**Comment:**

Hello,

My name is Brian Miller. I am a proud member of AFSCME local 4041, and also recently honored to serve on the SEC committee. I wish to express the concerns of classified workers who hope that NSHE and the regents will not leave out classified workers and sister alliance groups within the facility our concerns and in some cases the right to negotiate and bargain for pay that is competitive and the public sector market and education field. I look forward to bringing my own concerns to the table in either agenda items commented on or public comments brought forward by myself, and any one of my respective roles from those whom I am honored to represent. Including less privatized contractors and more jobs proposed for classified workers include trades programs where we can work together using the CWIT program and community colleges as well as pre post-grad. institutions. As well as less pushback and stalling when and if any contract or bargaining was/is/may be made recognized by the State of Nevada.

Thank you.
