FOR POSSIBLE ACTION

Pursuant to Board of Regents *Handbook* Title 4, Chapter 1, Section 4, unless otherwise prohibited by law, all books, records and documents, except material related to restricted access research, that are in the custody of an NSHE institution or unit must be made available to Regents for inspection or copying upon request for reasons germane to the performance of their duties as Regents. The policy further provides that if, in the opinion of the Board Chair, requests for information are beyond the production or copying of books, records or documents and require more than a minimal use of an institution's or unit's personnel or resources, the request must be approved by the Board of Regents. The policy does not define "minimal" for purposes of determining when it is appropriate for a request for information to be subject to the prior approval of the Board. This revision would specify that a request that it is anticipated by an institution or unit to require in excess of six hours to prepare is subject to the Board's prior approval. Such approval will occur at a public meeting of the Board.

Existing Board policy also provides that the written response by the institution or unit to approved information requests shall be sent to all Regents, with copies to the Chancellor, the applicable President and the Board office. The proposed revision will clarify that the Regent making the request will be identified when the information is so distributed.
