Motion of Mrs. Henningsen passed unanimously that the Comptroller be authorized and directed to arrange for the conversion.

President Moseley explained that he had asked Dean Creel to get together a group who would go over the work of the University Farms and report to him, and he, in turn, to the President. At 9:45 A.M. the following appeared before the Regents: Dean Cecil Creel, Director F. W. Wilson, Le Grande Walker, V. E. Scott, L. E. Cline, Clarence Byrd. They presented several alternate plans of operation for the combined Farms of the University, the South Virginia Farm and the Ladino Dairy, for the benefit of the students. A discussion was held on the different plans. Chairman Ross thanked the members of the group for their work and for their interest in this University problem. Motion of Mr. Cahlan passed unanimously that the Board of Regents receive these plans and report with thanks and that they accept that portion of the report which reads: "Should it result that no funds, other than Farm income, are available for operation and rehabilitation, your Committee still feels that the University Farm should be withdrawn from lease and operated as a supplement to the Dairy Farm;" and, further, that the lease on the South Virginia Farm be not renewed and that the lessee be given until July 1, 1947, to vacate. At 1:10 P.M. Dean Palmer, Dean Wood and Director Carpenter met with the Regents for the purpose of discussing the Department of Geology - whether, for administrative purposes, the Department should be under the College of Arts and Science, or the College of Engineering. The basis for discussion was the catalogue statement, "For general administrative work the Head of the Department is responsible to the Dean of that College in which his major work appears." It was brought out that a major is now offered in Geology in the College of Arts and Science and a major in Geological Engineering is offered in the College of Engineering. Because of the benefits derived from the Mackay gifts by the Department of Geology and the long standing association of the Department of Geology with the Mackay School of Mines in the minds of Nevada citizens, Director Carpenter requested that the Regents officially declare that the Department of Geology is a Department of the Mackay School of Mines. Dean Wood stated that his only concern was that the Geology Department be staffed with competent faculty members and that the College of Arts and Science continue to be able to offer a major in Geology. Dean Palmer recommended, in view of the unusual set-up at the University of Nevada as regards the School of Mines and the Mackay gifts to the School, including Geology, that the Department of Geology be considered a Department of the Mackay School of Mines in the College of Engineering. Chairman Ross thanked the 3 gentlemen for appearing before the Regents and for expressing their views in regard to the matter before the Regents. Motion of Mr. Sheerin passed, with Regent Hilliard passing his vote and all others voting in favor, that the Department of Geology be placed in the College of Engineering. Deans
Palmer and Wood, and Director Carpenter were called back and were informed of the decision.

President Moseley then brought up the matter of the administrative responsibility of the Dean of the College of Engineering and asked for a clear statement regarding the place of the Mackay School of Mines. It was the unanimous decision of the Board, with Dean Wood and Dean Palmer and Director Carpenter orally concurring, that the Mackay School of Mines is a division of the College of Engineering.

Reporter Bob Trego came into the meeting at 2 P.M. during the above discussion and remained throughout the meeting.

At 2:15 P.M. the following met with the Regents for the purpose of discussing the Athletic Scholarship Committee debt to the University, referred to in Dr. Gorman’s report: George Southworth, President, and Jack Walther, Secretary-Treasurer, of the Downtown Athletic Scholarship Committee; Harry Frost, Joe Sheeketski, Meryl Deming, P. A. Lehenbauer, Joe Mc Donnell and Rex Daniels, of the Board of Athletic Control; Perry Hayden from the Comptroller’s office. A discussion of the Comptroller’s report on the Dining Hall followed and it was agreed that more than $11,000 is now due the University for obligations of the Downtown Athletic Scholarship Committee. Mr. Southworth explained that this obligation would be met during the coming Summer when a campaign for funds would yield enough to cover the indebtedness incurred; and it was found that no misunderstanding existed. Chairman Ross thanked the groups for meeting with the Board.

Reporter Frank McCullough came into the meeting at 3 P.M., during the above discussion and remained throughout the meeting.

Motion of Mr. Hilliard passed unanimously that the bid of Fred Medart Company in the amount of $8,250.75 for bleachers for the new Gymnasium, be accepted.
