Proposed Revision to NSHE Procedures and Guidelines Manual
Chapter 7, new Section 4 and Section 6
November 19, 2021

Timeline Since Passage of SB 109
During 2021 Session, the Nevada Legislature enacted, and Governor Sisolak signed into law Senate Bill 109 (Chapter 489, Statutes of Nevada 2021), which revised NRS 239B to require the collection of data on gender identity and sexual orientation by state agencies whenever they collect data on race/ethnicity. Soon after session closed, NSHE’s Department of Academic & Student Affairs began work on an update to the NSHE Procedures and Guidelines Manual to bring the system into compliance with state law. The original draft of the procedure was vetted with campus diversity officers through the Equity, Diversity and Inclusion Council (EDIC) in June 2021. Based on discussions at EDIC and with individual diversity officers, further revisions were made, including the addition of pronouns. While pronouns are not contemplated in SB 109, the diversity officers as a whole felt strongly that the time was right to begin collecting pronouns.

The subsequent revised draft was shared widely with campuses (human resource officers, student affairs officers, registrars, staff and faculty who were not off contract) in July 2021. At that time, the feedback was collected, and further vetting was put on hold until students and faculty were back on campus. The current version is a response to feedback received, along with further conversations with individual diversity officers. It is important to note that all feedback received to date has been reviewed carefully and incorporated into the current draft wherever possible, but in cases where conflicting feedback existed, diversity officers were consulted for resolution.

Content of Proposed P&G Revision
New Section 4 - Overall
- Responses for each question are listed in alphabetical order so as to not elevate one choice over the other – with the exception of “multiple” and “another,” which appear next to last and second to last, ahead of “prefer not to answer.” This order is deliberate and aims to have respondents read through the entire list before they are given the option not to answer or to choose “multiple” or “another.”
- It is important that the “prefer not to answer” choice be listed as respondents cannot be required to choose a value from the provided list.
- To simplify for reporting purposes, respondents can only choose a single response. However, a “multiple” choice has been included on Questions 2, 3 and 4 to provide flexibility to respondents.
- The procedure applies to students and employees of the system.

Subsection 1
Question 1
- This response to this question will be used wherever “gender” has been traditionally collected. It is the data that will be used when doing official reporting, such as to the U.S. Department of Education (i.e. IPEDS).
- Concern has been expressed regarding the change from “gender” to “sex assigned at birth.” Substituting “sex” for “gender” this question helps to clarify the distinction between sex and
gender identity. Sex is based on biological characteristics while gender is based on socially constructed characteristics. (See Current Measures of Sexual Orientation and Gender Identity in Federal Surveys.)

- Concern was also expressed about including a third category in addition to “Male” and “Female”: [Gender X (defined as Indeterminate/Intersex/Unspecified)]. This value is now used on both Nevada drivers’ license and birth certificates. (See Changing Your Gender in Nevada from the Nevada Department of Health and Human Services and Supporting Intersex Students from the U.S. Department of Education)

Questions 2 & 3

- These questions collect the two data elements required by SB 109.
- The wording of this question was developed based on a survey of best practice. While not all guidance suggests the exact wording used, as stated the question matches the spirit of the various examples by focusing on gender and sexual orientation self-identity.
- The list of options was vetted more than once by diversity officers and also by registrars, HR officers and other administrators, faculty and staff. Feedback was varied and it was not possible to incorporate all suggested values, nor is there a single “best practice” that can be used as a model. See below the statement in subsection 2, which was created to recognize concerns over the lists of identities.

Question 4

- Pronouns were added to this procedure at the request of the Diversity Officers. They see collecting students’ preferred pronouns as a natural extension of collecting gender identity.
- Concern has been expressed regarding the collection of pronouns creating an expectation by students that their chosen pronouns will consistently be used by faculty and staff. We envision a future where every member of the NSHE community will share an understanding of the appropriate use of pronouns. This is a process that will not happen overnight. To assist in these efforts, several campuses have instituted specific trainings and resources on the importance of pronouns, such as Safe Zone. If you are interested in learning more or providing similar resources on your campus, please reach out to your campus diversity officer.
- At this time the list of choices are limited to the traditional male and female pronouns and a single set of gender neutral pronouns. While other choices (such as Ze/Zem) were considered, we settled on the most common three sets, with the intention of campuses periodically surveying students who responded “another” to find out their preferred pronouns for potential additions to the list in future.

Subsection 2

- The statement was added to provide respondents information on the purpose of the collection. In addition, the statement recognizes that the lists are not inclusive of all identities and recognizes that sex, gender identity and gender expression are protected classes in Nevada.

Section 6 – Overall

- Concerns have been expressed over the syncing of gender identity, sexual orientation and pronouns between NSHE institutions as is currently done for other elements of the shared NSHE ID. Specific concerns include protecting student privacy, the possibility that students may prefer to have different identities at different NSHE campuses, and the technical effort required to maintain syncing of data elements. At the same time, there is an understandable expectation by
NSHE students that having a single NSHE ID means not having to update multiple campuses when changes are made to the shared ID record. Sex will continue to be used for general (aggregated) reporting purposes as gender has been in the past. Gender identity and sexual orientation data will be stored securely in PeopleSoft separate from sex; while these fields will also be used for aggregated reporting, campuses have the ability to limit access to such data. Finally, the purpose of collecting pronouns is to share them widely in order to create a more welcoming environment for students. In addition, each of the questions include a “prefer not to answer” option, so students will never be required to respond.
Section 4. Gender, Gender Identity, Sexual Orientation and Pronouns

1. Each NSHE institution shall collect gender, gender identity, and sexual orientation information as required by Nevada Revised Statues (NRS) 239B (as amended by SB 109, Chapter 489, Statutes of Nevada 2021). Institutions shall use the following format to collect such data whenever race and ethnicity data are collected, including on all written and online applications for admission and employment as follows:

Question 1: What is your sex assigned at birth? (check one)

- Female
- Gender X (defined as Indeterminate/Intersex/Unspecified)
- Male
- Prefer not to answer

The “prefer not to answer” response may be omitted from documents used by Human Resources to collect personal data specifically from employees.

Question 2: Which of the following best represents how you think of your gender? (check one)

- Agender, Genderqueer, Non-conforming, or Non-binary
- Man
- Transgender
- Woman
- Multiple gender identities
- Another gender identity
- Prefer not to answer
Question 3: Which of the following best represents how you think of your sexual orientation? (check one)

- Asexual
- Bisexual, Pansexual or Fluid
- Gay
- Heterosexual or Straight
- Lesbian
- Queer
- Multiple sexual orientations
- Another sexual orientation
- Prefer not to answer

Question 4: What pronouns do you use? (check one)

- He/Him
- She/Her
- They/Them
- Multiple sets of pronouns
- Another set of pronouns
- Prefer not to answer

2. Each institution shall include, at minimum, the following statement on materials with which gender identity, sexual orientation, and/or pronouns are collected:

   The Nevada System of Higher Education collects information on gender identity and sexual orientation as required by NRS 239B for aggregated reporting purposes. In addition, pronouns are collected to better serve our students and employees. These lists are not inclusive of all identities, yet will allow for increased demographic data for NSHE and the State of Nevada. According to NRS 233.010, sex, gender identity, gender expression and sexual orientation are protected classes in the State of Nevada.
