The Board of Regents met in the President's Office, Clark Administration building, Reno Campus, on Friday, October 23, 1964.

Present: Regents Anderson, Davis, Hug, Jacobsen, Magee and White, with Regent Germain entering the meeting prior to consideration of Item #4; President Armstrong, Vice President Humphrey and Engineer Rogers. Mr. Walsh, Deputy Attorney General, was present as Legal Adviser, and Mr. Hancock of the State Planning Board was present for the portion of the meeting pertaining to Building Program items. Members of the Press were Mr. Dromiack, Mr. Kauth, Mr. Thomas, Miss Watkins and Mr. Wilson.

The meeting was called to order by Chairman pro tem Magee at 9:10 A.M.
1. Minutes of Previous Meeting

Upon motion by Mr. Hug, seconded by Mr. Jacobsen, and unanimous vote, the minutes of the meeting of September 18, 1964 were approved.

2. Approval of Check Registers

President Armstrong recommended that the Check Registers as submitted by Mr. Humphrey be approved.

Motion by Mr. Jacobsen, seconded by Dr. White, carried unanimously by roll call vote that the Check Registers be approved.

3. Transfer of Funds

President Armstrong reported the following transfer of less than $2000 from the Contingency Reserve:

#52 $459.50 to Nevada Bureau of Mines to pay for final bill for relocation of Temporary Building "B".
President Armstrong recommended approval of the following transfers from Contingency Reserve of $2000 or more:

**#37**  $5372 to Buildings & Grounds, Repairs for remodeling of Mechanical Arts building for Laboratory and Office space for Laboratories of Human Development. $5372 is being supplied by Board of Regents Special Projects account (1-51-4056) and $10,000 by Desert Research Institute.

**#50**  $2000 to Buildings & Grounds, Repairs to provide for cost of installation of heating units at the President's residence.

Motion by Mr. Hug, seconded by Dr. White, carried unanimously by roll call vote that the above fund transfers be approved.

President Armstrong recommended approval of the following transfer of funds:

**#39**  $4210 from Publications & News Service, Classified Salaries to President's Office, Technical Salaries, to provide for the Technical position in the Office.
Motion by Mr. Jacobsen, seconded by Mr. Hug, carried unanimously that the transfer of funds be approved.

President Armstrong presented the following letter concerning the request for transfer of certain funds:

October 14, 1964

Dear Dr. Armstrong:

As you know, I am the Vice Chairman of the Friends of the University of Nevada Library. By and on behalf of the Board of Directors of the Friends, we respectfully request that you present to the Board of Regents, the following proposal:

That the Board of Regents authorize a transfer from the Board of Regents Special Project Fund (1-51-4056) of an amount equal to the interest earned by investment of the available balance of the Book Fund (1-15-4001) since its origin.
It is our understanding that investment of surplus operating capital occurs by Fund Groups and that the interest is not usually prorated back to the individual funds. We would greatly appreciate an exception being made in this case. The size of the Book Fund is significant and the proration of interest earned would be helpful. We assume that it is possible that if this is done the income might be matched by the Fleischmann Foundation.

Sincerely,

Clark J. Guild, Jr.

President Armstrong explained that upon receipt of the above letter, he had referred the request to Mr. Humphrey and had then received the following reply:

October 19, 1964

MEMORANDUM

TO: President Charles J. Armstrong
FROM: Neil D. Humphrey, Vice President-Finance

SUBJECT: Request of Clark J. Guild, Jr. Regarding

Interest for Book Fund

If the Book Fund (1-51-4001) had been invested separately and earned interest at the rate of 3.5% per annum on the average monthly balance since November, 1963, the fund would have earned $2923.85 through September, 1964.

This is, of course, not the way the fund has handled.

It was invested in conformity with Board of Regents policy with other funds as defined. The interest earned was credited to the Board of Regents Special Projects Fund (1-51-4056).

In the discussion following, it was the consensus of the Board that no action be taken on this request until President Armstrong had informally explored the situation to determine the position of the Fleischmann Foundation.

President Armstrong presented the following request for transfer of certain funds:
Effective July 1, 1964, $6000 of Dr. Fletcher's salary is paid to him from 1-13-3013, DRI Project No. 13, Cancer Research. The balance of $9842 is paid from DRI, Fund One. Again this year we are unable to pay from Fund One that portion of the fringe benefits (Retirement and NIC) related to the $6000 part of his salary and Dr. Fletcher informs me that he has no other funds available.

I wish therefore, to recommend that $361.53 be transferred from 1-51-4056, Board of Regents Special Projects to 1-13-3013 to provide $345 retirement premium and $60.35 NIC premium. This will, of course, require Board of Regents action.

Motion by Mr. Davis, seconded by Mr. Jacobsen, carried unanimously by roll call vote that the above transfer of funds be approved.

4. Building Committee Meeting, October 22, 1964

Mr. Jacobsen read and discussed the minutes of the Building Committee meeting as follows:
The Building Committee of the Board of Regents met in the Travis Lounge of the Jot Travis Student Union building.

Present: Regents White, Hug, Davis, Jacobsen, Anderson; President Armstrong, Vice President Humphrey, Engineer Rogers. Mr. Hancock, Mr. Lockard, Mr. Casazza, Dr. Guss and Dr. Worley were present for a portion of the meeting.

The meeting was called to order by Mr. Jacobsen at 3:25 P.M.

1. Mr. Hancock's request to attend Building Committee meetings was discussed. Dr. Armstrong recommended that Mr. Hancock be invited to Building Committee meetings and to Board meetings and that a University representative be invited to Executive Committee Planning Board meetings when University business would be discussed.

Motion by Mr. Hug that President Armstrong's recommendation be adopted, seconded by Mr. Davis. Carried.
2. Review of preliminary plans for the Physical Sciences Project.

President Armstrong read a letter from the Faculty Ad Hoc Committee which recommended approval of the preliminary plans, dated October 20, 1964, with a requirement of further study of arrangement within the spaces. Mr. Lockard explained the plans. President Armstrong recommended approval of the preliminary plans as recommended by the Faculty Ad Hoc Committee.

Motion by Mr. Hug that President Armstrong's recommendation be adopted, seconded by Mr. Davis. Carried unanimously.

3. Disposal of Las Vegas Campus Property, Flamingo Road

Mr. Rogers recommended that the northeast section of this property be the first traded or sold. With the dedication of Swenson Street along the center section line some consideration must be given to the control of the land each side of this street from Flamingo Road to the Campus proper. If the land on each side is retained and is under the control of the Board of
Regents this task will be simplified. This property along Flamingo at Swenson Street should appreciate more in value than that at the northeast corner because the area will be greatly improved when the drain ditch is placed in a concrete ditch. Mr. Rogers explained the possible trade for the Catholic Church property.

Dr. Anderson, Regent, entered the meeting.

Mr. Hancock recommended trade or sale of entire C-1 area on Flamingo Road and, if sale, deposit would be made in Nevada Southern Land Acquisition fund to buy southwest interior land.

President Armstrong recommended that the land in the northeast area be considered first for sale or trade.

Motion by Mr. Hug, seconded by Dr. Anderson, that President Armstrong's recommendation be adopted. Carried unanimously.

It was the consensus of the Board members that possible trade for the Catholic Church land also be pursued.
Dr. Anderson concurred in the action on the Physical Science Project.

4. Report Entitled "Revision of Renewable Resource Program"

Developed by the College of Agriculture

President Armstrong reviewed the previous action by the Building Committee on this request. Dean Bohmont reviewed his letter of request which outlined the method that could be followed to accomplish this project. He stated that the office-conference, classroom area could be accomplished first by use of $100,000 on hand and two grants of Federal Pesticide Facility Matching funds of $23,610 each; later, the two wings could be built and then the research facility could be accomplished.

President Armstrong recommended that Dean Bohmont's proposal be approved.

Motion by Dr. Anderson, seconded by Mr. Hug, that President Armstrong's recommendation be adopted. Carried unanimously.

Meeting adjourned at 4:50 P.M.
Item #1 - Motion by Mr. Jacobsen, seconded by Mr. Davis, carried unanimously that action of the Committee become action of the Board.

Item #2 - Motion by Mr. Jacobsen, seconded by Dr. White, carried unanimously that the recommendation of the Committee be adopted.

Item #3 - Motion by Mr. Jacobsen, seconded by Dr. Anderson, that the action of the Committee become the action of the Board, carried with Mr. Germain opposing and all others voting "aye".

President Armstrong recommended that the Building Committee be authorized to act for the Board of Regents in the matter of any land transaction proposed by the Planning Board concerning the Flamingo Road property.

Motion by Dr. White, seconded by Mr. Davis, carried unanimously that the President's recommendations be approved.
Item #4 - Motion by Mr. Jacobsen, seconded by Mr. Davis, carried unanimously that action of the Committee become action of the Board.

President Armstrong called the Regents' attention to an item carried over from the previous meeting of the Board wherein the Regents had verbally approved the site location of the DRI building with the stipulation that formal action would be taken at this meeting.

Motion by Mr. Davis, seconded by Mr. Jacobsen, that the informal action of September 19 of the Board be confirmed and the recommended site for the DRI building be approved, carried with Mr. Germain opposing and all others voting "aye".

Dr. White expressed a desire to see a land acquisition foundation established to take care of the future land needs for both Campuses. Dr. Anderson concurred and further stated the University should be looking for additional land while it is still available and fairly reasonably priced.

5. 4-H Camp at Lake Tahoe
President Armstrong reported that proposed legislation is now being drafted whereby the status of the camp would be clarified. The University Administration is going over recommendations.

6. At the suggestion of Chairman Magee, Dr. Anderson, who attended the AGB meeting at Chapel Hill, North Carolina, gave a short report of the meeting. Mr. Germain also reported briefly on the session hosted by AGB at the American Council on Education meeting in San Francisco.

7. Progress Report - Building Program

Mr. Rogers presented the following report from the State Planning Board, showing the status of capital improvement projects of the University of Nevada under the jurisdiction of the Nevada State Planning Board:

1. University of Nevada, Reno Campus

(a) Construction Projects

1. Installation of Fluid Mechanics Laboratory,
Engineering-Mines Building. Filing of Notice of Completion is pending resolution of 1 item of work.

2. Connection of Laboratory Benches, Engineering-Mines Building. All work on the original contract has been completed. Additional work requested by the University of Nevada is nearly complete and it is anticipated that Notice of Completion can be filed by October 20, 1964.

Contract is approximately 82% complete.

(b) Design Projects

1. Social Science (History) Building. Preliminary Plans are pending approval by the University prior to being reviewed by the Nevada State Planning Board. It is anticipated that the Architects can be authorized to proceed with the working drawings early in November, 1964. Architect indicates that it will take him 5 to 6 months to complete the working drawings.
We therefore anticipate a bid date in May of 1965. Based on this analysis we have requested the Bonding Commission to delay sale of bonds until March, 1965.

2. Physical Science Building. Preliminary plans are pending approval by University of Nevada. Upon approval of the University and the State Planning Board, contract will be negotiated with the Architect for the design of the Chemistry Classroom portion of this complex. Architect anticipates that 6 months will be required for the completion of working drawings on this portion of the work. Based on this schedule we anticipate a bid date some time in July, 1965.

3. Dormitory. Final plans and specifications are being checked by University and State Planning Board.

4. Physical Education Facilities. Contract No. 2. Documents are out to bid, bid opening date has been established for November 10, 1964.
5. Landscaping, Site Development, Engineering-Mines Building. Contract documents are being checked by the State Planning Board.

6. Crane and Metal Stairway, Engineering-Mines Building. Proposals are being solicited from licensed contractors for the construction of this work.

2. University of Nevada, Nevada Southern

(a) Construction Projects

1. Social Science Building. Project is approximately 50% complete. Contractor has notified this office that he does not anticipate any difficulty in completing the project within the contract time allowed. He has however indicated that there may be some difficulty in occupying the classroom portion of the building as early as anticipated.

2. Water Line to Dormitories. Contract has been
completed pending final sterilization of the
line by the State Department of Health.

Mr. Rogers also presented the following status report of
capital improvement projects under University supervision.

A. Construction Projects

1. Air Conditioning, Laboratory for Human Development -
   95% completed.

2. Installation of Heating Units - 95% completed.

3. Residence, Southern Nevada Field Laboratory,
   Logandale, Nevada - Bids under advisement.

4. Construction of Parking Lots, Las Vegas Campus -
   20% completed.

5. Water Well, University of Nevada - Bids received.

B. Design

1. Crane for Fluid Mechanics Laboratory, Scrugham En-

3. Plantmix Overlay, Lower Campus, Reno - Preparing drawings.

4. Chipseal Campus Streets, Reno - Preparing drawings.

5. Evans Walk, Reno - Preparing drawings.

6. Radiological Laboratory Project, Las Vegas Campus - Final plans and specifications being prepared.

7. Dormitory and Dining Hall, Las Vegas Campus - Final plans and specifications being prepared.

In the discussion following the presentation of the status reports, Dr. Anderson asked if provisions should be made in the new buildings for educational television facilities. Mr. Rogers explained that mixer rooms where possible are
being provided for such purposes and conduits are being placed in the building for later use. He further explained that his office is working with Dr. Potter of Audio Visual Aids to determine the availability of federal funds for educational television purposes.

8. Report of Meeting of Special Ad Hoc Committee on Property Acquisition

Dr. Anderson presented minutes of meeting as follows:

October 5, 1964

The meeting was called to order at 8 P.M. in the President's Office. Dr. Fred M. Anderson presided as Chairman. Present were Regents Proctor R. Hug, Jr. and Grant Davis. Also present were Deputy Attorney General Daniel R. Walsh, University Engineer James D. Rogers and Vice President-Finance Neil D. Humphrey.

Mr. Humphrey reviewed the problems as follows:

1. The Attorney General has issued an opinion that the University can purchase real property with non-ap-
propriated funds, can purchase subject to a mortgage but cannot borrow money.

2. The Board of Regents has authorized purchases within a defined area and allocated $50,000 for this purpose.

3. No property has been purchased yet although four parcels have been offered and appraised. In three cases the property was owned in fee simple and would have required a new mortgage. In one case the existing mortgage was less than 1/3 the value of the property.

4. The First National Bank of Nevada has agreed that it would mortgage this property with the existing owner, but the terms would be 6 1/2% for 15 years.

The consensus was that purchasing property with 6 1/2% encumbrances was not defensible when the University could secure 3 1/2% to 4% money if it had the legal ability. Various alternatives were discussed at length.

It was agreed that the owners of the four parcels under
consideration should be notified that the University is not now able to purchase their property and that legis-
lation should be requested which will: (1) authorize the purchase of property and the borrowing of money for this purpose, and (2) clarify title to all present Uni-
versity property.

Meeting ajourned at 10:20 P.M.

Neil D. Humphrey

Acting Secretary

Motion by Dr. Anderson, seconded by Mr. Jacobsen, carried unanimously that legislation should be requested which would authorize the purchase of property and the borrowing of money for this purpose.

There was much discussion regarding possible acquisition of other land by the University to fulfill future require-
ments. Dr. White again suggested the formation of a land acquisition foundation for just such a purpose. Mr. Hancock then discussed with the Regents a pilot program now underway in the Las Vegas area whereby State, City or County agencies can request from the BLM the withdrawal of certain public
lands to prevent their being patented to private individuals. This land could then be patented to the agency, in this instance the University. Mr. Hancock indicated that Mr. Penny of the BLM is trying to wind up this program by November 15 and if the University has a requirement for this kind of property, a request should be made to the BLM as soon as possible. President Armstrong stated that this tied in with the proposed Natural History Reservation and reported as follows on the letter from Dr. Deacon:

The District Director in Las Vegas asked me to pass along his recommendation that the University of Nevada request a "Protective Withdrawal" for Carpenter Canyon instead of attempting to purchase. He assured me that such action would allow the University to use the area as if they owned it. He feels that this arrangement would put him in a more favorable position to counter possible public opposition.

Following withdrawal, the University would enter into a "Use Agreement" with BLM. This agreement would spell out the privileges, restrictions and responsibilities of both organizations.
Dr. Williams spoke recently with Mr. Melvin Bowman, the holder of grazing rights. He appeared tentatively favorable but wanted to discuss the matter more thoroughly when his lawyer could participate. We will probably have to allow some grazing at certain times of the year regardless of whether purchase or withdrawal is effected.

The final report of the Natural History Reservation Committee recommended purchase....

... BLM spokesmen have stated that should we request a "Protective Withdrawal" BLM local, State and national officials would proceed with haste to withdraw the land and develop a Use Agreement with us.

Motion by Mr. Jacobsen, seconded by Mr. Hug, carried unanimously that the Building Committee, with the cooperation of representatives of the State Planning Board, be given authority to negotiate with representatives of the Bureau of Land Management for acquisition and withdrawal of BLM land in Clark County, and if time limitations require to enter into an agreement with BLM for such acquisition or withdrawal.
9. Report of Bid Openings

President Armstrong presented the following item:

A meeting to open the bids was held in the Office of the
Vice President-Finance, Morrill Administration, at 2:00
P.M., Monday, October 19, 1964. Present were Vice-President-Finance Humphrey, Assistant University Engineer
Whalen, and a member of the bidding firm. The bid notice
had duly appeared in the local papers for DRILLING AND
CASING WATER WELL, UNIVERSITY OF NEVADA, RENO, NEVADA.

Mr. Humphrey opened the only bid received:

ORVIS SCHOOL OF NURSING

Appointment as follows:

Gwynn Rhoads as Instructor in Nursing at a salary of $3480 for the period October 16, 1964 to April 15, 1965 (replacement for Alene Dickinson who is on leave of absence for six months).

Motion by Mr. Jacobsen, seconded by Dr. Anderson, carried unanimously that the personnel recommendations be approved.

Motion by Dr. Anderson, seconded by Mr. Jacobsen, that any additional personnel matters be considered in Executive Session, carried with Germain opposed and all others voting "aye".

12. Citizen's Advisory Committee on Nursing Program
President Armstrong presented the following letter from Mr. 

James R. Harrison, Chairman, Citizen's Advisory Committee 
to the President for University Nursing Programs, request-
ing the addition of several members to the Committee:

In reviewing the members of the Citizen's Advisory 
Committee to the President for University Nursing 
Programs, we have found that there are very few mem-
ers on this Committee from Southern Nevada. It is 
the opinion of the undersigned, along with Miss Elmore 
and other members contacted, that it would be desirable 
to add 10 or 15 additional names to the Committee from 
the Las Vegas area. Not only would it help eliminate 
the feeling expressed by some of the southern members 
that favoritism was shown to the North, but we feel it 
would give additional support to the establishment of 
the Nursing School Program at the Southern Nevada Branch 
of the University of Nevada.

We would appreciate, therefore, your consideration of 
appointing to the Committee at least 10 of the 14 
citizens listed on the attached enclosure, or all 14 
if you so desire. We hope to be able to invite them
to the next meeting which we plan to hold in Las Vegas on October 15.

President Armstrong recommended the appointment to the Committee of the following people:

Lucile Bunder, R. N.
1925 Sweeney
Las Vegas, Nevada

Katie Butler, R. N.
Henderson Basic High School
71 Church Street
Henderson, Nevada

Jane Ebert, Director of Nurses
Southern Nevada Memorial Hospital
Las Vegas, Nevada

Doctor Hugh C. Follmer
829 East Sahara
Las Vegas, Nevada

Dr. Kenneth V. Givens, D. D. S.
820 Gass
Las Vegas, Nevada

Luna Hayes
Nevada T. B. and Health Association
704 South 6th
Las Vegas, Nevada

Tad Holberg
School Administration Building, Student Services
2832 E. Flamingo Road
Las Vegas, Nevada

Dorothy Launders

Las Vegas, Nevada

Attorney William Morris
319 South Third
Las Vegas, Nevada

Neva O'Malley, R. N. Retired (Mrs. Paul C.)
608 South 8th
Las Vegas, Nevada
Motion by Dr. Anderson, seconded by Mr. Jacobsen, carried unanimously that President Armstrong's recommendation be approved.
President Armstrong presented to the Board the following letter from the Nevada Public Health Association:

The results of a year-long study of Nursing needs and resources reported in the publication "Nursing in Nevada 1964: A Reappraisal of Needs and Resources" has been released by the Nevada Public Health Association for distribution to interested individuals and agencies.

The concern for action on implementation of the recommendations has stimulated this letter to the Board of Regents of the University of Nevada requesting cooperation in the following:

Recommendation No. 1: (Grateful acknowledgement is made of the University's leadership in already implementing this action) Begin plans for the development of an Associate Degree program at Nevada Southern University by appointing a Director for the program whose responsibilities would be:

a. To work with faculty of the baccalaureate degree programs at Nevada Southern for the coordination
of general education courses with Nursing courses.

b. To work with hospital Administration and personnel in planning experiences for Nursing students and establishing written agreements for the utilization of facilities for education.

c. To build up the Library for Nursing students.

d. To keep apprised of federal bills and other resources which might aid in adding building to the Campus or bring in other types of support.

e. To work with school Nurses and counselors in recruitment of students.

f. To develop the curriculum. In order to facilitate continuing education of the graduates of an Associate Degree program who might wish to obtain a baccalaureate degree, this planning would best be done in cooperation with the faculty of the Orvis School of Nursing.

g. To seek faculty qualified to teach in a University
h. To engage in any other activities necessary for establishing a sound program.

The presentation of this recommendation to the President and Board of Regents of the University of Nevada is seen as the responsibility of the Executive Committee.

Recommendation No. 2: Immediate plans for expansion of the Orvis School of Nursing be made for an anticipated enrollment of 200 by 1967.

a. Additional staff to total 20 by 1967. At a 1 to 10 student-faculty ratio and with an enrollment of 200, this will be necessary.

b. Need for budgeting for more office space and equipment, for more classroom space and all other expenses contingent upon expansion.

It is suggested that the Executive Committee of the Survey present the findings in this report to the President of the University and the Board of Regents of the
University as justification.

Recommendation No. 9: Immediate thought be given to the possibility of another baccalaureate degree program at the Nevada Southern Campus with first emphasis to be for Registered Nurse students.

Recommendation No. 10: Consideration be given by Continuing Education and Statewide Services of the University to a plan for technical program open to Practical Nurses for developing technical skills to relieve professional Nurses for patient care.

As sponsor of the Nursing Survey, the Nevada Public Health Association gratefully acknowledges the contribution by many organizations and agencies, as well as enlisting support for future action.

President Armstrong recommended the Board review the recommendations contained in the above letter. He noted that the Nevada Public Health Association had acknowledged the action already taken by the University concerning the Associate Degree Program in Nursing and suggested that the Nevada Public Health Association be advised that the Uni-
versity Administration would give careful consideration to
the remaining recommendations in their letter.

Motion by Mr. Jacobsen, seconded by Mr. Hug, carried
unanimously that President Armstrong's recommendation be
approved.

14. Separate Budget for Off-Campus Programs

The following budget for Off-Campus programs, prepared at
the request of the Board at the meeting of September 18,
was presented by President Armstrong with his recommenda-
tion that a separate appropriation be requested from the
Legislature:

Explanation:

The University presently operates an Off-Campus Division as a part of General University Extension. The 1964-65 budget is $28,870 and is entirely dependent upon student fees. The small communities more distant from either Reno or Las Vegas have found it difficult to attract a sufficient number of students to cover the expenses involved. No subsidy has been available, consequently Hawthorne, Winnemucca, Tonopah, Elko, Ely, Panaca and other areas have not been able to have regularly scheduled courses especially desired and needed by public school teachers.

This budget would enable the University to serve all of these areas.

Included are a Director of the Off-Campus Center at Nevada Southern, a Secretary, and approximately $58,000 each year to pay faculty who will travel to communities throughout the State. This subsidy is sufficient to offer two courses per year in six communities which cannot support the present program.
Motion by Dr. Anderson, seconded by Mr. Jacobsen, carried unanimously that the proposed budget be approved and that a separate appropriation be requested from the next Legislature to support the Off-Campus Programs for the coming biennium.

Dean Kelly was present for this item of business. In the discussion following, Dean Kelly reported that the Educational Television Communications Survey was complete and that a report would be presented to President Armstrong within a few days and would be ready for presentation to the Board at their next meeting.

15. Housing and Home Finance Agency Projects

President Armstrong recommended that the following resolutions (required by Housing and Home Finance Agency) concerning the construction of Dining and Dormitory facilities at Nevada Southern, as presented by Mr. Humphrey, be adopted:

Motion by Mr. Germain, seconded by Mr. Davis, carried unanimously by roll call vote that Resolutions #64-9 and #64-10 be adopted as follows:
RESOLUTION #64-9

RESOLUTION #64-10
PROVIDING FOR THE PUBLIC SALE OF THE UNIVERSITY OF NEVADA DORMITORY AND DINING REVENUE CERTIFICATES OF 1964, IN THE PRINCIPAL AMOUNT OF $818,000.00; AND PRESCRIBING DETAILS CONCERNING THE SALE AND THE CERTIFICATES.

Mr. Humphrey suggested that, since the final plans for the Dormitory and Dining Facilities at Nevada Southern and the Radiological Laboratory were not ready for this meeting, the Building Committee be authorized to approve final plans.

President Armstrong so recommended.

Motion by Mr. Jacobsen, seconded by Mr. Davis, carried unanimously that the Building Committee be authorized to approve final plans for the Dormitory and Dining Facilities and the Radiological Lab, with the further recommendation that the entire Board be advised of the date of the meeting at which the final plans are to be presented.

16. Homecoming Day

President Armstrong reminded the Regents of the preparations which had been made by the students for the members
of the Board to ride in the parade on Homecoming Day and informed them of the time and place for forming.

17. President Armstrong briefly discussed his plans for a speaking tour throughout the State for the purpose of meeting with as many people as possible to present the University's future needs and plans for the next biennium. Talks will be made chiefly to service clubs and a "Budget in Brief" will be presented which will set forth problems encountered due to insufficient funds.

18. After considerable discussion on the areas of research now being conducted in all Departments of the University, it was the consensus of the Board that some means should be found by which they might become better informed concerning projects now active at the University and most specifically in DRI.

Mr. Jacobsen moved that the Chairman pro tem be authorized to name an ad hoc committee to undertake a thorough study of the research projects now underway in all areas of the University. There were no dissenting votes.

(Chairman pro tem Magee named the following to the Regents'
ad hoc Committee on Research: Dr. Fred Anderson, Chairman,
Mrs. Richard Magee, Dr. Juanita White and Mr. Grant Davis.)

19. Next Meeting

The next regular meeting of the Board of Regents was set for December 19, 1964 on the Reno Campus.

The meeting adjourned at 2:40 P.M.
