

Executive Summary of Special Course Fees

It is the policy of the Board of Regents that the registration fee be the only fee assessed for taking a course except as outlined in this section. The reasons for these exceptions are extraordinary instruction costs due to: (a) individual instruction (e.g., private music lessons), (b) class supplies, course-specific software, and specialized equipment (e.g., welding equipment and materials), (c) third party charges for use of a facility (e.g., golf), (d) special transportation requirements, or (e) extraordinary instructional costs (e.g., intensive supervision, support or additional technical expertise required for the delivery of the course), (f) some combination of these reasons. Responsibility for implementing this policy is delegated to the presidents up to a maximum of \$50.00 per course. Courses requiring fees higher than \$50.00 require Board of Regents approval and are as follows (institutions may charge up to the amount approved):

Section 12. Special Course Fees

It is the policy of the Board of Regents that the registration fee be the only fee assessed for taking a course except as outlined in this section. The reasons for these exceptions are extraordinary instruction costs due to: (a) individual instruction (e.g., private music lessons), (b) class supplies, course-specific software, and specialized equipment (e.g., welding equipment and materials), (c) third party charges for use of a facility (e.g., golf), (d) special transportation requirements, or (e) extraordinary instructional costs (e.g., intensive supervision, support or additional technical expertise required for the delivery of the course), (f) some combination of these reasons. Responsibility for implementing this policy is delegated to the presidents up to a maximum of \$50.00 per course. Courses requiring fees higher than \$50.00 require Board of Regents approval and are as follows (institutions may charge up to the amount approved):

UNLV	BUS 281X, Global Career Accelerator	Special Course Fee	New		\$0.00	\$1,800.00	The Senior Vice Provost for Academic Affairs is proposing a fee for the Global Career Accelerator course offered by the third party vendor, Podium Education. The course is a virtual, equity-driven experiential learning program that enables undergraduate students from all backgrounds to build career-focused intercultural and technical skills working with major companies on real-world team projects alongside college students from all over the U.S. and more than 60 countries around the world. It is an academic course, which includes a series of micro-internships and global collaborative team projects, and is an innovative partnership with Podium Education to enhance the quality of education by offering practical, hands-on, team-based, and real-world learning experiences with globally recognized brands to complete real-world projects. The cost to run this course through Podium Education is \$1,800 per student, in addition to the standard UNLV registration fee for the 3-credit course. The \$1,800 fee would be paid by students to UNLV (and be financial aid eligible), and the full fee amount would then be paid directly to the vendor (Podium) for the course costs. It is important to note that scholarships will also be provided through Podium and UNLV to ensure access to this special course experience by students who may otherwise not be able to afford the fee. UNLV offered this course on an experimental basis in Fall 2024 to determine student interest. The 100 seats in the class filled in less than 5 hours after registration opened, and in less than 24 hours UNLV filled a 100-seat waiting list as well. The students want access to these types of global, career-prep course experiences and establishing this fee (which will only cover the direct costs to Podium) will allow us to make this experiential learning opportunity available to them each semester. Current participants were surveyed to assess satisfaction and their willingness to refer others to this course and pay the extra fee to enroll. Additional information available in the submitted UNLV SCF BUS 281X Global Career Accelerator Course Fee Proposal.	300	\$540,000

UNR	BIOL 430/630, Field Ornithology	Special Course Fee	Revised	Est.prior to 2016	\$50.00	\$70.00	Field Ornithology is a companion course to BIOL 433/633 - Ornithology. The field course is designed to teach bird identification, behavior, and ecology in the field. The course includes 10 local field trips and a trip to Bodega Bay, CA. Transportation includes college-owned vehicles to shuttle students, camping equipment, and supplies to various locations. Students are responsible for their own refreshments and meals. The course is offered in the Spring semester if student demand exists. The requested increase in student fees is to offset increased fuel costs, entrance, and campsite fees, which for the past two years the department has been subsidizing the cost of when the course fee account no longer had adequate funds to necessary expenses.	6	\$420
UNR	BIOL 446/646, Desert and Montane Ecosystems	Special Course Fee	Revised	Nov 2012-Increase	\$85.00	\$100.00	BIOL446/646 is an extended field trip course to acquaint students with the biota and selected desert and mountain areas. It is offered every spring. The course describes the relationships between meteorology, geology, hydrology, and desert ecology, and during the field trips, students collect and prepare specimens of desert plants and invertebrates. The fee covers park entrance fees, campsite fees, and supplies for students as well as fuel for college-owned vehicles to transport students, gear, and supplies. Students organize as a group to plan and bring their own food. The requested increase in student fees is to offset increased fuel costs, entrance, and campsite fees, which for the past two years the department has been subsidizing the cost of when the course fee account no longer had adequate funds to necessary expenses.	12	\$1,200

UNR	ENGR 100, Introduction to Engineering Design	Special Course Fee	Revised	Feb 2015-Increase	\$50.00	\$80.00	<p>ENGR 100 is a required course for all incoming engineering students. In 2023, the enrollment was 800 at the start of the semester. The last fee increase was in 2014 when the enrollment was less than half of its current average. Course fees are used for student wages and materials.</p> <p>Support staff: ENGR 100 has 28 labs per week in a dedicated space in JTB 125. Student workers (referred to as mentors) keep the lab open and safe for students as well as facilitate lab classes. In 2014, students were paid an average of \$8.50 per hour while currently we are paying approximately \$12.00 per hour on average. The mentors are vital to the success of this course and help provide first year students much needed support with a 1:10 ratio during lab, provide individualized instruction, assist students, and must have specialized knowledge which includes a week-long mandatory training session in the summer.</p> <p>Specialized Course Materials (consumable and software): In 2022, the course was redesigned and requires students to have a printed course study guide (\$14/book), which provides guided notetaking, lab instructions, and assignments. This notebook is consumable and must be replaced each semester. The students also use specialized software and are also required to complete weekly assignments in the Spatial Vis App (\$15/student). The course would like to purchase these materials and distribute to students on the first day of class so that everyone is prepared to participate and set up to succeed in the course. Additionally, the students complete hands-on activities in each lab and many lectures, so course fees are used to purchase these materials as well. These activities do use consumable materials and must be replaced each year.</p> <p>An increase in course fees will allow the instructors to provide all course materials for students as well as maintain a safe lab space where students can complete labs and access help. The fee will still be less than the cost of most textbooks. No other textbooks are needed for the course, so this fee is their own only cost.</p>	775	\$62,000

UNR	GRC 410, Typography 3	Special Course Fee	Revised	Est. March 2019	\$50.00	\$100.00	This course utilizes a RISO machine for a 6-week project during this course. A RISO machine is like a cross between a mini off-set printer, and a photo-copying machine, where you can change out the color drum for each run/pass or layer in the artwork. The RISO machine requires masters (to make an image plate), and ink. We currently have 14 different colors of ink. Masters are very expensive, with a pack of 2 costing \$166. Ink comes in packs of 2, running anywhere from \$50 to \$150, depending on which ink it is (Gold is \$150 for a pack of 2, more basic colors are around \$50, and specialty inks run another \$10-30 on top of that). With a class of 16 students, we typically go through ~1 master roll per student, and 2-3 inks. With that in mind, we are outspending the current \$50 lab fee to cover these costs to use the machine (we are spending close to \$2400+). While we have some inventory of ink, the masters need to be refreshed and some colors get used more than others, and more need to be ordered each fall semester. Having each student pay \$100 each will help to cover the masters, and some of the inks we need.	16	\$1,600
UNR	HDFS 231, Practicum with Children and Families	Special Course Fee	New	N/A	\$0.00	\$55.00	This is a financial burden on students, and they cannot use financial aid to help offset the costs associated unless it is a fee specifically tied to the course. State of Nevada Child Care Licensing requires that all practicum students be entered into the Nevada Automated Background Check System (NABS) which requires a fee that is currently \$11.50. Because our students are not at the CFRC for a duration extending beyond 6 months, they are not required to be fingerprinted through the state. UAM 7,200 requires that students be fingerprinted at the University Police Services which currently costs \$37.75. Students currently pay for course expenses out of pocket and cannot use the support of their financial aid for these costs. We are requesting a \$55 flat fee to cover these mandatory costs so that students can use financial aid to cover the current cost of fingerprinting and background checks through UNR and the state of Nevada. After covering the costs of fingerprinting and entry into NABS, any remaining funds from the course fee account will be used to pay for minor course expenses such as nametags and practicum materials.	66	\$3,630

UNR	HDFS 428/628, Preschool Curriculum I	Special Course Fee	New	N/A	\$0.00	\$135.00	Students enrolled in HDFS 428/628 must be fingerprinted twice: Once for the State of Nevada to meet Child Care Licensing requirements and once for the University to meet UAM requirements. This is a financial burden on students, and they cannot use financial aid to help offset the cost unless it is a fee specifically tied to the course. State of Nevada Child Care Licensing requires that all practicum students be entered into the Nevada Automated Background Check System (NABS) which requires a fee that is currently \$11.50. Gas: ODAL 101 has three, three day field trips to the following locations; Tahoe National Forest, Castle Peak trailhead, Coloma, CA, and three separate locations within the Lake Tahoe Basin. 2.) Camping Fees: The rafting trip portion of the course camps at a private camp location, Camp Lotus in Lotus CA. This camp ground is on the South Fork of the American River where the ODAL program has a river use permit (required for this river). Camp location is midway along the 22 mile stretch of the river and works very well for this course. 3.) User fees: The river use permit on the South Fork of the American River requires a special use fee and a per person per day fee. 4.) Additional Field Support: Outdoor field work requires additional staff support to maintain safe staff to student ratios for each field activity and varies depending on the activity. This is standard industry practice and disregard of these standards would be negligent and unsafe. Staff to student ratios per activity are as follows; Backpacking 1-12; Rafting 1-6; Rock Climbing 1-6. 5.) Equipment maintenance: Students in ODAL 101 will have all field gear necessary for the course provided for them.	15	\$4,275
