Undergraduate degree-seeking students only.

Credit load calculated using the sum of all credits attempted excluding audit courses or 'blank' grades.

Student age is calculated as of August 31 of the fall year.

Headcount number includes only those students that were enrolled in courses that are counted towards the GPA.

Indicates overall persistence rate for all undergraduate degree-seeking students.

Indicates higher retention rate in the 15+ credit load than 12 to < 15 credit load category.

Undergraduate degree-seeking students only.

Credit load calculated using the sum of all credits attempted excluding audit courses or 'blank' grades.

Student age is calculated as of August 31 of the fall year.

Headcount number includes only those students that were enrolled in courses that are counted towards the GPA.

Persistence rate is calculated using the number of students in the fall semester that enrolled in at least one credit-bearing course the following spring semester divided by the number of students in the fall. (Persistence rate does not take into consideration those students that graduated at the end of the fall semester).

Spring 2015 persistence rate is preliminary, official spring 2015 data is not yet available.
