The letter from Eugene Menke, Assistant Professor of Electrical Engineering, dated April 10, 1958 and addressed to the Chairman of the Department, was read by Dr. Wood, in which Mr. Menke asked that the letter be considered a formal request for a one year's leave of absence. The letter further stated that he had an offer from the International School of Nuclear Science and Engineering at Argonne National Laboratory and that it was his intent to prepare himself for a position in the "Nevada Nuclear Engineering Program". A review of the case, prepared by Dean Blodgett, was also read and discussed. The review stated that Professor Sandorf, Chairman of the Department,
forwarded Mr. Menke's letter to Dean Blodgett with the notation, "I approve the above request with the understanding that there is no obligation on our part to provide a position for Professor Menke in the Electrical Engineering Department upon his return." On April 15, 1958 Dean Blodgett denied the request for a leave of absence, based upon:

A. Professor Menke did not want to return to the Electrical Engineering Department, and;

B. It was expected that our Nuclear Engineering Program would be headed by a man holding a degree of Doctor of Philosophy, and that at this time the need for an additional man of lessor qualifications had not been determined.

Dr. Wood presented the request of Mr. Menke's without recommendation.

Dean Blodgett was called into the meeting to discuss the matter. He pointed out the indefiniteness of the Nuclear Engineering Program, and the need for a search for a top-flight man to head it, if and when it does become a reality. He doubted that, in the short time Mr. Menke would be studying in the Nuclear field, he could become qualified to head up such a program at the University of Nevada. Mr. Blodgett also stressed the difficulty of getting a qualified man to replace Mr. Menke for one year, and the weakening of the Department if this were to be attempted. Dean Blodgett was asked if he would be willing to have a leave of absence granted for one year to Mr. Menke if a new position were to be created in Electrical Engineering to which Mr. Menke might be assigned, and Dean Blodgett said that he would agree. Dr. Wood recommended that, on the basis of the agreement reached in this meeting, the leave of absence be granted to Mr. Menke.

Motion by Dr. Lombardi, seconded by Mr. Hardy, carried unanimously that the request of Mr. Menke for leave of absence for the academic year 1958-59, without pay, be granted, and that the University Administration be authorized to include in the next biennial budget establishment of an additional position in Electrical Engineering, effective July 1, 1959; and further, that Mr. Menke be advised that he must advise Dean Blodgett by March 1, 1959, whether or not he plans to return to his position in the Electrical Engineering Department.
4. Next Biennium Building Program

Mr. Bissell and Mr. Hancock from the office of the State Planning Board, and Mr. Sutton, Chairman, were present for this item of business. Dr. Wood distributed a proposed list of "Requested Physical Plant Facilities 1959-61 Biennium" for the consideration of the Board, and recommended, on the basis of the study by the College faculties, the Administration and the University Engineer, that the report be accepted as the building needs program for the next biennium and that it be submitted to the State Planning Board for its consideration as follows:

It was agreed informally that additional information be obtained on this method of financing from institutions which have used it.

Motion by Mr. Thompson, seconded by Dr. Lombardi, carried unanimously that the University seek permissive legislation for use of student fees in its revenue bond building program providing that if the Legislature approves the plan, it must replace the amount of the student fees in the operating budget of the University.

7. Momand Portrait

Mr. Robert Taylor Adams, Attorney, Dr. Robert Hume, Professor and Consultant to the law firm of Adams and Reed, Mr. Andrew F. Johnston and Mr. Harry O. Copeland of the Nevada Bank of Commerce, came into the meeting to make formal pre-
sentation of the portrait of Agnes Momand. Professor Keith Macy, Chairman of the Music Department, also, was present. Mr. Adams called on Dr. Hume to make the presentation in view of his dual position with the law firm and with the University.

Dr. Hume said that it was the request of the executors of the Estate that this portrait be presented to the University of Nevada. He than briefly reviewed the circumstances of the bequest, stating that Mrs. Momand felt that Nevada had been good to her and she wished to do something for Nevada. At the suggestion of Attorney Adams, she then included in her Will the bequest to the University.

Dr. Wood recommended acceptance of the portrait.

Motion by Mr. Sawyer, seconded by Dr. Lombardi, carried unanimously that the portrait be accepted and the Secretary instructed to write a note of appreciation to the firm of Adams and Reed for their help in directing Mrs. Momand's attention to the University of Nevada.
