Business, AAS

[Overview](#) [Program Requirements](#) [Recommended Course Sequence](#)

This program can be completed 100% online.

The Associate of Applied Science in Business is a useful two-year degree that employers see as verification of your capabilities in the business area. You will undertake a broad spectrum of business-related classes that will provide you with a strong foundation of business knowledge.

Outcomes

Students completing the degree will:

- Identify and practice professional skills, including information technology literacy, information literacy, research, writing, and presentations.
- Identify and practice interpersonal/group skills, including interpersonal and teamwork, international perspective, cultural awareness and ethics, and personal responsibility.
- Identify and practice analytical skills, including problem-solving and decision-making in a business environment.

Executive Master of Hospitality Administration

The Master of Hospitality Administration (M.H.A.) degree program is an exciting, self-paced, online degree opportunity for professionals in the hospitality industry. Each course will lend power to your everyday activities as you employ new ideas and draw on time-honored theories. When you complete your professional paper – the culmination of your learning experience – you will take the learning opportunities right into your office as you focus on a challenging issue facing your company.

This program was designed with the busy professional in mind. Offered totally online, this program allows one to live anywhere in the world, work, and travel and still receive a master's degree from an accredited, internationally renowned university.

For information regarding accreditation at UNLV, please head over to [Academic Program Accreditations](#).

[Program Information ↓](#)

SECTION A

Learning Objectives

- Examine the functions of human resource management, with special attention to strategic human resource alliances and developing trends.
- Apply accounting and financial information to executive decision making in the hospitality industry.
- Develop marketing & advertising systems for hospitality industries based on the need to create new markets and the need to respond to significant shifts in social and economic patterns.
- Examine service marketing and management concepts relevant to the hospitality industry and explore how these concepts can be applied to service delivery systems.
- Examine research methods including: scientific method, literature review, sampling, statistics, research design and analytical technique.
- Examine mechanisms and techniques employed in the management of hotel management, convention and meetings management, casino management, or food service management.
- Develop strategies to address the challenges of a specific problem in hospitality management on basis of interest and preparation and apply this to their current work environment.
- Conduct independent research in their major area of work on the analysis of a problem for a hospitality organization.

Program Structure

Classes run continuously throughout the year in five eight-week sessions, and you can begin the program at any time. This 30-credit program is composed of ten, three-credit courses:

- Five required courses
- Four electives
- Professional paper
