# Cyber Security is Everyone's Responsibility

## October 26–29 at 12:00pm PDT

## Cyber Security Video Presentation Series – hosted by NSHE SCS

For additional information and to register, please visit: https://www.scs.nevada.edu/cybersecurity-speaker-series

## SCHEDULE OF EVENTS

**October 26, 12:00 – 1:00 PM: KnowBe4 You're Phished – James McQuiggan**
Phishing scams and schemes are becoming more creative everyday as businesses and individuals find themselves targets of new tactics. The FBI's Internet Crime Complaint Center reported that people lost $57 million to phishing scams in one year. This year, with the pandemic creating fear and uncertainty, it is expected this number will exponentially increase. What can you do to protect yourself against scams and phishing attacks? James will provide in depth information on current and emerging phishing attacks, how you can recognize them, what to do to avoid them and what to do if you fall prey to an attack.

**October 27, 12:00 – 1:00 pm: Protecting Your Online Financial Presence & Information – Kristin Judge**
The impact of cyber crime on businesses and personal lives continues to grow at record losses each year. During 2020, the annual value of digital payments is expected to reach $726 billion. Official statistics of online banking from the U.S. government reveal that nearly 3,500 cyberattacks against banks in the U.S. were recorded in the first seven months of 2019. The Cybercrime Support Network provides no-cost resources to help protect your personal and financial online presence and information. Learn what you can do and who you need to contact should you become a victim of cyber crime.

**October 28, 12:00 – 1:00 pm: I've Been Hacked! How I Survived – Kim Fairchild**
The majority of us use social media tools for staying connected to family, friends, and business colleagues. However, social media is not without the dangers of fraud and misuse. Join Kim as she shares her story of a normal Friday that started with a strange email and ended with a hack of her Facebook, getting email spam bombed, and then an attempt to open credit in her name. She will cover what you need to look out for, what to do, and how to move on when you have been hacked.

**October 29, 12:00 – 1:00 pm: Cybersecurity, COVID-19, and Working and Learning from Home – Ben Woelk**
Working and learning from home is the "new norm." For many of us the learning curve and adjustment was done at warp speed with getting connected as the primary focus. Now that we've settled into a new routine and norm, we need to determine the best practices for maintaining a safe environment for work and learning. Just how does one balance working, learning and personal use while maintaining a secure and safe online environment? Ben shares with you his wisdom and insight on what you need to be aware of, and what you need to do to stay safe when working and learning online. His interactive story telling skills will engage you in an easy to learn format that you won't soon forget.
