

University of Nevada, Reno Foundation Annual Report to the NSHE Board of Regents November 30, 2012

Meeting the Mission

Incorporated in 1981 the University of Nevada, Reno Foundation (Foundation) was established to raise and manage funds that support the academic and administrative programs of the University of Nevada, Reno, while respecting the philanthropic intentions of its thousands of donors.

The University of Nevada, Reno continues its upward trend of attracting a record number of students to campus. The University welcomed 18,227 undergraduate and graduate students to campus this fall, reflecting a 1 percent increase over the fall 2011 enrollment of 18,004 students. The University also welcomed 185 Presidential Scholars and 16 new National Merit Scholars for a total of 47 National Merit Scholars on campus. The projected freshman retention rate is also rising from 78 to 79 percent.

In 2012, the University celebrated the opening of the Nevada Living Learning Community and inaugurated President Marc A. Johnson, Nevada's 16th president. In addition, the Foundation continued its role in fundraising for the expansion of the University's world-renowned earthquake simulation lab. Thanks to a grant from the Donald W. Reynolds Foundation, the School of Journalism completed renovation of its building to become a state-of-the-art, multi-media center for the University's journalism students. The University of Nevada, Reno Foundation met the Reynolds endowment challenge through raising \$1.6 million of endowment funds to support ongoing technological upgrades in the Reynolds School. The Foundation also received generous support from Jennifer and Philip Satre through the Community Foundation of Western Nevada which provided \$5 million for medical research, the College of Education and athletics.

Finally, *U.S. News and World Report* issued its annual "best colleges" rankings and the University of Nevada, Reno is again in the top tier of "best national universities." The rankings include a separate listing of the "top public schools" and the University is ranked at number 108. Schools in the "best national universities" category offer a full range of undergraduate majors, masters and doctoral degrees and are committed to a productive research program.

Fiduciary Responsibility

The Foundation takes its fiduciary responsibility quite seriously. The Board retained the services of Grant Thornton to perform an independent audit of the Foundation, which is included in the Regents' materials. The Foundation continues to be a good steward of its funds and is pleased that the auditors provided an unqualified opinion of the financial statements and have not offered a management letter.

The Donald W. Reynolds School of Journalism and Center for Advanced Media Studies recently underwent a \$7.9 million renovation to ensure that Reynolds School graduates have access to cutting-edge technology in preparation for communications careers in the digital age.
