7. Graduation List, UNR, August, 1970

President Miller presented the list of UNR students who
completed all degree requirements for graduation August
25, 1970 (list filed with permanent minutes).

8. Change in Degree Requirements

President Miller presented a recommendation, with his en-
dorsement, for a change in requirements for baccalaureate
degrees in Chemical Engineering, Metallurgical Engineering
and Mining Engineering, from 130 to 128 credits, plus
satisfactory completion of the Physical Education and Mili-
tary Science requirements, to be effective Spring, 1971.

Chancellor Humphrey recommended approval.

Motion by Mr. Seeliger, seconded by Mr. Bilbray, carried
without dissent that the above recommendation be approved.

9. Accreditation of Nevada Technical Institute Programs
President Miller reported that the Engineers' Council for Professional Development has extended full accreditation to 4 programs offered by Nevada Technical Institute:

   Associate Degree in Electronics Technology

   Associate Degree in Engineering Design Technology

   with options in Public Works, Mechanical Design

   and Architecture

President Miller stated that he believed that this recognition of NTI's programs after only 4 years of operation was truly a mark of distinction.

10. Matching Funds for Student Loans

President Miller reported that $6342 will be required at UNR during the Fall semester 1970-71 to provide the 1/9 matching funds for the Nurses Student Loans and National Defense Student Loans. He recommended the necessary funds be provided by transfer from the David Russell Loan Fund (1-1-070-3001). Chancellor Humphrey recommended approval.

Motion by Mr. Bilbray, seconded by Mr. Jacobsen, carried without dissent that the above recommendation be approved.
11. Raymond J. Hock Memorial Fund

Dr. John Ward reported that Mrs. Raymond J. Hock (Dr. Hock was a UNLV faculty member and was killed in the Grand Canyon during the Summer) has requested that a memorial fund be established within the Desert Research Institute to which she and friends of Dr. Hock within the scientific community might make contributions. He stated that Mrs. Hock has requested that funds received from this source be used for the benefit of the Environmental Patho-Physiology Laboratory under the direction of Dr. Bruce Dill.

Chancellor Humphrey recommended approval.

Motion by Mr. Bilbray, seconded by Dr. Lombardi, carried without dissent that the above recommendation be approved.

12. Graduate Orientation Program

Chancellor Humphrey recalled that in June the Board of Regents allocated $1500 to UNR, UNLV and DRI, to fund 3-day orientation sessions in September and prior to the start of the 1970 Fall semester "to be conducted by each Division in a manner to be determined by the Division's
Director John Ward reported on the program conducted within DRI, President Zorn and Vice President Baepler reported on UNLV's program and President Miller reported on the program conducted by UNR. (Written reports on file in Chancellor's Office.)

Chancellor Humphrey noted that the orientation programs were conducted as an experiment. He stated that it appeared they were sufficiently successful that it would be worthwhile to continue and suggested that the Administration present a recommendation at a later meeting concerning funding for similar programs next year.

13. Approval of Purchases in Excess of $5000, DRI

A. Dr. Ward reported that the following bids were received for the purchase of radar equipment for the Pyramid Lake cloud seeding project:

   Bayaire Avionics, Inc. $16,200
   Qualitron West, Inc. 16,383
   Lear Motors Corporation 14,955
Dr. Ward stated that he had, acting under authorization granted by the Board in August, approved the purchase of this equipment from Lear Motors Corporation. Chancellor Humphrey recommended confirmation of purchase.

Motion by Mr. Bilbray, seconded by Dr. White, carried without dissent that the purchase be confirmed.

B. Dr. Ward reported that bids were requested from the Super Vacuum Company, North American Weather Consultants, Olin, Inc., and Wilson Weather, for the purchase of cloud nuclei generators. Evaluation of the bids resulted in the purchase of:

Two Cloud Nuclei Generators from North American Weather Consultants at $5500 ea. $11,000

One Cloud Nuclei Generator from Super Vacuum Company 2,800

Total $13,800

Dr. Ward noted that the two generators purchased from American Weather Consultants were selected because the
location planned for the generators necessitated the
use of a battery operated generator. The generator
selected from Super Vacuum Company has a readily avail-
able power supply at its location. He stated that
generators offered by the other bidders were determined
not to have the performance qualities of the generators
selected. Chancellor Humphrey recommended confirmation
of the purchases as presented.

Motion by Mr. Jacobsen, seconded by Dr. Anderson, car-
rried without dissent that the above recommendation be
approved.

14. Extension of Research Program

Dr. Ward recalled that at the January, 1970 meeting the
Board of Regents accepted the recommendation of the DRI
National Advisory Board and instructed that all work in
Plasma Physics be discontinued as of June 30, 1970. Sub-
sequent to this date, a grant was offered to DRI in the
amount of $19,320 to support Dr. Winterberg's research in
this area. The grant was recommended for acceptance to the
Board at the May meeting but carried a retroactive date of
Dr. Ward recommended that in view of the fact that Dr. Winterberg's grant runs until September 11, 1970, the Board of Regents modify its action to extend the date of discontinuance of the Plasma Physics Program from June 30, 1970 to September 11, 1970. Chancellor Humphrey recommended approval.

Motion by Dr. Lombardi, seconded by Dr. White, carried without dissent that the above recommendation be approved.

15. Request for Right of Way

Mr. Pine reported that the City of Reno has requested a right of way for the extension of Rock Boulevard to connect with Boynton Lane near the south boundary of the Main Station Farm. He recommended the City be granted right of entry, with appraisal of the land and negotiations of the case now pending with the Highway Department concerning Valley Road Farm. He further recommended that the right of entry be granted with the following stipulations:

1. Land in southwest corner to be filled to road level;
(2) Curb and gutter and paving to be installed at no cost to the University;

(3) Access permitted to the highway by the University;

(4) Fencing to be installed at no cost to the University and to University specifications.

President Miller and Chancellor Humphrey recommended approval subject to approval of the right of way document by the office of the Attorney General.

Motion by Mr. Bilbray, seconded by Mr. Ronzone, carried without dissent that the above recommendation be approved.

16. Approval of Repair and Remodeling Projects, UNR

A. Mr. Pine reported that bids were opened August 26, 1970 for remodeling the north portion of Mackay Science Hall for the School of Medical Sciences.

Rogers Brothers Company, Inc. $ 8,245

Dave Pearce 11,793
President Miller reported that acting under authority granted by the Board in August, he had approved the award to Rogers Brothers Company, Inc. Funds are available from the UNR Capital Improvement Fee Fund. Chancellor Humphrey recommended confirmation of the award of the contract.

Motion by Mr. Bilbray, seconded by Dr. Lombardi, carried without dissent that the above recommendation be approved.

B. Mr. Pine reported that bids were opened September 14, 1970 for painting the second and third floors of the north end of Mackay Science Hall.

Under authority granted by the Board in August, President Miller approved award to Tom Johnson, Inc. Funds are available from the UNR Capital Improvement Fee Fund. Chancellor Humphrey recommended confirmation of the award of the contract.
Motion by Mr. Bilbray, seconded by Dr. Lombardi, carried without dissent that above recommendation be approved.

17. Physical Science Complex, Phase II, UNR

Mr. Pine reported that bids were opened September 29, 1970 for Phase II of the Physical Science Complex (Physics building). A compilation of the bids was distributed (filed with permanent minutes).

Mr. Pine recommended that the Board of Regents recommend to the State Planning Board that the Mc Kenzie Construction Company base bid plus alternates A and B, in the total amount of $2,546,800 be accepted, subject to concurrence of the Department of Health, Education and Welfare, Office of Education. President Miller recommended approval. Chancellor Humphrey concurred.

Motion by Mr. Jacobsen, seconded by Dr. Lombardi, carried without dissent that the above recommendation be approved.

18. College of Education Building, UNR
Chancellor Humphrey recalled that in early Summer, arrangements were made to sell $3.5 million of University revenue bonds for the UNLV College of Education building and the UNR Physical Science Project, Phase II. These bonds were sold to local banks and individuals but, at that time, it was not possible to sell more than $3.5 million and, therefore, not possible to include the UNR College of Education building even though authorization had also been received for that project.

Chancellor Humphrey stated that the sources of revenue for this project include $2 million of UNR revenue bonds. It is assumed that to sell a University bond issue, the terms must be 15 years at 7% interest, the same as the Education building, UNLV, and the Physics building, UNR. The debt service and coverage required on $2 million at the assumed terms would be $275,000 per year.

At the present time, he noted, UNR has $59,000 of uncommitted coverage available, leaving $216,000 additional coverage needed. With the existing Capital Improvement Fee policy, it would require an increase in the assessment of $22 per semester to provide the needed coverage.
Chancellor Humphrey outlined the following alternative which he suggested would provide the needed $2 million and not require an out-of-pocket increase in fees to the students:

$500,000 from cash on hand in the Capital Improvement Fee account which has been encumbered for possible land acquisition could be released and plans to purchase additional land postponed. This $500,000 and the remaining unencumbered balance in the Capital Improvement Fee Fund of $300,000 could be committed to the College of Education building, thereby reducing the amount needed from revenue bonds from $2 million to $1.2 million. The amount of debt service and coverage needed to retire a $1.2 million issue under the assumed terms is $164,700 per year. This leaves $105,700 of debt service coverage needed ($164,700 - $59,000). If ASUN, with Board of Regents concurrence, pledges an additional $11 per student per semester of the ASUN fee to the Capital Improvement Fee, the needed coverage can be provided.

Chancellor Humphrey noted that previously $9 of the ASUN fee had been pledged to sell the Physics building bond
issue. If this course of action is followed, $20 of the $27.50 ASUN fee will have been pledged to the Capital Improvement Fee Fund. However, he stated, it is important to note that the Capital Improvement Fee generates sufficient funds to pay the needed debt service and the ASUN fee will be used merely to provide the needed coverage.

Mr. Pete Moss, ASUN representative, stated that they were fully informed of the implications of this action and supported the pledging of the ASUN fee in this way.

President Miller stated that he fully concurred in the suggested alternative presented by Chancellor Humphrey.

Chancellor Humphrey recommended that:

1. A total of $20 of the ASUN fee of $27.50 be cross-pledged to provide coverage for revenue bonds;

2. The Administration be authorized to attempt to negotiate the sale of $1.2 million of revenue bonds;

3. $800,000 of the UNR Capital Improvement Fee fund
be pledged to this project.

Chancellor Humphrey pointed out that preparations for a public sale could be initiated; however, the process would probably take until the January meeting. In the meantime, attempts can be made to negotiate a sale with local banks.

Motion by Mr. Seeliger, seconded by Mrs. Knudtsen, carried without dissent that the above recommendations be approved.

Mr. Seeliger added that he believed the students should be commended for their very responsible action in assisting in the development of an alternative that would permit the Education building to proceed.

19. Approval of Purchases in Excess of $5000, UNR

A. Mr. Pine reported that bids were opened September 3, 1970 for 12 study carrels for the School of Medical Sciences. Bids were solicited from 16 suppliers but only one bid was received.

Chism School Supply, Reno $ 5,907.92
Acting under authority granted by the Board in August,

President Miller approved the purchase from Chism

School Supply. Funds are available from Kellogg Foundation grant. Chancellor Humphrey recommended confirmation of the purchase.

Motion by Mr. Bilbray, seconded by Mrs. Knudtsen, carried without dissent that the above recommendation be approved.

B. Mr. Pine reported that the Animal Science Division of the College of Agriculture had requested the purchase of 197 tons of selected alfalfa hay for delivery within two weeks to the Knoll Creek Station. Staff of the College had visited a number of farms and ranches and had recommended purchase of the first and third cuttings from the Charles Sheppard ranch in Twin Falls, Idaho at a cost of $30 per ton for a total purchase of $5910.

President Miller recommended approval. Chancellor Humphrey conurred.

Motion by Mrs. Knudtsen, seconded by Mr. Bilbray, carried without dissent that above purchase be approved.
C. Mr. Pine reported that bids were opened September 24, 1970 for canned fruits and vegetables for the Dining Commons. He recommended that contracts be awarded to the following based on low bids received on the specified items:

<table>
<thead>
<tr>
<th>Supplier</th>

President Miller and Chancellor Humphrey concurred.

Motion by Mr. Jacobsen, seconded by Mr. Bilbray, carried without dissent that the above purchase be approved.

20. Approval of Transfer of Funds

President Miller requested approval of the following transfer of funds:

$18,000 from UNR Summer Session Contingency Reserve as follows:
$3,000 to wages to provide funds for Work Study students.

$1,500 to fringe benefits to provide funds for Health Insurance premiums.

$500 to out-of-state travel to provide transportation for field trips for Summer Session courses.

$13,000 to operating.

President Miller noted that the Summer Session covered expenses of the School on Alcohol and Drug Abuse. The program was not included in the original budget. It was self-supporting and receipts exceeded the estimate by $18,000. Chancellor Humphrey recommended approval.

Motion by Mr. Bilbray, seconded by Dr. Lombardi, carried without dissent that the above recommendation be approved.

21. Progress of University Projects

A report on the progress of UNR Capital Improvement projects under the supervision of the Director of Physical Plant was
distributed with the agenda. A similar report from the State Planning Board was distributed at the meeting. Both reports are on file in the Chancellor's Office.

22. Appraisal of 4-H Property at Lake Tahoe

President Miller presented a request from Dean Dale Bohmont, College of Agriculture, that Mr. William G. Kimmel be retained to appraise the 4-H Camp facility at Lake Tahoe in order that information might be used in developing recommendations for use of the property.

Motion by Mr. Jacobsen, seconded by Mr. Bilbray, carried without dissent that further discussion of this recommendation be tabled until 2:00 P.M.

23. Memorial Resolution for Mr. Sid Johnson

Upon motion by Mr. Seeliger, seconded by Dr. Lombardi, the following resolution was adopted in memory of Mr. Sid Johnson:

RESOLUTION NO. 70-7
Sidney Daniel Johnson had many friends and admirers among both faculty and students at the University of Nevada in Reno, all of whom grieve at his untimely death.

Mr. Johnson was born March 7, 1934 in Carthage, Missouri, and was educated at Southwest Missouri State College in Springfield, Missouri, Long Beach City College in California and San Francisco State College in California. He was associated with the Signal Corps of the United States Army from March, 1954 until January, 1956. He joined the staff of the University of Nevada in the Fall semester of 1969 and held the position of lecturer in Philosophy until his death on August 21, 1970.

He was a congenial person and a man of great promise as a scholar. His many friends from across the University, his Department and his College all extend their sincerest condolences to his parents and his widow.

24. Curriculum Advisory Committees for Occupational Programs for Community Colleges
Dr. Donnelly requested authorization to appoint curriculum advisory committees for existing programs at Elko Community College and for the development of new programs planned for the Western Nevada Community College and Clark County Community College. Dr. Donnelly reviewed the objectives of occupational programs and the functions of such advisory committees (see Ref. L, filed with permanent minutes).

Chancellor Humphrey recommended approval.

Motion by Mr. Jacobsen, seconded by Mr. Bilbray, carried without dissent that the above recommendation be approved.

25. Clark County Community College Advisory Committee

Dr. Donnelly recommended that the Clark County Community College Advisory Committee be expanded from its present membership of 6 to 11. Chancellor Humphrey concurred.

Motion by Mr. Jacobsen, seconded by Dr. White, carried without dissent that the above recommendation be approved.

President Zorn presented a list of UNLV students who completed all degree requirements for graduation September 1, 1970 (list filed with permanent minutes).

27. Memorial Resolutions

Upon motion by Dr. Lombardi, seconded by Mrs. Knudtsen, the following memorial resolutions were adopted:

RESOLUTION NO. 70-8

The Regents of the University of Nevada System express sorrow over the death of Mrs. Travis Gonzalez, 56, a member of the University of Nevada, Las Vegas Library staff.

Mrs. Gonzalez began with the University in 1966. She had previously taught in the Clark County School District. Mrs. Gonzalez worked with government documents for the first few years and then transferred to the Book Processing Department.

Enthusiasm for a job well done and an eagerness to try something new were Mrs. Gonzalez' special trademarks.
The University and its Library staff is saddened by the loss of a valued colleague. The Board of Regents extends its sympathy to the Gonzalez family.

RESOLUTION NO. 70-9

The Regents of the University of Nevada System express sincere sorrow over the death of Dr. Raymond J. Hock, 52, Professor of Zoology in the Department of Biological Sciences at the University of Nevada, Las Vegas.

Dr. Hock was a relative newcomer to UNLV, having joined the Biology faculty in 1969 following a distinguished research career with government, University, and industrial laboratories. A world authority on the physiology of animal hibernation, his studies on adaptation of animals to extreme environments led him to the cold of Alaska, the high altitudes of the Sierra, the exotic demands of long-term undersea existence, and finally the heat of the Nevada desert.

During his short stay at the University he introduced a new dimension of quality to the teaching of Physiology, participated actively in curriculum affairs, and sought
new directions for the establishment of research pro-
grams and field laboratories. His untimely accidental
death in the depths of the Grand Canyon cut short the
promise of continuing benefit to the University from
Dr. Hock's presence. The Board of Regents extends its
sincere sympathy to the surviving members of his family.

28. Transfer of Law Enforcement Program

President Zorn recalled that in July, the Board approved a
recommendation that the College of General and Technical
Studies be redesignated as the College of Allied Health
Professions. In recognition of its change in mission,
authority to offer the Associate Degrees in Design Tech-
nology and Fire Science was withdrawn from the College.
President Zorn noted that intention to transfer the Law
Enforcement Program, which offers an associate degree was
also discussed. He stated that the determination has now
been made that it would be appropriate that this program
be administered by the College of Social Science through
the Department of Anthropology-Sociology and the College
be authorized to grant the associate degree. Chancellor
Humphrey recommended approval.
Motion by Mr. Bilbray, seconded by Mr. Ronzone, carried
without dissent that the above recommendation be approved.

29. Approval of Purchase in Excess of $5000, UNLV

President Zorn reported that bids were opened in August
for the purchase of 4 electronic calculators to be pur-
chased by the College of Science and Mathematics. Bids
were:

EBM Co., Las Vegas $ 5,382.00
Monroe, Inc., Las Vegas 6,002.50
Wang, Tewksbury, Mass. 6,220.00
Hewlett-Packard, Albuquerque 19,630.44

Dr. Zorn noted that the College of Science and Mathematics
had recommended that the bid of Monroe, Inc., be accepted
because the equipment offered by EBM Co. did not meet
specifications. Accordingly, acting under authority grant-
ed by the Board in August, he had approved the purchase
from Monroe, Inc. Chancellor Humphrey recommended confir-
mation of the purchase.

Motion by Mr. Bilbray, seconded by Mr. Seeliger, carried
without dissent that the above purchase be confirmed.

30. Performing Arts Center

President Zorn noted that, in accordance with action by the Board of Regents on September 23, 1970, a contract has been issued by the State Planning Board to Sletten Construction Company for the construction of the Drama Theatre, Phase I of the Performing Arts Center, at total cost of $2,394,253.

Monies available for this project as of September 25, 1970 were:

- State General Obligation Bonds $207,500
- State General Fund 334,962
- UNLV Capital Improvement Fee Fund 215,000
- Gifts 386,953
- Loan, Board of Regents Special Projects Fund 100,000
- UNLV Revenue Bonds 930,000
- Fleischmann Foundation Grant 500,000

$2,674,415

Total project cost as approved by
Available for reallocation $280,162

President Zorn recommended that the balance of monies available be earmarked for the Concert Hall which would be constructed as Phase II. He stated that donors who contributed because of their interest in music need to be given reassurance that Phase II would be built when funds are available. He suggested also that the funds granted by the Fleischmann Foundation for the Concert Hall be reserved for that purpose.

In response to a question from Mr. Jacobsen, President Zorn stated that the project budget would cover furnishings for the Drama Theatre.

Chancellor Humphrey stated that he assumed President Zorn was recommending the earmarking of the $280,162 minus the $100,000 loan from the Board of Regents Special Projects Fund which is not now required. He endorsed the recommendation that the $180,162, plus future gift monies which are received, be placed in a special fund earmarked for construction of the Concert Hall. He further stated that he
endorsed the recommendation that the Fleischmann Foundation
grant be allocated as specified in the grant request and
amended by approval of the Foundation trustees in April,
1970. (Interpretive note: It is also assumed that by this
action the Board would be releasing UNLV of a previous com-
mitment to repay the capital improvement fee fund loan from
gifts.) President Zorn agreed with this interpretation of
his recommendation.

Motion by Mr. Jacobsen, seconded by Mr. Bilbray, carried
without dissent, that President Zorn's and Chancellor
Humphrey's recommendation be approved.

The meeting adjourned for lunch and reconvened in Executive Ses-
session. The regular session resumed at 2:30 P.M. with the same
Regents and staff present as at the morning session.

31. Angel's Peak Radar Station

President Zorn recalled that in May the Board authorized
UNLV Administration to "gather more information concerning
the costs of operating this facility, possible uses by the
University and evaluation of other compatible uses, and
possibility of retention of equipment in the event of
abandonment by the present users."

Dr. Zorn stated that the original assumption was that ap-

plication would be made to the Federal government and the

UNLV staff made a determination that 5 structures would be

of use to the programs planned for that area. However, it

now appears that the appropriate agency to which the Uni-

versity should make application is Clark County and only

for Buildings 19 and 60, consisting of approximately 4000

square feet.

Dr. Zorn further stated that he had been in touch with

Clark County officials and believed there is a possibility

that the County would continue to consider the University's

interest in the area and make a portion of the facility

available. He requested authority to formally negotiate

with Clark County to determine availability for such oc-
cupancy. To date, he said, it is his understanding that

the University would have to make arrangements for separate

metering of power and share in the maintenance of roads.

However, the costs would be substantially below the $30,000

estimated for the 5 buildings originally under considera-
tion.
The Regents viewed a slide presentation of the facility prepared by Mr. Bilbray.

Chancellor Humphrey recommended that President Zorn be authorized to continue negotiations and to develop a firm estimate of maintenance and operating costs and at such time as a firm recommendation has been formulated, the matter be referred back to the Board of Regents for action.

Motion by Dr. White, seconded by Dr. Anderson, carried without dissent that the above recommendation be approved.

32. Proposed Contract with Pace Organization

President Miller reported that discussions have been underway for several weeks concerning a proposal by Vince Mc Guinness and Associates to offer courses through the University which are aimed at the business community.

Dr. Robert Whittemore, Dean of General University Extension, discussed the proposal, noting that it would involve independent study arrangements and seminars to be conducted through the University. Under this proposal, Pace-setter Independent Study Programs would be included in the cur-
riculum of GUE, Correspondence Division, under a contractual agreement with Mc Guinness and Associates and would involve a monetary return to the University. The courses offered through this program would be subject to the same academic review as are all other University courses; that is, inclusion of the programs in the curriculum of General University Extension after favorable review by the Director of Independent Study (Correspondence), Dean of GUE, and Dean of the College under which the subject matter would normally be covered. Credit, when appropriate, would be offered through Independent Study (Correspondence) Division in cooperation with the College.

President Miller and Chancellor Humphrey endorsed the proposal, noting the potential return to the University could be significant and in view of the guarantees of quality control through approval of the faculty, they recommended that the Board authorize the contract be finalized.

Motion by Mr. Jacobsen, seconded by Mr. Ronzone, carried with Mr. Bilbray opposing, that the above recommendation be approved.
President Miller repeated his earlier recommendation that Mr. William G. Kimmel be retained to appraise the 4-H Camp facility at Lake Tahoe in order that the information might be utilized in making recommendations for the future management of the property.

Chancellor Humphrey endorsed the recommendation, noting that the appraisal would cost $1000 and would be paid from 4-H Camp funds and is for the sole purpose of providing information to the 4-H Advisory Council to enable that group to make recommendations for the future use of the facility.

Motion by Dr. Lombardi, seconded by Mr. Ronzone, carried without dissent that the above recommendation be approved.

34. Institutional Memberships

Chancellor Humphrey noted that the 1970-71 Work Program includes the following amounts for Institutional Memberships:

- System Administration: $2,200
- UNR: 6,100
- UNLV: 4,000
In 1969, he recalled, the Board approved a master list of organizations to which the University was authorized to pay membership fees and instructed that additions were to be subjected to approval by the Board. Since that time many organizations have increased their fees and numerous requests have been processed for additional memberships.

Chancellor Humphrey recommended that the Board's policy be changed to provide that:

(1) The Presidents and Directors of the 4 System Divisions be empowered to authorize institutional memberships for their respective Divisions:

(2) The Chancellor be empowered to authorize System memberships; and

(3) Transfer into Institutional Membership accounts from a Contingency Reserve be subject to the same regulations as other transfers.

Motion by Mrs. Knudtsen, seconded by Mr. Jacobsen, carried
without dissent that the above recommendation be approved.

35. Approval of Purchase in Excess of $5000

Chancellor Humphrey reported that the XDS Corporation had furnished a batch terminal on consignment for a period of 6 months to provide an opportunity for the University to evaluate the equipment. The batch terminal was installed at UNLV and has been used to transmit and receive data from the central computer located in Reno.

Mr. Humphrey stated that the consignment period for the batch terminal expires October 31, 1970 and the Director of the Computing Center has requested approval to enter into a lease agreement with XDS Corporation for this equipment for a period of 4 years at a monthly rental of $1076 (annual cost $12,912).

Chancellor Humphrey reported that funds are available within the budget and recommended approval of the lease as requested.

Motion by Mr. Ronzone, seconded by Mr. Bilbray, carried without dissent that the above recommendation be approved.
Chancellor Humphrey reported that the Legislative Counsel Bureau has notified all State agencies and boards that measures to be submitted to the 1971 Legislature must be transmitted to the Bureau prior to November 1, 1970 for bills to be drafted. He made the following comments and recommendations concerning the University's program:

(1) On March 14, 1970, the Board approved requesting amendments to the sabbatical leave statute which would remove the 2% limitation and change the base from "teaching personnel" to "professional personnel".

No further action is required by the Board on this item.

(2) It is recommended that the Board approve requesting amendment of the University Securities Act to provide that Federal interest subsidies, if received, might be considered as reducing the effective net interest paid by the University.
Motion by Mr. Bilbray, seconded by Mr. Ronzone, carried without dissent that the above recommendation be approved.

(3) It is recommended that the Board authorize the Administration to join with other governmental jurisdictions to request an increase in the maximum interest rate which might be paid on municipal issues provided the bond market in early 1971 justifies such action. This would authorize requesting the drafting of the legislation and the matter could be further discussed before the bill is introduced.

Motion by Mrs. Knudtsen, seconded by Mr. Bilbray, carried without dissent that the above recommendation be approved.

(4) The State Printing Act makes it the prerogative of the State Printer to approve the purchase and use of "multiple duplication equipment" and directs that all printing of "stationery, forms and blanks" be printed by the State Printer or placed in a commercial establishment as approved by the State Printer. It is rec-
ommended that the University seek relief from this Act so that there is no question of our ability to use our own equipment for the preparation of tests, forms and stationery and other required printing by "cold type" process such as varitype, typewriter or photocopy process. It is not proposed that the University go into a "hot lead" process in any way.

Motion by Mr. Bilbray, seconded by Dr. White, carried without dissent that the above recommendation be approved.

Chancellor Humphrey stated that there were two additional matters for which he would wish to have authorization to have drafted with the understanding that Board of Regents approval would be requested before attempts were made to have the bills introduced. He noted that these need additional staff discussion before being recommended to the Board. Those items, he said, concerned jurisdiction off Campus of University Police, and utilization of archaeology resources.

Motion by Mrs. Knudtsen, seconded by Mr. Jacobsen, carried without dissent that the above recommendation be approved.
Chancellor Humphrey recalled that at the July, 1970 meeting, the following motion was made: "Mr. Jacobsen moved that the recommendations submitted by Dr. Anderson be made a part of the minutes and be referred to the Presidents for review with a report back to the Board in October, at which time they be adopted as a statement of policy. Motion seconded by Mr. Seeliger."

(See page 207 of July minutes for recommendations referred to in the motion.)

Chancellor Humphrey continued by noting that before the motion was voted upon, Mr. John Wellinghoff, Administrative Assistant to the ASUN President, read an excerpt from a recent Northwest Accrediting Association report concerning UNR (See page 211 of July minutes for excerpt) and stated that the ASUN supported these recommendations and asked that consideration be given to this in the review called for in Mr. Jacobsen's motion. As noted in the July minutes, Mr. Jacobsen "agreed and expanded his motion to provide that it be included in the Presidents' review." The motion then
carried without dissent.

Chancellor Humphrey requested that this matter be postponed until the December meeting in order to allow additional time for the Presidents to prepare their proposals.

Motion by Mr. Bilbray, seconded by Mr. Jacobsen, carried without dissent that the matter be postponed until December as requested.

38. Commission for Educational Opportunity

Chancellor Humphrey referred to a proposal by Chairman Hug for the establishment of this Commission as originally presented at the August meeting. At that meeting, the Regents voted to change the name to the Commission for Educational Opportunity and directed "... that this proposal be referred to the Chancellor's Advisory Cabinet with a request that that group develop guidelines for the direction of the Commission and prepare recommendations for its composition, with a report to be made at the October meeting."

Chancellor Humphrey noted that the executive officers of the 5 Divisions had responded to this request (responses includ-
ed with agenda as References X, Y, Z and AA) and did not suggest any changes in the objectives as outlined in the original proposal. The 4 officers did, however, differ on the size and composition of the Commission.

Mr. Humphrey suggested that accomplishment of the objectives of the proposal would require advice and expertise from a large and diverse group of people. The logistics of convening and maintaining a large commission are recognized in the references and by Chairman Hug. Mr. Humphrey recommended that in view of these considerations, the Commission be kept relatively small and that extensive use be made of consultants who represent the many groups interested in and affected by the work of the Commission. He further recommended that:

(1) The following 8 objectives as contained in the original proposal be adopted:

(a) Changes in curriculum;

(b) Scholarships, loans, fee waivers and financial assistance available;
(c) Any need for State financial backing;

(d) Federal financing available or desirable;

(e) The function of the high schools and the Community Colleges in preparing those who do not meet admission requirements;

(f) The function of Advisors on the University Campus;

(g) Avenues to post graduate or professional degrees;

(h) Employment opportunities for graduates.

(2) The Commission consist of 3 members of the Board of Regents and 4 additional members designated by each of the 4 Division Heads (these members could be from within or outside the University at the discretion of the Division Head);

(3) The Chairman of the Board of Regents designate one of the Regents as Chairman of the Commission;
(4) The Presidents, Directors and Chancellor or their designees serve ex-officio as non-voting members of the Commission and the Chancellor's Office function as secretariat to the Commission; and

(5) A budget be established in the amount of $5000, by transfer from the Board of Regents Special Projects Fund, to be used primarily for travel expenses incurred by the Commission members and consultants.

The 4 Division Heads individually expressed endorsement of the above recommendation.

Motion by Mr. Bilbray, seconded by Mr. Jacobsen, carried without dissent that the above recommendation be approved.

Mr. Hug expressed concurrence with the modifications to his original proposal and suggested the Commission meet frequently enough to have advice of consultants from the different areas. He requested the Presidents and Division Directors to make their appointments and notify the Board.

39. Hearings Conducted Under Chapter IV, Section I, Paragraph 1.5, of the University Code
Chairman Hug noted that the procedures for holding hearings for a faculty member terminated for cause are specified in Chapter IV, Section 1, Paragraph 1.5 of the University Code and in Chapter 6, Title 4, of the Board of Regents Handbook.

The detailed procedures contained in the Handbook were drafted by a 3-man committee appointed by then Acting President Humphrey and adopted by the Board in May, 1968. The committee consisted of the Chairman of the Reno and Las Vegas chapters of the American Association of University Professors and the Dean of the National College of State Trial Judges.

Mr. Hug noted that the Faculty Senates of UNR, UNLV and DRI are in the process of developing recommendations for amendment to the University Code to recognize the reorganization of the University System which occurred 2 years ago. He recommended that the Presidents and Directors be directed to request the Faculty Senates of their Divisions to also review the hearing procedures presently in force with the idea of some modification. He particularly noted that concern has been expressed that the procedure takes too long.

Motion by Mr. Bilbray, seconded by Mr. Seeliger, carried
without dissent that the Chairman's recommendation be approved.

40. ASUN Presentation

Chairman Hug commented that he had requested time be set aside at this meeting to provide an opportunity for ASUN representatives to present information on problems of their choosing which they believe should be called to the Board's attention. He emphasized that he did not propose the Board attempt to offer solutions; rather, the session should confine itself to identification of the problems to permit review and recommendation by the Administration. He noted that opportunity would be provided to CSUN when the Board meets at UNLV.

Miss Frankie Sue Del Papa commented briefly by way of introduction and then she and other representatives of ASUN presented the following 5 items:

(1) Administrative Structure (presented by Miss Del Papa) - Proposed the creation of a University Senate composed of faculty and students to jointly consider and make final decision on matters of concern to both groups.
(2) Student Representation on Committees and Boards (presented by Dan Teglia) - Proposed that students be appointed to all University committees and boards, specifically those concerned with curriculum, personnel and tenure. Further proposed that the Vice President for Academic Affairs be charged with responsibility for making all appointments to these committees and boards.

(3) Computerized Registration (presented by Pete Moss) - Proposed that consideration be given to naming one official to head and coordinate the conversion to a computerized registration, working in close cooperation with the Registrars, Academic Vice Presidents, Deans, faculties and students on the UNLV and UNR Campuses and with the Director of the UNS Computing Center and that funding of this project receive a high priority in all future budgetary considerations.

Additional issues arose during this discussion concerning the quality of academic advisement received by the students, the possibility of the appointment of an ombudsman, and the desirability of involving upper-
classmen in assisting Freshmen at registration.

(4) Educational Opportunity Program - Presentation of this item was to have been made by John Wellinghoff but was withdrawn to be presented at the December meeting.

(5) Resolution Concerning Dr. Paul Adamian (presented by Louis Test) - Presented a resolution adopted by the ASUN Senate on September 17, 1970 as follows:

WHEREAS, in a democratic society, people are presumed innocent until proven guilty, and

WHEREAS, Dr. Paul Adamian is presently awaiting the time at which the charges concerning his involvement in the Governor's Day activities will be examined in a fair and impartial trial,

THEREFORE, we, the A. S. U. N. Senate, hereby resolve that Dr. Paul Adamian should be allowed to continue teaching until such time as he is either convicted or exculpated of the said charges.

IN ADDITION, we hereby request that this resol-
tion be presented to and voted upon by the Faculty Senate at their next regularly scheduled meeting; and that their decision be forwarded to and acted upon by the Board of Regents accordingly.

BE IT FURTHER RESOLVED that the Board of Regents, failing to define clearly and without ambiguity, the immediate harm that Dr. Paul Adamian poses to himself or to others in continuing to teach; before September 22, 1970; that the A. S. U. N. Senate will go on record as opposing the action of the Board of Regents as arbitrary and without base and as desiring the return of Dr. Adamian to his prior teaching position.

Items 1, 2 and 3 were referred to President Miller for review and recommendation with a progress report requested at the November meeting. As noted, presentation of Item 4 was deferred until the December meeting.

Following extended discussion of Item 5 by those present, Chairman Hug responded by stating that the Board of Regents had made the decision that Dr. Adamian should be suspended from teaching duties because, in their judgment, his con-
tinuance would be of harm to the University community. He noted that Dr. Adamian had been continued on salary and the Board did not believe its action would prejudice the case against him.

President Miller responded to a question of why Dr. Adamian was not notified earlier; i.e., prior to the beginning of school when the action had been taken in early August, by reviewing the sequence of events and the alternatives available. He agreed that he could have notified Dr. Adamian of the Board’s decision immediately following the August meeting. However, he pointed out, at that time there was still the possibility that the hearing could be completed and the matter resolved prior to the opening of school. Also, he said, he did not wish to be accused of taking such action during the Summer “when nobody was around”.

Mr. Hug closed the discussion by stating that he recognized that some of the members of the University community disagreed with the Board’s action and he did not question their right to do so; however, he pointed out, the Board had acted within its authority and he considered further comment by the Board unnecessary and unwise in that such further discussion might intrude into the area to be covered by the
The meeting adjourned at 5:00 P.M.

The Board of Regents reconvened in regular session at 9:10 A.M., Saturday, October 10, 1970 with Chairman Hug presiding. All Regents, Officers and staff present on the previous day were again in attendance.

41. Honors Study Program

President Miller introduced Dr. Edward Zane, Chairman of the Honors Study Board, and Dr. Richard Siegel, Director of the Honors Study Program, who presented a review of the history and development of the Honors Study Program, University of Nevada, Reno.

Following presentation, Dr. Zane and Dr. Siegel responded to questions from the Board concerning conduct of the courses and the manner in which students are admitted to these courses.

42. Capital Improvement Program, 1971-73
Chancellor Humphrey reviewed the recent action of the State Planning Board which had, in a meeting September 23, 1970, adopted the 1971-73 Nevada State Planning Board Recommended Schedule of Priorities for Capital Improvements. All State requests were categorized into 3 priority groups. Priority Group No. 1, as recommended, contained projects totaling $20,633,900 of which $18,913,100 would be provided by the State; Priority Group 2 projects totaling $15,944,500 of which $14,530,500 would be provided by the State; Priority Group No. 3 projects totaling $25,696,300.

Chancellor Humphrey reported that the projects comprising the University of Nevada System 1971-73 Capital Improvement Request have been assigned to the following priority groups:

Chancellor Humphrey noted that the major University projects are in a very unfavorable position; i.e., within Priority Groups 2 and 3 and recommended that the Administration be authorized to:

(1) File an appeal with the State Planning Board concerning their priority assignment; and

(2) To work toward development of an alternative 1971-73 Capital Improvement Plan, which would include the
Gymnasium Complexes on both University Campuses and basic Community College instructional buildings, to be proposed to the Governor and the 1971 Legislature.

Motion by Mr. Bilbray, seconded by Mr. Ronzone, carried without dissent that the Chancellor's recommendation be approved.

Motion by Dr. White, seconded by Dr. Anderson, carried without dissent that the University include in its Legislative program a request that the State's bonded indebtedness limitations be increased beyond its present 1%.

43. Site for Elko Community College

Dr. Donnelly reported that the Elko Community College Advisory Board has recommended that the possibility of acquiring the old Ruby View Gold Course as a site for the Elko Community College has been explored. He noted that the University now owns several acres of property along State Highway 51 about 3 miles northwest of Elko, which was a gift from 2 Elko businessmen. The golf course property which is being considered for exchange is owned by the City and consists of approximately 50 acres and is
more accessible for students and for water and sewer facili-
ties.

The donors of the property presently owned by the Univer-
sity are receptive to this exchange. Dr. Donnelly stated that the President and the Advisory Board of the College are in agreement and he requested authorization to obtain the necessary appraisal and to proceed with negotiations. Chancellor Humphrey recommended approval subject to Board review and approval when complete information and recommen-
dations are available.

Motion by Mr. Jacobsen, seconded by Mrs. Knudtsen, carried without dissent that appraisal and negotiations be authoriz-
ed as requested.

44. Report on Graduate Teaching Assistants

Chancellor Humphrey recalled that in August, Miss Del Papa, ASUN President, and Mr. Myers, CSUN President, agreed to furnish a report to the Board on behalf of the students concern-
cerning their evaluation of the teaching effectiveness of graduate assistants and fellows.
Mr. Myers reported on behalf of CSUN, noting that he had received no complaints from students on that Campus concerning the instruction provided by graduate assistants.

Miss Del Papa, speaking on behalf of ASUN, distributed a written report, and in her comments emphasized the final paragraph of that report which stated:

My observations and research lead me to believe that the effectiveness of a teaching fellow depends entirely on the individual, just as the effectiveness of regular faculty varies from instructor to instructor. In some cases teaching fellows are more desirable than regular faculty — and given the fact that many have previous teaching experience in the public schools, their contribution to Freshman-level introductory classes and their rapport with their students is impressive. Perhaps with a lightening of their load and an improvement in the assistance they receive from the regular faculty (such as the orientation program conducted the week prior to classes this year, which was, I believe, most effective), the effectiveness of teaching fellows will be substantially improved.
Mr. Hug expressed continuing concern over the use of teaching fellows in so many of the required Freshman English courses. Dr. Anderson agreed and requested that attention be given in a future meeting to discussion of the involvement of senior faculty in teaching of first year courses. It was agreed this would be included in the reports which the Presidents are to present to the Board in January.

Mr. Hug noted that one of the concerns which the Regents have frequently expressed is that of the increasing trend of placing more reliance on the teaching assistants and removing the Professor from the classroom at the undergraduate level. He stated that he wished to challenge the Administration to give further consideration to whether this is the appropriate way in which to teach Freshman English.

45. Refrigeration Installation, School of Medical Science, UNR

President Miller reported that bids were opened September 24, 1970 for installation of a walk-in cooler and freezer for Room 310 of the Mackay Science building. Bids were solicited from 4 contractors; however, the only bid received was from John Rauch for $8632 with a deduct of $1281 or a
total of $7351. President Miller recommended approval of the contract award to John Rauch for $7351 with funds to be provided from the Capital Improvement Fee Fund, UNR. Chancellor Humphrey concurred.

Motion by Mr. Jacobsen, seconded by Dr. Lombardi, carried without dissent that the above recommendation be approved.

46. Establishment of Special Checking Account, UNR

Chancellor Humphrey presented a request by President Miller for the establishment of a $10,000 checking account at the Spokane Branch of the First National Bank of Nevada. He noted that the account would be funded from the UNR Revolving Fund and will be used exclusively to clear dishonored checks. It will also, he stated, reduce the number of people handling cash in the Controller's Office.

Authorized signature would be any one of the following:

Edward L. Pine, Business Manager
Henry M. Hattori, Controller
Daniel L. Pease, Deputy Controller
Chancellor Humphrey recommended approval.

Motion by Dr. White, seconded by Dr. Lombardi, carried
without dissent that the above recommendation be approved.

47. Approval of Fund Transfer

Chancellor Humphrey recommended approval of the following transfer of funds:

$17,300 from Contingency Reserve, UNR, to Property Fidelity and Liability Insurance premiums to provide additional funds to pay insurance premium.

Chancellor Humphrey noted that $67,500 was budgeted for 1970-71; however, it is now estimated that total insurance expenses will be approximately $92,000. A later transfer will, therefore, also be necessary.

Motion by Mrs. Knudtsen, seconded by Mr. Bilbray, carried
without dissent that the above recommendation be approved.

The meeting adjourned at 10:45 A.M.
