Section 2. Excess Credit Fee Procedures

1. As required by Board policy (Title 4, Chapter 17), a 50 percent Excess Credit Fee on the per-credit registration fee shall be charged to a student who has accrued attempted credits equal to 150 percent of the credits required for the student's program of study. The Excess Credit Fee shall be imposed on the per-credit registration fee charged:
 - a. To degree-seeking undergraduate resident and non-resident students; and

- b. At the beginning of any semester that follows an institution's determination that the Excess Credit Fee applies to a student. For example, a student whose program of study requires 120 credits (a standard bachelor's degree) who has accumulated 175 attempted credits prior to the Fall semester and then enrolls in six credits in the Fall semester will reach the 180 credit threshold in the Fall semester. The Excess Credit Fee must be imposed on the student starting in the following Spring semester or in any subsequent semesters.
2. For a student seeking:
 - a. A first bachelor's degree who has previously earned a certificate or associate's degree, attempted credits from those previously earned awards will be included in the Excess Credit Fee threshold calculation.
 - b. A bachelor's degree who has previously earned a bachelor's degree or a higher award, attempted credits from those previously earned awards will not be included in the Excess Credit Fee threshold calculation.
 - c. An associate's degree who has previously earned an associate's degree, or a higher award, attempted credits from those previously earned awards will not be included in the Excess Credit Fee threshold calculation.
 - d. A certificate of at least 30 hours who has previously earned a certificate of at least 30 hours or a higher award, attempted credits from those previously earned awards will not be included in the Excess Credit Fee threshold calculation.
 - e. A certificate of less than 30 credit hours who has previously earned a certificate of less than 30 hours or a higher award, attempted credits from those previously earned awards will not be included in the Excess Credit Fee threshold calculation.
3. The Excess Credit Fee calculation is based on the number of credits required for a student's program of study. If the student's program of study exceeds the standard number of credits for the type of degree or certificate awarded, the calculation must be based on the actual number of credits required for that program of study. For example, if a student is pursuing a Bachelor of Science in Nursing that requires 124 credits, the student is not subject to the Excess Credit Fee until the student has accumulated 186 (150 percent of 124) or more attempted credits.
4. When attempted credits are reported or transferred after the beginning of the semester, these additional credits will not be considered in determining whether a student meets the Excess Credit Fee threshold until the following semester.
5. If a student is approved for a waiver of the Excess Credit Fee upon appeal pursuant to Subsection 8, the institution must issue a refund of any excess credit fee amounts already paid for the term approved for a waiver.
6. The procedures established by the institutions for notifying students who are approaching the 150 percent credit threshold shall also include procedures for notifying students who shall be charged the Excess Credit Fee prior to the start of each semester for which the Excess Credit Fee will be charged.

7. As required by Board policy, institutions shall publicize the Excess Credit Fee policy and must include the following statement in appropriate institutional materials, including course catalogs and websites:

An Excess Credit Fee shall be charged to a student who has attempted credits equal to 150 percent of the credits required for the student's program of study. The amount of this additional fee is equal to 50 percent of the per credit registration fee. Attempted credits include all graded courses on a student's transcript, including but not limited to the grades of F and W (withdrawal) and repeated courses. The fee will be charged, for example, after 90 credits have been attempted towards a 60-credit associate's degree or 180 credits towards a 120-credit bachelor's degree. Exceptions may apply on a case-by-case basis. The fee will be charged in all terms after passing the threshold number of credits until a degree is awarded to the student. Appeal procedures and other exceptions to this fee are outlined in the catalog.

8. As required by Board policy, institutions shall establish an appeals process. Any student subject to the Excess Credit Fee may file an appeal. Within this process, institutions shall utilize the following and may issue a waiver from the Excess Credit Fee:
- a. Administrative Review – If a student files an appeal, the institution shall conduct an administrative review of the calculation used for imposing the Excess Credit Fee on the student, including the number of credits required for the student's program(s) of study and the credits accumulated by the student and included within the calculation. This review must be conducted prior to sending any student's appeal to a committee created pursuant to this Subsection.

Institutions may also elect to conduct an administrative review of the calculation prior to imposing the Excess Credit Fee to confirm the number of credits required for a student's program(s) of study or to exclude the credits listed below.

The institution may designate staff or establish reports or both to conduct the administrative review. Institutions may establish reports that exclude the credits listed below for the purpose of the Excess Credit Fee calculation.

The following credits are subject to exclusion through the administrative review:

- i. Credits earned through examinations for determining credit for prior learning as authorized in Title 4, Chapter 14;
 - ii. Credits attempted while enrolled as a high school student if those credits do not meet the degree requirements for the student's program of study;
 - iii. Credits attempted at an institution outside NSHE if those credits do not meet the degree requirements for the student's program of study;
 - iv. Credits attempted for remedial courses;
 - v. Credits attempted for community service courses; and
 - vi. Credits from previously earned degrees or certificates, as provided in Subsection 2 of this Section.
- b. Subsequent Committee Review – After an administrative review initiated by a student's appeal, if a student still exceeds the 150 percent threshold, the institution shall utilize a committee to review the student's attempted credits and determine any credits that may be excluded from the 150 percent credit calculation.
- c. Multiple Programs of Study – If a student declared more than one program of study (e.g. double major), the calculation for the Excess Credit Fee must be based on the total unduplicated number of credits required for the programs of study.

- d. Academic Standing – Academic standing/progress, including GPA, may be a criterion considered in approving a waiver from the Excess Credit Fee.
- e. Credits Excluded by Appeal – Any credits excluded in the administrative review or by a subsequent committee review shall be excluded for all future terms unless the student changes his or her program of study, does not follow the academic plan reviewed as part of the student’s appeal, or is no longer in good academic standing. In these circumstances, the institution may reevaluate the calculation and any excluded credits. If upon reevaluation the student exceeds the 150 percent credit threshold, the institution shall impose the Excess Credit Fee, and the student may submit a new appeal.
- f. Form for Appeal – Institutions shall utilize the common form developed by the Chancellor’s Office for students to initiate the appeals process. That form shall include an academic plan.

B. INTERNATIONAL STUDENT FEE

The recruitment, admission and advising of international students represents a tremendous cost to the University of Nevada, Reno, and University of Nevada, Las Vegas. The logistical and administrative burdens of international students on the university are complex and expensive. Increased costs of international mailing, phone, facsimile, recruitment, specialized printing, translations and highly trained personnel forces the university to make difficult budgetary choices. These choices often leave international students short of receiving the proper levels of attention.

Because of the limited resources of the Admissions and International Student Office, the need for funding aimed directly at the international students is essential. These funds will be directly used to support programs pertaining to international students. Additionally, it is not proper to use funds dedicated to benefit university student as a whole, to support activities that benefit only international students.

International students will pay a semester International Student Fee. The revenue from this fee will be used to sustain enrollment functions in the Admissions, Graduate, and International Student offices, supporting only international students.

<u>Distribution of Revenue</u>	<u>Amount</u>
UNR	
Admissions Office	\$12.50 per student per semester
Graduate School	\$12.50 per student per semester

- NSC International students are enrolled in UNLV's policy at no impact to costs. It is estimated that up to two international students will enroll in the 2016/2017 academic year.
- CSN (domestic), GBC, TMCC, WNC students have available health services on a voluntary basis through a third party entity. These institutions facilitate the availability of student health services; however, students who contract for these services pay the third pay entity directly.
- CSN International Students purchase mandatory health coverage through a third party entity designated by CSN. Proof of equivalent coverage will be accepted on a limited basis. No fees are paid to CSN.
- Amounts represent total charges and include insurance premium, ACA taxes and fees, broker commission and fees, and institution fees.

¹ Mandatory Coverage definition: when coverage is indicated as mandatory, the student must purchase the coverage or provide proof of equivalent coverage.

- Some NSHE Allied Health and Nursing programs require students provide evidence of coverage. The coverages indicated above may be used to satisfy this programmatic requirement.

H. LATE FEES

- a. Late Registration Fee: A late registration fee of up to \$50 per course may be assessed to students who don't meet the course registration deadline. Late registration fee exceptions may be granted by the institution when registration was delayed due to circumstances beyond the student's control.
- b. Late Payment Fee: A late payment fee of up to \$25 may be assessed for payments received after the payment deadline. An additional fee of up to \$25 may be assessed daily after the payment deadline up to \$250 for past due balances greater than \$100.

Section 12. Special Course Fees

It is the policy of the Board of Regents that the registration fee be the only fee assessed for taking a course except as outlined in this section. The reasons for these exceptions are extraordinary instruction costs due to: (a) individual instruction (e.g., private music lessons), (b) class supplies, course-specific software, and specialized equipment (e.g., welding equipment and materials), (c) third party charges for use of a facility (e.g., golf), (d) special transportation requirements, or (e) extraordinary instructional costs (e.g., intensive supervision, support or additional technical expertise required for the delivery of the course), (f) some combination of these reasons. Responsibility for implementing this policy is delegated to the presidents up to a maximum of \$50.00 per course. Courses requiring fees higher than \$50.00 require Board of Regents approval and are as follows (institutions may charge up to the amount approved):
