next 10 years. With the right training, you could enter and build a scalable career in this high-demand field. If you want to work as a plumber, this self-paced course will teach you the fundamental, job-ready skills relevant to the plumbing and piping industry.	Online	Other	12 months	\$2,245.00

Currently, the industry is experiencing a severe shortage of court reporters with a need for an additional 10,000 nationwide. This well-established shortage presents a substantial opportunity for those seeking a rewarding career with a secure future. Digital reporters can work in the freelance market for a court reporting agency or work as a full-time government employee at a courthouse.	Online	Other	6 months	\$795.00

GBC	Digital Court Reporting with Legal Transcription	Court reporting is one of the fastest-growing career areas in the legal system. This 100% online course will prepare you to enter the court reporting field as a digital court reporter and a legal transcriber. You will be fully prepared to pass the Certified Electronic Reporter (CER) and Certified Electronic Transcriber (CET) exams offered by the American Association of Electronic Reporters and Transcribers (AAERT). The AAERT's nationally recognized certifications are leading credentials required by various court systems and agencies.	Online	Other	6 months	\$1,595.00
GBC	Professional Interpreter	With this solid foundation, the course prepares you for the real world by providing you with practical information to help you gain employment confidently as a public services interpreter.	Online	Other	6 months	\$995.00
GBC	Commercial Driver's License (CDL) Class A Training	This course is designed to help students obtain their Class A Commercial Driver's License. A combination of lecture, discussion, demonstration and video presentations will be used in the classroom. Topics include state and federal regulations, and pre-trip safety check. Hands-on operation of the tractor trailer includes skills practice, highway and city driving.	In-Person	Transportation & Logistics	6 weeks	\$5,395.00
GBC	Freight Broker/Agent Training	Become part of the exciting trucking, freight logistics, and transportation industries as a licensed freight broker or as a freight broker agent. Freight broker training will help you learn the skills you need to be a successful Freight Broker/Agent. From licensing and operations to sales and marketing, you'll learn the basics of how to run a domestic freight brokerage or agency in the United States.	Online	Transportation & Logistics	6 months	\$1,895.00

NSU	Nevada State Leadership Academy (NSLA Program)	The Nevada State Leadership Academy (NSLA) is composed of two microcredential programs: the Supervisor Bootcamp, which consists of two stackable microcredentials, and the Leadership Academy, which is comprised of six stackable microcredentials (the individual courses leading to these microcredentials are described in rows 4-10 of this spreadsheet). Both programs utilize an employer-driven model of curriculum development and allow participants to add several specialty leadership areas to tailor the experience to their particular needs and interests. NSLA offers participants immediate recognition for skills learned along the path to their greater goals. Microcredentials provide competency-based recognition that allows a student to demonstrate mastery of a specific skill in a short-course format. Nevada State microcredentials are grounded in research and best practice and designed to be personalized, flexible, and performance-based. The pricing and program length information provided in this row is for the Leadership Academy in its entirety.	In-Person	Business	5 Months, 60 hours	\$4,200
NSU	Supervisor Bootcamp (NSLA Program)	The Supervisor Bootcamp consists of 2 stackable microcredentials, requiring 20 contact hours each. The second and final microcredential, Fundamentals of Leadership, is shared with the Leadership Academy, allowing for a seamless transition. The modules for this program are delivered in a HyFlex format, allowing learners to participate in-person or remotely.	In-Person	Business	2 Weeks, 10 hours	\$1,400
NSU	Essentials Skills for Supervisors (this course is a component of the Supervisor Bootcamp)	This course is designed to empower and equip current/aspiring supervisors with the fundamental skills and knowledge required to excel in their leadership roles. This comprehensive curriculum focuses on developing the practical skills, strategic thinking, and interpersonal expertise required to lead teams, drive productivity, and achieve organizational goals.	In-Person	Business	1 Week, 16 hours	\$1,000

NSU	Fundamentals of Leadership (this course is a component of both the Supervisor Bootcamp and the Leadership Academy)	This course provides an essential journey for individuals seeking to develop and enhance their comprehensive understanding of the core principles, skills, and qualities that are essential for effective leadership in various contexts. Whether a seasoned professional looking to enhance their leadership abilities, an aspiring leader eager to develop a strong foundation, or anyone keen on promoting positive change, this course offers a dynamic learning experience.	In-Person	Business	1 Week, 10 hours	\$600
NSU	Leading with Emotional IQ (Leadership Academy course)	This course goes beyond just strategic decision-making and technical expertise. Supervisors will be empowered to navigate complex relationships, inspire teams, and drive organizational success through the power of emotional intelligence for effective leadership.	In-Person	Business	1 Week, 10 hours	\$600
NSU	Leading DEI (Leadership Academy course)	This course will explore strategies to foster an inclusive organizational culture, champion diversity, and promote equity. The curriculum will provide a transformative learning experience that offers insight into the skills needed to lead diverse teams effectively, navigate complex challenges, create an environment where every voice is valued, and drive meaningful change through DEI initiatives.	In-Person	Business	1 Week, 10 hours	\$600
NSU	Leading High-Performance Teams (Leadership Academy course)	This course will help encourage skill development to create a dynamic and motivated team that consistently achieves excellence. Through an engaging learning experience, individuals will be equipped with the knowledge, techniques, and strategies to foster collaboration, enhance communication, delegate effectively, and nurture individual growth.	In-Person	Business	1 Week, 10 hours	\$600
NSU	Leading through Conflict (Leadership Academy course)	This course explores effective strategies to navigate and transform conflicts into opportunities for growth and innovation. The ability to navigate any dynamic organization through the use of communication, negotiation, and conflict resolution will equip leaders to manage conflicts and leverage them as catalysts for a harmonious and productive work environment.	In-Person	Business	1 Week, 10 hours	\$600

NSU	Leading Change (Leadership Academy course)	This course will impart leadership proficiencies needed to guide organizations and teams through successful transitions, from strategy shifts to technological advancements. Individuals will discover effective change management strategies, communication techniques, and tools to navigate uncertainty while leading change and driving sustainable progress.	In-Person	Business	1 Week, 10 hours	\$600
NSU	Nevada State Cybersecurity (NSCS Program)	Nevada State Cybersecurity (NSCS) supports the growth of a diverse community of adult learners through innovative, engaging experiences, and professional certifications that promote the acquisition of interdisciplinary knowledge and skills to enhance academic, personal, professional, and career success while meeting the needs of tomorrow's information technology workforce. Nevada State Cybersecurity offers a holistic educational approach through workforce development, student success, and community support to prepare workers for industry-recognized IT certification tests. Participants of this program will demonstrate content mastery by earning competency-based Nevada State College-verified digital badges that can be added to a digital resume or portfolio and will receive recognition through certificates that demonstrate their training for each completed section of the program. NSCS extends fundamental technical knowledge to populations historically underrepresented within IT driven disciplines and encourages individuals to confidently and successfully navigate their path to information technology (IT) careers. The pricing and program length information provided in this row is for the full cybersecurity program.	Hybrid	Information Technology	24 to 45 weeks	\$9,600
NSU	Desktop Fundamentals & Support (NSCS Course)	This course provides comprehensive training designed to equip individuals with essential skills and knowledge in the field of IT, including operating systems, hardware and software, security protocols, and basic networking. This course will cover fundamental concepts of computer systems, hardware components, software installation, troubleshooting, and network connectivity. Students will partake in hands-on labs, practical exercises, and real-world scenarios to gain the expertise required of an entry-level computer service technician.	Hybrid	Information Technology	8 to 15 weeks	\$3,200

NSU	Network Fundamentals (NSCS Course)	This course provides a solid foundation in networking principles to equip individuals with the essential knowledge and skills to excel in IT roles involving network setup, configuration, management, and troubleshooting. This course covers both wired and wireless network technologies and provides knowledge of topics such as network protocols, security, topologies, and subnetting. Students will gain proficiency in practical networking tasks, including device configuration, troubleshooting network issues, and ensuring network reliability through hands-on learning.	Hybrid	Information Technology	8 to 15 weeks	\$3,200
NSU	Introduction to Cybersecurity (NSCS Course)	This course is designed to equip individuals with the skills and knowledge required to excel in the field of cybersecurity through an examination of essential topics such as network security, threats and vulnerabilities, access control, cryptography, identity management, risk management, and security compliance. Students will gain a deep understanding of cybersecurity principles and practices through hands-on experiences that will prepare them for success in a wide range of cybersecurity career opportunities.	Hybrid	Information Technology	8 to 15 weeks	\$3,200

Learn about new legislation, the nine hazard classes and waste classifications, hazardous waste chemistry, the hazards of Lab Packs, the limitations of personal protective equipment and more. If you have a current medical clearance and your own air purifying respirator, take the opportunity to receive your annual fit testing for no additional fee. You must provide a copy of your current certification to attend.	In Person	Other	8 hours	\$ 225.00
TMCC	Annual Fireline Safety Refresher Training	Annual Fireline Refresher Training is designed to provide up to date fireline safety information to employees holding Incident Command System qualifications requiring this training per the PMS 310-1, Wildland Fire Qualification System Guide. It will contain four components: Entrapment Avoidance; Current Issues; Fire Shelter Training; and other hazards and Safety Issues. This course meets all requirements as identified in the Interagency Standards for Fire and Fire Aviation Operations (Red Book), Chapter 13. This course will NOT include the Work Capacity (Pack) Test.	Online	Other	9 hours	\$ 125.00

TMCC	Basic Wildland (Firefighter 2)	This course was developed using a blended approach to learning. The course addresses the foundational skills universal to all wildland firefighters. The material is divided into 12 online modules (1 to 3 hours each) and a mandatory, instructor-led field exercise. Each online module explains the concepts and skills that will be performed and evaluated on the field exercise. Module 12 contains optional knowledge areas (pump operations, map, and compass, fire investigation, and cultural resources) that are very useful concepts but not required due to time constraints. To succeed in the field exercise, students must understand the concepts taught in modules 1 through 11 as documented by module certificates of completion. Both students and instructors can find an overview of the field exercise in module 13. This module informs instructors on how to set up the exercise, lists materials needed, and provides evaluation checklists. It also provides students an idea of what to expect and what they will be evaluated on. There is a challenge review at the end of each module. If you successfully complete the challenge review, you will be able to print a module certificate of completion. Before you begin the challenge review, you MUST be connected to an active printer! The Instructor will be contacting students once they are enrolled.	Hybrid	Other	30 hours	\$ 425.00
TMCC	Behave+ Behave Plus	The BehavePlus fire modeling system is a Windows® based computer program that can be used for any fire management application that involves modeling fire behavior and fire effects. The system is composed of a collection of mathematical models that describe fire behavior, fire effects, and the fire environment. The program simulates rate of fire spread, spotting distance, scorch height, tree mortality, fuel moisture, wind adjustment factor, and many other fire behaviors and effects; so it is commonly used to predict fire behavior in several situations.	Online Synchronous	Other	9 hours	\$ 225.00
TMCC	Crew Boss	This is a classroom course designed to produce student proficiency in the performance of duties associated with the single resource boss position from initial dispatch through demobilization to the home unit.	In Person	Other	9 hours	\$ 300.00

TMCC	Division/Group Supervisor	This course prepares students to perform in the role of division/group supervisor. It provides instruction in support of the specific tasks of the division/group supervisor, but will not instruct students in general management/supervision or in the incident command system (ICS), both of which the student should learn through prerequisite work.	In Person	Other	27 hours	\$ 300.00
TMCC	Engine Boss	This is a skill course designed to produce student proficiency in the performance of the duties associated with Engine Boss, Single Resource (ENGB). Topics include engine and crew capabilities and limitations, information sources, fire size-up considerations, tactics, and wildland urban interface.	In Person	Other	9 hours	\$ 250.00
TMCC	Extended Attack Incident Commander	This course is designed to meet the training needs of the incident commander type 3 (ICT3). The focus is on the lessons of leadership and command as they relate to the ICT3 position. It is presented in participative lecture format with multiple tactical decision games for students to practice new knowledge. The seven instructional units cover Foundation Skills, Situational Awareness, Command and Control, Managing the Incident, Transitional Activities, Post-Fire Activities and a Final Simulation. There is also an optional Staff Ride Activity (Unit 8) if instructors choose to include it.	In Person	Other	18 hours	\$ 275.00
TMCC	Facilitative Instructor	This training course is designed to help students become effective facilitative instructors. The purpose of this course is to improve training delivery and quality by presenting instructional methods with an emphasis on student-oriented adult training techniques. This course is designed for students to meet NWCG instructor requirements.	In Person	Other	45 hours	\$ 450.00
TMCC	Facilities Unit Leader	This course prepares students to perform the job of Facilities Unit Leader (FACL). The instructional methods of the course include lecture with PowerPoint presentations, classroom exercises, and discussions. The lessons provide an introduction to operational leadership, mobilization, arrival at an incident, risk management, safety and tactics, demobilization, and post-incident responsibilities.	Online	Other	27 hours	\$ 375.00

TMCC	Field Observer	This course provides students with the skills necessary to perform as a field observer (FOBS) and/or a fire effects monitor (FEMO). Topics include roles and responsibilities of the FOBS and FEMO; how to make observations and document those observations; how to produce hand drawn and GPS field maps; and how to navigate using a compass and GPS.	In Person	Other	27 hours	\$ 300.00
TMCC	Fire Operations in the Wildland/Urban Interface	This is an instructor-led course intended to be presented at the local level. Instructional units include firefighter safety in the interface, managing human factors in the interface, pre-incident planning, sizeup and initial strategy, structure triage, structure protection overview, tactics in the interface, tactical operations and resource use in the interface, action assessment, plan update, and after action review.	In Person	Other	18 hours	\$ 300.00
TMCC	Firing Operations	This course introduces the roles and responsibilities of a firing boss (FIRB), common firing devices, and general firing operations and techniques. Although comprehensive in nature, the coursework is not a substitute for the dynamic fire environment. The course provides students with important information concerning general tasks required to be successful.	In Person	Other	18 hours	\$ 275.00
TMCC	Forklift Train-the-Trainer	Learn how to train your employees in the safe operation of forklifts such as sit-down, stand-up, rider pallet jack, reach trucks, order pickers and more. Receive a model program, handouts and training outlines.	In Person	Other	8 hours	\$ 225.00
TMCC	Ground Support Unit Leader	This course is designed to prepare students to perform the duties of managing the transportation plan, maintenance and related services at an incident. Topics include gathering information about the assignment; organizing, staffing, and laying out the unit; field inspection of equipment; operation and coordination of the unit with other units, and demobilization.	Online	Other	27 hours	\$ 225.00
TMCC	Heavy Equipment Boss	This is a skill course is designed to meet the training needs of a Heavy Equipment Boss on an incident as outlined the PMS 310-1 and the Position Task Book developed for the position. Primary considerations are tactical use and safety precautions required to establish and maintain an effective dozer operation. A field exercise is required as part of the course.	In Person	Other	27 hours	\$ 275.00

TMCC	Incident Training Specialist	The course is designed to meet the training needs of the incident training specialist (TNSP) on an incident as outlined in the PMS 310-1, Wildland Fire Qualification System Guide and the position task book developed for the position. The instructional methods of the course include lecture with PowerPoint presentations, classroom exercises, and discussions. The lessons include roles and responsibilities, initiating the incident training program, individual training plans, and incident training activities. Reference material is provided to assist students in the classroom and on the job.	Online	Other	18 hours	\$ 275.00
TMCC	Initial Attack Incident Commander	This course is designed to meet the training needs of the incident commander type 4 (ICT4). It is presented in a discussion/exercise format. The six instructional units include Foundation Skills; Intelligence Gathering and Documentation; Size Up the Incident; Develop a Plan of Action; Post-fire Activities; Evaluating Incident Objectives and Manage the Incident. Evaluation of the student is by unit tests and performance based evaluations.	In Person	Other	18 hours	\$ 275.00
TMCC	Intermediate Fire Behavior	This is a classroom-based skills course designed to prepare the prospective fireline supervisor to undertake safe and effective fire management operations. It is the second course in a series that collectively serves to develop fire behavior prediction knowledge and skills. Fire environment differences are discussed as necessary; instructor should stress local conditions.	In Person	Other	36 hours	\$ 325.00
TMCC	Introduction to Criminal Law	Gain an inside look at criminal law from a former major-felony prosecutor who has appeared on Court TV. This course gives a behind the scenes look at criminal law by examining the world of prosecutors, defense attorneys, and the paralegals who work closely with them.	Online	Other	24 hours	\$ 115.00

TMCC	Introduction To Fire Effects	This course is designed to provide students with the knowledge and skills necessary to recognize and communicate the relationships between basic fire regimes and fire effects, the effects of fire treatments on fire effects, and to manipulate fire treatments to achieve desired fire effects. In an effort to maintain the currency and relevancy of the course materials for RX-310, Introduction to Fire Effects the instructional design has been modified to allow instructors to develop materials based on current information, changing technologies, and the needs of the students.	In Person	Other	36 hours	\$ 375.00
TMCC	Introduction to Wildland Fire Behavior Calculations	This course is designed to introduce fire behavior calculations by manual methods, using nomograms and the Fireline Handbook Appendix B: Fire Behavior, PMS 410-2. Students gain an understanding of the determinants of fire behavior through studying inputs (weather, slope, fuels, and fuel moisture). Students also learn how to interpret fire behavior outputs, documentation processes, and fire behavior briefing components.	In Person	Other	16 hours	\$ 350.00
TMCC	Lead Training for Renovators, Repair and Painters	This EPA approved course prepares contractors to conduct activities that have the potential to disturb and expose persons to lead. Learn the hazards of lead based paints, regulations, dust containment, safe work practices, cleanup activities, and inspection for work in the remodeling, repair or painting industries. Contractors must have this training prior to April 22, 2010, in order to apply for EPA certification to perform work in any residence constructed prior to 1978, or pre 1978 child occupied facilities that have not been certified as lead free by an EPA certified lead inspector. This course is only approved for purposes of certification under Section 402 of TSCA.	In Person	Other	9.5 hours	\$ 225.00
TMCC	Prescribed Fire Burn Plan Preparation	The purpose of RX-341 is to provide students with the skills/knowledge to prepare a prescribed fire plan for technical review and approval in accordance with Interagency Prescribed Fire Planning and Implementation Procedures Reference Guide.	In Person	Other	27 hours	\$ 375.00

TMCC	Prescribed Fire Implementation	This course is designed to introduce students to the tools and techniques used to perform in the role of a prescribed fire burn boss. The course material is based on the tasks found in the position task book for prescribed fire burn boss. It leads the student through the duties and responsibilities associated with the position of the prescribed fire burn boss including evaluation and implementation of a prescribed fire plan.	In Person	Other	18 hours	\$ 300.00
TMCC	Residential Electrician	From updating existing buildings to building construction, demand for electricians is on the rise. This course will train you for an entry-level career as an electrician by teaching you the fundamental skills you need to succeed, such as electrical theory, wiring and installation, customer service best practices, the National Electrical Code®, and much more.	Online	Other	144 hours	\$ 2,595.00
TMCC	Safety Officer	This course is designed to meet the training needs of a Safety Officer Type 1 (SOF1), Safety Officer Type 2 (SOF2), and Line Safety Officer (SOFR) on an incident as outlined in the Wildland Fire Qualification System Guide (PMS 310-1) and the position task book developed for the position.	In Person	Other	36 hours	\$ 350.00
TMCC	Single Engine Air Tanker Manager	This course was developed using a blended approach to learning, meaning that it contains a mix of online and instructor-led training (ILT). This course is designed to meet the training needs of a Single Engine Air Tanker Manager (SEMG) as outlined in the Wildland Fire Qualification System Guide (PMS 310-1) and the position task book developed for the position.	In Person	Other	36 hours	\$ 375.00

TMCC	Smoke Management Techniques	This course leads students through the ecological and historical role of fire, characteristics of smoke and the health, safety and visibility impacts of smoke. Other topics include public relations, legal requirements, meteorology, fuel consumption, smoke production dispersion modeling, and operational smoke management strategies. This course is designed to be interactive in nature. It contains a panel discussion, several exercises designed to facilitate group and class participation and case studies from a variety of fuel types and political challenges. The pre-course work assignment is designed to familiarize students with the Smoke Management Guide and air quality regulations that impact prescribed fire programs.	In Person	Other	36 hours	\$ 375.00
TMCC	Status/Check-In Recorder	This course is designed to introduce students to the tools and techniques used to perform the duties of a status check-in recorder (SCKN). The course provides an overview of what a student can expect if dispatched to an incident.	In Person	Other	18 hours	\$ 250.00
TMCC	Task Force/Strike Team Leader	This course is designed to prepare the student to perform in the role of task force leader (TFLD) or any strike team leader. Examples and exercises in this course package are specific to wildland fire suppression.	In Person	Other	27 hours	\$ 375.00
TMCC	Teacher's Aide with ParaPro Prep	Schools need paraprofessionals! This course will prepare you for the ETS ParaPro Assessment exam, so you can work as a teacher's aide. You'll learn how these paraprofessional educators assist with classroom instruction and build a foundation in educational principles like classroom management. Most importantly, you'll develop strategies to support students of different learning abilities in reading, writing, and math.	Online	Other	130 hours	\$ 1,695.00
TMCC	Travel Agent Training	Together, travel and tourism make up one of the world's largest industries. While independent travel booking is on the rise, travel agents continue to play a vital role in luxury, corporate, and group travel. As the industry continues to expand, now is the perfect opportunity to become a skilled travel agent.	Online	Other	100 hours	\$ 2,249.00

TMCC	Wildland Fire Chain Saws	This is an instructor-led course intended to be presented at the local level. The course lessons provide an introduction to the function, maintenance and use of internal combustion engine-powered chain saws, and their tactical wildland fire application. Field exercises support entry-level training for firefighters with little or no previous experience in operating a chainsaw, providing hands-on cutting experience in surroundings similar to fireline situations.	In Person	Other	27 hours	\$ 325.00
TMCC	Wildland Firefighter (Type 1)	S-131: Is an eight-hour course designed to meet the training needs of the Firefighter Type 1 (FFT1). This course is designed to be interactive in nature. It contains several tactical decision games designed to facilitate learning the objectives and class discussion. Topics include fireline reference materials, communications, and tactical decision-making. S-133: This course is designed to train Incident Commander Type 5 (ICT5) and Firefighter Type 1 (FFT1) to identify environmental factors and indicators of hazardous fire conditions, and how to use these indicators when implementing the Risk Management Process. The course is CD-based classroom course, based on facilitated exercises.	In Person	Other	18 hours	\$ 250.00
TMCC	1-G Inspectors License Training	This course is a basic training workshop for the person that would like to become a Nevada State Emission 1-G Inspector. All state rules and state regulations that pertain to the state emission test program will be covered by the Nevada DMV Emission Lab.	In Person	Transportation & Logistics	24 hours	\$ 240.00
TMCC	2-G Inspector License Training	This is an advanced course for the automotive technician that is preparing for the Nevada State 2-G Emission Inspectors License. This course will cover theory and hands on work that will be needed to upgrade the technician's knowledge of engine performance that can cause the vehicle to fail an emission inspection. All information and training will align with information to pass the Nevada State 2-G emission test.	In Person	Transportation & Logistics	45 hours	\$ 330.00
TMCC	2-G Inspectors Recertification Training	This is advanced training for the 2-G inspector to recertify for the Nevada State inspector license. Advanced training will include ignition systems, fuel controls and emission control systems. After training you will be allowed to take the state recertification test. You must pass with an 80% or better.	In Person	Transportation & Logistics	18 hours	\$ 240.00

TMCC	40 Hour Hazardous Waste Operations and Emergency Response	Take this course to comply with OSHA's 29 CFR 1910.120 standard. Do not miss this class if your job involves working with, transporting or handling hazardous waste. Learn about rules and regulations, personal protective equipment, onsite and offsite characterizations, the dangers and legal ramifications of mishandling waste, drum opening and sampling protocols, and more. Find out about OSHA, EPA and DOT regulatory requirements. Upon successful completion, earn 3.5 CEUs upon request.	In Person	Transportation & Logistics	42.5 hours	\$ 525.00
TMCC	Basic Air Operations	This course covers aircraft types and capabilities, aviation management and safety for flying in and working with agency aircraft, tactical and logistical uses of aircraft, and requirements for helicopter take-off and landing areas. Note: The regulations, procedures and policies addressed in this course are primarily those governing federal agency and ICS operations. State, county, or other political subdivisions using this course will need to consult their agency having jurisdiction with respect to regulations, procedures and policies.	Online Synchronous	Transportation & Logistics	18 hours	\$ 275.00
TMCC	Helicopter Crewmember	This is a combined classroom/field course designed to provide student proficiency in all areas of the tactical and logistical use of helicopters to achieve efficiency and standardization. Topics include aviation safety, aircraft capabilities and limitations, aviation life support equipment, aviation mishap reporting, pre-flight checklist and briefing/debriefing, aviation transportation of hazardous materials, crash survival, helicopter operations, helicopter field exercise. The following Interagency Aviation Training (IAT) A-courses curriculums are integrated and may be credited upon completion of this course: A-105 Aviation Life Support Equipment (ALSE), A-113 Crash Survival, and A-219 Helicopter Transport of External Cargo.	In Person	Transportation & Logistics	27 hours	\$ 325.00

TMCC	Helicopter Management	This course prepares students to perform the job of the helicopter manager. Unit lectures supported by PowerPoint slides and graphics are designed to facilitate class discussion and group exercises. The final exercise gives students a realistic helicopter manager experience; in addition to answering test questions, the student completes the necessary forms required by the position.	In Person	Transportation & Logistics	36 hours	\$ 425.00
UNLV	Advanced Project Management Certificate	The program combines in-class, online, and virtual training that provide in-depth instruction on PMP or CAPM exam preparation.	Hybrid	Business	4-6 months	\$3,925
UNLV	Business Administration Certificate	The program is designed to introduce the concepts, tools, and techniques to boost productivity, confidence, and effectiveness when managing yourself, others, and a business.	In-Person, Online	Business	6 weeks	\$2,100

WNC	(ISC) <sup>2</sup> CCSP Training Boot Camp	The (ISC) <sup>2</sup> CCSP® Training Boot Camp is a comprehensive program designed to build your skills around securing cloud-based environments. You will learn about cloud architecture and design requirements, operational and compliance issues, and the security of cloud data, applications, and infrastructure.	Online	Information Technology	5 days	\$3,999.00
WNC	(ISC) <sup>2</sup> CISSP Training Boot Camp	Earning your CISSP certification requires a broad range of cybersecurity skills, from developing security policies to managing risk to understanding technical security controls. Infosec's industry-leading approach to CISSP training provides the tools you need to master this knowledge, including becoming an information systems pro.	Online	Information Technology	6 days	\$4,299.00

WNC	(ISC)2 Governance, Risk and Compliance Certification Training Boot Camp	The (ISC) <sup>2</sup> Certified in Governance, Risk, and Compliance (CGRC™), previously known as Certified Authorization Professional (CAP®), teaches you the best practices, policies, and procedures used to authorize and maintain information systems. You will learn how to use the Risk Management Framework (RMF) to support your organization's operations while complying with legal and regulatory requirements.	Online	Information Technology	3 days	\$3,999.00
WNC	Adobe Certified Professional	There is a strong demand for Adobe Creative Suite skills. In this Adobe Certified Professional course, you will learn five of the most often used Adobe programs: Dreamweaver, Illustrator, Photoshop, InDesign, and Animate (formerly Flash). You will also read short lessons, complete exercises, watch video demos and reviews of exercises, take quizzes and exams, and complete a project.	Online	Information Technology	12 months, 220 hours	\$2,795.00
WNC	Adobe Certified Professional in Video Design	Are you interested in Video Design? Does the power to influence using video content appeal to you? If so, then this course is for you! Video content is used almost everywhere. Successful video editors know how to use their technical skills with precision to tell a story. If you want to become a master storyteller, achieving the Adobe Certified Professional in Video Design credential will help you. Earn the necessary certifications in Premiere Pro and Photoshop Adobe Certified Associate to show you have the editing skills to turn clips into a cinematic original.	Online	Information Technology	6 months, 105 hours	\$1,495.00
WNC	Adobe Certified Professional in Visual Design	Are you interested in Graphic Design? Does visually appealing media catch your attention? If you are ready to take your art to the digital realm, this course is for you. Design skills using Adobe programs are in demand, and this course teaches the three programs focused on visual design. You will build your skills in Illustrator, InDesign, and Photoshop.	Online	Information Technology	6 months, 150 hours	\$1,895.00

WNC	AI Machine Learning Boot Camp	The AI Machine Learning Boot Camp is a comprehensive six-month program that correlates directly to the AI and ML industry, a hot topic for the past couple of years. There is also a high demand for AI/ML certified and trained professionals within the industry, as revenue generated by AI/ML products is estimated to reach \$156.5 billion worldwide. In addition, the U.S. average salary range is \$90,000 - \$185,000, depending upon experience—making this profession lucrative and fulfilling.	Online	Information Technology	6 months, 301 hours	\$4,275.00
WNC	Certified Java Developer	It covers the main Java syntax elements needed to understand for those who wish to become a Java developer. In addition to covering the fundamental library classes necessary for any Java program, the course also covers several other important APIs, including Collections and Streams.	Online	Information Technology	6 months, 140 hours	\$1,595.00
WNC	Certified Kubernetes Administrator	The Certified Kubernetes Administrator (CKA) course will teach you how to use the container management platform used by companies like Google to manage their application infrastructure. You will learn how to install and configure a production-grade Kubernetes cluster, from network configuration to upgrades to making deployments available via services. The course also distills key principles, such as Pods, Deployments, ReplicaSets, and services, and will give you enough information to start using Kubernetes on your own and obtain your Kubernetes certification.	Online	Information Technology	6 months, 130 hours	\$1,995.00
WNC	Certified Network Defender	The course is ideal for network administrators looking to attain Defense-in-Depth network security preparedness. As a vendor-neutral certification training program, you will work through skills-based, lab-intensive modules based on a job-task analysis and cybersecurity education framework presented by the National Initiative of Cybersecurity Education (NICE). You will also gain skills mapped to global CND responsibilities as well as the Department of Defense (DoD) job roles for system/network administrators.	Online	Information Technology	6 months, 100 hours	\$2,895.00
WNC	Certified Penetration Testing Professional	Learn how to perform an effective penetration test in an enterprise network environment that must be attacked, exploited, evaded, and defended using the EC-Council's Certified Penetration Tester (CPENT) program.	Online	Information Technology	9 months, 200 hours	\$2,995.00

WNC	Cisco CNNP Collaboration: CLCOR & CLICA	The Implementing Cisco Collaboration Core Technologies (CLCOR) course provides you with skills needed to implement and deploy core collaboration and networking technologies, including infrastructure and design, protocols, codecs, and endpoints, Cisco Internetwork Operating System (IOS®) XE gateway and media resources, call control, Quality of Service (QoS), and additional Cisco collaboration applications.	Online	Information Technology	6 months, 80 hours	\$3,995.00
WNC	Cisco CNNP Enterprise: ENCOR & ENARSI	The CCNP Enterprise: ENCOR is the first step to mastering the implementation of core enterprise network technologies. The goal of this online training course is to provide you with the skills needed to install, manage, and administer dual stack architecture, virtualization, network assurance, security, and automation in an enterprise network.	Online	Information Technology	6 months, 130 hours	\$3,995.00
WNC	Cisco CNNP Enterprise: ENCOR & ENSLD	The CCNP Enterprise: ENCOR is the first step to mastering the implementation of core enterprise network technologies. The goal of this online training course is to provide you with the skills needed to install, manage, and administer dual stack architecture, virtualization, network assurance, security, and automation in an enterprise network.	Online	Information Technology	6 months, 105 hours	\$3,995.00
WNC	Cisco CNNP Enterprise: ENCOR & ENWLSI	The CCNP Enterprise: ENCOR is the first step to mastering the implementation of core enterprise network technologies. The goal of this online training course is to provide you with the skills needed to install, manage, and administer dual stack architecture, virtualization, network assurance, security, and automation in an enterprise network.	Online	Information Technology	6 months, 95 hours	\$3,995.00
WNC	Cisco CNNP Security: SCOR & SISE	The CCNP Security: SCOR course provides you with the knowledge to implement and operate core Cisco security technologies. You will learn about common security vulnerabilities, Email Security Appliance (ESA), Web Security Appliance (WSA), Cloud Email Security (CES), mobile device management (MDM), VPN configuration, and more.	Online	Information Technology	6 months, 80 hours	\$3,995.00
WNC	CompTIA CySA+ Training Boot Camp	Learn how to use behavioral analytics to prevent, detect and combat cyber threats! This boot camp provides the most comprehensive approach to earning CompTIA's intermediate-level Cybersecurity Analyst (CySA+) certification.	Online	Information Technology	5 days	\$2,999.00

WNC	CompTIA Network+ Training Boot Camp	In this Boot Camp, you will learn how to configure, troubleshoot, and oversee networks! It provides the most comprehensive approach to earning your CompTIA Network+ certification, one of the most popular certifications an IT professional can attain.	Online	Information Technology	5 days	\$1,895.00
WNC	CompTIA Security+ Training Boot Camp	The CompTIA Security+ Training Boot Camp teaches you information security theory and reinforces that theory with hands-on exercises to help you learn by doing. You will learn how to configure and operate many different technical security controls — and leave prepared to pass your Security+ exam.	Online	Information Technology	5 days	\$2,799.00
WNC	Computer Hacking Forensics Investigator	This course prepares for Computer Hacking Forensics Investigator (CHFI) certification exam. You will master the security discipline of digital forensics from a vendor-neutral perspective.	Online	Information Technology	6 months, 100 hours	\$2,895.00
WNC	Data Analyst	This cornerstone training program is designed for you, if you are determined to become a skilled Data Analyst. It provides you with enough practice and theoretical knowledge to make you job-ready when you graduate. It also teaches you the soft skills employers look for in job applicants. Upon completing the training, you are ready to start a successful new career in Data Analytics.	Online	Information Technology	30 weeks, 400 hours	\$4,998.00
WNC	Data Science and Analytics Boot Camp	The Data Science and Analytics Boot Camp is a job-ready training program that helps you truly master the data science and data analytics field within 28 weeks. This boot camp is designed to be rigorous and packed with challenges covering data science and analytics concepts, theories, and projects to strengthen your capacities in diversified data analytics tools and coding languages. Throughout your training, you will acquire the skills and knowledge to achieve your data analyst certification or data science certification.	Online	Information Technology	7 months, 533 course hours	\$4,275.00
WNC	Ethical Hacking Dual Certification Boot Camp (CEH and PenTest+)	Discover vulnerabilities before the bad guys do! Our most popular information security and hacking training goes in-depth into the techniques used by malicious actors with attention-getting lectures and hands-on labs.	Online	Information Technology	5 days	\$4,599.00
WNC	Full Stack Software Developer	Learn all major elements of modern full-stack development. This 100% online course feature several hands-on projects that will teach you how to design and build a fully functioning website.	Online	Information Technology	18 months, 650 hours	\$5,495.00

WNC	ISACA CISA Training Boot Camp	The Information Systems Audit and Control Association (ISACA) Certified Information Systems Auditor (CISA) Boot Camp is a five-day training course focused on preparing you for the ISACA CISA exam. You will leave with the knowledge and domain expertise needed to take the CISA exam.	Online	Information Technology	5 days	\$4,499.00
WNC	ISACA CISM Training Boot Camp	Infosec's Certified Information Security Manager (CISM) Boot Camp is a five-day training course focused on preparing you for the ISACA CISM exam. You will leave with the knowledge and domain expertise needed to pass the CISM exam the first time you take it.	Online	Information Technology	5 days	\$4,499.00
WNC	Java Programmer	In this online Java Programmer course, you will learn about Java syntax elements, concentrating on fundamental and universally useful elements while also gaining an understanding of its more advanced elements.	Online	Information Technology	6 months, 100 hours	\$995.00
WNC	JavaScript Developer	In this online Java Programmer course, you will learn about Java syntax elements, concentrating on fundamental and universally useful elements while also gaining an understanding of its more advanced elements.	Online	Information Technology	6 months, 180 hours	\$1,995.00
WNC	Linux Foundation Certified System Administrator (LFCS)	This course will teach you the critical skills and knowledge needed to take the Linux Foundation Certified System Administrator (LFCS) exam—including all things involved with the Linux operating system.	Online	Information Technology	6 months, 90 hours	\$2,195.00
WNC	Microsoft Azure Dual Certification Boot Camp	Learn how to implement, monitor, maintain, and secure Microsoft Azure solutions! This boot camp provides hands-on experience and prepares you to earn two Microsoft certifications: Azure Administrator Associate and Azure Security Engineer Associate.	Online	Information Technology	7 days	\$4,399.00
WNC	Python Developer	This training program covers an introduction to computer programming, python fundamentals, advanced python and applied python.	Online	Information Technology	30 weeks, 320 hours	\$4,998.00
WNC	VMware vSphere ICM v7.0 for the Real World	This course features intensive hands-on training that focuses on installing, configuring, and managing VMware vSphere® 7.0, which includes VMware ESXi™ 7.0 and VMware vCenter Server® 7.0. This course prepares you to administer a vSphere infrastructure for an organization of any size. It is the foundation for most other VMware technologies in the software-defined data center.	Online	Information Technology	3 months, 60 hours	\$2,195.00

WNC	Biofuel Production Operations	At the present time, hundreds of facilities worldwide are producing biofuels. Over the next few decades, many advances will be made in this field and hundreds of new facilities will be built to produce this type of fuel. This opens a new field for potential workers. For decades to come, biofuels will be produced and consumed in the United States, creating an ongoing demand for biofuel production workers.	Online	Natural Resources & Technologies	12 months, 400 hours	\$2,595.00
WNC	Natural Gas Plant Operations	For decades to come, natural gas will be produced and consumed in the United States, creating an ongoing demand for natural gas plant operators. This online course provides the fundamental technical background you need to get started in this field.	Online	Natural Resources & Technologies	12 months, 400 hours	\$2,595.00
WNC	Certified Supply Chain Professional	This 100% online course will provide a holistic view of supply chain management and fully prepare you for the Certified Supply Chain Professional exam. You will learn how to translate the connection between the areas of planning, sourcing, manufacturing, and delivering into an integrated supply chain. By course completion, you will have a firm understanding of mitigation strategies, operationalize risk management practices and implement cost reduction measures. This combination of skills will drive the efficiency of your supply chain and give you a competitive edge in the market.	Online	Transportation & Logistics	6 months, 120 hours	\$2,295.00
WNC	Commercial Driver Training Program	A program designed to prepare students for Class A commercial driving licensure and employment	In-Person	Transportation & Logistics	5 weeks, 100 hours	\$3,900.00
WNC	Entry Level Driver Training for Class A	This Class A CDL training course is designed to meet all theory (knowledge) requirements listed in The Code of Federal Regulations (CFR) 49 CFR Part 380, Special Training Requirements. It includes sections covering basic operation, safe operating procedures, advanced operating practices, vehicle systems and reporting malfunctions, and non-driving activities—all essential to obtaining your Class A driver's license. This CDL course was created in collaboration with an approved training provider listed on FMCSA's Training Provider Registry (TPR).	Online	Transportation & Logistics	3 months, 40 hours	\$595.00

WNC	Freight Broker/Agent Training	Learn the skills you need to be a successful freight broker or a freight agent in this fast-growing industry. This online freight broker training course provides you with detailed information about the freight broker sector of the transportation industry and about the brokerage process from start to finish.	Online	Transportation & Logistics	6 months, 100 hours	\$1,895.00
