INTRODUCTION

BACKGROUND

The Nevada System of Higher Education (NSHE) is a state-supported, land grant institution established by the Nevada State Constitution of 1864. It began instruction in 1874. NSHE is fully accredited by the Northwest Association of Schools and Colleges. Nine separate institutions comprise the NSHE and include:

- University of Nevada, Reno (UNR)
- University of Nevada, Las Vegas (UNLV)
- Nevada State College (NSC)
- Desert Research Institute (DRI)
- Truckee Meadows Community College (TMCC)
- College of Southern Nevada (CSN)
- Western Nevada College (WNC)
- Great Basin College (GBC)
- Nevada System of Higher Education Administration

There are eight controllers' offices within the NSHE located in Reno, Carson City, Elko, Las Vegas and Henderson.

The controllers' offices are responsible for the financial management of research grants. The Office of Contracts and Grants within the respective controllers' offices are responsible for the maintenance of financial records and compliance with terms and conditions of the grants that are generally applicable. Compliance with terms and conditions applicable to certain grants and other agreements is the specific responsibility of the relevant principal investigator.

In addition to the controllers' offices, one business center (Business Center North (BCN) in Reno) and purchasing offices at UNLV and CSN provide the purchasing and property management functions for the NSHE institutions.

The major units of UNR include the College of Agriculture, Biotechnology and Natural Resources, College of Business Administration, College of Education, College of Engineering, College of Human and Community Services, College of Liberal Arts, College of Science, Cooperative Extension, Graduate School, Reynolds School of Journalism and the School of Medicine. UNR offers major fields of study leading to baccalaureate and advanced degrees through the academic departments in the various schools and colleges.

UNLV offers major fields of study in different academic departments leading to baccalaureate and advanced degrees through academic departments in the following colleges and schools: Business, Education, Fine Arts, Graduate, Division of Health Sciences, Honors, Hotel Administration, Liberal Arts, Sciences, University College and Urban Affairs. UNLV is also home to a Dental and Law school.

Research activities are conducted primarily at UNR, UNLV and DRI. NSHE has been awarded research grants by various Federal agencies. The primary agencies from which these funds were received during the year ended June 30, 2012 were:

- Department of Agriculture
- Department of Commerce
- Department of Defense
- Department of Education
- Department of Energy
- Department of Veteran Affairs
- Environmental Protection Agency
- Department of Health and Human Services
- Department of Homeland Security

Department of Housing and Urban Development

Department of Interior

Department of Justice

National Aeronautics and Space Administration

National Endowment for the Humanities

National Science Foundation

Department of State

Department of Transportation

In addition, student financial aid funds were received under the Federal campus-based and Pell programs.

Report of Independent Certified Public Accountants

Board of Regents
Nevada System of Higher Education

We have audited the accompanying financial statements of the business-type activities and the aggregate discretely presented component units of the Nevada System of Higher Education (the “System”), as of and for the years ended June 30, 2012 and 2011, as listed in the table of contents. These financial statements are the responsibility of the System’s management. Our responsibility is to express our opinion on these financial statements based on our audit. We did not audit the financial statements of the DRI Research Foundation, DRI Research Parks, Ltd., Truckee Meadows Community College Foundation, Western Nevada College Foundation, Great Basin College Foundation, Rebel Golf Foundation, UNLV Alumni Association, College of Southern Nevada Foundation, and the Nevada State College Foundation, which collectively represent 5.9% percent of the assets, 5.9% percent of the net assets and 5.8% percent of the operating revenues of the aggregate discretely presented component units, for the year ended June 30, 2012 and 4.6% percent of the assets, 4.5% percent of the net assets and 4.5% percent of the operating revenues of the aggregate discretely presented component units as of and for the year ended June 30, 2011 as described in Note 22 “System Related Organizations” in the accompanying financial statements. Those financial statements were audited by other auditors whose reports have been furnished to us, and in our opinion, insofar as they relate to the amounts included for those component units is based solely on the reports of other auditors.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America established by the American Institute of Certified Public Accountants and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the Practice Plans, DRI Research Foundation, DRI Research Parks, Ltd., Truckee Meadows Community College Foundation, Western Nevada College Foundation, Great Basin College Foundation, UNLV Research Foundation, Rebel Golf Foundation, UNLV Alumni Association, College of Southern Nevada Foundation, and the Nevada State College Foundation, were not audited in accordance with *Government Auditing Standards* for the years ended June 30, 2012 and 2011. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the System’s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the aggregate discretely presented component units of the System, as of June 30, 2012 and 2011, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 30, 2012 on our consideration of the System's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the System's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis on pages 3 through 11 be presented to supplement the basic financial statements. Such information, although not a required part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. This required supplementary information is the responsibility of management. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America established by the American Institute of Certified Public Accountants. These limited procedures consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The combining schedules of net assets and combining schedules of revenues, expenses and changes in net assets is presented for purposes of additional analysis and is not a required part of the financial statements. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements of the System. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures. These additional procedures included comparing and reconciling the information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America established by the American Institute of Certified Public Accountants. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole.

MANAGEMENT’S DISCUSSION AND ANALYSIS

This section of the Nevada System of Higher Education’s (the “System”) annual financial information presents management’s discussion and analysis of the financial standing as of June 30, 2012. This section provides a brief overview of noteworthy financial activity, identifies changes in financial position, and assists the reader in focusing on significant financial issues that occurred during the year ended June 30, 2012, with comparative information as of June 30, 2011 and June 30, 2010.

Since this discussion provides summary level financial information, it should be read in conjunction with the System’s financial statements and accompanying footnotes that follow this section. Responsibility for the financial statements, footnotes and this discussion rests with System management. All amounts included in this discussion are presented in thousands of dollars.

SYSTEM AND SYSTEM RELATED ORGANIZATIONS

The System is a consolidation of the following 8 institutions of public higher education in Nevada and the Nevada System of Higher Education Administration entity:

- University of Nevada, Reno
- Desert Research Institute
- Truckee Meadows Community College
- Western Nevada College
- Great Basin College
- University of Nevada, Las Vegas
- College of Southern Nevada
- Nevada State College

This annual financial report and statements include the above institutions of the System as well as certain other organizations, also called component units, that have a significant relationship with the institutions. These component units are related tax exempt organizations primarily founded to foster and promote the growth, progress, and general welfare of the institutions. They exist to solicit, receive and administer gifts and donations for the institutions or, in the case of the University of Nevada School of Medicine Practice Plans, to facilitate patient care activities. The System component units are as follows:

University of Nevada, Reno Foundation
Athletic Association University of Nevada
Athletic Association University of Nevada Endowment Fund
University of Nevada School of Medicine Practice Plans
Desert Research Institute Foundation
Desert Research Institute Research Parks LTD
Truckee Meadows Community College Foundation
Western Nevada College Foundation
Great Basin College Foundation
University of Nevada, Las Vegas Foundation
University of Nevada, Las Vegas Research Foundation
Rebel Golf Foundation
University of Nevada, Las Vegas Alumni Foundation
College of Southern Nevada Foundation
Nevada State College Foundation

Component units issue separate audited or reviewed financial statements from the System.

SYSTEM FINANCIAL HIGHLIGHTS FROM 2011 TO 2012 (in \$1,000's)

- Total net assets decreased .5% from \$2,253,126 to \$2,242,297;
- Capital Assets decreased 1.3% from \$1,986,114 to \$1,959,264;
- Operating revenues decreased 3.9% from \$761,162 to \$731,269;
- Nonoperating revenues decreased 18.4% from \$750,691 to \$612,245; and
- Operating expenses decreased 3.0% from \$1,422,884 to \$1,379,739.

USING THIS REPORT

This report consists of a series of financial statements prepared in accordance with the Governmental Accounting Standards Board Statement No. 35, *Basic Financial Statements-and Management's Discussion and Analysis-for Public Colleges and Universities*. These statements focus on the financial condition of the System, the results of operations, and the cash flows of the System as a whole.

One of the most important questions asked about System finances is whether the System as a whole is better off or worse off as a result of the year's activities. There are three key components to answering this question. They are the Combined Statement of Net Assets; the Combined Statement of Revenues, Expenses and Changes in Net Assets; and the Combined Statement of Cash Flows. These statements present financial information in a form similar to that used by corporations. The System's net assets (the difference between assets and liabilities) is an important gauge of the System's financial health when considered with non-financial facts such as enrollment levels and the condition of the facilities.

The Combined Statement of Net Assets includes all assets and liabilities. It is prepared under the accrual basis of accounting, whereby revenues and assets are recognized when the service is provided and expenses and liabilities are recognized when a third party provides the services, regardless of when cash is exchanged.

The Combined Statement of Revenues, Expenses, and Changes in Net Assets presents the revenues earned and expenses incurred during the year. Activities are reported as either operating or nonoperating. All things being equal, a public higher education system's dependency on state appropriations will usually result in operating deficits. This is because the financial reporting model classifies State appropriations as nonoperating revenues. The utilization of long-lived assets, referred to as capital assets, is reflected in the financial statements as depreciation, which amortizes the cost of an asset over its expected useful life.

Another important factor to consider when evaluating financial viability is the System's ability to meet financial obligations as they mature and come due. The Combined Statement of Cash Flows presents information related to cash inflows and outflows summarized by operating, capital financing, non-capital financing, and investing activities.

CONDENSED FINANCIAL INFORMATION

ASSETS AND LIABILITIES

The Combined Statement of Net Assets is a point-in-time financial statement presenting the financial position of the System as of June 30, 2012, with a comparison made to June 30, 2011 and June 30, 2010. This Statement presents end-of-year data for Assets (current and non-current), Liabilities (current and non-current), and Net Assets (assets minus liabilities).

Assets

Total assets of the System remained fairly consistent, showing a decrease of \$255, or less than 1%. The increase that occurred in current assets was offset by a decrease in capital and other assets. The increase in current assets is primarily due to an increase in the valuation of the short-term investments accounts. The decrease in capital assets is reflective of the sale of UNR's Fire Science Academy and normal depreciation for the year. The decrease in other assets relates primarily to the decline in restricted cash and cash held by the State Treasurer.

Liabilities

Total liabilities for the year increased by \$11 million; a \$46 million increase in current liabilities and \$35 million decrease in non-current liabilities. The increase in current liabilities was primarily due to a policy change in pay dates for professional staff, moving the pay date from the last working day of the month to the first working day of the following month, effective with pay earned in the month of June 2012. As such, only eleven months were paid during the year and one month was accrued at June 30, 2012. The decrease in non-current liabilities was primarily driven by a decrease in long-term debt as a result of the defeasance of bonds plus the issuance of new debt.

Net Assets

Net assets are divided into three major categories. The first category, invested in capital assets - net of debt, provides the equity in property, plant, and equipment owned by the System. The next category is restricted net assets, which is presented as two subcategories: nonexpendable and expendable. The corpus of nonexpendable restricted resources is only available for investment purposes. Expendable restricted net assets are available for expenditure by the System, but must be spent for purposes as determined by donors and/or external entities that have placed time or purpose restrictions on the use of the assets. The final category is unrestricted net assets that are net assets available to the System for any lawful purpose.

Invested in Capital Assets

Net assets invested in capital assets - net of related debt, represent the System's capital assets net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction, or improvement of those assets. The \$14 million or 1% increase reflects the System's expenditures for development and renewal of its capital assets, offset by depreciation expense on capital assets and a net decrease in long-term debt. The increase is related to debt reduction associated with capital assets.

Restricted, Nonexpendable/Expendable

The System's endowment funds consist of both permanent endowments and funds functioning as endowments or quasi-endowments.

Permanent endowments are those funds received from donors with the stipulation that the principal remain inviolate and be invested in perpetuity to produce income that is to be expended for the purposes stipulated by the donor.

Unrestricted Net Assets

Unrestricted net assets increased by \$24 million in 2012. Although unrestricted net assets are not subject to externally imposed stipulations, substantially all of the System's unrestricted net assets have been designated for various academic and research programs and initiatives, as well as capital projects. Funds functioning as an endowment consist of unrestricted funds that have been allocated by the System for long-term investment purposes, although amounts are not subject to donor restrictions requiring the System to preserve the principal in perpetuity. Programs supported by the endowment include scholarships, fellowships, professorships, research efforts and other important programs and activities.

One of the critical factors in continuing the quality of the System's programs is the development and renewal of its capital assets. The fifteen campus and athletic foundations, as System Related Organizations, continue to support the campuses in their long-range plans and provide support for construction of facilities. Changes in the above schedule primarily reflect the foundations' decrease in investment income. The remaining changes can be attributed to a decrease in operating expenses and an increase in payments to the NSHE campuses.

REVENUES, EXPENSES AND CHANGES IN NET ASSETS

Changes in total net assets as presented on the Combined Statement of Net Assets are based on the activity presented in the Combined Statement of Revenues, Expenses, and Changes in Net Assets. The purpose of the statement is to present the revenues received by the System, both operating and nonoperating, and the expenses paid by the System, operating and nonoperating, as well as any other revenues, expenses, gains and losses received or spent by the System.

Generally speaking, operating revenues are received for providing goods and services to the various customers and constituencies of the System. Operating expenses are those expenses paid to acquire or produce the goods and services provided in return for the operating revenues and to carry out the mission of the System. Nonoperating revenues are revenues received for which goods and services are not provided. For example state appropriations are considered nonoperating because they are provided by the Legislature to the institution without the Legislature directly receiving commensurate goods and services for those revenues.

System Revenues, Expenses and Changes in Net Assets (in \$1,000's)

The Combined Statement of Revenues, Expenses, and Changes in Net Assets reflects a consistent year with the net assets at the end of the year decreasing slightly, but remaining fairly consistent with the prior year.

Operating revenues decreased by \$29.9 million (4%) and operating expenses decreased by \$43.2 million (3%), resulting in an increase in the operating loss of \$13.3 million (2%).

Operating Revenue - Student Tuition and Fees increased 1.9% to \$335.2 million as a result of the Board of Regents approved tuition and fee increases offset by an enrollment decrease. Federal grants and contracts experienced a decrease of 11.9% to \$164.1 million while State, local and other grants and contracts decreased 16% to \$67.7 million.

The decrease in operating expenses was driven by a large increase in Supplies and Services expense being offset by decreases in Employee Compensation and Benefits and Utilities. These decreases are a result of layoffs, position eliminations and furloughs in response to the budget cuts. Scholarship and Fellowship expense also decreased, which followed the trends of enrollment.

Nonoperating net revenues decreased by \$138.4 million. This was led by significant decreases in appropriations due to State budget cuts (\$74 million), investment income, net due to market fluctuation (\$71.1 million), and loss on the sale of UNR's Fire Science Academy (\$7 million).

CASH FLOWS (in \$1,000's)

Net cash flows decreased primarily due to a decline in State appropriations and to debt payments of principal. Cash used in operating activities decreased, primarily reflecting NSHE's policy change in pay dates for professional staff, moving the pay date from the last working day of the month to the first working day of the following month, effective with pay earned in the month of June 2012. Thus, only 11 pay periods were paid during 2012. Net operating cash flows (amount of cash used in operating activities) decreased 10.7%.

Cash flows from noncapital financing activities decreased \$50.2 million. This decrease was primarily related to the decrease in State appropriations offset by the increase in nonoperating Federal grants and contracts. Cash flows used in capital financing activities indicated an increase of \$38.2 million, reflecting a net increase in cash paid on capital debt. Cash used in investing activities increased by \$64.9 million. This category generally reflects investing activities during the year.

CAPITAL ASSET AND DEBT ADMINISTRATION

As of June 30, 2012, the System had invested \$1.96 billion in a broad range of capital assets, including equipment, buildings, machinery and equipment, library books and media, art and other valuable collections, intangible assets and land. This represents a net decrease (including additions and deletions) of \$26.8 million over the June 30, 2011, total of \$1.99 billion.

During fiscal year 2012, NSHE issued \$82.5 million of new revenue bonds to refinance outstanding bonds and notes for interest savings. As of June 30, 2012 the coverage on the University Revenue Bonds (pledged revenues to maximum annual debt service) was 4.21 times. For statutory purposes, the coverage was 1.34 times, above minimum required coverage of 1.10. Coverage for the System's University Revenue Bonds is based upon two formulas. The statutory coverage ratio is based upon pledged revenues described in Nevada Revised Statutes authorizing the issuance of revenue bonds. The second, comprehensive coverage ratio, is based upon all revenues pledged to the bonds (including the statutory revenues) in the bond resolutions adopted by the Board of Regents. The statutory and comprehensive coverage ratios feature different minimum coverage thresholds that govern the issuance of additional revenue bond debt.

FUTURE FINANCIAL EFFECTS

In the recent years the demand for higher education services has stabilized, with some institutions showing slight growth and others reporting declines in enrollments. In FY 12, the System realized a net loss of student full time equivalent (FTE) enrollment of 6.5 percent system-wide

compared to FY 11. Student FTE enrollments increased at one of the State's two universities and the State College, and decreased at the other 5 institutions. Student enrollment counts are not yet available for the fall 2012 semester, but preliminary figures reflect that systemwide the number of FTE students will increase slightly overall from fall 2011, with some institutions growing and others anticipating slight decreases in FTE students.

The Legislatively approved NSHE operating budget includes state appropriations and authorized expenditures (State Supported Operating Budget), plus registration fee surcharges approved by the Board of Regents in June 2011 and permanent fee increases approved in December 2011. The State Supported Operating Budget totals \$735.4 million for FY 13. This compares to a Legislatively approved budget of \$725.9 million in FY 12 and represents a 1.32% increase. General fund only allocations for NSHE remained essentially flat at \$472.4 million. In FY12, general fund appropriations accounted for approximately 65.2% of the total State Supported Operating Budget and in FY 13 general fund appropriations account for approximately 64.2%, with the downward change attributed to growth in student fee revenues while appropriations were unchanged. The remaining revenue sources budgeted in the state supported operating budget, including all non-appropriated sources, total \$263.0 million in FY 13 (35.8% of the total). This is an increase in dollars of \$10.4 million and an increase in percentage of budget supported by non-general fund sources of approximately 1.0% over FY 12 budgeted amounts.

As was the case in FY 12, student FTE enrollments will likely reflect growth at some institutions in FY 13 and NSHE will be requesting the Interim Finance Committee, as authorized in Senate Bill 503 (2011), for authority to expend student fee revenues generated in excess of budgeted levels due to enrollments exceeding projections in FY 13. These funds will be utilized to augment existing state budgets for the affected institutions.

NOTE 1 – Organization:

The financial statements represent the combined financial statements of the various divisions and campuses of the Nevada System of Higher Education (the “System” or “NSHE”) which include:

- University of Nevada, Reno (“UNR”)
- University of Nevada, Las Vegas (“UNLV”)
- Nevada State College (“NSC”)
- College of Southern Nevada (“CSN”)
- Truckee Meadows Community College (“TMCC”)
- Western Nevada College (“WNC”)
- Great Basin College (“GBC”)
- Desert Research Institute (“DRI”)
- Nevada System of Higher Education Administration

The System is an entity of the State of Nevada (the “State”) and receives significant support from, and has significant assets held by the State as set forth in the accompanying financial statements. The System is a component unit of the State of Nevada in accordance with the provisions of the Governmental Accounting Standards Board (“GASB”) Statement No. 14, *The Financial Reporting Entity*. The System Related Organizations’ columns in these financial statements are comprised of data from the System’s discretely presented campus and athletic foundations and medical school practice plans (see Note 22). These System Related Organizations are included as part of the System’s financial statements because of the nature and the significance of their financial relationship with the System.

The System Related Organizations include campus foundations which are related tax-exempt organizations founded to foster and promote the growth, progress, and general welfare of the System, and are reported in separate columns to emphasize that they are Nevada not-for-profit organizations legally separate from the System. During the years ended June 30, 2012 and 2011 the foundations distributed \$51,932 and \$37,832 respectively, to the System for both restricted and unrestricted purposes. Complete financial statements for the foundations can be obtained from Vic Redding, Vice Chancellor for Finance at NSHE, 2601 Enterprise Rd., Reno, NV 89512.

The System Related Organizations also include three legally separate non-profit organizations, together known as the medical school practice plans. The practice plans include the University of Nevada School of Medicine Multispecialty Group Practice North, Inc., University of Nevada School of Medicine Group Practice South, Inc., and Nevada Family Practice Residency Program, Inc. The practice plans were established for the benefit of the University of Nevada School of Medicine and its faculty physicians who are engaged in patient care activities. During the years ended June 30, 2012 and 2011 the practice plans distributed \$3,773 and \$2,976, respectively, to the System for restricted purposes. Complete financial statements for the practice plans can be obtained from Vic Redding, Vice Chancellor for Finance at NSHE, 2601 Enterprise Rd., Reno, NV 89512.

NOTE 2 – Summary of Significant Accounting Policies:

The significant accounting policies followed by the System are described below to enhance the usefulness of the financial statements to the reader.

BASIS OF PRESENTATION

For financial statement reporting purposes, the System is considered a special purpose government engaged only in business-type activities. The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as prescribed by the GASB, including Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*, and Statement No. 35, *Basic Financial Statements and Management’s Discussion and Analysis of Public Colleges and Universities*.

The financial statements required by Statement No. 35 are the Statements of Net Assets, the Statements of Revenues, Expenses and Changes in Net Assets and the Statements of Cash Flows. Financial reporting requirements also include Management’s Discussion and Analysis of the System’s financial position and results of operations.

BASIS OF ACCOUNTING

The financial statements have been prepared on the accrual basis of accounting whereby all revenues are recorded when earned and all expenses are recorded when incurred. All significant transactions between various divisions and campuses of the System have been eliminated. The System has the option to apply all Financial Accounting Standards Board (“FASB”) pronouncements issued after

NOTE 2 – Summary of Significant Accounting Policies (continued):

November 30, 1989, unless FASB conflicts with GASB. The System has elected not to apply FASB pronouncements issued after the applicable date. The financial statements are presented using the economic resources measurement focus.

CASH AND CASH EQUIVALENTS

All highly liquid investments with an original maturity of three months or less are considered to be cash equivalents. Cash held by State Treasurer represents the funds from certain state appropriations, which were enacted to provide the System with the funds necessary for the construction of major assets. Such amounts are controlled by the Nevada Public Works Board. These amounts are included in cash and cash equivalents in the Statements of Cash Flows.

INVESTMENTS

Investments are stated at fair value. Fair value of investments is determined from quoted market prices, quotes obtained from brokers or reference to other publicly available market information. Interests in private equity partnerships and commingled funds are based upon the latest valuations provided by the general partners or fund managers of the respective partnerships and funds adjusted for cash receipts, cash disbursements and securities distributions through June 30. The System believes the carrying amount of these financial instruments is a reasonable estimate of fair value. Because the private equity partnerships and private commingled funds are not readily marketable, their estimated value is subject to uncertainty and, therefore, may differ significantly from the value that would have been used had a ready market for such investments existed. Investment transactions are recorded on the date the securities are purchased or sold (trade-date). Realized gains or losses are recorded as the difference between the proceeds from the sale and the average cost of the investment sold. Dividend income is recorded on the ex-dividend date and interest income is accrued as earned.

INVENTORIES

Inventories consist primarily of bookstore and agricultural inventories, and other items held for sale and are stated at lower of estimated cost or market. Cost is calculated primarily on the first-in, first-out method.

PLEDGES

In accordance with GASB Statement No. 33, *Accounting and Reporting for Non-Exchange Transactions*, private donations are recognized when all eligibility requirements are met, provided that the pledge is verifiable, the resources are measurable and collection is probable. Pledges receivable are recorded at net present value using the appropriate discount rate. An allowance for uncollectible pledges is estimated based on collection history and is netted against the gross pledges receivable.

CAPITAL ASSETS

Capital assets are defined as assets with an initial unit cost of \$5 in the year ended June 30, 2012 and 2011 and an estimated useful life in excess of one year. Such assets are stated at cost at the date of acquisition or fair market value at date of donation in the case of gifts. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets' lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Capital assets acquired through federal grants and contracts where the federal government retains a reversionary interest are capitalized and depreciated. Interest in the amount of \$845 and \$472 was capitalized during the years ended June 30, 2012 and 2011, respectively. Depreciation is computed on a straight-line basis over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and improvements	6 to 40
Land improvements	10 to 15
Machinery and equipment	3 to 18
Library books	5
Leasehold improvements	shorter of useful life or lease term
Intangible assets	5 to 10

Collections are capitalized at cost or fair value at the date of donation. The System's collections are protected, preserved and held for public exhibition, education or research and include art and rare book collections which are considered inexhaustible and are therefore not depreciated.

NOTE 2 – Summary of Significant Accounting Policies (continued):

DEFERRED REVENUE

Deferred revenue primarily includes amounts received from grant and contract sponsors that have not been earned under the terms of the agreement and other revenue billed in advance of the event, such as student tuition and fees and fees for housing and dining services, and advanced ticket sales for athletic and other events.

COMPENSATED ABSENCES

The System accrues annual leave for employees at rates based upon length of service and job classification and compensatory time based upon job classification and hours worked. Such accrued expenses have been classified as a component of employee compensation and benefits in the accompanying Statements of Revenues, Expenses and Changes in Net Assets.

FEDERAL REFUNDABLE LOANS

Certain loans to students are administered by the System campuses, with funding primarily supported by the federal government. The System's Statements of Net Assets include both the notes receivable and the related federal refundable loan liability representing federal capital contributions owed upon termination of the program.

NET ASSETS

Net Assets are classified as follows:

Invested in capital assets, net of related debt: This represents the total investment in capital assets, net of outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of invested in capital assets, net of related debt.

Restricted net assets – nonexpendable: Nonexpendable restricted net assets consist of endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purposes of producing present and future income, which may either be expended or added to principal.

Restricted net assets – expendable: Restricted expendable net assets include resources which must be expended in accordance with restrictions imposed by external third parties.

Unrestricted net assets: Unrestricted net assets represent resources that are not subject to externally imposed restrictions. These resources are used for transactions relating to educational and general operations and may be used to meet current expenses for any purpose.

When an expense is incurred that can be paid using either restricted or unrestricted resources, restricted resources are applied first.

RELATED PARTY TRANSACTIONS

UNLV Singapore, Limited (UNLVS) is a public company limited by guaranty, incorporated in the Republic of Singapore. UNLVS is a registered charity under the Singapore Charities Act that is organized to provide educational programs in the Republic of Singapore. UNLVS delivers undergraduate and graduate hospitality degree programs under agreement with the UNLV main campus as well as other workforce training and certificate programs under contract with Singapore governmental agencies. UNLV Singapore, Limited is not a component unit of NSHE, however, certain expenses (primarily salary and fringe benefits for several employees and instructors) are incurred by UNLV and reimbursed by UNLVS. For the year ended June 30, 2012 and June 30, 2011, expenses reimbursed to UNLV by UNLVS were approximately \$1,364 and \$366, respectively of which \$0 and \$16 was receivable at June 30, 2012 and 2011, respectively.

OPERATING AND NONOPERATING REVENUES AND EXPENSES

SYSTEM

Revenues and expenses are classified as operating if they result from providing services and producing and delivering goods. They also include other events that are not defined as capital and related financing, noncapital financing, or investing activities. Grants and contracts representing an exchange transaction are considered operating revenues.

NOTE 2 – Summary of Significant Accounting Policies (continued):

Revenues and expenses are classified as nonoperating if they result from capital and related financing, noncapital financing, or investing activities. Appropriations received to finance operating deficits are classified as noncapital financing activities, therefore, they are reported as nonoperating revenues. Grants and contracts representing nonexchange receipts are treated as nonoperating revenues.

Functional classification of expenses is determined when an account is established and is assigned based on the functional definitions by the National Association of College and Business Officers' Financial Accounting and Reporting Manual.

PRACTICE PLANS

Net patient service revenue is reported when services are provided to patients at the estimated net realizable amounts from patients, third-party payors including Medicare and Medicaid, and others for services rendered, including estimated retroactive audit adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined. Contractual adjustments are recorded as deductions from professional fee revenue to arrive at net professional revenues. Contractual adjustments include differences between established billing rates and amounts reimbursable under various contractual agreements. Normal differences between final reimbursements and estimated amounts accrued in previous years are recorded as adjustments of the current year's contractual and bad debt adjustments. Substantially all of the operating expenses are directly or indirectly related to patient care.

FOUNDATIONS

Donations, gifts and pledges are recognized as income when all eligibility requirements are met, provided that the promise to give is verifiable, the resources are measurable and collection is probable.

SCHOLARSHIP ALLOWANCES

Student tuition and fee revenues, and certain other revenues from students, are reported net of scholarship allowances in the Statements of Revenues, Expenses and Changes in Net Assets. Scholarship allowances are the difference between the stated charge for goods and services provided by the institutions, and the amount that is paid by students and/or third parties making payments on the students' behalf. Payments of financial aid made directly to students are classified as scholarships and fellowships expenses.

GRANTS-IN-AID

Student tuition and fees revenue include grants-in-aid charged to scholarships and fellowships and grants-in-aid for faculty and staff benefits charged to the appropriate expenditure programs to which the applicable personnel relate. Grants-in-aid for fiscal years 2012 and 2011 were \$8,448 and \$8,973, respectively.

TAX EXEMPTION

The System and its discretely presented System Related Organizations are qualified tax-exempt organizations under the provisions of Section 501(c) (3) of the Internal Revenue Code and are exempt from federal and state income taxes on related income.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual amounts could differ from those estimates.

COMPARATIVE INFORMATION

Certain reclassifications have been made to the 2011 financial information in order to conform to 2012 presentation. The reclassifications are neither significant nor material to the 2011 financial information.

NOTE 2 – Summary of Significant Accounting Policies (continued):

NEW ACCOUNTING PRONOUNCEMENTS

In November 2010, the GASB issued Statement No. 60, *Accounting and Financial Reporting for Service Concession Arrangements* (GASB 60), which improves financial reporting by addressing issues related to service concession arrangements, which are a type of public-private or public-public partnership. GASB 60 is effective for fiscal years beginning after December 15, 2011. The anticipated impact of this pronouncement is uncertain at this time.

In November 2010, the GASB issued Statement No. 61, *The Financial Reporting Entity: Omnibus—an amendment of GASB Statements No. 14 and No. 34* (GASB 61), which improves reporting for a governmental financial reporting entity. This statement supersedes GASB Statement No. 14, *The Financial Reporting Entity*, as well as GASB Statement No. 34, *Basic Financial Statements—and Management’s Discussion and Analysis—for State and Local Governments*. GASB 61 is effective for fiscal years beginning after June 15, 2012. The anticipated impact of this pronouncement is uncertain at this time.

In December 2010, the GASB issued Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements* (GASB 62), which incorporates into GASB’s authoritative literature certain accounting and financial reporting guidance included in the pronouncements of the FASB and American Institute of Certified Public Accountants (AICPA). This statement also supersedes GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting*, eliminating the election to apply post-November 30, 1989 FASB pronouncements that do not conflict with or contradict GASB pronouncements. GASB 62 is effective retroactively for all periods presented for periods beginning after December 15, 2011. The anticipated impact of this pronouncement is uncertain at this time.

In June 2011, the GASB issued Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* (GASB 63), which provides financial reporting guidance for deferred outflows of resources and deferred inflows of resources. This statement amends the net asset reporting requirement in GASB Statement No. 34, *Basic Financial Statements—and Management’s Discussion and Analysis—for State and Local Governments*, and other pronouncements by incorporating deferred outflows of resources and deferred inflows of resources into the definitions of the required components of the residual measure and by renaming that measure as net position, rather than net assets. GASB 63 is effective for financial statements for periods beginning after December 15, 2011. The anticipated impact of this pronouncement is uncertain at this time.

In March 2012, the GASB issued Statement No. 65, *Items Previously Reported as Assets and Liabilities* (GASB 65), which establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. GASB 65 is effective for financial statements for periods beginning after December 15, 2012. The anticipated impact of this pronouncement is uncertain at this time.

In June 2012, the GASB issued Statement No. 68, *Accounting and Financial Reporting for Pensions* (GASB 68), which improves accounting and financial reporting by state and local governments for pensions. This statement also supersedes GASB Statement No. 27, *Accounting for Pensions by State and Local Governmental Employers*, as well as GASB Statement No. 50, *Pension Disclosures*. GASB 68 is effective for fiscal years beginning after December 15, 2014. The anticipated impact of this pronouncement is uncertain at this time.

NOTE 3 – System Cash and Cash Equivalents:

Cash and cash equivalents of the System are stated at cost, which approximates market, and consists of deposits in money market funds, which are not federally insured, and cash in the bank. At June 30, 2012 and 2011 the System’s deposits in money market funds totaled \$186,277 and \$172,313, respectively, and cash in bank was \$18,409 and \$15,551, respectively. Of these balances, \$250 each year, are covered by the Federal Depository Insurance Corporation (“FDIC”), the remaining deposits are uncollateralized and uninsured. Restricted cash represents the unexpended bond proceeds held for construction of major assets.

NOTE 4 – System Investments:

Board of Regents policies include the Statement of Investment Objectives and Policies for the Endowment and Operating funds of the System. This policy governs the investment management of both funds. The Board of Regents is responsible for establishing the investment policies; accordingly, the Board of Regents has promulgated these guidelines in which they have established permitted asset classes and ranges.

NOTE 4 – System Investments (continued):

Investments are stated at fair value. The historical cost and market value (fair value) of System investments at June 30, 2012 and 2011 is as follows:

	<u>2012</u>		<u>2011</u>	
	<u>Cost</u>	<u>Market Value</u>	<u>Cost</u>	<u>Market Value</u>
Mutual funds publicly traded	\$457,036	\$487,181	\$261,345	\$279,452
Partnerships	55,481	96,187	94,578	171,493
Equities	4,448	5,454	3,868	4,849
Endowment cash and cash equivalents	1,718	1,718	2,031	2,031
Trust(s)	4,553	5,563	4,583	5,880
Private commingled funds	<u>85,875</u>	<u>96,951</u>	<u>124,330</u>	<u>153,405</u>
	<u>\$609,111</u>	<u>\$693,054</u>	<u>\$490,735</u>	<u>\$617,110</u>

As of June 30, 2012, the System had entered into various investment agreements with private equity partnerships and private commingled funds. Under the terms of certain of these investment agreements, the System is obligated to make additional investments in these partnerships of \$13,702. Generally, partnership investments do not have a ready market and ownership interests in some of these investment vehicles may not be traded without the approval of the general partner or fund management. These investments are subject to the risks generally associated with equities with additional risks due to leverage and the lack of a ready market for acquisition or disposition of ownership interests.

Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the combined statement of net assets.

Credit risk and interest rate risk

Certain securities with fixed income are subject to credit risk which is the risk that an issuer of an investment will not fulfill its obligations. Other securities, including obligations of the U.S. government or those explicitly guaranteed by the U.S. government, are not considered to have credit risk. Credit quality is an assessment of the issuer's ability to pay interest on the investment, and ultimately, to pay the principal. Credit quality is evaluated by one of the independent rating agencies, for example Moody's Investors Service or Standard and Poor's. For the types of investments that are subject to rating, the System's policy for reducing its exposure to credit risk is to maintain a weighted average credit rating of AA or better, and never below A, for investments with credit risk within both the endowment and operating investment pools. With regard to the trusts included in endowment investments, the System is not the trustee of these investments and, therefore, it currently has no policies with regard to credit risk for these investments.

The credit risk profile for the System's operating and endowment investments at June 30, 2012 is as follows:

	<u>Fair Value</u>	<u>Not Rated</u>
Mutual funds publicly traded	\$487,181	\$487,181
Partnerships	96,187	96,187
Equities	5,454	5,454
Endowment cash and cash equivalents	1,718	1,718
Trust(s)	5,563	5,563
Private commingled funds	<u>96,951</u>	<u>96,951</u>
	<u>\$693,054</u>	<u>\$693,054</u>

Interest rate risk is the risk that the value of fixed income securities will decline because of changing interest rates. The prices of fixed income securities with a shorter duration to maturity tend to be more sensitive to changes in interest rates, and, therefore, more volatile than those with longer investment lives. The System's policy for reducing its exposure to interest rate risk is to have an average investment life of at least two years for fixed income securities within both the endowment and operating investment pools. With regard to the trusts included in endowment investments, the System is not the trustee of these investments and, therefore, it currently has no policies with regard to interest rate risk for these investments.

Investments included in the above table have been identified as having interest rate risk and are principally invested in mutual funds and private commingled funds. The segmented time distribution for these investments at June 30, 2012 is as follows:

NOTE 4 – System Investments (continued):

Less than 1 year	\$209,617
1 to 5 years	150,324
5 to 10 years	18,986
More than 10 years	<u>-</u>
	<u>\$378,927</u>

Custodial credit risk

Custodial credit risk is the risk that in the event of a failure of the custodian, the System may not be able to recover the value of the investments held by the custodian as these investments are uninsured. This risk typically occurs in repurchase agreements where one transfers cash to a broker-dealer in exchange for securities, but the securities are held by a separate trustee in the name of the broker-dealer. The System does not have a specific policy with regard to custodial credit risk.

Concentration of credit risk

Concentration of credit risk is the risk of loss attributed to the magnitude of the System's investments within any one issuer. For the fixed portion of the endowment pool, the System's policy for reducing its exposure to concentration of credit risk is to limit the investments within any one issuer to a maximum of 5% of the fixed income portfolio, provided that issues of the U.S. Government or agencies of the U.S. Government may be held without limitation and provided further that issues of agencies of the U.S. Government shall be limited to the extent set forth in the manager-specific guidelines. The System does not have a specific policy with regard to the operating pool or the remainder of the endowment pool. At June 30, 2012 there were no investments within any one issuer in an amount that would constitute a concentration of credit risk to the System.

Foreign currency risk

Foreign currency risk is the risk of investments losing value due to fluctuations in foreign exchange rates. The System does not directly invest in foreign currency investments and is therefore not subject to foreign currency risk. However, the System has \$126,490 and \$91,599 in mutual funds in both the operating and endowment pools that are primarily invested in international equities at June 30, 2012 and 2011, respectively.

NOTE 5 – System Endowment Pool:

Approximately \$206,980 and \$217,212 of endowment fund investments at June 30, 2012 and 2011, respectively, are pooled on a unit market value basis. As of June 30, 2012, the endowment pool was comprised of investments in mutual funds (49%), partnerships (41%), private commingled (7%) and stocks (3%). As of June 30, 2011, the endowment pool was comprised of investments in mutual funds (38%), partnerships (43%), private commingled (16%) and stocks (3%). Each individual endowment fund acquires or disposes of units on the basis of the market value per unit on the preceding quarterly valuation date. The unit market value at June 30, 2012 and 2011 was \$553.13 and \$553.11, respectively. The System follows the requirements of the Uniform Prudent Management of Institutional Funds Act (UPMIFA) with respect to prudent investing and spending of donor-restricted endowments.

The System utilizes a spending rule for its pooled endowments, which determines the endowment income to be distributed currently for spending. For the years ended June 30, 2012 and 2011, the endowment spending policy, as approved by the Board of Regents, authorized a distribution of 4.5% of the average unit market value for the previous twenty (20) calendar quarters. Under the provisions of this spending rule, during 2012, \$21.67 was distributed to each time-weighted eligible unit for a total spending rule distribution of \$10,293 and, during 2011, \$21.22 was distributed to each time-weighted unit for a total spending rule distribution of \$10,411. The 2012 and 2011 distributions were made from investment income of \$3,852 and \$4,195, respectively, and \$6,441 and \$6,216, respectively from cumulative gains of pooled investments.

The System's policy is to retain the endowment's realized and unrealized appreciation with the endowment after the annual income distribution has been made. Such realized and unrealized appreciation retained in endowment investments was \$128,443 and \$117,958 at June 30, 2012 and 2011, respectively, is reflected within the restricted expendable for scholarships, research and instruction net asset category and is available to meet future spending needs subject to the approval of the Board of Regents.

Effective July 1, 2009 the Board of Regents has suspended distribution on all underwater accounts. At June 30, 2012, 19 of 585 accounts were underwater.

NOTE 6 – System Accounts Receivable:

System accounts receivable consist primarily of amounts due from students for tuition and fees and from local and private sources for grant and contract agreements. System accounts receivable are presented on the accompanying Statements of Net Assets net of allowances for uncollectible amounts of \$19,282 and \$14,844 as of June 30, 2012 and 2011, respectively.

NOTE 6 – System Accounts Receivable (continued):

	<u>2012</u>	<u>2011</u>
Accounts receivable:		
Student tuition and fees	\$27,167	\$21,034
Sales and services	7,805	6,175
Local and private grants and contracts	11,842	10,300
Other	<u>5,792</u>	<u>15,325</u>

Less: Allowance for doubtful accounts	<u>(19,282)</u>	<u>(14,844)</u>
Net accounts receivable	<u>\$33,324</u>	<u>\$37,990</u>

NOTE 7 – System Loans Receivable:

Loans receivable from students bear interest primarily between 3% and 15% per annum and are generally repayable in installments to the various campuses over a five to ten year period commencing nine months from the date of separation from the institution. Student loans made through the Federal Perkins Loan Program comprise substantially all of the loans receivable at June 30, 2012 and 2011. A provision for possible uncollectible amounts is recorded on the basis of the various institutions' estimated future losses for such items. The loans receivable and corresponding allowance for uncollectible loan balances as of June 30, 2012 and 2011 are as follows:

	<u>2012</u>	<u>2011</u>
Loans receivable	\$13,454	\$13,892
Less: Allowance for doubtful loans	<u>(1,124)</u>	<u>(1,297)</u>
Net loans receivable	12,330	12,595
Less current portion	<u>(1,428)</u>	<u>(2,014)</u>
Noncurrent loans receivable	<u>\$10,902</u>	<u>\$10,581</u>

NOTE 8 – System Capital Assets:

System capital asset activity for the years ended June 30, 2012 and 2011 is as follows:

	<u>Beginning</u> <u>Balance</u>	<u>2012</u> <u>Increases</u>	<u>Decreases</u>	<u>Ending</u> <u>Balance</u>
Capital assets not being depreciated:				
Construction in progress	\$ 75,776	\$ 40,211	\$ (89,078)	\$ 26,909

NOTE 9 – System Long-Term Debt:

The long-term debt of the System consists of revenue bonds payable, certificates of participation, capital lease obligations, notes payable and other minor obligations.

The Board of Regents issues revenue bonds to provide funds for the construction and renovation of major capital facilities. In addition, revenue bonds have been issued to refund other revenue bonds. In general, the long-term debt is issued to fund projects that would not be funded through State appropriations, such as dormitories, dining halls and parking garages.

NOTE 9 – System Long-Term Debt (continued):

The revenue bonds are collateralized by tuition and fees, auxiliary enterprises revenues and certain other revenues as defined in the bond indentures. The Certificates of Participation are secured by any and all available revenues as defined in the bond indentures. There are a number of limitations and restrictions contained in the various bond indentures. The most restrictive covenants of the various bond indentures require the various divisions and campuses of the System to maintain minimum levels of revenues, as defined in the indentures. The system is in compliance with all covenants.

Scheduled maturities of long-term debt for the years ending June 30 are as follows:

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2013	\$ 19,875	\$ 23,089	\$ 42,964

The Due to State at June 30, 2011 represents the balance of a State General Obligation Bond on behalf of TMCC. This balance was paid in full during the year ended 2012.

NOTE 10 – System Obligations Under Capital Leases:

The System has entered into various non-cancellable lease agreements of land, buildings and improvements, and machinery and equipment expiring at various dates from fiscal year 2012 to 2016.

System obligations under capital leases were as follows for the year ended June 30, 2012 and 2011:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>2012</u>		<u>Ending Balance</u>	<u>Current</u>
			<u>Reductions</u>			
Capital lease obligations	<u>\$3,670</u>	<u>\$106</u>	<u>\$(2,608)</u>		<u>\$1,168</u>	<u>\$579</u>

Less accumulated depreciation	<u>(7,734)</u>	<u>(9,249)</u>
Total	<u>\$2,394</u>	<u>\$ 7,001</u>

NOTE 10 – System Obligations Under Capital Leases (continued):

Future net minimum rental payments, which are required under the System leases for the years ending June 30, are as follows:

2013	\$ 628
2014	266
2015	234
2016	128
2017	<u>-</u>
Total minimum lease payments	1,256
Less amount representing interest	<u>(88)</u>
Obligations under capital leases	<u>\$1,168</u>

Total interest expense under the System capital leases and included in the accompanying financial statements was \$78 and \$131 during the years ended June 30, 2012 and 2011, respectively. Depreciation of the capital lease assets is included in depreciation expense of the Statements of Revenues, Expenses and Changes in Net Assets.

NOTE 11– Operating Leases:

The System has entered into various noncancellable operating lease agreements covering certain buildings and equipment. The lease terms range from one to ten years. The expense for operating leases was \$6,340 and \$6,090 for years ended June 30, 2012 and 2011, respectively.

Future minimum lease payments on noncancellable operating leases for the years ending June 30, are as follows:

2013	\$ 4,281
2014	3,735
2015	2,075
2016	2,045
2017	2,350
2018-2022	<u>2,508</u>
Total future minimum obligation	<u>\$16,994</u>

NOTE 12– Unemployment Insurance and Workers Compensation:

The System is self-insured for unemployment insurance and workers compensation. These risks are subject to various claim and aggregate limits, with excess liability coverage provided by an independent insurer. Liabilities are recorded when it is probable a loss has occurred and the amount of the loss can be reasonably estimated. These losses include an estimate for claims that have been incurred, but not reported. The estimated liabilities are based upon an independent actuarial determination of the present value of the anticipated future payments.

Changes in unemployment and workers compensation for the years ended June 30, 2012 and 2011 are as follows:

	<u>2012</u>			
	<u>Beginning</u> <u>Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending</u> <u>Balance</u>
Unemployment insurance	\$1,700	\$ 4,819	\$(2,188)	\$4,331

NOTE 14– Extinguishment of Debt:

During 2012, \$44,920 of debt was considered to be extinguished through refunding of prior issues by a portion of the current issues. In prior years, NSHE defeased revenue bonds by placing the proceeds of new bonds in an irrevocable escrow account to provide for all future debt service payments on the old bonds. Accordingly, the escrow account assets and the liability for the defeased bonds are not included in NSHE's financial statements. At June 30, 2012 and 2011, \$49,920 and \$20,725, respectively of bonds outstanding are considered defeased.

NOTE 15– Irrevocable Letter of Credit:

In connection with its worker's compensation liability coverage, the System is required to maintain a \$325 standby letter of credit. An additional letter of credit was established in April 2004 in connection with the System's self-insured workers' compensation liability; the amount as of June 30, 2012 was \$1,677. A letter of credit was established in July 2003 in connection with the DRI Lease Revenue Bond in the amount of \$2,100. No advances were made under the letters of credit during the years ended June 30, 2012 and 2011.

NOTE 16– System Pension Plans:

Substantially all permanent employees of the System are covered by retirement plans. Classified employees are covered by the State of Nevada Public Employees Retirement System ("PERS"), a cost-sharing multiple-employer public employee retirement system. Professional employees are covered under PERS or up to three Alternative Retirement Plans.

All permanent System classified employees are mandated by State law to participate in PERS. PERS is a defined benefit plan. Employees who retire with 5 or more years of service at age 65, 10 or more years of service at age 60 or with 30 years or more of service at any age are entitled to a retirement benefit, payable monthly for life, equal to 2.67% of the employee's average compensation for each year of service up to 30 years, with a maximum of 75%. An employee's average compensation is the average of the employee's highest compensation for 36 consecutive months. A diminished benefit is provided to all eligible employees upon early retirement, if such employees have achieved the years of service required for regular retirement. PERS also provides death and disability benefits. Benefits for employees hired after January 1, 2010 have a slightly reduced benefit structure. Benefits are established by State statute.

The authority for establishing and amending the obligation to make contributions is provided by statute. Contribution rates are also established by statute. Active employees contribute to PERS at a rate of either 11.25% or 0% of annual covered wages depending on the contribution option selected. The System is required to contribute to PERS at a rate of either 11.25% or 21.5% of annual covered wages, depending on the option selected by the employee. The System is not liable for any unfunded liabilities of PERS.

NOTE 16– System Pension Plans (continued):

PERS issues a comprehensive annual financial report that includes financial statements and required supplementary information. The report may be obtained by writing to PERS at 693 W. Nye Lane, Carson City, NV 89703-1599.

In addition to PERS, certain exempt employees have the option of participating in various retirement plans provided through the Teachers Insurance and Annuity Association and the College Retirement Equities Fund, the American Century Family of Funds, VALIC, and Fidelity Investments. Under these defined contribution plans, the System and participants make annual contributions to purchase individual, fixed or variable annuities equivalent to retirement benefits earned or to participate in a variety of mutual funds.

System employees may elect to participate in voluntary tax sheltered annuity and deferred compensation programs subject to maximum contribution limits established annually by the Internal Revenue Service. The employee contributions are not matched by the System.

The System’s contribution to all retirement plans for the years ended June 30, 2012 and 2011 was approximately \$72,618 and \$72,683, respectively, equal to the required contribution for each year.

NOTE 17– System Postemployment Benefits Other than Pensions:

In June 2004, the GASB issued Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions*, which requires accrual-based measurement, recognition and disclosure of other postemployment benefits (OPEB) expense, such as retiree medical and dental costs, over the employees’ years of service, along with the related liability, net of any plan assets.

Public employees who meet the eligibility requirements for retirement and at the time of retirement are participants in the program, have the option upon retirement to continue group insurance including medical, dental, vision, accidental death and dismemberment, travel accident, long-term disability, mental health, substance abuse and life insurance benefits. Nevada Administrative Code 287.530 established this benefit upon the retiree. Monthly contributions are deducted from pension checks. The cost varies depending on which health plan the retiree chooses, as well as the amount of the State subsidy they receive.

The Public Employees Benefits Program administers these benefits as a multiple employer cost sharing plan. The State Retirees’ Health and Welfare Benefits Trust Fund has been created to provide benefits to retirees and their beneficiaries. The unfunded actuarial accrued liability for the trust, as of the most recent valuation on July 1, 2010, is \$947,000. This compares to \$1,850,000 on July 1, 2009. This is recorded on the financial statements of the trust and the State as a fiduciary fund, but not on the financial statements of the System.

Complete financial statements for the State Retirees’ Health and Welfare Benefits Fund can be obtained from the Accounting Department at the Public Employees Benefit Program, 901 S. Stewart St., Carson City, NV 89701.

The System’s contribution for the retired employee group insurance assessment for the years ended June 30, 2012 and 2011 was approximately \$10,091 and \$3,355, respectively, equal to the required contribution each year. This significant increase resulted from a change of the contribution rate by the legislature during the 76th session.

NOTE 18 - System Commitments and Contingent Liabilities:

The System is a defendant or co-defendant in legal actions. Based on present knowledge and advice of legal counsel, System management believes any ultimate liability in these matters, in excess of insurance coverage, will not materially affect the net assets, changes in net assets or cash flows of the System.

The System has an actuarial study of its workers’ compensation losses completed every other year. The study addresses the reserves necessary to pay open claims from prior years and projects the rates needed for the coming year. The System uses a third party administrator to adjust its workers’ compensation claims.

The System is self-insured for its unemployment liability. The System is billed by the State each quarter based the actual unemployment benefits paid by the State. Each year the System budgets resources to pay for the projected expenditures. The amount of future benefits payments to claimants and the resulting liability to the System cannot be reasonably determined as of June 30, 2012.

The estimated cost to complete property authorized or under construction at June 30, 2012 is \$27,217. These costs will be financed by State appropriations, private donations, available resources and/or long-term borrowings.

NOTE 18 - System Commitments and Contingent Liabilities (continued):

During the year, UNR sold the Fire Science Academy in Carlin, Nevada. As part of the lease agreement executed at the time of the sale, upon termination of said lease, UNR is obligated to remove any and all above ground props from the prop field, and assess for and remediate any contamination in accordance with provisions promulgated in Nevada Revised Statutes and Administrative Code (NAC) 445A. The notice of lease termination was executed by the Chancellor on June 30, 2012. The estimated obligation includes all the anticipated costs to close out the Fire Science Program, including disposition of assets, demolition of the prop field and related fire water supply and treatment systems, assessing for environmental contamination, and remediation of such contamination, if found. The estimated obligation amounts were developed by the Senior Director for Facilities Maintenance Services in coordination with outside consultants. An obligation amount of \$4,135 has been included in accounts payable.

NOTE 19- Risk Management:

The System is an entity created by the Constitution of the State of Nevada. The System transfers its tort liabilities (other than Medical Malpractice) to the Tort Claims Fund of the State of Nevada (State). The State retains the first \$2,000 of loss and purchases excess liability in the amount of \$10,000 excess of a \$2,000 self insured retention (SIR).

The System purchases the following commercial insurance:

Coverage for direct physical loss or damage to the System’s property with limits of \$500,000 per occurrence and a \$500 SIR.

Worker’s compensation (foreign and domestic) with statutory limits excess of a \$750 SIR.

Employee dishonesty with limits of \$1,250 and a deductible of \$50.

Medical malpractice with limits of \$1,000 per occurrence and \$3,000 aggregate.

Allied health malpractice with limits of \$1,000 per occurrence and \$3,000 aggregate.

The System purchases other commercial insurance for incidental exposures where prudent. The amount of claim settlements did not exceed the insurance coverage for any of the past three years.

The System is charged an assessment to cover its portion of the State’s cost of the Tort Claims fund.

NOTE 20- Subsequent Events:

On August 7, 2012, NSHE issued a promissory note in the amount of \$6,250, to be repaid in fiscal years 2013 through 2017. On August 20, 2012, NSHE prepaid \$10,055, of its Universities Revenue Bonds, Series 2002A with funds received from the sale of its Fire Science Academy located in Carlin, NV. The final payment on the 2002A bonds will occur in fiscal year 2025.

At the September 2012 Board of Regents meeting, the Board approved the defeasance of up to \$3,865, of its Universities Revenue Bonds, Series 2004B from funds held by Clark County on behalf of the NSHE. The defeasance of these bonds is expected to occur prior to December 31, 2012.

NOTE 21- Functional Classification of System Expenses:

The following is the functional classifications of expenses as reported on the Statements of Revenues, Expenses and Changes in Net Assets for the years ended June 30, 2012 and 2011.

NOTE 22 - System Related Organizations:

As described in Note 1, the System Related Organizations columns in the financial statements includes the financial data of the System's discretely presented campus foundations and medical school practice plans. Due to the condensed nature of this information, the individual line items may not necessarily agree with the financial statements of the system related organization, although the totals agree with the financial statements. Condensed combining financial data of the System related organizations is as follows:

The Foundation's investment policy for cash and cash equivalents is to exercise sufficient due diligence to minimize investing cash and cash equivalents in instruments that will lack liquidity. The Foundation, through its Investment Managers considers the operating funds to be two discrete pools of funds: a short-term pool and an intermediate-term pool. The short-term pool shall be funded in an amount sufficient to meet the expected daily cash requirements of the Foundation. The goals of the investments are to maintain the principal in the account while maximizing the return on the investments. The short-term pool is staggered in 30, 60, and 90 day investments. Appropriate types of investments are money market funds, certificates of deposit, commercial paper, U.S. Treasury bills and notes, mortgage backed securities (U.S. Government) and internal loans to the University of Nevada, Reno secured by a promissory note with an appropriate interest rate. The intermediate-term pool is invested in fixed income securities generally having an average maturity of three years or less in order to take advantage of higher yields.

The cumulative net appreciation (depreciation) of investments at June 30, 2012 and 2011 was \$(879) and \$1,417, respectively.

Investment Risk Factors

There are many factors that can affect the value of investments. Some factors, such as credit risk and concentrations of credit risk may affect fixed income securities, which are particularly sensitive to credit risks and changes in interest rates. The Investment Committee of the Foundation has policies regarding acceptable levels of risk. The committee meets quarterly to review the investments. Significant amounts of the investments are held with Commonfund which also has policies regarding acceptable levels of risk.

NOTE 22 - System Related Organizations (continued):

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of an organization's investment in a single issuer. The Foundation restricts investment of cash and cash equivalents and investments to financial institutions with high credit standing, and the Foundation currently purchases certificates of deposit of less than \$250 per bank or institution. Commercial paper is limited to a maximum of 10% of the total cash available. The Foundation has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on cash and cash equivalents and investments.

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the rating as of year end of each investment type.

	<u>AAA</u>	<u>AA</u>	<u>A</u>	<u>BBB</u>	<u>Not Rated</u>
Equity investments	\$ -	\$ -	\$ -	\$ -	\$ 471
Bonds	264	3,750	827	316	8,390
Commingled funds	-	-	-	-	94,162
Certificates of deposit	-	-	-	-	3,461
U.S. Government securities	<u>5,756</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>10,563</u>
	<u>\$6,020</u>	<u>\$ 3,750</u>	<u>\$ 827</u>	<u>\$ 316</u>	<u>\$117,047</u>

Fixed income securities to obligations of the U.S. Government are not considered to have credit risk.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. As a means of limiting its exposure to fair value losses arising from rising interest rates, the Foundation's investment policy limits the maturities of U.S. Treasury instruments and certificates of deposit to no more than 90 days unless the rate justifies the return and the current liquidity requirements are met.

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. Foreign investments are managed by the Investment Manager, and the Foundation has policies in place to address foreign currency risk.

Custodial Credit Risk – Deposits

In the case of deposits, this is the risk that in the event of a bank failure, the Foundation's deposits exceed FDIC limits and as a result may not be returned to the Foundation. All cash deposits are primarily on deposit with two financial institutions and several investment companies. The Foundation does not have a deposit policy for custodial credit risk. As of June 30, 2012, the Foundation's bank balances totaled \$23,164. Of this balance, \$1,361 was covered by depository insurance and/or collateralized and \$8,094 is held by State Street Government Securities and subject to their investment policies. The remaining \$13,808 was uninsured and uncollateralized and, as a result, was subject to custodial credit risk at June 30, 2012. Included in the uninsured balance is \$11,601 held in 90-day U.S. Government Securities.

Custodial Credit Risk – Investments

For an investment, this is the risk that, in the event of the failure of the counterparty, the Foundation will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Investments consist primarily of comingled funds. Debt and equity securities other than open-end mutual funds are uncollateralized.

UNLV Foundation:

Restatement

Subsequent to the issuance of UNLV Foundation's financial statements for the year ended June 30, 2011, management determined that errors were made related to its reporting of net assets. As a result the financial statements have been restated for the year ended June 30, 2011 to correct those errors. A summary of the effect of the restatement is as follows:

<u>Net Assets at June 30, 2011</u>	<u>As Reported</u>	<u>As Restated</u>
Restricted for		
Nonexpendable	\$ 112,322	\$ 109,155
Expendable	78,071	104,257
Unrestricted	24,483	1,465

The restatement had no impact on the Combined Statement of Support and Revenues, Expenses and Changes in Net Assets.

The UNLV Foundation discloses its deposits with financial institutions, investments, and reverse repurchase agreements in accordance with GASB Statement No. 40, *Deposit and Investment Risk Disclosures-an amendment of GASB Statement No. 3*.

Custodial Credit Risk

The custodial credit risk for deposits is the risk that, in the event of a failure of a depository financial institution, the UNLV Foundation will not be able to recover deposits or collateral securities that are in the possession of an outside party. At June 30, 2012, the total balance for the UNLV Foundations cash and money market funds was \$12,089. Of this balance, \$5,241 was covered by the Federal Deposit Insurance Corporation. One depository institution has provided full insurance on all non-interest bearing accounts. As of June 30, 2012, \$4,337 is covered by this program, which is set to expire on December 31, 2012. The amount of \$6,847 was uninsured.

Investments include the following at June 30, 2012 and 2011:

	<u>2012</u>	<u>2011</u>
Mutual funds	\$ 12,985	\$ 6,142
Certificates of deposit	1,316	907
Equities	16,506	70,858
U.S. government obligations	19,181	37,204
Corporate obligations	28,920	33,763
Mortgage-backed securities	18,546	864
Alternative investments	74,392	6,660
Non-U.S. corporate bonds	<u>3,304</u>	<u>-</u>
Total marketable securities at fair value	<u>\$175,150</u>	<u>\$156,398</u>

Credit Risk

Credit risk is the risk that an issuer will not fulfill its obligations. The UNLV Foundation reduces its exposure to credit risk with policy guidelines that instruct money managers to purchase securities rated investment grade or better. However, up to 25% of the fixed-income portfolios may be allocated to below investment grade. The credit ratings of fixed income investments at June 30, 2012 follow:

	<u>Total</u>	<u>AAA</u>	<u>AA</u>	<u>A</u>	<u>BBB</u>	<u>Below Investment Grade</u>
Mortgage-backed securities	\$ 18,546	\$ 1,468	\$ 16,646	\$ 251	\$ 27	\$ 154
U.S. corporate bonds	28,920	-	1,872	12,231	14,281	536
Non-U.S. corporate bonds	3,304	-	126	1,166	2,012	-

Fixed income securities or obligations of the U.S. government are not considered to have credit risk.

NOTE 22 - System Related Organizations (continued):

In accordance with GASB Statement No. 40, U.S. government obligations, mortgage-backed securities, cash, and money market funds backed by the full faith and credit of the federal government are not included in the above table. Alternative investments are not rated by industry rating agencies.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The UNLV Foundation's policy guidelines on maturity parameters state that the fixed-income portfolio's average weighted duration is to remain within 20% of the benchmark duration.

For investments in donor-restricted endowment funds, the UNLV Foundation uses the Barclays Aggregate Bond Index average as the benchmark; maturity as of June 30, 2012, was 6.95 years. The fixed-income portfolio's average maturity was 6.22 years. Interest rates range from 1.452% to 3.182%.

For investments in donor-restricted expendable funds, the UNLV Foundation uses the Barclays Aggregate Index average as the benchmark; maturity as of June 30, 2012, was 7.5 years. The fixed income-portfolio's average maturity was 7.5 years. Interest rates range from 0% to 10.75%.

	Maturity <u>Under 1 Year</u>	Maturity <u>1 – 5 Years</u>	Maturity <u>5 – 10 Years</u>	Maturity <u>Over 10 Years</u>	<u>Total</u>

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. All non-U.S. corporate bonds are traded in U.S. dollars. The UNLV Foundation investment managers have policies that address foreign currency risk.

During the years ended June 30, 2012 and 2011, the UNLV Foundation recognized \$2,045 and \$20,309, respectively, in investment gains. Earnings included \$4,382 and \$3,731, respectively, from interest and dividends, \$3,570 and \$3,930, respectively, from net realized gains on the sale of investments, and \$5,265 and \$13,465, respectively, from the change in investment fair value. The calculation of realized gains and losses is independent of the calculation of the net change in the fair value of investments. Realized gains and losses on investments that had been held more than one fiscal year and sold in the current year were included as a change in the fair value of investments reported in prior years. Investment expenses of \$641 and \$814, respectively, and amortization of bond discounts of \$2 and \$2, respectively, were netted against earnings.

Single Audit Report

For the Year Ended June 30, 2012

Notes to the Supplementary Schedule of Expenditures of Federal Awards

Note 1:

The purpose of the Supplementary Schedule of Expenditures of Federal Awards is to present a summary of the activities of the Nevada System of Higher Education for the year ended June 30, 2012, which have been financed by the United States Government.

For the purpose of this Schedule, Federal awards have been classified into two types:

- Direct Federal awards
- Pass-through funds received from non-Federal organizations made under Federally sponsored programs coordinated by those organizations

Because the Schedule presents only a selected portion of the activities of the Nevada System of Higher Education, it is not intended to and does not present either the net assets, revenues, expenses, changes in net assets, or changes in cash flows of the Nevada System of Higher Education.

The Nevada System of Higher Education consists of:

University of Nevada, Reno	University of Nevada, Las Vegas
Desert Research Institute	Nevada State College
College of Southern Nevada	Great Basin College
Truckee Meadows Community College	Western Nevada College
Nevada System of Higher Education System Administration	

The Schedule is prepared on the accrual basis of accounting.

The Schedule does not include inter-system pass-through funds.

Note 2:

The following schedule represents loans advanced by the System for the year ended June 30, 2012:

Federal Perkins Loan Advances (CFDA Number 84.038):	\$1,295,030
Nursing Student Loan Advances (CFDA Number 93.364):	\$239,592
Health Professions Student Loan Advances (CFDA Number 93.342):	\$0

The Federal Perkins, Nursing Student Loan Programs (“NSL”) and Health Professions Student Loan Programs (“HPSL”) are administered directly by the System and balances and transactions relating to these programs are included in the System’s financial

statements. The balances of loans outstanding under the Perkins, NSL and HPSL programs were \$7,651,684, \$934,813, and \$379,195 respectively as of June 30, 2012.

Note 3:

For the fiscal year ended June 30, 2012, the System processed approximately \$276,090,549 in new loans under the Direct Lending Program (CFDA 84.268). Loan amounts include subsidized and unsubsidized loans and Parent Loans for Undergraduate Students (PLUS).

Note 4:

The total value of the Federal awards in the form of non-cash assistance during the fiscal year ended June 30, 2012 was zero.

Report of Independent Certified Public Accountants on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Compliance with *Government Auditing Standards*

Board of Regents
Nevada System of Higher Education

We have audited the financial statements of the business-type activities and the aggregate discretely presented component units of the Nevada System of Higher Education (the “System”) as of and for the year ended June 30, 2012, which collectively comprise the System’s basic financial statements and have issued our report thereon dated October 30, 2012. Our report was modified to include a reference to other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America established by the American Institute of Certified Public Accountants and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Other auditors audited the financial statements of DRI Research Foundation, DRI Research Parks, Ltd., Truckee Meadows Community College Foundation, Western Nevada College Foundation, Great Basin College Foundation, Rebel Golf Foundation, UNLV Alumni Association, College of Southern Nevada Foundation, and the Nevada State College Foundation as described in our report on the System’s financial statements. This report does not include the results of other auditors’ testing of internal control over financial reporting or compliance and other matters that are reported on separately by other auditors. The financial statements of the Practice Plans, DRI Research Foundation, DRI Research Parks, Ltd., Truckee Meadows Community College Foundation, Western Nevada College Foundation, Great Basin College Foundation, UNLV Research Foundation, Rebel Golf Foundation, UNLV Alumni Association, College of Southern Nevada Foundation, and the Nevada State College Foundation were not audited in accordance with *Government Auditing Standards*.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the System’s internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing an opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the System’s internal control over financial reporting. Accordingly, we express no such opinion.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the System’s financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control would not necessarily identify all deficiencies in internal control over financial reporting that might be material weaknesses. Given these limitations, during our audit we did not identify any deficiencies in the System's internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that were not identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the System's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests did not disclose any instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we have reported to management of the System in a separate letter dated October 30, 2012.

This report is intended solely for the information and use of the audit committee, Board of Regents, management, and federal awarding agencies and is not intended to be and should not be used by anyone other than these specified parties.

Report of Independent Certified Public Accountants on Compliance with Requirements That Could Have a Direct and Material Effect on Each Major Program and on Internal Control over Compliance in Accordance with OMB Circular A-133

Board of Regents
Nevada System of Higher Education

Compliance

We have audited the compliance of Nevada System of Higher Education (the “System”) with the types of compliance requirements described in the *U.S. Office of Management and Budget (“OMB”) Circular A-133 Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012. The System’s major federal programs are identified in the summary of auditor’s results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the System’s management. Our responsibility is to express an opinion on the System’s compliance based on our audit. Our audit of, and opinion on, the System’s compliance does not include compliance requirements governing Federal Perking Loan Program repayments for the University of Nevada, Las Vegas and College of Southern Nevada, under the Student Financial Assistance cluster, because the System engaged ECSI to perform these compliance activities and compliance requirements governing reporting requirements over Student Status Confirmation Reports (SSCR) system-wide under the Student Financial Assistance cluster, because the System engaged National Student Clearinghouse to perform these compliance activities. These third-party servicers have obtained a compliance examination from another practitioner for June 30, 2012 in accordance with the U.S. Department of Education’s Audit Guide, Audits of Federal Student Financial Assistance Programs at Participating Institutions and Institution Servicers.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America established by the American Institute of Certified Public Accountants; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the System’s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the System’s compliance with those requirements.

In our opinion, the System complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012. However, the results of our audit procedures disclosed instances of noncompliance, described in the accompanying Schedule of Findings and Questioned Costs as Findings 2012-01, 2012-02, and 2012-04 through 2012-16, that are required to be reported in accordance with OMB Circular A-133.

Internal Control over Compliance

Management of the System is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the System's internal control over compliance with the requirements referred to above that could have a direct and material effect on a major federal program as a basis for designing audit procedures for the purpose of expressing an opinion on compliance, but not for the purpose of expressing an opinion of the effectiveness of the System's internal control over compliance. Accordingly, we express no such opinion.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis.

Our audit was also not designed to identify all deficiencies in internal control over compliance that might be significant deficiencies. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We identified certain deficiencies in internal control over compliance, described in the accompanying Schedule of Findings and Questioned Costs as Findings 2012-01 through 2012-16, which we consider to be significant deficiencies in the System's internal control over compliance.

We did not audit the System's written response to the matters described in the accompanying Schedule of Findings and Questioned costs, and accordingly, we express no opinion on it.

This report is intended solely for the information and use of the audit committee, Board of Regents, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

SECTION III — FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

FINDING 2012-01 - Reporting

Federal Programs

Research and Development Cluster

University of Nevada, Las Vegas: CFDA 47.070 (Award CNS-1126688).

Desert Research Institute: CFDA 12.420 (Award W81XWH-11-2-0220); CFDA 12.431 (Award W9124R-11-D-0211); CFDA 43.001 (Award NNX11AG89G).

Criteria

Federal Acquisition Regulation clause 52.204-10(c)(1) outlines prime recipient reporting requirements for the Federal Funding Accountability and Transparency Act (FFATA). The requirement reads, “unless otherwise directed, by the end of the month following the month of award of a first-tier subcontract with a value of \$25,000 or more, the Contractor shall report” relevant contract information.

Condition

We noted that both the Desert Research Institute and University of Las Vegas did not report sub-recipient contracts timely.

Context

Testing at the Desert Research Institute identified three out of three FFATA reports examined were filed late. Testing at the University of Nevada Las Vegas identified one out of three FFATA reports examined were filed late. Good faith efforts were attempted to meet the reporting requirements but were not successful do to technological problems. Good faith efforts documentation was not retained.

Questioned Costs

\$0

Effect

Failure to submit required reports timely fails to honor the intent of the federal agency to provide transparency for the sub-awards on usa.spending.gov, the website where reported information is available for public viewing.

Cause

The responsible parties did not submit the report prior to deadline or document their efforts to report the sub-recipient contract.

Recommendation

We recommend that the Institutions design and implement processes and controls to ensure sub-recipient contracts are communicated timely to those individuals responsible for reporting them. Furthermore, when technological problems prevent timely reporting, we recommend these individuals document their attempts to report as well as their communications with sponsoring agencies.

Nevada System of Higher Education

SCHEDULE OF FINDINGS AND QUESTIONED COSTS - CONTINUED

Year ended June 30, 2012

FINDING 2012-01 - Reporting - Continued

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

DRI Response

We concur with the finding; however attempts were made to get the information in the federal database in order to report FFATA subcontracts. We did not document these attempts as we were not aware of the requirements of A-133 documentation at the time of reporting (final audit supplement was not issued until June 2012). We now have in place processes to document attempts to get the necessary information into the federal database to report subcontracts timely.

UNLV Response

UNLV agrees with this recommendation. We understand the importance of timely reporting and have implemented processes to assure reports are submitted in a timely fashion. FFATA reporting was a new requirement in FY12, and the submission system and reporting requirements were new as well. The initial report UNLV submitted was late due to investigations into the reporting process to assure our report was accurate and submitted in the proper format. However, once we verified the requirements and how the FFATA reporting system operated, all subsequent reports were submitted in a timely manner. We anticipate all future reports will be timely, but if situations arise in the future that impact timely submission full documentation will be retained.

FINDING 2012-02 - Equipment and Real Property Management

Federal Programs

Research and Development Cluster

University of Nevada, Reno: CFDA 93.389 (Award 5P20RR018751-07); CFDA 93.887 (Award 1C76HF09847-01-01); CFDA 47.082 (Award PHY-0903847).

Criteria

OMB Circular A-110, Subpart C, .34(f)(1)(viii) outlines property management standards for equipment acquired with federal funds. Among other records, it states "equipment records shall be maintained accurately and shall include" the "unit acquisition cost".

Condition

We noted that the University of Nevada, Reno did not consistently fulfill this requirement.

Context

Testing at the University of Nevada, Reno identified three equipment purchases out of forty seven tested that, while accurately recorded in expenditures, were not accurately recorded within the University's equipment subsidiary ledger.

Questioned Costs

\$0

Effect

The compliance requirement to maintain equipment records at unit acquisition cost in the equipment inventory records was not achieved for certain items.

Nevada System of Higher Education

SCHEDULE OF FINDINGS AND QUESTIONED COSTS - CONTINUED

Year ended June 30, 2012

FINDING 2012-02 - Equipment and Real Property Management - Continued

Cause

The responsible party failed to use the correct invoice price when recording the assets in the fixed asset subsidiary ledger.

Recommendation

We recommend the University evaluate its current process and procedures for equipment and real property management to better incorporate review procedures for items.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNR Response

The three equipment purchases not accurately recorded within the University's equipment subsidiary ledger have been corrected in the system to reflect the accurate acquisition cost.

FINDING 2012-03 - Internal Control over Compliance (Repeat finding 2011-02 and 2010-04)

Federal Programs

Department of Education & Department of Health and Human Services
Student Financial Assistance Cluster
Award year ended June 30, 2012

Criteria

The A-102 Common Rule and OMB Circular A-110 (2 CFR part 215) require that non-Federal entities receiving Federal awards (i.e. auditee management) establish and maintain internal control designed to reasonably ensure compliance with Federal Laws, regulations, and program compliance requirements.

Condition

We noted a lack of security administration related to the PeopleSoft application. Specifically controls were lacking around restricting access as it relates to the PeopleSoft application over financial aid eligibility configuration and student accounts at UNLV. In addition, change management documentation around testing results and approval by users were not consistently available for the PeopleSoft application.

Context

During our testing of the information technology controls at UNLV surrounding PeopleSoft it was noted that a programmer had access to live applications. In addition, documentation around testing results and approval by users was not consistently available for the PeopleSoft application. The lack of security administration controls could impact compliance requirements related to student eligibility, accuracy of award amounts, disbursement processing, accuracy and timeliness of reporting.

Questioned Costs

\$0

SCHEDULE OF FINDINGS AND QUESTIONED COSTS - CONTINUED

Year ended June 30, 2012

FINDING 2012-03 - Internal Control over Compliance (Repeat finding 2011-02 and 2010-04) - Continued

Effect

Student data within the PeopleSoft application may be affected by unauthorized or inappropriate users having access or users having conflicting roles or access levels. Student data may be affected by unauthorized, inappropriate, or untested changes to the system which could result in non-compliance with student eligibility, accuracy of award amounts, disbursement processing, as well as accuracy and timeliness of reporting.

Cause

The issues identified are part of the implementation of PeopleSoft.

Recommendation

Programmers should be restricted from access to live applications and ensure proper documentation of change management testing results and approval by users.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNLV Response

UNLV agrees with this recommendation. Subsequent to the FY11 audit findings, procedures were implemented to ensure periodic user access reviews are completed and password and system lockout protocols are in place. The remaining user security issue noted in this finding is due to a single programmer having specific job duties requiring access to the production environment which is not ideal, but can occur due to limited technical resources. In order to address this ongoing conflict of responsibilities, a process is in development that will grant the necessary access to the production environment based on approval for limited, specified time periods to accomplish specific job functions on a case-by-case basis.

Regarding the inconsistency of change-management documentation around testing results and user approvals, UNLV categorizes change-management into three categories based on the nature of the system change being implemented. These include NSHE-wide system modifications, UNLV-specific system modifications, and Oracle/PS updates/bundle-fixes, etc. Due to the different nature of these types of system changes, the documentation protocols established were not consistent. In order to address this finding, UNLV will revisit the established protocols for documenting changes within these classifications and ensure sufficient documentation requirements are met consistently.

34 CFR 668.22(f)(2)(i) requires that the total number of calendar days in a payment period or period of enrollment includes all days within the period, except that scheduled breaks of at least five (5) consecutive days are excluded from the total number of calendar days in a payment period or period of enrollment and the number of calendar days completed in that period.

Condition

We noted that the University of Nevada, Las Vegas (UNLV) excluded 9 days for spring break in the return to title IV calculation for the period of enrollment or the number of calendar days completed in period. However, given that class was offered the Saturday before spring break only 8 days should be excluded from calculation, which results in incorrect amount of Title IV aid returned.

Context

During our testing, for thirty-five out of sixty students selected for testing at the University of Nevada, Las Vegas an incorrect percentage of aid earned was calculated as the PeopleSoft system excluded 9 days related to spring break for the total spring 2012 semester and periods of enrollment from the first day of instruction.

Questioned Costs

\$9,109

Effect

Return to Title IV funds were calculated incorrectly.

Cause

The admissions department included 9 days for spring break as a holiday in the PeopleSoft calendar that was used to calculate the number of days in the semester in return to Title IV calculations.

Recommendation

We recommend the University re-compute student returns for all applicable students, and implement a more comprehensive review process of return to title IV calculations including the calendar used as the basis for the calculation.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNLV Response

UNLV agrees with this recommendation. The items in question were recalculated based on the corrected calendar and funds were returned appropriately. For future terms, the calendar will be more carefully reviewed with the Financial Aid and Registrar's offices to verify the accuracy of the holiday break schedule to include classes scheduled on Saturday.

FINDING 2012-05 - Special Tests and Provisions: Return of Title IV Funds for Withdrawn and Unofficially Withdrawn Students (Repeat finding 2011-05)

Federal Programs

Department of Education & Department of Health and Human Services
Student Financial Assistance Cluster
Award year ended June 30, 2012

Criteria

34 CFR 668.22(j) states that the "Timeframe for the return of Title IV funds. (2) For an institution that is not required to take attendance, an institution must determine the withdrawal date for a student who withdraws without providing notification to the institution no later than 30 days after the end of the earlier of the (i) Payment period or period of enrollment, as appropriate, in accordance with paragraph (e)(5) of this section; (ii) Academic year in which the student withdrew; or (iii) Education program from which the student withdrew.

Condition

We noted that the College of Southern Nevada, in nine instances, did not determine withdrawal date for students who unofficially withdrew within 30 days of the semester end date.

Context

During our testing at College of Southern Nevada, it was noted for nine of twenty-five students tested, the institutional determination date was more than 30 days after the semester end date.

Questioned Costs

\$12,813

Effect

The College of Southern Nevada is not in compliance with federal regulation timeframes.

Cause

Due to a technical error in PeopleSoft, the query ran at the end of the semester to identify all students who unofficially withdrew was not accurate; therefore, the return to Title IV form was not initiated within 30 days after grades were due in the fall 2011 semester.

Recommendation

We recommend the University develop and implement policies to ensure return to Title IV calculations are completed accurately and timely.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

CSN Response

The College of Southern Nevada concurs with this recommendation. During the Fall 2011 semester, CSN recognized that Financial Aid staff required additional training and support to ensure successful implementation of PeopleSoft. CSN contracted with Cedar Crestone (the NSHE consultant for PeopleSoft) to provide 30 days of on-site support to assist staff to develop accurate compliance-related queries. The technical error in PeopleSoft referred to in the finding has been corrected, and the department will use greater care to ensure that compliance with the Return of Title IV funds is completed within the 30-day timeframe.

CSN Response - Continued

Additional PeopleSoft queries were developed and are run during the semester to accurately and effectively identify the students who have officially withdrawn and their date of withdrawal. When grades are posted at the end of the semester, a query is processed to specifically identify those students who have unofficially withdrawn and those students are captured at that time. These system changes ensure the accuracy of identifying all withdrawn students for whom a *Return to Title IV* calculation must be completed and that this occurs within the specified deadline parameters. This recommendation has been implemented.

Criteria or Specific Requirement

Per 34 CFR 668.22(j)(1), an institution must return the amount of Title IV funds for which it is responsible as soon but no later than 45 days after the date of the institution's determination that the student withdrew.

Condition

We noted that at the University of Nevada, Las Vegas, in five instances, and at the College of Southern Nevada, in two instances, the institutions did not return the amount of title IV funds for which it is responsible within 45 days.

Questioned Costs

\$18,722

Context

During our testing at the University of Nevada, Las Vegas, for five of thirteen students tested, and at the College of Southern Nevada, for two of twenty-five students tested, the date Title IV funds were returned documented by Common Origination & Disbursement was more than 45 days from the documented determination date of withdrawal.

FINDING 2012-06 - Special Tests and Provisions: Return of Title IV Funds for Withdrawn Students (Repeat finding 2011-08; 2010-07) - Continued

Cause

The refund of federal funds were deducted from the student account and student financial aid module in PeopleSoft, but were not uploaded to COD within the 45 day requirement in the automated batch process due to a technical error. The University runs an exception report at the end of each month resulting in students being identified outside the 45 day requirement from the determination date of the student's withdrawal.

Recommendation

We recommend the Institutions' develop and implement policies to ensure returned funds are accurate and timely.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNLV Response

UNLV agrees with this recommendation. In order to address ongoing compliance procedures including accuracy and thorough and timely review, UNLV has added five positions (includes a Compliance Coordinator) to the Financial Aid and Scholarships processing unit in FY13. Also, a key position (Associate Director for Processing) was vacant due to turnover which is currently in the process of being filled. We fully expect these additional resources to ensure timely and accurate compliance procedures are maintained.

CSN Response

The College of Southern Nevada concurs with the recommendation. During the Fall semester 2011, CSN recognized that Financial Aid staff required additional training and support to ensure successful implementation of PeopleSoft. CSN contracted with Cedar Crestone (the NSHE consultant for PeopleSoft) to provide 30 days of on-site support to assist staff to develop accurate compliance-related queries. The technical error that resulted in the failure to upload to COD within 45 days has been corrected. Queries have been developed and are now run at various times during the semester to more accurately identify the dates of official and unofficial student withdrawals. During Spring 2012, additional Financial Aid staff members were reassigned to work on the R2T4 calculations to ensure timely completion, and at present additional staff is being hired to work specifically with the R2T4 calculations. These measures will ensure that return of Title IV funds will be calculated accurately and returned within the 45-day limit.

Condition

In one instance at the University of Nevada, Las Vegas, we noted the incorrect amount of Title IV aid disbursed was used in the calculation which resulted in an incorrect Title IV calculation and an incorrect amount of funds returned.

Questioned Costs

CFDA 84.063 - \$292

Context

During our testing at the University of Nevada, Las Vegas, for one of sixty students selected for testing, the return to title IV calculation had an incorrect amount of aid disbursed used in the calculation which resulted in an incorrect amount returned.

Effect

Returned Title IV funds were calculated incorrectly.

Cause

The student's Pell amount disbursed was excluded from student financial aid module when return calculation was generated due to a technical error in PeopleSoft, and; therefore, not included in return to Title IV calculation.

Recommendation

We recommend the University implement a more comprehensive review process of the return to Title IV form.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNLV Response

UNLV agrees with this recommendation. In the case of the one student calculation resulting in this specific finding, the original returned funds calculation was actually processed correctly as the PeopleSoft software automatically imports the correct amount of federal financial aid disbursed for the calculation. Unfortunately, in this case a rare petition by the student resulted in a change to the official withdrawal date after the return was initially calculated. This is a rare occurrence that the software is not able to 'automatically' adjust for and so the original return calculation remained when the return was initially recalculated with the revised withdrawal date. The return calculation was subsequently corrected and the additional funds were returned.

The additional staffing explained previously in response to finding 2012-06 will ensure more comprehensive review of similar issues will occur.

Federal Programs

Department of Education & Department of Health and Human Services
Student Financial Assistance Cluster – CFDA 84.268
Award year ended June 30, 2012

Criteria

34 CFR 685.102(b), 685.301 and 303. Institutions must report all loan disbursements and submit required records to the Direct Loan Servicing System (DLSS) via the Common Origination and Disbursement (COD) within 30 days of disbursement (OMB No. 1845-0021). Each month, the COD provides institutions with a School Account Statement (SAS) data file which consists of a Cash Summary, Cash Detail, and (optional at the request of the school) Loan Detail records. The school is required to reconcile these files to the institution's financial records. Since up to three Direct Loan program years may be open at any given time, schools may receive three SAS data files each month. (Note: The Direct Loan School Guide describes the reconciliation process.)

The school is required to reconcile these files to the institution's financial records.

Condition

The University of Nevada, Las Vegas did not perform the required reconciliation of SAS data file to the Institution's financial records. The University of Nevada, Reno performed the reconciliations between COD and the Institution's financial records, but did not document monthly variances investigated. The College of Southern Nevada did not perform the required reconciliation of SAS data file to the Institution's financial records for nine of twelve months.

Context

Testing at the University of Nevada, Las Vegas, identified that the required reconciliation noted above was not performed during the fiscal year ending June 30, 2012. Testing at the College of Southern Nevada identified that the required reconciliation noted above was not performed for nine of twelve months for the fiscal year ending June 30, 2012. Testing at the University of Nevada, Reno, identified that the required reconciliation documentation noted above was not performed during the fiscal year ending June 30, 2012.

Questioned Costs

\$0

Effect

The Universities do not comply with the specific requirements of Federal Regulation with respect to reconciling the SAS data file to the institutions' records.

Cause

At the University of Nevada, Las Vegas, due to implementation of PeopleSoft, new student financial aid system, there have been difficulties with information uploads to COD and the institution has not been able to reconcile the student financial aid system, SAS data file and general ledger system in total at any given point-in-time. The Student Financial Aid Office runs exception reports from the PeopleSoft system at least weekly, investigates, and clears exceptions but is unable to perform reconciliation in total on a monthly basis due to volume of system exceptions on a daily basis.

At the College of Southern Nevada, due to implementation of PeopleSoft, new student financial aid system, the institution was not able to reconcile the student financial aid system and SAS due to technical errors in PeopleSoft for nine of twelve months during fiscal year ending June 30, 2012.

At the University of Nevada, Reno the reconciliation is not being documented by the University. The Student Financial Aid office runs exception reports from COD, investigates, and clears exceptions but was not aware of the need to document the reconciliation in total on a monthly basis.

Recommendation

We recommend the Universities implement processes to ensure reconciliation is being performed and documented on a monthly basis.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNLV Response

UNLV agrees with this recommendation and priority will be given to implementing a documented monthly reconciliation of the Direct Lending account with the additional staffing explained previously in response to finding 2012-06.

For clarification, although a monthly reconciliation was not documented for review, the Direct Loan School Account Statement Reconciliation Reports (SAS) are being reviewed and compared to institutional transactional records daily/weekly for exceptions and corrected accordingly. Historical SAS transactions are also being kept to demonstrate compliance within this area for future audit review.

UNR Response

The Financial Aid Office has implemented procedures to ensure the direct lending reconciliation is performed and documented on a monthly basis. The Financial Aid Office has formed a loan team to work together to ensure compliance with direct lending reconciliation.

CSN Response

The College of Southern Nevada concurs with this recommendation. The technical errors that occurred during the implementation of the PeopleSoft system have been resolved. Additional procedures implemented within the department have also helped to facilitate the overall reconciliation process. Since April 2012, and through the start of the 2012-13 award-year the reconciliations have been successfully completed and documented each month as required. This recommendation has been implemented.

34 CFR 685.203 (j). Maximum loan amounts. In no case may a Direct Subsidized, Direct Unsubsidized, or Direct PLUS Loan amount exceed the student's estimated cost of attendance for the period of enrollment for which the loan is intended, less - 1) The student's estimated financial assistance for that period; and 2) In the case of a Direct Subsidized Loan, the borrower's expected family contribution for that period.

Condition

During our testing of student files at the University of Nevada, Reno and at the College of Southern Nevada we identified three instances where the student's cost of attendance was incorrect in the calculation of eligible student financial aid.

Questioned Costs

CFDA 84.268 - \$4,239

Context

For one of sixty students selected for testing at the University of Nevada, Reno and for two of fifty-eight students selected for testing at the College of Southern Nevada, the amount included as the cost of attendance were incorrect.

Effect

The instance noted at the University of Nevada, Reno resulted in an over award of federal funds. The two instances noted at the College of Southern Nevada did not result in an over award of federal funds; however, the operating ineffectiveness of controls over this process and the incorrect application of the cost of attendance could result in a student receiving federal funds greater than their need.

Cause

One error at the College of Southern Nevada was a result of the cost of attendance defaulting to an incorrect amount due to the incorrect designation of the student's living status (with parent vs. off campus) in the student's account due to the PeopleSoft system not uploading the student's status from their ISIR correctly. The other error at the College of Southern Nevada resulted from a technical error in the PeopleSoft system, where the student's status changed from out-of-state to in-state before the census date, but was not updated for the student's budget. The error at the University of Nevada, Reno resulted from the student's status changing from out-of-state to in-state and three-quarter time to full-time before the census date, but was not updated for the student's budget. The University of Nevada, Reno's PeopleSoft system does not automatically update the student's budget due to these changes and the institution did not have a process in place to identify student's to be manually updated.

Recommendation

We recommend the Institutions ensure system edit checks are operating effectively and producing accurate information to avoid an over award of funds.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

CSN Response

The College of Southern Nevada concurs with this recommendation. To find changes in a student's status that would affect their financial aid award, (e.g., change in living status--with parent vs. off campus; or change from out-of-state to in-state status; etc.) queries are being developed to run on a monthly basis to capture these changes. Once identified, the student's file will be reviewed to ensure that an over-award situation has not occurred. It is important to note that these types of changes do not typically occur after the census date and a monthly review will be sufficient to capture these rare student changes.

On another note, students who apply for a Direct Stafford Loan or College Work Study funds automatically have their Cost of Attendance reviewed to ensure that an over-award does not occur. This is a manual process undertaken by Financial Aid staff.

UNR Response

UNR concurs with this recommendation and the Office of Admissions and Records implemented a process to report student status changes to the Financial Aid Office when a student's status changes from out-of-state to in-state to ensure the student's budget is correct and any adjustment to a student's award can be performed.

Context

For three of sixty students selected for testing at the University of Nevada, Reno, the required communication was not sent. For two of twenty-five students selected for testing at the College of Southern Nevada, the required communication was either not sent or was missing required information.

Effect

The College did not comply with the specific requirements of Federal Regulations with respect to communications with students.

Cause

At the University of Nevada, Reno, due to implementation of PeopleSoft, new student financial aid system, the system was not set up to send notifications for the TEACH grant or Perkin's Loans. At the College of Southern Nevada, due to implementation of PeopleSoft, new student financial aid system, the system was not set up properly to send notifications with the required information.

Recommendation

We recommend the Institution develop policies and procedures to ensure these required communications are sent to all students receiving TEACH grant, Perkin's Loans funds, or all types of Direct Loans.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNR Response

UNR concurs with this recommendation. The Financial Aid Office has changed the set up in PeopleSoft so that communications are sent out to the TEACH grant and Perkin's Loans recipients to notify them of their rights to cancel their award.

CSN Response

The College of Southern Nevada concurs with this recommendation. The college has solved the technical problem associated with the 30-day loan notifications and the system is now working properly. Additional programming staff is being recruited for Student Financial Services to ensure that technical issues once identified can be addressed without undue delay. This recommendation has been implemented.

The College of Southern Nevada did not submit Pell and Direct Loan disbursement information to the Department of Education's Common Origination and Disbursement (COD) in a timely manner.

Context

Testing at the University of Nevada, Reno identified two of sixty students selected for testing where the Pell disbursement was not communicated to COD within 30 days as required by federal regulation.

Cause

At the University of Nevada, Reno, for the student headcount numbers in Part II, Section D, the Student Financial Aid office used estimated information from the Planning Budget and Analysis office and did not update the amounts to actual headcount as the change was not communicated to the Student Financial Aid office. The student headcount number in Part V Section F was keyed in error and was not noted in the review of the Report.

At the University of Nevada, Las Vegas, the PeopleSoft query used to produce the tuition and fees amount report in Part II, Section E was duplicating revenue balances and was not noted in the review of the Report.

Recommendation

We recommend the Institution educate those responsible for completing the FISAP report on the key line items in the report that contain critical information. Accurate supporting documentation for each of these items should be compiled and maintained.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNR Response

UNR understands this recommendation. The Office of Planning, Budget and Analysis will work cooperatively with the Financial Aid Office to ensure actual headcount numbers are provided each year for the FISAP.

UNLV Response

UNLV agrees with this finding. The query supporting the data in question has been adjusted and validated and the corrected information will be reported prior to the deadline of December 15, 2012. The focus of the review of the FISAP has traditionally been on the reconciliation and accuracy of the reported financial aid program data and so, unfortunately in this case, the institutional profile information that is the subject of this finding (which is not traditionally complicated to report) was overlooked in the review process. For future reporting periods; however, this item will receive the same level of review as the other data reported.

Context

During our testing at the College of Southern Nevada, it was noted that for nine of fifty-eight students tested, the institution did not properly update FASFA information. For three students, the number of household was not properly updated per the information submitted for verification. For three students, the amount of untaxed income or benefits was not properly updated on the ISIR to reflect what was reported on the verification worksheet and tax return. For one student, the amount of income verified was not properly reflected on the ISIR. For one student, the amount of untaxed income and benefits in addition to the AGI verified was not updated to be properly reflected in the ISIR.

During our testing at the University of Nevada, Las Vegas, it was noted that for six out of seventy-one students tested, the institution did not properly update FASFA information. For one student, the number of household was not properly updated per the information submitted for verification. For four students, the amount of untaxed income or benefits was not properly updated on the ISIR to reflect what was reported on the verification worksheet and tax return. For one student, the amount of AGI verified was not properly reflected on the ISIR.

Effect

The College of Southern Nevada and University of Nevada, Las Vegas is not in compliance with federal regulations related to items required for verification.

Cause

At the College of Southern Nevada, one instance was due to typographical error by personnel processing the information for which amount was entered into ISIR incorrectly. Other instances were due to oversight by personnel processing information. Oversight was a result of institution terminating an internal verification review checklist due to the implementation of PeopleSoft.

At the University of Nevada, Las Vegas, instances were due to oversight by personnel processing information.

Recommendation

We recommend the College implement policies to ensure updating of student aid application information is accurate.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

CSN Response

The College of Southern Nevada concurs with this recommendation. With the implementation of the PeopleSoft system, new ways to verify had to be established. An internal verification review checklist utilized with the SIS system was initially discarded. Over time it was realized that a review checklist was helpful to ensuring verification accuracy, and the "old" list was modified to work with the new PeopleSoft system. Additional queries have also been developed and staffing in the verification area has been strengthened. Finally, a departmental audit function was started whereby the supervisor will pull a certain number of files to check for accuracy and to determine if there are common errors that might occur that would indicate that additional targeted training might be necessary. This multi-pronged approach will ensure that accuracy and timeliness are maintained.

UNLV Response

UNLV agrees with this recommendation. In order to address ongoing compliance procedures including accuracy and thorough and timely review, UNLV has added five positions (includes a Compliance Coordinator) to the Financial Aid and Scholarships processing unit in FY13. Also, a key position (Associate Director for Processing) was vacant due to turnover which is currently in the process of being filled. We fully expect these additional resources to ensure timely and accurate compliance procedures are maintained.

The additional staff will allow greater office administrative capability, training opportunities, and cross checking of work for accuracy to minimize future compliance concerns.

- Enrolled at that school but has ceased to be enrolled on at least a half-time basis;
- Has been accepted for enrollment at that school but failed to enroll on at least a half-time basis for the period which the loan was intended; or
- Has changed his or her permanent address.

Condition

The College of Southern Nevada had thirteen instances and the University of Nevada, Reno had one instance, where student statuses reported on NSLDS “Enrollment Detail” report did not accurately reflect student’s enrollment status as presented in the Student Financial Aid system.

Context

Testing at the College of Southern Nevada identified thirteen of twenty five students selected for testing where the status of “Less Than Half Time” was reported to NSLDS even though students were withdrawn from the institution.

For one out of twenty five students selected for testing at the University of Nevada, Reno, the status of "Withdrawn" was reported to NSLDS even though student had graduated from the institution.

FINDING 2012-14 - Special Tests and Provisions: Enrollment Reporting (Repeat finding 2011-16) - Continued

Effect

The University did not comply with the specific requirements of Federal Regulations with respect to student status communications to the Secretary.

Cause

For the instance at the University of Nevada, Reno, the student's graduation was certified after the graduation file was uploaded to clearinghouse and no mechanism was place to ensure graduates certified after the original graduation file were reported to NSLDS within the required 30 days.

For the instances noted at the College of Southern Nevada, the students' enrollment status upload to the clearinghouse was incorrectly programmed in PeopleSoft to reflect students withdrawn stated as "Less than Half Time" instead of "Withdrawn"

Recommendation

We recommend the institutions develop policies and procedures to ensure student status changes are uploaded and reported accurately to the clearinghouse.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

CSN Response

The College of Southern Nevada concurs with this recommendation. In identifying the technical issues that related to the programming issue, CSN reached out to the other NSHE institutions that were experiencing similar errors. Multiple technical issues were remedied as they relate to the National Clearinghouse Enrollment Reports. Since those corrections/adjustments have been made this problem has been resolved. This recommendation has been completed.

UNR Response

The Office of Admissions and Records has developed policies and procedures to ensure student status changes are uploaded and reported accurately to the clearinghouse.

Condition

The College of Southern Nevada failed to report status changes for a period in excess of 30 days November 30, 2011 to January 21, 2012.

Context

Status changes for twenty-five students occurring at the College of Southern Nevada from December 1, 2011 to December 22, 2011 would not have been submitted to the clearinghouse within the 30-day compliance requirement.

Questioned Costs

\$0

Effect

The University did not comply with the specific requirements of Federal Regulations with respect to student status communications to the Secretary.

Cause

With the implementation of PeopleSoft, registration and student financial aid system, the College experienced a technical error during the upload of the enrollment files to the clearinghouse in December 2011 that required the College to make multiple upload attempts causing the upload to be more than 30 days from the last upload.

CSN Response

The College of Southern Nevada concurs with the recommendation. Each academic year, CSN submits a transmission calendar and an enrollment verification report is forwarded to the National Student Clearinghouse on a monthly basis. Due to a technical issue that occurred at the end of Fall 2011 term, the enrollment verification report did not pull the required information. It took the combined efforts of the institution, consultant Cedar Crestone and NSHE System Computing Services to ultimately correct the problem. The National Student Clearinghouse was notified of the technical issues and after multiple attempts to send this report, the Fall 2011 file was finally successfully processed on January 26, 2012. The situation cited was an isolated one, and the technical issue has been resolved. This recommendation has been implemented.

(2) If an institution attempts to disburse the funds by check and the check is not cashed, the institution must return the funds no later than 240 days after the date it issued that check

Condition

The University of Nevada- Reno has not implemented internal controls designed to ensure the timely return of Title IV funds to ED.

FINDING 2011-01 - Significant Deficiency

Criteria

Internal controls related to financial reporting, effected by the System's Board of Regents, management and other personnel, should be designed to provide reasonable assurance the financial statements are free of material misstatement.

Condition

Internal Controls over Financial Statement preparation

During our audit of the System-wide financial statements, we noted several errors in the financial statements that were not prevented by the System's current processes and internal controls. Among the errors identified were inaccurate inter-entity eliminations of revenue and expense for federal awards passed between certain institutions, incomplete disclosures in the statement of cash flows for investment gains and loss on disposal of assets, missing information from institutions in the functional expense and property under capital lease disclosures, and system related organization disclosures missing reclassifications to prior year information to conform to current year presentation. Those issues have subsequently been corrected.

Cause

Current processes and internal controls over the preparation of the System-wide financial statements do not include comprehensive review and validation of institutionally-provided information at the System level.

Effect

Preventable errors were identified in the System-wide financial statements requiring subsequent correction.

Recommendation

We recommend existing processes and internal controls be enhanced such that these errors are prevented in the future.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

We agree with the recommendation. Current staff assignments are not adequate to perform the requested procedures. The System Office will evaluate alternatives to provide the support recommended.

FINDING 2011-02 - Internal Control over Compliance (Repeat finding 2010-04) - Continued

Condition

We noted a lack of security administration and program maintenance policies and procedures related to the PeopleSoft application. Specifically, controls were lacking around passwords and restricting access as it relates to the PeopleSoft application over financial aid eligibility configuration at UNLV. It was also noted that there are no periodic user access reviews conducted for PeopleSoft or supporting systems. Change management documentation around testing results and approval by users was not consistently available for the PeopleSoft application.

Context

Testing of the information technology controls at UNLV surrounding PeopleSoft identified two terminated user accounts that had access to PeopleSoft servers. In addition, one terminated user and one business process user had access to PeopleSoft's PeopleTools. It was also noted that programmers had access to live applications. Password and account lockout controls for the PeopleSoft application were not currently in place. Documentation around testing results and approval by users was not consistently available for the PeopleSoft application

Effect

Data validity may be affected by unauthorized or inappropriate users having access or users having conflicting roles or access levels. Data validity may be affected by unauthorized, inappropriate, or untested changes to the system.

Cause

The issues identified are part of the implementation of PeopleSoft and the lack of a robust post implementation clean-up process.

Recommendation

Security policies and procedures should be established and communicated including restricting access rights to appropriate users. The policies and procedures should include periodic user access review. Security administration and program maintenance policies and procedures should be formally documented for the PeopleSoft application. Programmers should be restricted from access to live applications.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNLV Response

UNLV agrees with this recommendation. As is commonly the case, the implementation and 'go-live' period for a new institutional system of this magnitude is a very dynamic time period. Throughout the implementation and go-live process, the UNLV Office of Information Technology made best efforts to maintain complete documentation of processes as they were initially developed and implemented. Now that the system is stabilized in its second year of operation at UNLV, the department has transitioned into maintenance and support role which will include revisiting processes and associated documentation ensuring that system maintenance procedures are clearly and accurately documented and maintained as needed.

The specific user permissions findings identified above were corrected at that time. The UNLV Office of Information Technology has now documented the established application security procedures to address user access controls, user profile maintenance and password controls for the PeopleSoft system. Procedures for periodic user access reviews have been established and are in process of being implemented across all PeopleSoft functions.

Criteria

34 CFR 668.22(f)(2)(i) requires that the total number of calendar days in a payment period or period of enrollment includes all days within the period, except that scheduled breaks of at least five (5) consecutive days are excluded from the total number of calendar days in a payment period or period of enrollment and the number of calendar days completed in that period.

Condition

We noted that the University of Nevada, Las Vegas (UNLV) did not exclude spring break (scheduled break greater than five days) in the Return to Title IV calculation, in either the period of enrollment or the number of calendar days completed in the period.

Context

Testing at the University of Nevada, Las Vegas indicated eight of twenty-four students selected for testing, had an incorrect percentage of aid earned calculation as the PeopleSoft system automatically calculated the number of days in the spring 2011 semester and periods of enrollment from the first day of instruction until the last day of exams, not excluding any scheduled breaks.

Questioned Costs

\$4,130

Effect

Return to Title IV funds were calculated incorrectly.

Cause

The admissions department did not include spring break as a holiday in the PeopleSoft calendar that was used to calculate the number of days in the semester in Return to Title IV calculations. As a result of the new software conversion to PeopleSoft, the admissions department was not aware that the calendar entered was used by the system for the Return to Title IV calculation.

Recommendation

We recommend the Institution re-compute student returns for all applicable students, and implement a more comprehensive review process of Return to Title IV calculations including the calendar used as the basis for the calculation.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNLV Response

UNLV agrees with the recommendation. This finding was attributable to improper program set up within the PeopleSoft system. At this time, there are no outstanding Title IV funds which must be returned back to the U.S. Department of Education based upon this finding.

The Financial Aid & Scholarships Office has already provided programming staff from the Record's Office the correct number of days to be excluded for the upcoming spring 2012 semester. No R2T4's will be started for the spring 2012 semester unless the holiday break calendar has been confirmed as updated within the PeopleSoft system.

The Financial Aid & Scholarships Office will also annually confirm holiday calendar breaks each term. This confirmation will ensure R2T4 break in attendance calculations are accurate for future terms.

Condition

We noted that the University of Nevada, Las Vegas, University of Nevada, Reno (UNR), and College of Southern Nevada (CSN) used incorrect withdraw dates in Return to Title IV calculations.

Context

During our testing at University of Nevada, Las Vegas, it was noted for one of eighty-four student selected for testing, the Return to Title IV form had an incorrect withdrawal date. During our testing at University of Nevada, Reno, it was noted for two of forty-nine students selected for testing, the Return to Title IV forms had incorrect withdrawal dates. Effect

The Return to Title IV funds were calculated incorrectly.

Cause

The withdrawal dates were entered incorrectly into the Return to Title IV calculations by personnel processing the calculation due to typographical errors.

Recommendation

We would recommend implementing a more comprehensive review process of the Return to Title IV calculations.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNLV Response

UNLV agrees with this recommendation. This record was adjusted to represent the correct withdrawal date when the error was found. At this time, there are no outstanding Title IV funds which must be returned back to the U.S. Department of Education based upon this finding.

The PeopleSoft programming within R2T4 does not import the student's withdrawal date from the Records module of information. This is a programming deficiency that we hope Oracle will correct in the future. At this time, an employee must manually enter the correct withdrawal date. This opens up the R2T4 calculation to potential human error. The overwhelming majority of withdrawal dates were entered appropriately and correctly.

To minimize or prevent such errors in the future, a supervisor will conduct random reviews of R2T4 calculations for accuracy to minimize future audit findings.

UNR Response

The Financial Aid Office recognizes that there have been past issues with the processing of return of Title IV aid. To remedy these issues for the 2011-2012 academic year and to ensure that funds are returned in a timely manner, the following procedures have been implemented. The R2T4 module that is available as a part of PeopleSoft will be used in combination with reports designed to identify which students have withdrawn from the university. A team of three staff members have been assigned to monitor the Return of Title IV funds. This team will meet on a regular basis to review the reports and process the return of aid as necessary.

CSN Response

The College of Southern Nevada (CSN) concurs with this finding. The department will use greater care to accurately and appropriately record information on the Return to Title IV form to ensure that funds are calculated correctly.

The Return of Title IV funding is a comprehensive process and federal guidelines and requirements must be closely monitored and administered at the campus level. Over the past several years, CSN has experienced a significant growth in the number of students who avail themselves of the use of Title IV. The numbers of applications, along with the stringent requirements for student eligibility that had to be applied to each, and the manual processing that was being utilized, all were contributing factors to the huge increase in workload.

Cause

The refund of federal funds were deducted from the student account in PeopleSoft, student financial aid system, but were not uploaded to COD in the automated batch process due to a technical error.

Recommendation

We recommend the University develop and implement policies to improve the review of amounts to be returned compared to actual funds returned and the timing of the returns.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNLV Response

UNLV agrees with this recommendation. This record was manually readjusted within the COD system to represent the correct value when the error was found. At this time, there are no outstanding Title IV funds which must be returned back to the U.S. Department of Education based upon this finding.

A query was also run to determine if there were other students affected and none were found. We believe this to be an isolated incident that should not reoccur. PeopleSoft technology staff could find no reason why this single record was not automatically sent to COD for processing. The overwhelming majority of other automated transactions were uploaded and downloaded between PeopleSoft and COD seamlessly.

Context

For two of forty-nine students selected for testing, the University of Nevada, Reno did not return Title IV within the 45-day requirement. The College of Southern Nevada, for one of one hundred seven students selected for testing, did not return Title IV within the 45-day requirement.

Effect

Title IV funds required to be returned to the Department of Education were not returned within the required timeframe.

Cause

The Institutions did not generate disbursement records in COD within 45 days of their determination date used in the Return to Title IV calculation due to the incorrect withdrawal/determination date used in the calculation.

Recommendation

We recommend the Institutions develop and implement policies to ensure returned funds are accurate and timely.

University of Nevada, Reno selected for testing that the Return to Title IV calculation had an incorrect amount of aid disbursed or incorrect institution charges used in the calculation which resulted in an incorrect amount returned.

Effect

Returned Title IV funds were calculated incorrectly.

Cause

The amount of aid was entered incorrectly into the forms by personnel processing the calculation due to typographical errors at College of Southern Nevada and University of Nevada, Las Vegas. The incorrect amount of institutional charge was entered incorrectly into the form by personnel processing the calculation due to a typographical error at University of Nevada, Reno.

Recommendation

We recommend implementing a more comprehensive review process of the Return to Title IV form.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

CSN Response

The College of Southern Nevada (CSN) concurs with this finding. The department will use greater care to record and enter data. In addition, the Student Financial Services department has increased its staff dedicated to the Return of Title IV process. This will allow for some redundancy in work processes, enhanced quality assurance and review of data entry, and an overall assistance with the increased workload.

UNLV Response

UNLV agrees with this recommendation. This record was readjusted to represent the correct institutional charges when the error was found. At this time, there are no outstanding Title IV funds which must be returned back to the U.S. Department of Education based upon this finding.

UNLV Response

The PeopleSoft programming within R2T4 does not import the student's institutional charges from the Student Account's module of information. This is a programming deficiency that we hope Oracle will correct in the future. At this time, an employee must manually enter the correct institutional charges. This opens up the R2T4 calculation to potential human error. The overwhelming majority of institutional charges were entered appropriately and correctly.

To minimize or prevent such errors in the future, a supervisor will conduct random reviews of R2T4 calculations for accuracy to minimize future audit findings.

In regards to the student with the incorrect amount of institutional charges, the correct charges were entered into R2T4 and the student's amounts of returned funds were not affected by this miscalculation. The Financial Aid Office has recently implemented PeopleSoft. There is a R2T4 module in PeopleSoft that we will be learning to use. After referring the Federal Pell Grant overpayment to the Secretary under this section, the institution needs to make no further efforts to recover the overpayment.

Condition

At the College of Southern Nevada, we noted two instances where the amount of aid disbursed to the student that was used in the Return to Title IV calculation was adjusted for an overpayment of Pell that was not communicated to the Department of Education.

Questioned Costs

\$190

Context

During our testing at the College of Southern Nevada, we encountered two instances out of 107 students selected for Return to Title IV testing, where the College determined the student was overpaid Pell as the student failed to attend at least one of their classes causing a change in the student's enrollment status. The College performed the mandatory recalculation of Pell awarded to the student and adjusted the amount of Pell disbursed to the student in the Return to Title IV calculation but failed to report the overpayment or reported an incorrect amount of overpayment to the Department of Education when the student failed to repay the overpayment.

Effect

The College failed to report the correct amount of overpayment to the Department of Education as required by the regulations.

Cause

In one instance, the Pell adjustment was entered incorrectly on the Department of Education's Letter of Overpayment due to a typographical error. The second instance, the College simply did not send the communication to the Department of Education.

Recommendation

We recommend implementing a more comprehensive review process of the Return to Title IV form and related required communications to the Department of Education.

Effect

The College of Southern Nevada did not complete the Return to Title IV calculation for a withdrawn student as required by the federal regulations.

Recommendation

We recommend the College develop and implement policies to ensure Return to Title IV calculations are completed for all applicable students.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

CSN Response

The College of Southern Nevada (CSN) concurs with this audit finding. CSN Student Financial Services staff were not aware of the Department of Education requirement relative to the change of a student's status from credit enrollment to audit status. The requirement of the Department of Education to have a student considered "withdrawn" from the class with the appropriate effective date is being implemented into College policies and procedures. The change in status makes the student ineligible for an award of Title IV funds if a class is not taken for credit and funding is affected consistent with the federal requirements.

CSN has revised procedures to address the requirement and will immediately implement the recalculation process beginning in Fall Semester 2011. In addition, CSN policies are being revised and updated to reflect a deadline for students to change a course from credit to audit status. Proposed dates will be closer to the start of each semester to ensure timely reporting, recalculation of eligibility, and return of funds as may be appropriate.

Condition

The University of Nevada, Las Vegas and University of Nevada, Reno did not perform the required reconciliation of SAS data file to the Institution's financial records.

Context

Testing at the University of Nevada, Las Vegas and University of Nevada, Reno, identified that the required reconciliation noted above was not performed during the fiscal year ending June 30, 2011.

Questioned Costs

\$0

Effect

The Universities do not comply with the specific requirements of Federal Regulation with respect to reconciling the SAS data file to the institutions' records.

Cause

At the University of Nevada, Las Vegas, due to implementation of PeopleSoft, new student financial aid system, there have been difficulties with information uploads to COD and the institution has not been able to reconciliation student financial aid system, SAS data file and general ledger system in total at any given point-in-time. The Student Financial Aid Office runs exception reports from the PeopleSoft system at least weekly, investigates, and clears exceptions but is unable to perform reconciliation in total on a monthly basis due to volume of system exceptions on a daily basis.

At the University of Nevada, Reno the reconciliation is not being performed by the University. The Student Financial Aid office runs exceptions reports from EDEXpress, investigates, and clears exceptions but does not perform reconciliation in total on a monthly basis.

Recommendation

We recommend the Universities implement processes to ensure reconciliation is being performed and documented on a monthly basis.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNLV Response

UNLV concurs with this recommendation. The system implementation of PeopleSoft delayed account reconciliation on a consistent basis. As the PeopleSoft system became more stabilized throughout the 2010-2011 school year from programming efficiencies along with staff learning how to use the system more productively, account reconciliation has significantly improved.

Current Direct Lending account reconciliation is occurring within 30 days. Direct Loan School Account Statement Reconciliation Reports (SAS) are being reviewed and compared to institutional transactional records each week for anomalies and corrected. Historical SAS transactions are also being kept to demonstrate compliance within this area for future audit review.

UNR Response

Along with the recent implementation of PeopleSoft, the Financial Aid Office has developed a series of policies and procedures to ensure direct lending reconciliation is being performed on a monthly basis. Condition

We noted that the University of Nevada, Las Vegas had one instance where a post-baccalaureate student was awarded SMART and Pell Grants.

Context

During our testing at the University of Nevada, Las Vegas, it was noted for one of sixty students selected, disbursements of SMART and PELL Grants were made to an ineligible student due to their post-baccalaureate status.

Questioned Costs

Effect

Post-baccalaureate student was disbursed funding they were ineligible to receive.

Cause

When the PeopleSoft system was originally integrated there was no designation between post-baccalaureate and baccalaureate students. Status is now designated in the system this, but students who were not originally designated as "post-bacc" need to be manually updated by the Financial Aid Staff.

Recommendation

We recommend that the Institution correct student disbursements to ineligible students in the student financial aid system and return funds to the federal government.

A query was also run to determine if there were other students impacted and none were found. At this time, there are no outstanding Title IV funds which must be returned back to the U.S. Department of Education based upon this finding.

The errors noted did not result in an over award of federal funds; however, the operating ineffectiveness of controls over this process and the incorrect application of the cost of attendance could result in a student receiving federal funds greater than their need.

Nevada System of Higher Education

STATUS OF PRIOR YEAR FINDINGS AND QUESTIONED COSTS - CONTINUED

Year ended June 30, 2012

FINDING 2011-14 - Special Tests and Provisions: Eligibility Testing - Continued

Cause

The error at the University of Nevada, Las Vegas was a result of the cost of attendance defaulting to an incorrect amount due to the incorrect designation of the student's living status (on or off campus) in the student's account and the PeopleSoft system not updating the student's status from their ISIR. The error at College of Southern Nevada resulted from the student's status changing from out-of-state to in-state. The transportation budget was not changed to reflect the status change.

Recommendation

We recommend the Institutions ensure system edit checks are operating effectively and producing accurate information to avoid an over award of funds.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNLV Response

UNLV agrees with this recommendation. The U.S. Department of Education changed the housing field coding late after Oracle had already provided schools PeopleSoft updates to process financial aid. Oracle never changed the housing field code for schools. This housing field code should be changed within PeopleSoft for the 2012-2013 school year and this will be confirmed prior to processing.

CSN Response

The College of Southern Nevada concurs with this finding. The oversight was a result of a staff member's incorrect entry for a manual adjustment to a student's cost of attendance. Staff will utilize greater care to ensure that accurate information is posted and recorded to the system.

In the Fall Semester of 2011, CSN implemented PeopleSoft or MyCSN. With the implementation of this robust and more current student information system, processes that were previously required to be performed manually can be automated within the design and programming, and will minimize the possibility of errors and data entry mistakes.

Context

For one of forty-two students selected for testing at the College of Southern Nevada, the required communication was not sent.

Effect

The College did not comply with the specific requirements of Federal Regulations with respect to communications with students.

Cause

The College emails the notification letters to students in batches. This letter's email batch was not sent out due to the College sending the previous day's batch of notifications a second time by mistake.

Recommendation

We recommend the College develop policies and procedures to ensure these required communications are sent to all students receiving Direct Loan funds.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

CSN Response

The College of Southern Nevada (CSN) concurs with this finding. In the past, the process to notify students was a manual one. Prior to the implementation of the automated process (PeopleSoft or MyCSN), an error occurred whereby one daily e-mail notification transmission was duplicated the day after the original mailing, and the student notification that should have been sent on the second day was not sent at all.

With the automation of a number of manual processes in PeopleSoft or MyCSN, departmental procedures have been updated and revised to ensure that compliance with federal requirements is consistent. Once loans are awarded, the MyCSN system automatically generates an email notification to be sent out to students, which eliminates the previous error of missed or duplicated notifications.

Condition

The University of Nevada, Las Vegas had fourteen instances where student statuses reported on NSLDS “Enrollment Detail” report did not accurately reflect student’s enrollment status as presented in the Student Financial Aid system.

Context

Testing at the University of Nevada, Las Vegas identified fourteen of twenty five students selected for testing where the status of “Less Than Half Time” was reported to NSLDS even though students were withdrawn from institution.

Questioned Costs

\$0

Effect

The University did not comply with the specific requirements of Federal Regulations with respect to student status communications to the Secretary.

Cause

The student enrollment status uploaded to clearinghouse was incorrectly programmed in PeopleSoft to reflect student’s withdrawn status as “Less Than Half Time” instead of “Withdrawn”. The Registrar’s office was in the process of resolving the issue with the clearinghouse at the time of audit fieldwork.

FINDING 2011-17 - Special Tests and Provisions: Enrollment Reporting - Continued

Cause

With the implementation of PeopleSoft, registration and student financial aid system, the University was able to have graduated students uploaded automatically to Clearinghouse. However, for students who graduated fall 2010, the upload was not sent automatically by the system as expected due to a technical error. Therefore an upload of students who graduated December 11, 2010 was then sent January 31, 2011. At the College of Southern Nevada institution, the control designed to ensure compliance with this requirement failed to operate effectively during the period and the 30-day submission did not occur.

Recommendation

We recommend the University of Nevada, Las Vegas and the College of Southern Nevada develop policies and procedures to ensure student status changes are reported in a timely manner and test the controls put in place to ensure they are operating effectively.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNLV Response

UNLV agrees with the recommendation. During the time period in question, the job that transmits enrollment status updates was not run within 4 weeks of Fall 2010 graduation as is normal practice (due to the transition to PS from SIS, there was a breakdown in communication and the job was not ready on time). This has been corrected. The job will now run within 30 days of graduation and again every 30 days and will be monitored to ensure that it runs according to plan. Every effort is made to report graduate eligible students in a timely manner. UNLV continues to review the degree conferral process and strives for efficiency.

CSN Response

Prior to Fall Semester 2011, preparing enrollment reports for the Clearinghouse was a manual process that was completed at or near the time that the Clearinghouse reminder messages were received. These reports were completed by Institutional Research with the Office of the Registrar serving in a “backup” role for these data. This due date occurred during a holiday period when many staff members were on vacation and/or furlough. The oversight was discovered after the holiday, and the report was completed in January 2011.

- Corrective actions have been implemented so that this oversight will not reoccur. Effective Fall Semester 2011, the Office of the Registrar is completing enrollment reporting via PeopleSoft according to the following timeframes:
- The Registrar sets the scheduled Transmission Dates for the academic year; first transmission is completed the Friday before the semester start and then monthly thereafter until the end of the semester.

The Transmission Dates are set within the production calendar, and the National Clearinghouse also provides reminder e-mails prior to the due date.

Two processes are employed to extract the data and if any errors are encountered a report is generated. Student records are corrected if necessary, and the file is uploaded to the National Student Clearinghouse. Once the National Student Clearinghouse processes the report, an e-mail is directed to the College to confirm that the report has been received and processed.

The school must submit subsequent disbursement records, including adjustment and cancellation records, to the Secretary no later than 30 days following the date the disbursement, adjustment, or cancellation is made.

Condition

The University of Nevada, Reno did not submit loan disbursement information to the Department of Education's Common Origination and Disbursement (COD) in a timely manner.

Context

Testing at the University of Nevada, Reno identified sixteen of twenty-two students selected for testing where the direct loan disbursement was not communicated to COD within 30 days as required by federal regulation

Questioned Costs

\$0

Effect

Disbursement records were not reported to the Department of Education within the required timeframe designated in the federal regulations.

Cause

Documentation of the required communication was not maintained.

Recommendation

We recommend the University develop and implement policies and procedures to ensure the required information is uploaded to COD in a timely manner and documented.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNR Response

With the recent implementation of PeopleSoft, a loan module is now available that will be used to send files to COD. In addition, the Financial Aid Office has developed specific policies and procedures, along with increased oversight to ensure disbursement records are sent to COD in a timely manner.

34 CFR 674.43 – An institution must notify shall send a first overdue notice within 15 days after the due date for a payment if the institution has not received a payment, a request for deferment; or a request for postponement or for cancellation. If the borrower does not satisfactorily respond to the first overdue notice, the institution shall continue to contact the borrower as follows, until the borrower makes satisfactory repayment arrangements or demonstrates entitlement to deferment, postponement, or cancellation. The institution shall send a second overdue notice within 30 days after the first overdue notice is sent. The institution shall send a final demand letter within 15 days after the second overdue notice. This letter must inform the borrower that unless the institution receives a payment or a request for deferment, postponement, or cancellation within 30 days of the date of the letter, it will refer the account for collection or litigation, and will report the default to a credit bureau. If the borrower does not respond to the final demand letter within 30 days from the date it was sent, the institution shall attempt to contact the borrower by telephone before beginning collection procedures.

Condition

We noted that the University of Nevada Reno, during its processing of Federal Perkins Loans, failed to produce and send the required notifications for overdue Perkins loans.

Context

For ten of fourteen students selected for testing at the University of Nevada Reno, we noted that the required communications were not completed timely or at all.

Questioned Costs

\$0

Effect

The University did not consistently comply with the specific requirements of Federal Regulations with respect to student loan repayments.

Cause

The notifications were not sent timely by the University.

Recommendation

We recommend the University develop policies and procedures to ensure timely notifications are sent. In addition, the University should consider reviewing overall process related to management of outstanding Perkins loans. Attention should be given to appropriate ownership and monitoring controls for the overall process.

Context

For ten of fourteen students selected for testing, there was no documentation of communication with the borrower informing them of the Student Loan Ombudsman's office.

Effect

The University does not consistently comply with the specific requirements of Federal Regulations with respect to student loan repayments.

Cause

University did not start including the communication in the overdue notices until June 2011.

Context

For eight of fourteen loans in default for more than twelve months, we noted that the University did not attempt to collect using a collection firm until April 2011.

Effect

The University does not comply with the specific requirements of Federal Regulations with respect to collection efforts.

Cause

University staff re-performed overdue notice process, by sending the three overdue notices and calling the borrower prior to sending defaulted loans to collections, which prolonged the collections process.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNR Response

The Loan Office had a long term employee leave during the summer of 2010. Due to the lengthy hiring process, a replacement for this position was not in place until late October. At this point, the Manager of Student Accounts made the managerial decision to start the entire collection process over to ensure that all communications were generated and all call attempts were made prior to sending these accounts to collections. The accounts were already out of compliance with regards to the time frame of the due diligence process and being sent to collections. However, by starting the communication process from the beginning, we ensured that the correct communications (letters and calls) were in fact performed prior to sending borrowers to collections. This decision was made to avoid having exceptions in this area. As a result, all letters and communications were sent to these students prior to being sent to collections and we were able to collect on some of the accounts in the process.

The Loan Office has developed a checklist with all required steps for past due loans. The Manager of Student Accounts will perform a monthly review of delinquent loan files to ensure the required collection proceedings are being followed.

FINDING 2011-22 - Student Loan Repayments - Perkins Loans

Context

For three of fourteen loans selected for testing at the University of Nevada, Reno, we noted that the loans were held with a collection agency for a 24-month period.

Effect

The University does not comply with the specific requirements of Federal Regulations with respect to collection efforts.

Cause

University staff did not receive notification from the collection agency at the end of the 12-month collection period stating the agency was unable to collect on these borrowers, as the notification was emailed to a former employee's address. Therefore no collection attempts were made for an additional twelve-month period until the University inquired about missing notifications.

Recommendation

We recommend the University dedicate additional resources to monitor borrower loan status to help ensure compliance with the Federal Regulations as they relate to collection proceedings.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNR Response

This finding is the result of the collection agencies still having the previous employee's contact information in their system. All collection agencies have now been updated with the new contact information of both Loan Office employees to ensure that the Loan Office receives the notifications sent from the agencies.

In addition, the loan personnel are proactively running reports now to determine when an account should be returned from a collection agency and contacting the collection agency to either confirm if the account is in regular repayment status or to recall the loan if a payment agreement has not been achieved.

Effect

The University did not provide the required exit counseling

Cause

The exit counseling materials for students that graduated in December 2009 were not sent within the 30 day limit.

Recommendation

We recommend the University monitor loans more closely in an effort to ensure compliance with Federal Regulations.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNR Response

The Loan Office employees will run a report in October and February after the last date to withdraw from courses and in November and March of each year to determine graduating students and students who are no longer enrolled at the University. The loan personnel will send out letters to each student requesting the student to come in to complete their exit interview. The loan personnel will conduct the exit counseling in person with the borrower and will have the borrower sign and date the Exit Interview verification form and file the original in the borrowers file. If no response is received from the student by the end of December, for the fall semester, or May, for the spring semester, the loan personnel will mail the exit interview material to the last known address of borrower and document when and where sent.

The institution shall at this time remind the borrower of his or her responsibility to comply with the terms of the loans and shall send the borrower information about the total amount remaining outstanding on the loan, including principal and interest, and the date and amount of the next required payment.

Condition

We noted one instance where the University of Nevada Reno acting as the loan processor for Truckee Meadows Community College (TMCC) failed to send 90-day and 150-day communications as a result of untimely student status reporting by TMCC.

Questioned Costs

\$0

Context

For one of forty-three borrowers selected for testing, we noted the required communications were not sent.

Effect

The University established the appropriate nine-month grace period of June 1, 2010 to March 1, 2011. However, due to the timing of the institution's determination of the students status change, the 90-day and 150-day grace period notices were not communicated.

Cause

The borrower's loan was deferred due to the student being enrolled in another institution (TMCC), however, the student withdrew from TMCC in May 2010. UNR, however, was not notified until October 2010 by the Clearinghouse as the status change was not uploaded by TMCC to NSLDS until October 2010 as well.

Recommendation

We recommend that Truckee Meadows Community College report student status changes to NSLDS timely in order to ensure that required student loan communications occur as required.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

TMCC Response

Clearinghouse reporting is performed in PeopleSoft out of the Student Records module, and the delivered PeopleSoft Clearinghouse reporting was not functional and required a modification. TMCC reported the student to the Clearinghouse at the end of Spring 2010 on May 27, 2010. At this time the reporting was still performed via the former SIS process. The Fall 2010 Reporting Period was the first time Clearinghouse reporting was performed via the required modification to PeopleSoft. The modification was not completed and installed in PeopleSoft by the normal reporting date of September 7, 2010. The first date we were able to run the Clearinghouse process correctly in PeopleSoft was October 7, 2010.

Performance reports "shall be due 90 calendar days after the grant year: quarterly or semi-annual reports shall be due 30 days after the reporting period." Filing requirements can also be indicated either as a general requirement by the granting agency or specifically in the grant award document.

Condition

We noted that the Desert Research Institute and the University of Las Vegas are not filing technical reports timely.

Context

Testing at the Desert Research Institute identified two out of nine technical reports tested were filed late.

Testing at the University of Nevada Las Vegas identified one out of five technical report tested were filed late.

Questioned Costs

\$0

Effect

Failure to submit required reports timely could potentially cause delay or elimination of federal funding.

Cause

The responsible party did not prepare and submit the report prior to deadline.

Recommendation

We recommend that the Institutions educate those responsible for filing technical and financial reports noting that the lack of timely filing of reports could lead to a delay in reimbursement of grant funds, or a possible loss or non-renewal of the grant.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNLV Response

UNLV has procedures in place to track the timeliness of technical report submission and we will continue to educate faculty regarding the importance of fulfilling our reporting requirements. We successfully implemented a reporting policy November 2010 to increase reporting compliance. The policy includes sending notifications indicating failing to submit reports is a serious issue and can threaten future funding, escalating communications to include Chairs and Deans, and suspending new account set up for principal investigators that have seriously delinquent reports until they fulfill the reporting requirements. In regard to the late report noted, OSP notified the principal investigator of the required report and the importance of fulfilling reporting requirements. The report was submitted shortly thereafter, although it was after the deadline.

FINDING 2011-26 - Equipment and Real Property Management

Federal Programs

Research and Development Cluster

University of Nevada, Las Vegas: CFDA 47.074 (Award IOS-0719551); CFDA 81.046 (Award 30451-32).

Criteria

OMB Circular A-110, Subpart C, .34(f)(1)(ix) outlines property management standards for equipment acquired with federal funds. Among other records, it states "equipment records shall be maintained accurately and shall include" the "date of disposal". In addition, Subpart C, .34 (g) states, when the recipient no longer needs the equipment, the equipment may be used for other activities in accordance with the following standards. For equipment with a current per unit fair market value of \$5000 or more, the recipient may retain the equipment for other uses provided that compensation is made to the original Federal awarding agency or its successor. The amount of compensation shall be computed by applying the percentage of Federal participation in the cost of the original project or program to the current fair market value of the equipment. If the recipient has no need for the equipment, the recipient shall request disposition instructions from the Federal awarding agency. The Federal awarding agency shall determine whether the equipment can be used to meet the agency's requirements. If no requirement exists within that agency, the availability of the equipment shall be reported to the General Services Administration by the Federal awarding agency to determine whether a requirement for the equipment exists in other Federal agencies. The Federal awarding agency shall issue instructions to the recipient no later than 120 calendar days after the recipient's request and the following procedures shall govern.

Condition

We noted that the University of Nevada, Las Vegas did not consistently fulfill these requirements.

Context

Testing at the University of Nevada, Las Vegas identified two equipment disposals out of fifteen tested that may have required communication to the Federal awarding agency. Upon further investigation, it was determined that the equipment had not been actually disposed of and that the equipment records were not accurate.

FINDING 2011-26 - Equipment and Real Property Management - Continued

Questioned Costs

\$0

Effect

The compliance requirement to maintain accurate equipment inventory records was not achieved for certain items.

Cause

The responsible parties failed to identify equipment that was still on property and recorded the items as disposals.

Recommendation

We recommend the Institution evaluate its current process and procedures for equipment and real property management to better incorporate review procedures and ensure accurate records for equipment.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNLV Response

UNLV agrees with this recommendation. Per NSHE Policy each department has custodial responsibility for all equipment within its jurisdiction. Each department is also responsible for reporting all additions, deletions, and material changes in condition of equipment within their unit, to the respective Property Control department.

It should be noted that in each case of the equipment that was recorded as disposed of the department head, through the department's annual inventory process has identified the equipment as being disposed of. In order to help mitigate these misstatement and to assist the departments more effectively, property control has modified the current inventory reconciliation procedures to allow the department to clearly identify the status of the equipment upon completion of the annual reconciliation process.

UNLV property records identify federally funded equipment, but to improve upon monitoring and reporting of disposals/transfers of federally funded equipment, UNLV has modified its current workflow for the process used to declare surplus property. UNLV uses a Property Movement Request (PMR) form that the end user must complete to declare equipment as surplus property. An extra step was added to the process to allow the end user to identify whether or not the equipment was funded from a federal grant and to declare the fair market value (FMV) of the equipment. If the equipment is declared to have a FMV of over \$5000 then a notification is forwarded to OSP for further review to ensure the proper compensation is returned to the Federal awarding agency or its successor.

Nevada System of Higher Education

STATUS OF PRIOR YEAR FINDINGS AND QUESTIONED COSTS - CONTINUED

Year ended June 30, 2012

FINDING 2011-27 - Cash Management - Continued

Criteria

Part III, Section C, Cash Management, of the 2011 A-133 Compliance Supplement states that recipients and subrecipients must adhere to the U.S. Department of the Treasury regulations at 31 CFR part 205, which implements the Cash Management Improvement Act. This requires State recipients to have an agreement that prescribes specific methods for drawing Federal funds for selected large programs. Programs, such as Adult Education, which are not covered by the Treasury-State Agreement, are required to adhere to the procedures prescribed by the Treasury in Subpart B of 31 CFR part 205. Section 205.33 states that the time between the drawdown of Federal funds from the Federal government and their disbursement for Federal program purposes must be minimized. The disbursement must be timed to be in accord with the actual, immediate cash requirements. The timing and amount of funds transfers must be as close as is administratively feasible to the actual cash outlay for direct program costs and the proportionate share of any allowable indirect costs.

Condition

We noted that the College of Southern Nevada completed only one drawdown on May 6, 2011 for the fiscal year ended June 30, 2011. This drawdown requested funds in excess of expenditures to date as well as funds in excess of actual expenditures incurred through June 30, 2011.

Context

College of Southern Nevada did not adhere to applicable cash management requirements.

Questioned Costs

\$0

Effect

The Federal Agency disbursed funds prior to the actual, immediate cash requirements of the program.

Cause

The responsible party was unaware of the requirement to minimize the time between the drawdown of Federal Funds and the expenditures of those funds.

Recommendation

We recommend the Institution train those responsible for leading the adult education program and those responsible for the drawdown of Federal Funds about the applicable cash management requirements.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

CSN Response

The College of Southern Nevada (CSN) concurs with this finding. CSN will review with those personnel responsible for leading the adult education program and personnel responsible for the draw down of federal funds the applicable cash management requirements. Staff will work to ensure that draw downs more closely align with cash outlays.
