The regular meeting of the Board of Regents was called to order by the Chairman in the President's office at 8:10 A.M. on Monday, August 28, 1950. Present were Regents Hilliard, Sheerin, Arentz, Ross, Acting President Parker and President-Elect Love.

Minutes of Previous Meetings

Motion by Mr. Sheerin carried unanimously that the minutes of the meeting of June 10 and 13, 1950 be approved as amended by Colonel Parker in omitting the words "accepted and" in item 8 under Gifts, in view of the fact that the gifts will not be handled through the University.

Motion by Mr. Hilliard carried unanimously that the amendment to the minutes of the meeting of July 8, 1950, as recommended by Colonel Parker, be approved in rewording the last sentence in item 4 of the athletic policy from "in sufficient time to make recommendations to the Board of Regents prior to the Regents' approval of such changes" to read "in sufficient time to make recommendations to the President prior to the submission of such changes to the Board of Regents" to conform to the original intent of the statement.

Motion by Mr. Arentz carried unanimously that the Regents approve the amendment recommended by Colonel Parker that the sentence be deleted in item 5 of the athletic policy, "If a student is allowed to stay in the institution, he is allowed to participate in the activities of the institution", and to remove the quotation marks. (The statement was originally taken from a letter from Stanford University.)

Motion by Mr. Sheerin carried unanimously that, with the above amendments, the minutes of the meeting of July 8, 1950 be approved.
President's Recommendations

1 - Mackay School of Mines

Colonel Parker reported on his search for a Dean for the School of Mines, saying that over 30 names had been considered. Letters were written to various Colleges and Universities asking for recommendations. All recommendations were carefully considered. Several candidates were interviewed.

Colonel Parker recommended that the effective date for the reorganization of the School of Mines be set at a later date than September 1, dependent upon the selection of the Dean.

Motion by Mr. Arentz carried unanimously that no action be taken at this time, but that Dr. Love be authorized to meet with the men concerned and to make recommendation at the next meeting of the Board, but that some attempt be made to get a Dean as soon as possible.

Reporter McCullough came into the meeting at 8:30 A.M. and reporter Crocker at 9 A.M., during the above discussion.

2 - Heating Plant

Chairman Ross, Colonel Parker and Mr. Arentz made progress reports. Colonel Parker was commended for his good work on the project. It was pointed out, that, because of the war emergency and the tightening up of the market, it was necessary to consult with those who framed the legislation to determine the intent of the Act. Agreement was reached and material ordered. Action to date received the unanimous approval of the Board.

Mr. Hayden came into the meeting to take part in the discussion on the Heating Plant.

Mr. Arentz brought up the matter of outside commissions. Dr. Love was asked to get a written statement from Mr. Thompson, heating contractor, that he is not receiving commissions on any material being purchased by the University.

Mr. Springmeyer came into the meeting during the above discussion and was asked for an interpretation on the statement in the law that all unexpended funds will revert to the general fund of the State on the first Monday in January 1951. Mr. Springmeyer stated that all money not actually paid out
on the first Monday in January will revert. Colonel Parker recommended that $1925 which would be due Mr. Thompson upon completion of work after that date be used for carrying the Heating Plant program further than originally planned.

Motion by Mr. Sheerin carried unanimously that, in view of the reversion provision, $1925 of the Heating Plant appropriation be used for the continuation of work in the Heating Plant, starting with the ventilating system in Mackay Science Hall.

Reporter Mc Farland came into the meeting at 9:50 A.M.

Motion by Mr. Arentz carried unanimously that the following contracts with Mr. Thompson be approved:

WHEREAS, the United States Bureau of Mines now located on the Campus of the University of Nevada has been provided, through transfer of 2.24 acres of land to the United States of America, with the necessary site for a new building which will house their activities, and

WHEREAS, the original plans have been expanded to include establishment of the regional headquarters of Region III at this new station, and

Mr. Ross stated that the meeting had been called to discuss the matter of certain repairs and maintenance on the Campus. Mr. Horn submitted estimates on work which he considered necessary at the present time.

After general discussion, the Executive Committee authorized the following:

(1) The expenditure of $400 to refinish the main floor in the new Gymnasium with two coats of finish and with the necessary restriping; with the understanding that the sum will be provided from income received from outside events held in the Gymnasium, and from the claim of $150 filed against the City of Reno for damage done to the floor by the Reno Recreation group.

(2) The expenditure of $200 for refinishing the hardwood floors in the old Gymnasium.
(3) That Hartman Halls be painted on the outside with two coats of paint, together with the windows, doors, steps and screens, at an estimated cost of $1700, said money to come out of the reserve fund from income from the Men's Dormitories.
