

Western Nevada College

Biography for Curtiss Elliott Regents' Scholar Award 2011

Curtiss Elliott is a 43 year old Nevadan. He is recently married and the head of a blended household that includes six children. His occupational field has been construction; he recently completed his Associate's Degree in Construction Management with a 3.68 G.P.A. Mr. Elliott's academic pursuits are a natural extension of his professional background. Curtiss has taken on many leadership roles, including President of the Nevada Associated Students of Construction, peer mentor and is currently working on an honors project in the Construction Management. His record of community service is extensive.

Curtiss plans to pursue a four-year degree in his chosen field, and to later attain a Master's Degree. His goal is to teach at the college level, and to pass on his expertise to others.
