

# Performance Summary Tables

Where available, a universe ranking is a secondary measure of a manager's performance. Universe rankings give an understanding of how the fund has performed relative to peers. Lower numbered ranks signify superior performance.

Each fund's performance is compared against a market benchmark.

Each fund is categorized in an investment "Tier" within the line-up

Tier I: Target Date Funds

Tier II: Core Funds

Tier III: Specialty Funds

Ending August 31, 2013

	1 Mo (%)	Rank	YTD (%)	Rank	1 Yr (%)	Rank	3 Yrs (%)	Rank	5 Yrs (%)	Rank	10 Yrs (%)	Rank

All rates of return for time periods greater than one year are annualized. An annualized rate of return is essentially the average return received over the period. For instance, the fund earned an annualized return of 3.6% per year over the five-year period.

Each fund's performance is reported net of investment management fees to ensure participant's understand the "actual" performance of each manager. The fund options highlighted in "red" represent options that have underperformed their respective benchmark index during that specific trailing period.
