Great Basin College

Biography for Roger Quijada
Regents' Scholar Award 2011

Roger came to GBC from Battle Mountain. He graduated Magna Cum Laude in Spring 2010 with his AAS degree in the Network Specialist emphasis and a 3.96 GPA. Roger is currently working toward a BAS-DI degree. Roger has been a student worker and lab aide for the COT Department and was instrumental in helping us set up and configure our new remote access computer lab. This remote access lab cost about the same as a standard computer lab for 24 students, but due in part to Roger's assistance it has been configured with virtual machine software capable of supporting over 100 students who can log in and use professional quality software from anywhere in GBC's service area. Roger is now working part-time in the GBC Computer Services Department. Roger plans a career in computer technology and network management.
