Dear Honorable Regents:

I have been the Chairman of the Dean's Advisory Committee at the Business School at the University of Nevada Reno for the last four years. It has been a pleasure working with Dean Mosier and in helping charter the future of the Business School during that period.

I am writing to solicit your enthusiastic support for our proposed new Business School Building and the public/private partnership that will make it a reality. The School of Business has grown exponentially over the last ten years or so, and as such, the School has outgrown its current space. The new Business School will be well suited for the needs of current and future students and will serve the University and the Reno community for many years to come, given your support.

Additionally, the School of Business will be a welcomed addition to the south end of the campus. Its design will draw great interest and create a gateway to the University on the Virginia Street I-80 corridor.

My entire committee joins with me in encouraging your full support of this very worthwhile endeavor for the University.

Sincerely yours,

**George F. Holman
Chairman**
