POLICY PROPOSAL - *HANDBOOK*
TITLE 4, CHAPTER 20, SECTION B, SECTION 2

Student Association Finances

Additions appear in ***boldface italics***; deletions are [~~stricken~~ and bracketed]

Section 2. Student Association Finances

1. Student association funds shall be placed in the current funds-unrestricted group and administered as are other funds included in this group, with the following points observed:
 - a. The constitution of each student association will guide budget development and execution and no constitutional provision shall conflict with Board of Regents policy and generally accepted accounting principles for colleges and universities. The objective of these principles is to meet the public trust obligations for stewardship and accountability, necessitating a system of accounting and reporting that will insure full disclosure of the results of operations and financial position of the funds.
 - b. Established procedures for all purchasing encumbrances of funds, payroll, cash receipts and gifts, as stated in the division's administrative manual, shall be followed, except as noted below.
 - c. An institutional president may delegate to a full-time professional business manager, employed by the institution and funded by a student association, all or part of the responsibilities and authority delegated to a business center controller or purchasing director for other institution funds. In the absence of such delegation, the president or the institutional business center controller retains this responsibility and authority. If such delegation is made, (1) the associated students' business manager will be guided by the same generally accepted accounting principles for colleges and universities as are division controllers; and (2) the association's books shall be audited at least once in every three-year period and a report on the audit shall be presented to the Board of Regents.
 - d. Gifts shall not be accepted by a student association until approved by the Board of Regents.
 - e. The institutional president shall ensure the legality of student body transactions and has the authority to stop the execution of a contract or transaction for legal reasons. A system of review must be in place whereby the president or the president's designee reviews transactions and contracts. This authority shall not

be used as a device for censorship nor to control development of student body policy; rather, the intent is to assure the legality of student body transactions. If the execution of a student body contract or transaction is stopped by the institutional president for legal reasons, he/she shall state his/her reasons in writing within five working days and return the contract to the president of the student body organization. The president of the student body organization may appeal this decision to the Board of Regents at its next regular meeting. The institutional president shall cause the appeal to be placed on the Board of Regents agenda pursuant to Article V, Section 11 of the Board of Regents Bylaws.

2. a. Student associations shall follow all of the policies and fiscal management procedures expected of other units within the institution. In order to guarantee fiscal accountability, expenditures must be approved by both the business manager funded by the student association and the student association in accordance with its constitution. In the absence of a business manager, the president or his or her designee must approve the expenditure.
 - b. Those campus organizations and programs, which receive funds from the activities and programs portions of student fees, shall submit a budget request to the student government for funding.
 - c. ***If a student association provides financial support for positions within its association, it may do so according to its properly adopted constitution, statutes, and/or bylaws and in compliance with federal and state law. The method of financial support, for example whether the support is provided in the form of a scholarship or paid via payroll, must be consistent for the same position within the association regardless of the individual holding the position and must be documented in the association's constitution, statutes, or bylaws.***
3. The public trust obligations for stewardship and accountability necessitate a system of accountability and reports, which will ensure disclosure to students of the results of operations and financial position of the funds. A full report to the student body of the detailed expenditure of funds should be publicized at least once during the Fall or Spring semester.
4. Each student association shall provide annually to the Board of Regents a report depicting revenues available, detailed expenditures and beginning and ending account balances of the association for the immediately preceding fiscal year. Each report must be presented no later than December following the fiscal year.
