5. Requirements for Masters Degrees

President Miller reported that the Graduate Council of UNR had adopted a proposal to establish an alternative set of requirements necessary for completion of the Master of Arts and the Master of Science Degrees. Each graduate student would have the option of choosing either Plan A, the existing set of requirements, or Plan B which deviates from Plan A as follows:

(1) A minimum of 32 credits of course work carrying graduate credit.
(2) A minimum of 15 credits in courses numbered 900 or above.

(3) At least 15 of the 32 graduate credits must be in a major field of study, with at least 8 credits in a minor field.

(4) Each Department will have the prerogative of establishing additional requirements to those specified above.

President Miller noted that the major differences between Plan A and Plan B are that Plan B will not require a thesis and Plan B will require 32 credits of course work instead of the 24 credits required in Plan A. President Miller recommended approval.

Chancellor Humphrey concurred, noting that the 33% increase in course load caused by increase in credit requirements from 24 to 32 credits will have to be accommodated; however, this will be compensated in part by the deletion of the thesis requirement.

Motion by Dr. White, seconded by Dr. Anderson, carried
without dissent that the above recommendation be approved.

6. Narcotics Testing Laboratory

President Miller presented a proposal from Mr. Tom Carrigan, Administrator, Division of Narcotics and Dangerous Drugs, Department of Parole and Probation, State of Nevada, requesting UNR to establish a narcotics testing laboratory in collaboration with that agency and without cost to the University. President Miller endorsed the request by Dean George T. Smith, School of Medical Sciences, that this be accomplished through the Biochemistry Division. Chancellor Humphrey concurred. (Proposal filed with permanent minutes.)

Motion by Dr. White, seconded by Mrs. Knudtsen, carried without dissent that the above recommendation be approved.

7. Agricultural Experiment Station Property

Dean Dale Bohmont reported that the State Department of Highways is acquiring lands necessary for the construction of the Ring Road in Washoe County and has offered the University $71,130 for 20.28 acres at Main Station Farm. He
recommended that the offer be rejected and a right of entry
granted to the Highway Department, subject to the following
conditions:

(1) Right of way fence to conform to State Highway specifications, Type B woven wire fence. Fencing materials
to include 2'7-1/2" woven wire topped with two barbed
wires fastened to wood and steel posts. Braces to be
8" x 8" treated timber posts with 4" x 4" timber hori-
zontal brace. Fencing to be placed on stock side of
posts. Gates to be 16" minimum, chain link type.

(2) Pump, bases, well casing, and Parshall flumes for
drainage research to be removed by the Highway Depart-
ment with all materials salvaged or replaced. Highway
Department to reimburse the University for the cost of
reinstalling the wells, pump, pump bases and Parshall
flumes.

(3) Irrigation system replacement to be done between Novem-
ber 1 and March 1 to minimize crop loss due to disrup-
tion of irrigation schedules. Pioneer ditch must main-
tain flow for stock water through Winter and full flow
March 1 to November 1.
Dean Bohmont stated that since this is a special use land, similar to Valley Road Farm property, it has a substantially higher value than farm land which is the basis for the Highway Department's offer of $71,130.

President Miller endorsed Dean Bohmont's recommendation. Chancellor Humphrey concurred with the understanding that the Administration would be authorized to negotiate further with the State Department of Highways.

Motion by Mrs. Knudtsen, seconded by Mr. Bilbray, carried without dissent that the above recommendation be approved.

Dr. Lombardi entered the meeting at 9:50 A.M.

8. Proposed Gift of Garden Farms to UNR

Dean Bohmont reported that he is presently negotiating with the owners of "Garden Farms", a 10-acre greenhouse complex in Las Vegas, who propose to give this facility to the University for operation by the Agricultural Experiment Station. He presented color slides depicting the greenhouses and the surrounding land and recommended that he be author-
ized to proceed with the negotiations. President Miller concurred.

Chancellor Humphrey endorsed the above recommendation with the understanding that this matter must come back to the Board for final approval.

Motion by Dr. Lombardi, seconded by Mr. Bilbray, carried without dissent that the above recommendation be approved.

9. Lambertucci Bequest

President Miller reported that the Attorney General had requested the University to execute a deed to the surface rights of a portion of the mining properties bequeathed to the University by Domenico Lambertucci, deceased. In making the request, the Attorney General cited the following background:

Domenico Lambertucci, in his will, gave to the University of Nevada, for use by the Mackay School of Mines, all of his mining properties. He gave to his heirs the surface rights in other tracts adjoining the mining properties. Through usage, a portion of the surface
rights which were utilized as the Lambertucci Ranch overlapped the mining properties bequeathed to the University of Nevada.

At the time of the hearing on the Petition for Distribution in the Lambertucci Estate, the apparent conflict caused by this overlap was resolved by agreement. By the terms of that agreement, the University would deed to the Executor of the Estate that portion of the mining properties which overlapped the surface tract and constituted the Lambertucci Ranch within an existing fence. The lands described in Parcel No. 1 of the Deed are those referred to above.

The agreement further provided that the surface rights to the Hidden Gem claim would similarly be deeded to the Executor for the benefit of the heirs, with two exceptions:

First, the University, for access, is to retain all rights to a portion of the claim consisting of approximately 3 acres adjacent to the highway.

Second, many years ago, Domenico Lambertucci per-
mitted two persons, Mary Ann Czarevitch and A. C. Anderson, to build homes on the claim. The court's order authorized the Executor, upon receipt of the Deed, to convey to each of these persons a specifically described portion of the claim on which their homes are situated.

When this Deed is executed, and such conveyances thereafter made by the Executor to the heirs and to Mrs. Czarevitch and Mr. Anderson, all in accordance with the order of the court, the estate will be in a position to be closed and the Executor discharged.

Dean Scheid recalled in January the Board had accepted a bid from the Hughes Corporation to sell the mining leases. The University's right to sell is being contested; however, the execution of this Deed has nothing to do with that action. A portion of the surface rights will be transferred. That portion does overlie part of the property being sold to Hughes but the bidders were notified of that condition in the process of advertising. Mr. Walsh stated that he was aware of the details in this matter and recommended this as the appropriate course of action. President Miller and Chancellor Humphrey recommended approval.
Motion by Mr. Bilbray, seconded by Mr. Seeliger, carried without dissent that the above recommendation be approved.

10. Scholarship Reports

Chancellor Humphrey recalled that the Board had requested a report on all scholarship funds and the manner in which they are expended. In compliance with that request, he noted that two reports concerning scholarship awards for 1969-70 had been transmitted with the agenda. One report was prepared by Dr. John Standish, Director of Financial Aids, UNLV and one prepared by Dr. Robert Mc Queen, Chairman, Scholarships and Prizes Board, UNR. He also noted the inclusion of a report concerning the Bob Davis Scholarships which had been prepared by the Chancellor's Office with assistance from UNR and UNLV (all 3 reports are filed with permanent minutes).

President Zorn commented on the report from UNLV, pointing out that as a young institution UNLV has not been able to generate a lot of scholarship funding. These are important aspects of developing incentive for student quality and raising the caliber of the student body generally, he noted.
UNLV needs considerably more funding in this area, he said.

The salient thing this report brings out, he stated, aside from the quantitative factor, is that most of the individual grants are financed by off-campus groups who, for the most part, select their own recipients. The number of scholarships that are awarded by the Scholarship Committee is small in reference to the number of all awards. Dr. Zorn stated that the Scholarship Committee is quite concerned about this and is concerned also about the quality of access to scholarships in all sectors of the Campus. Sometimes there have been proposals that the scholarships be assigned by quota to Colleges; however, Dr. Zorn said that he believed that talent which needs encouragement does not come by quota but by individuals, and needs individual evaluation.

Dr. Zorn noted that the recent addition of Bob Davis Scholarship has added significantly to the funds available for UNLV students, providing approximately half again as many awards as had previously existed.

Dr. Zorn continued his comments by stating that he believed the report is useful in that it points up the inadequacy of scholarship funds and also highlights the University's efforts to provide assistance to the economically and culturally disadvantaged student, noting that of a total of 153
scholarship awards at UNLV, totaling $54,877.25, 47, or a
total of $17,600, were made to this group. He pointed out
that the first year of the Bob Davis Scholarships had been
an experimental year with limited guidelines and no way in
which to predict the success of the program. Based on the
experience during this first year, Dr. Zorn stated, the
Scholarship Committee has recommended that henceforth the
Davis Scholarships be awarded on a semester-to-semester
basis and that a level of achievement be established so
that there must be a performance approaching an average
grade of C for continuation in the award.

President Miller commented on the report from UNR, noting
that he would not repeat the material contained in the
report since the covering narrative by Dr. Mc Queen was so
complete. He did stated that the narrative draws attention
to certain aspects of the Scholarship Program which deserves
continuing attention.

Dr. Miller noted that, as at UNLV, UNR also has been through
an experimental year with the Davis Scholarships. He re-
called that the Davis Scholarships had been divided into 3
parts with up to $50,000 allocated to an Educational Op-
portunity Program which was implemented in 1969-70. The
second and third parts of the Davis Scholarships were approved later in the year for implementation when funds were available and it is anticipated that this will occur in 1970-71.

Dr. Anderson recalled that he had asked for the report on scholarship monies and the ways in which they were expended because he believed there was an inadequate overall plan for their administration. He also pointed out that directions of the Board of Regents had not been followed in the administration of the Davis Scholarships in that a number of awards had exceeded the $1000 limit placed on the individual scholarships. Dr. Anderson stated that he had a number of suggestions which he believed would aid in the improvement of the Scholarship Program. He submitted the following recommendations, asking that they be referred to the Presidents and to the Director of Community College Division for review and later discussion:

All scholarships and prizes and fee and tuition waivers for the University of Nevada Reno Campus, except when designated otherwise by the Board of Regents and the Administration, shall be supervised and administered by the Scholarship and Prizes Board of the University
of Nevada Reno Campus. Candidates for scholarships, prizes and fee or tuition waivers shall be nominated by the appropriate Administrative Officer, College or other Division or Department Officers in accord with stipulated directions or other regularly formulated guidelines.

1. The Scholarship and Prizes Board shall administer the Davis Fund to conform with the following guidelines. The Director of the Educational Opportunity Program or others may nominate culturally or educationally or economically deprived students for Davis Scholarships. Such use of the Scholarship and Prizes Board would allow for consistent consideration of these students, and would provide for the existing, experienced organization of the Scholarship and Prizes Board to be used. This will free time of the Director of EOP so that he will be able to devote additional effort to tutorial assistance of minority students, helping them find and keep part-time jobs together with general counseling of this group.

2. Davis Scholarships shall be for one semester at a
time and the recipient shall be registered for at least 12 credits. Davis Scholarships shall be for students who are substantially full-time and monies shall not be advanced beyond one semester.

3. Scholarships shall not be awarded to a student whose cumulative grade point average is below 2.0 or whose most recent semester grade point average is below 2.0. To award a scholarship to a student who is not making his grades is nothing but misplaced welfare, is of no real advantage to the student and deprives other students of needed scholarship money.

4. Davis recipient students should be Nevada residents, with highest priority given to those born in Nevada and graduating from Nevada high schools and second priority to those not born in Nevada but who have graduated from Nevada high schools. The logic of this rests both in stated terms of the Davis bequest and the fact that we should give financial scholarship assistance to those persons in Nevada who need it before bringing in people from out-of-state. The Nevadans concerned would usually not be eligible for similar scholarships in other states.
5. Scholarships shall be limited to $500 per semester at the most. This would provide for payment of the consolidated fee ($217.50), books (estimated $50 to $75) and still leave $208 to $233 for incidentals.

Those students who do not have additional needed income should be able to work part-time, the same as other students, for board and room. The program under these conditions would take less money for an equal number of students then previously. This would leave more money for general scholarships, and probably even more of the minority and other disadvantaged students who need help and can do College level work could still be taken care of.

6. At times additional limited use shall be made of additional in-state tuition fee waivers in numbers to be recommended by the President and approved by the Board of Regents, to provide assistance for special circumstances or situations where it is not possible to provide adequately through existing sources. Examples might be re-entry to employment as teachers, nurses, etc., that need some financial
help for refresher courses or might be able to achieve equity for Colleges with fewer scholarships than average.

7. Any new scholarship or prize money made available to the University shall be administered to honor the terms or desires of the donor. When no terms or desires are expressed, guidelines for their administration shall be established by the Administration and the Board of Regents.

8. There should be encouragement throughout the University to seek more scholarship and prize money or unrestricted gifts but efforts should be worked out and be coordinated with the office of the Director of Development.

Mr. Jacobsen referred to the report on the Davis Scholarships, expressing interest in the fact that approximately 1/3 of the recipients at UNR had actually had an increase in their grade point average at admission and that approximately 1/2 of those reflecting an increase began the period with a grade point average below 2.0. Perhaps, he said, some analysis should be made to determine if the
students who are being helped are those who can be expected
to ultimately bring themselves to a level where they are
doing acceptable work. He also suggested some considera-
tion be given to the desirability of awarding EOP on a
semester to semester basis. He asked that his comments be
included in the review requested from the Presidents and
that a report be brought back to the Board at an early
meeting.

Mr. Bell asked the Presidents what they would consider a
reasonable date for a report of this nature.

President Miller stated that although he recognized that it
would be administratively awkward, he would wish to have
until the October meeting before returning with a report.

President Zorn stated that the October meeting would be
desirable for his Campus also; however, he said he believed
that UNLV already complies with the criteria suggested by
Dr. Anderson. He noted that the Scholarship Committee has
already recommended that scholarships be awarded on a
semester-to-semester basis and has established a 3.0 grade
point average requirement.
Chancellor Humphrey asked the Presidents what problems they
would anticipate with this timing in view of the fact that
scholarships for the Fall semester would already have been
awarded. He suggested that it be specified that the Fall
scholarships would be awarded only to those students who
are making satisfactory progress toward a degree.

Dr. Zorn stated this would cause no problem for UNLV. Dr.
Miller also stated that it would cause no problem for UNR
since such problems would normally occur at the end of the
first semester. Dr. Miller added that for the record he
wished to point out that exceptions made with respect to
the amount of stipend and the continuation of students in
the EOP were made with his knowledge and approval.

Mr. Jacobsen moved that the recommendations submitted by
Dr. Anderson be made a part of the minutes and be referred
to the Presidents for review with a report back to the
Board in October, at which time they be adopted as a state-
ment of policy. Motion seconded by Mr. Seeliger.

Dr. Barmettler stated that since there are a number of stu-
dents enrolled in non-degree problems who are interested in
receiving scholarship assistance, perhaps it would be unfair
to specify they must be making satisfactory progress toward

a degree. Chancellor Humphrey agreed and suggested it might

be better phrased as specifying they maintain a grade point

average of not less than 2.0

Dr. John Wellinghoff, Administrative Assistant to the ASUN

President, read the following excerpt from the accreditation

report of UNR by the Northwest Association:

Financial Aids (Loans, Scholarships, Prizes, Waivers)

The program includes all the forms of financial aid

found in comparable institutions. While the amounts

available are limited, this is true for most insti-
tutions. Nevada appears to be no worse off than many,

and in a more favorable position than some.

The most unfortunate feature of the program is its un-
sophisticated organization and operation. Clearly, the

institution does not meet the financial aid standard

for accreditation. Scholarships and waivers are admin-
istered under an Academic Department. The Office of

Financial Aids handles loans and part-time employment.

There appears to be little coordination and cooperation.
The common and most acceptable practice is for the Financial Aids Office (including scholarships and waivers) to be centralized and to have the authority to use all forms of student assistance at the College. Programs, policies and procedures are guided by the faculty but centrally administered. Through centralization and sound policies, it should be possible to grant a loan, scholarship, tuition or fee waiver, part-time job, or any combination of these to a worthy student.

While the present Financial Aid Office operates on the need principle in awarding loans and part-time jobs, the office responsible for scholarships and waivers does not believe in the principle. In selecting scholarship and waiver recipients it was reported to the effect that "selection can be based on scholarship only since financial need is exceedingly difficult to determine." As a result, scholarship stipends for Washoe County students are usually $250 and $500 for those from other counties. Apparently it is not understood that student need can be accurately assessed through national programs of the System of the American College Testing Program. It is conservatively estimated that more than 1000 collegiate
institutions rely on these programs to help determine student need, and that these institutions control more than 80% of the scholarships awarded. This does not mean that scholarships are being awarded without consideration of scholarship. Certainly, the prime consideration in selecting scholarship recipients should be academic excellence; however, the stipends should be based on need. Such a program stretches limited scholarship funds and provides greater benefit to worthy students.

Apparently the present arrangement causes much duplication of effort through separate applications for various types of aid, and a heavy use of some faculty time in administrative duties. For entering Freshman applications that go out to high schools, it is common to have a single application that can be used for all forms of financial aid. Some have incorporated this form with the application for admission.

In view of the findings, it is suggested that:

1. Careful consideration be given to reorganizing the financial aid program under a central office.
2. A student Financial Aid Committee, broadly representative of faculty and students be established to set policies and procedures.

3. Financial need be considered in setting scholarship stipends as well as loan amounts.

4. A uniform financial aid application be designed.

Mr. Wellinghoff stated that the ASUN supports the recommendations reflected above and asked that it be given consideration during the review which has been requested.

Mr. Jacobsen agreed and expanded his motion to provide that it be included in the Presidents’ review.

President Miller noted that the recommendations of the Accrediting Committee have not been ignored. Dr. Mc Queen agreed and also noted that the Scholarships and Prizes Committee meets in the Spring and immediately thereafter the Financial Aids Office is informed of the awards which are approved. That office is then able to incorporate these figures into the information on which decisions for
financial aid are based.

Motion carried without dissent.

Mr. Bell asked for an expression from the Board concerning the award of scholarship monies to students with a grade point average below 2.0.

Mr. Jacobsen moved that the Administration be permitted to continue awarding Educational Opportunity Program grants to students below 2.0 grade point average, pending further review of the Scholarship Program in October, and providing that the award of these grants be reviewed at the end of the first semester. Motion seconded by Mr. Bilbray, carried without dissent.

11. Awards of Bids, UNR

A. Mr. Pine reported that bids were opened June 23, 1970, for the baseball field sprinkler system. Two bids were received:

<table>

<tbody>
<tr>
<td>Savage &amp; Son, Inc.</td>
<td>$13,000</td>
</tr>
<tr>
<td>Warren's Lawn Sprinkling Co.</td>
<td>12,989</td>
</tr>
</tbody>
</table>
President Miller recommended award of the bid to Warren's Lawn Sprinkling. Chancellor Humphrey concurred.

Motion by Dr. Lombardi, seconded by Dr. White, carried without dissent that the above recommendation be approved.

B. Mr. Pine reported that bids were opened June 12, 1970, for a Digital Laser Raman Spectrophotometer for the Chemistry Department. Funds are available from a National Science Foundation grant. Bids received were:

Spectra-Physics, Inc., Mt. View, Calif. $29,377
Jarrell-Ash, Waltham, Mass. 30,215
Spex Industries, New Jersey 33,790

Mr. Pine stated that although the bid of Spectra-Physics, Inc. was lower, the Chemistry Department considered the equipment offered by Jarrell-Ash to be superior and recommended the bid be awarded to that firm.
President Miller recommended approval. Chancellor Humphrey concurred.

Motion by Dr. White, seconded by Mr. Jacobsen, carried without dissent that the above recommendation be approved.

C. Mr. Pine reported that bids were opened June 19, 1970, for graduation diplomas on a five-year contract. This was requested by the Department of Admissions and Records and funds are to come from diploma sales account. Bids received were:

UNR

The Welch Diploma Co., Skokie, Ill. 2.43-1/2 ea.
Autrey Bros., Denver, Colorado 3.15 ea.

ELKO COMMUNITY COLLEGE

The Welch Diploma Co., Skokie, Ill. 2.82 ea.
Autrey Bros., Denver, Colorado 3.15 ea.
President Miller recommended award to Clint Lee Company.

Chancellor Humphrey concurred.

Motion by Mr. Seeliger, seconded by Dr. Lombardi, carried without dissent that the above recommendation be approved.

D. Mr. Pine reported that bids for dairy products were opened June 22, 1970. 3 identical bids were received, each in the amount of $27,853.29. Mr. Pine recommended that each bidder receive the business for 2 months at a total of $9,194.43. Bidders were Beatrice Foods, Crescent Dairy and Model Dairy, all of Reno. Mr. Pine noted that prices on dairy products have a minimum price established by the State Dairy Commission.

President Miller recommended approval. Chancellor Humphrey concurred.

Motion by Dr. Lombardi, seconded by Mr. Jacobsen, carried without dissent that the above recommendation be approved.
E. Mr. Pine reported that bids for 82 items of groceries were opened June 23, 1970. Bids were as follows:

Abbot Supply, Sparks

  low on 36 items $7,081.44

Monarch Foods, Reno

  low on 36 items 6,402.21

Milani's Fine Foods, Los Angeles

  low on 2 items 1,157.50

M & R Distributing, Sparks

  low on 5 items 800.85

Laura Scudder, Reno

  low on 1 item 309.00

Standard Brands, Reno

  low on 2 items 60.20

  Total for 82 items $15,811.20

Mr. Pine recommended award to the low bidders on each specified item. President Miller and Chancellor Humphrey concurred.

Motion by Mr. Ronzone, seconded by Mr. Seeliger, carried without dissent that the above recommendation be approved.
F. Mr. Pine reported that an A. B. Dick, Model 385, re-
production press for 17-1/2" x 22-1/2" paper has been
on lease purchase agreement and recommended that author-
ization be granted to exercise the option to purchase at
this time for $7390.30. Monies are available within
the budget of Central Office Services.

President Miller recommended approval. Chancellor
Humphrey concurred.

Motion by Mr. Bilbray, seconded by Dr. Lombardi, car-
rried without dissent that the above recommendation be
approved.

12. Report on Progress of University Projects

A report from the Director of Physical Plant on the status
of all capital improvement projects under the supervision
of UNR was transmitted with the agenda. A similar report
from the State Planning Board was distributed. (Both
reports are on file in the Chancellor's Office.)

13. Change in Name and Function of the College of General and
President Zorn reported that the UNLV Curriculum Committee and the Faculty Senate have approved a plan to change the name of the College of General and Technical Studies to the College of Allied Health Professions. The purpose of this request was outlined by Dean Dwight Marshall in a letter, as follows:

The College of General and Technical studies requests Curriculum Committee and other appropriate review to change the name of this academic subunit to "College of Allied Health Professions". We intend to concentrate our educational program on medically related curriculum, now commonly called Allied Health Professions throughout the United States.

We will concentrate on baccalaureate level education, offering only those less-than-baccalaureate programs which require special faculty or equipment used to offer baccalaureate degrees in one of the allied health areas. We will offer a limited number of graduate degrees in the allied health fields, but do not expect to bring these forward until the latter half of the 10
year planning period.

The emerging Community College System will relieve us of the responsibility, placed by Faculty Senate action in 1964, for offering less-than-baccalaureate programs in vocational-technical areas. We would like to be in a position to assist the Community College in its orderly development. This may include appropriate arrangements to transfer selected programs from this College to the Community College as it develops. In any event, the change recognizes the urgent need for local preparation of baccalaureate individuals to serve the health needs of the community.

Pending appropriate review, certain changes have been projected. It is our intention to effect a transfer of the Law Enforcement Program to the College of Social Science at the earliest possible time. We have discontinued the offering of the Associate Degree in Design Technology and Fire Sciences. We will continue to offer coursework until such time as the Community College is prepared to absorb these offerings. Other similar changes are being discussed and will be implemented as needed in order to redirect this academic subunit as
detailed above.

President Zorn endorsed the request of the College of General and Technical Studies and recommended approval. Chancellor Humphrey concurred with the further stipulation that in recognition of the fact that the College is no longer offering the Associate Degree in Design Technology and in Fire Science, authority for those degree programs be formally rescinded.

Motion by Dr. White, seconded by Mr. Bilbray, carried without dissent that the above recommendation be approved.

(Item numbers 14 through 19 not used.)

20. State Suit Against Nevada Association of Chiropractic Medicine

Chancellor Humphrey reported that by telephone poll (8 affirmatives, unable to contact 3) the Board had authorized the University to enter into a suit, in cooperation with the State Board of Education and the Attorney General, against Nevada Association of Chiropractic Medicine.
Mr. Walsh stated that the suit had been filed but since he was prohibited from publicly discussing the case, he would prefer to make his report in Executive Session.

Motion by Mr. Jacobsen, seconded by Dr. White, carried without dissent that this discussion be transferred to the Executive Session agenda.

21. Purchase in Excess of $5000, UNLV

President Zorn reported that bids for office furniture for the new Chemistry building were received June 19, 1970 as follows:

<table>
<thead>
<tr>
<th>Company</th>

</tbody>
</table>

Dr. Zorn stated that the Chemistry Department had recommended the deletion of item No. 11, conference table, and item
No. 13, utility racks, as being unacceptable. With the deletion of these items, the bids are as follows:

Sarrets Office Equipment Co. $12,083.62
Business Machines Company 14,434.62
Sears, Roebuck and Co. 12,211.37
Hart-Cobb-Carley 22,144.61
Armanko Office Supply Co. 13,147.28

President Zorn recommended the bid be awarded to Sarrets Office Equipment Co., with the exception of items No. 11 and 13 for a total purchase from that firm of $11,841.95. He recommended that item No. 11, conference table, be purchased from Hart-Cobb-Carley in the amount of $432.38 and item No. 13 be purchased from All Steel Equipment Company in the amount of $1887.05. Total of order would be $14,161.38.

Chancellor Humphrey recommended approval.

Motion by Mr. Bilbray, seconded by Dr. White, carried without dissent that the above recommendation be approved.

22. Sabbatical Leave Subsidy, DRI

Mr. Warburton requested that $3500 be allocated to DRI from
discretionary funds to finance the sabbatical leave authorized for 1970-71 for DRI. He noted that sabbatical leaves are financed by the Department involved, aided by allocation of $3500 of institutional money. The sabbatical leave account (of $3500 per leave) is budgeted each year by UNR and UNLV. When the 1969-71 budget for DRI was prepared, no consideration was given to requesting the $3500 allocation since DRI participates with the Community College Division, University Press, Computing Center and Chancellor's Office for the one leave available. Chancellor Humphrey recommended the request be approved and the money transferred from the Board of Regents Special Projects Fund (1-4-26-3002).

Motion by Dr. Lombardi, seconded by Mr. Bilbray, carried without dissent that the above recommendation be approved.

23. Skill Training Center

Director Donnelly reported on the progress of the search for a facility in Las Vegas in which to house the MDTA Skill Training Center. He noted that he had, at the request of several of the North Las Vegas Officials, inspected a number of alternative sites and had reinspected the facility under consideration by the State Department of Education which is
located at 301 South Highland Drive. Representatives of the Department of Education of the North Las Vegas community accompanied him on the inspection trip. The State Department of Education has recommended the facility at 301 South Highland Drive be leased and Dr. Donnelly reported that he concurred in the selection. He requested the concurrence of the Board.

Chancellor Humphrey endorsed the recommendation, noting that there had been no further contact from the North Las Vegas community following the inspection of alternative sites and therefore it was assumed they did not wish to pursue an alternate location.

Motion by Mr. Seeliger, seconded by Mr. Bilbray, carried without dissent that the Board concur in the selection of the facility at 301 South Highland Drive as the location for the Skill Training Center.

24. Candidates for Graduation

Chancellor Humphrey reported the following figures which reflect the number of degrees awarded by the University of Nevada System for the period July 1, 1969 through June 30,

President Miller and President Zorn presented the June list of graduates from UNR and UNLV, as approved by the faculties of each of the Colleges and by the Presidents. (List of graduates filed with permanent minutes.)

25. Approval of Lease-Purchase in Excess of $5000

Chancellor Humphrey reported that Mr. Niels Anderson, Director of the Computing Center, has requested approval of a lease-purchase agreement with American Data Systems, Inc., for the following:

<table>
<thead>
<tr>
<th>Description</th>
<th>Monthly Lease Price</th>

</tr>
</tbody>
</table>

Chancellor Humphrey noted that the Sigma 7 is available to the University System by means of telephone lines, batch
terminals and time-share terminals located where needed.

A batch terminal and time-share terminals are installed at
UNLV. The equipment requested by Mr. Anderson for lease
is necessary for most efficient use of the terminal system
and will allow a single telephone line to serve 18 users
simultaneously and allows processing of batch jobs at the
same time.

Chancellor Humphrey noted that the equipment request has
been approved by the Data Processing Policy and Planning
Board. He endorsed the request and recommended approval
by the Board.

Motion by Mr. Bilbray, seconded by Mr. Ronzone, carried
without dissent that the above recommendation be approved.

26. Admissions Policy for Applicants with Criminal Records or
Psychiatric Problems

Chancellor Humphrey recalled that in September, 1969, the
Board adopted a policy statement on admission of applicants
with criminal records or psychiatric problems. This policy
statement was distributed as Faculty Policy Bulletin #69-8.
He noted that although the policy had been recommended to
the Board through administrative channels, it had not been
referred to the faculty. Subsequent to its adoption, UNR
and UNLV Faculty Senates reviewed the policy statement and
recommended that it be rescinded and a substitute policy
adopted. This recommendation had been endorsed and present-
ed to the Board for consideration at its May meeting. At
that time, he noted, the Board tabled the matter, instruct-
ing that it be submitted to the Attorney General for legal
review. During the course of his review the Attorney Gen-
eral had requested advice from Warden Carl Hocker, Nevada
State Prison, and Dr. Robert J. Mc Allister, Superintendent,
Nevada State Hospital. The Attorney General's response, to-
gether with the letters of advice from Warden Hocker and Dr.
Mc Allister, were transmitted with the agenda and are filed
with permanent minutes identified as Ref. O and Ref. P.

Chancellor Humphrey also recalled that the Regents had ex-
pressed concern over the proposed deletion of the question
pertaining to prior arrests and the complete elimination of
admission assistance and counseling for students who had
been hospitalized for psychiatric treatment. The desirabil-
ity of separating the regulation for the two groups was
understood. He recommended that this matter be referred to
the Faculty Senates with the request that the reservations
expressed by the Regents, and the opinions of the Attorney General, Warden Hocker and Dr. Mc Allister be considered.

The Presidents concurred in the recommendation.

Motion by Mr. Jacobsen, seconded by Dr. Anderson, carried without dissent that the above recommendation be approved.

27. Further Revision of Time Payment Policy

Chancellor Humphrey recalled that in June the Board adopted a new policy for time payment of fees, tuition and board and room charges which would allow for two substantially equal payments; the first upon registration and the second by Friday of the 5th week of instruction, with a grace period of 5 working days. Non-payment of the second installment will result in cancellation of registration. Mr. Humphrey reported that President Zorn and President Miller have recommended that the present time payment fee of $3 for time payments of less than $150 and $5 for time payments of $150 or more be discontinued, but that the fee of $1 per day for payment during the grace period be continued. Mr. Humphrey endorsed the request and recommended approval by the Board.
Motion by Mr. Bilbray, seconded by Dr. White, carried without dissent that the above recommendation be approved.

28. Revenue Bond Resolutions

Chancellor Humphrey recalled that at the June meeting the Board had approved a negotiated sale of $3.5 million of revenue bonds to finance construction of the College of Education building, UNLV and the Physical Science, Phase II, UNR. He reported that the sale had been successful and appropriate resolutions had been prepared by Dawson, Nagel, Sherman and Howard, bond attorneys, for adoption by the Board to formally approve the sale.

Mr. Humphrey noted that a problem had arisen during the review of the resolution concerning the Education building, UNLV, and requested Mr. Mark Dawson, Budget Officer, to comment.

Mr. Dawson explained the procedure followed in estimating revenue, noting that it has been determined that UNLV needs $525,000 to provide the necessary 125% of coverage and is short that amount by $63,000. In order to accommodate this situation, Mr. Dawson suggested either of the
following three alternatives:

(1) Assess $3 per credit capital improvement fee to all UNLV students in self-supporting programs (i.e., Evening Division and Summer School);

(2) Raise the fees for full-time regular students; or

(3) Wait a year to sell the bonds.

President Zorn said he did not believe that UNLV could afford to delay a year. He suggested that of the 3 alternatives, it would be preferable to assess the $3 per credit fee to Summer Session and Evening Division students. He noted that a capital improvement fee is assessed all other students, including part-time day students, and this would have the effect of equalizing the burden. Chancellor Humphrey agreed with this alternative and recommended that the assessment to Evening Division students become effective Fall, 1970 and to Summer Session students in Summer, 1971.

Motion by Mr. Bilbray, seconded by Dr. White, carried without dissent that the Evening Division students at UNLV be
assessed $3 per credit capital improvement fee, effective Fall, 1970 and Summer Session students be assessed a similar fee effective Summer, 1971.

Mr. Dawson noted that this action by the Board will require the resolution to be amended as follows: The last two paragraphs of Section (69) beginning page 42 should be changed to read as follows:

The designated Capital Improvement Fee now consists of $42 per academic semester for each full-time student; and $3 per credit for each part-time day student and Evening Division student for any attendance at the University of Nevada, Las Vegas, for the regular academic year of two semesters; and $3 per credit hour for each Summer Session student. A "full-time student" course in any semester consists of at least nine (9) credit hours, and a "part-time day student" course in any semester consist of not more than eight (8) course hours.

Chancellor Humphrey recommended approval of the amendment and adoption of Resolution #70-3.
RESOLUTION NO. 70-3

A resolution authorizing the issuance by the Board of Regents of the University of Nevada of the University's obligations designated as the "University of Nevada, Las Vegas, Student Fees Revenue Bonds, Series August 1, 1970", in the principal amount of $1,600,000, for the purpose of defraying wholly or in part the cost of constructing and otherwise acquiring for the University a College of Education building on the Campus of the University of Nevada, Las Vegas, and acquiring equipment and furnishing therefor and other appurtenances relating thereto; providing the form, terms and conditions of the bonds, the manner of their execution, the method of their payment and the security therefor; providing for the disposition of revenues derived from certain fees and other charges from students using or being served by, or having the right to use or to be served by, the Student Union building facilities at the University of Nevada, Las Vegas, and from other facilities of the University; prescribing other details concerning such bonds and such facilities, including but not limited to covenants and agreements in connection therewith; ratifying action heretofore taken toward acquiring such
College of Education building facilities and issuing
such bonds; providing other details relating thereto;
and repealing all resolutions in conflict herewith.

Motion by Mr. Jacobsen, seconded by Mr. Ronzone, carried
without dissent that the above resolution be adopted as
amended.

Chancellor Humphrey noted that the resolution for the reve­
nue bonds for the Physical Science, Phase II, had been re­
ceived too late for adequate staff review. He recommended
its adoption subject to review by the Chancellor's Office.

RESOLUTION NO. 70-4

A resolution authorizing the issuance by the Board of
Regents of the University of Nevada of the University's
obligations designated as the "University of Nevada,
Reno, Capital Improvement Fee Revenue Bonds, Series
August 1, 1970", in the principal amount of $1,900,000,
for the purpose of defraying wholly or in part the cost
of constructing and otherwise acquiring for the Univer­
sity Chemistry and Lecture buildings of the Physical
Science Building Project, Phase II, on the Campus of
the University of Nevada, Reno, and acquiring equipment
and furnishing therefor and other appurtenances relat-
ing thereto; providing the form, terms and conditions
of the bonds, the manner of their execution, the method
of their payment and the security therefor; providing
for the disposition of revenues derived from certain
fees and other charges from students attending the
University of Nevada, Reno, and from other facilities
of the University; prescribing other details concerning
such bonds and such facilities, including but not limit-
ed to covenants and agreements in connection therewith;
ratifying action heretofore taken toward acquiring such
Chemistry and Lecture building facilities and issuing
such bonds; providing other details relating thereto;
and repealing all resolutions in conflict herewith.

Motion by Mr. Ronzone, seconded by Mr. Bilbray, carried
without dissent that the above resolution be adopted.

The meeting adjourned for lunch with an Executive Session to
follow immediately. The regular session reconvened at 2:45
P.M. with all Regents and staff present as at the morning ses-

sion.
Upon motion by Mr. Bilbray, seconded by Mr. Ronzone, the two following items were added to the agenda:

29. Valley Road Farm Condemnation

Chancellor Humphrey reported that for minute purposes he wished to report on the progress of the Valley Road Farm condemnation proceedings. He noted that the legal action involving the condemnation by the State Highway Department of 8.6 acres of Valley Road Field Laboratory has been completed. The District Court ruled that this is special purpose property and that the Board of Regents is under a duty to replace the facility being taken. Chancellor Humphrey further reported that the trial to determine the value of the property, based on the concept of special purposes, is scheduled for August 31, 1970.

30. Bank Signature Authority, ECC

Dr. Donnelly requested the following signature authority for Elko Community College bank accounts:

Nevada National Bank - Elko Branch
Petty Cash Account  Elmer Kuntz

(Imprint Fund - $500  Hobert Sturn
reimbursed from UNR  Sue Ballew
Revolving Fund)

Depository Account  Henry Hattori

Edward Pine

Dan Pease

Chancellor Humphrey recommended approval.

Motion by Mr. Bilbray, seconded by Mr. Ronzone, carried

without dissent that the above recommendation be approved.

31. 1971-73 Biennial Budget Request

Chancellor Humphrey opened the discussion on the 1971-73

Biennial Budget by noting that the final budget would not

be submitted until August after which it would be due, by

law, in the Governor's Office by September 1. He referred

to the document transmitted with the agenda, noting that it

was a draft and a summary of requests received from the four

Divisions and that it explained the methods used in develop-
ing the requests. Chancellor Humphrey stated that it was
considered desirable for the Board to have an opportunity for review of the budget in its preliminary stages. Hopefully, this review would then make it easier to digest the completed document in August. He also pointed out that modifications to the document may be agreed upon by the Administration. If agreement is not reached, the Division request and the Chancellor's recommendation will be presented in August.

Chancellor Humphrey reviewed the draft document, following the format of the document itself (document is on file in Chancellor's Office). He noted that the requests for 1971-73, which have not been adjusted or cut, totals $74,894,477, an increase of $33,858,920 or 81.3% over the present biennium.

Chancellor Humphrey also reviewed the resources required to finance the 1971-73 budget request, noting that if the same rate of support from student fees and tuition were to be maintained in 1971-73 as in the current biennium, a 35% increase would have to be effected by some combination of advance in registration fees and tuition.

Chairman Bell requested comments from the other officers.
President Miller stated that he had nothing to add to the presentation. President Zorn also declined comment but agreed to respond to questions as did Directors Ward and Donnelly.

In the discussions following there were expressions of concern over the size of the budget request and the University's chances of having this kind of increase favorably considered by the Legislature.

Mr. Jacobsen suggested that it would be difficult to support an 81% increase in the budget with a projected increase in enrollment of 14.5% at UNR and 30% at UNLV.

Dr. Anderson agreed, stating that, assuming each request to the document could be justified, it was not realistic to expect the Legislature to approve it totally and the Regents should be prepared to do some adjusting. Mrs. Knudtsen agreed.

Chancellor Humphrey emphasized again that this is a summary of requests and, therefore, is different from the final recommendations which will be submitted in August. He also noted the inclusion of new programs, such as the two new
Community Colleges, within the totals. Responding to a question as to how much of an appropriation the University could except, Chancellor Humphrey stated that he had been authorized by Mr. Howard Barrett, Director of the Department of Administration, to release his very tentative estimates of revenue for the coming biennium. Mr. Barrett has estimated that the general fund revenue will increase from $188 million in the current biennium to $218 million in the 1971-73 biennium. Therefore, Mr. Humphrey stated, if the University continues to realize the same level of support from the Legislature as it did in the current biennium (17.5% of the total general fund revenue), and if other revenue increases proportionately, the University could expect an increase of approximately $6.5 million in its work program for 1971-73.

Mr. Humphrey also stated that the officers of the University fully understand that the outlook for an 81% increase in funding from the Legislature is not optimistic. He pointed out that this request does not include his recommendation and does not reflect the final recommendation of the Presidents or Directors in some instances because they have transmitted their requests without benefit of knowing what is occurring in other Divisions and are now in a
position to modify their requests.

Mr. Humphrey closed his comments by stating that he believed the purpose of asking for this preliminary review had been served, and a revised document would be available at the August meeting which would reflect the final recommendation for 1971-73 budget request.

The meeting adjourned at 3:30 P.M.
