A meeting for opening bids was held in the President's office at 4 P.M. on Friday, August 1, 1958. Notice had duly appeared in local papers calling for bids for Rough Grading for Cattle Feeding Station, Main Station Farm, Reno. Present: Engineer Rogers, Dean Adams, Comptroller Hayden and 2 members of Eckley Construction Company.

Bids were opened by Mr. Hayden as follows:

Helms Construction Company - accompanied by certified check - $5430.48. Work to commence within 10 calendar days and be completed within 30 days.

A letter from the State Engineer stated, "This office becomes involved in matters pertaining to change of point of diversion of water from the natural stream (Truckee River), place of use or manner of existing water rights; therefore, improvements or realignments on the ditch are matters to be taken up with the officials of Orr Ditch Company."

11. Biennial Budgets

Dr. Wood discussed the process by which the budgets were checked and studied since the last meeting of the Board. He and Mr. Hayden met each Dean and Division Head individually, went over the compilation of requests from the faculty
in an attempt to remove errors, inconsistencies and duplications on personnel and equipment. The requests were checked against increased enrollment and expenses of the program, and as a result, certain revisions are here presented. The Regents were given statements of changes for further study, with action on the entire budget to be taken at the next meeting.

The Regents requested that the Deans and Division Heads again review carefully, with the Acting President and the Comptroller, the total budget with a view to possible reduction prior to the final presentation to the Regents at the September meeting.
