4. Student Fee Increases

Chairman Mc Bride announced that Regents had not been presented with backup material prior to the meeting on the necessity for student fee increases, the recommended amount
of each increase, and statements as to how and where the
funds would be expended within the institutions, and that
since there were persons in attendance who had asked to
speak to the issue, he would allow discussion of the matter
at this time, with Board action to be taken at a special
meeting to be held on Monday, May 27, 1983, in Reno.

Mr. Mc Bride reminded Board members that the University of
Nevada System will now be able to retain, at the institu-
tional level, those monies generated through high enroll-
ments or increased student fees which are in excess of the
appropriations made by the State Legislature. In the past,
these monies had to be reverted to the State General Fund.
Also, the Legislature had declared that if the Board felt
there was a need for those items in the Critical Needs
Budgets, that fees would have to be raised by the Board
inasmuch as there were not sufficient State funds during
this biennium.

Mr. Clarence Lee, CSUN President, stated that UNLV students
were not opposed to a fee increase, but they were concerned
about the distribution of those funds, and would like to be
a part of the decision making process and to be informed of
the need for the increase, with perhaps some consolidation
of programs. He further suggested that fees be increased on
a gradual timetable, perhaps spread over several years.

ASUN President Bill Siegel declared that students should not have to shoulder the burden by increasing their fees, when, clearly, the State Legislature should have provided the necessary funds. He also indicated that whenever student fees were increased, enrollments decreased and was concerned about pricing students out of school.

ASCC President Ertis North indicated that the CCCC Administration had been working with the students and keeping them informed, and that they would give input to the Board at the next meeting.

Former CSUN President Rich Oshinski stated that if the $5 increase is imposed, that will mean a $12 increase within the past 4 years and that it was his feeling that improvements in instruction have not been consistent with the increases. He urged a $1 or $2 increase be considered.

UNLV Faculty Senate Chairman Allen Mori stated that of those faculty he had been able to poll, the majority favored a $5 increase for improving instruction and the institution.

Mr. Bill Cathey, UNR Faculty Senate Chair, agreed, stating
that by virtue of no faculty salary increases, the faculty members were giving approximately $850-900 each to the institution per year, that students would have to share with them the burden of improved instruction, and supported a $5 increase.

President Crowley urged the Board to make a decision prior to the end of June, and, though unfortunate, student fees were being raised in many institutions across the country because of lack of other sources of income for their institutions.

Mrs. Gallagher urged students to begin working with their respective Administrations immediately and to bring to the Board their decisions.

Ms. Del Papa requested that a summary of information and comparative statistics be distributed to students and the media in order that they might better understand the need to raise fees.

Chancellor Bersi assured the Board that he would meet with the Presidents and his staff and that background material would be sent to Board members prior to the June 27 meeting.
Mr. Klaich requested that the information include, by dollar amounts, just how the increases would be expended, stating that he felt it should all go toward instruction.

5. Report on Kafoury-Armstrong Management Letter

Mr. Harry Miltenberger, Kafoury-Armstrong, reported on the Kafoury-Armstrong Management Letter for the year ending June 30, 1982, citing the major recommendations within the letter. He pointed out that the current UNS management system is now obsolete having been first developed in 1963 for UNR and its then extension in Las Vegas. Since that time the Community Colleges, DRI and the Medical School have been added, UNR has tripled in size and UNLV has developed into its own Campus. Mr. Miltenberger stated that financial personnel, policy and procedures, and hard- and software were essential to proceed with the MIS. The discussion then turned to the Board's policy statement making the Management Information System (MIS) a priority for funding.

Funding for the MIS has been discussed among the Presidents and the Chancellor, with Chancellor Bersi indicated that the Council of Presidents would again be discussing this issue at their next meeting.
6. Approval of the Resolution Regarding Interest Income

Chairman Mc Bride introduced the following resolution:

RESOLUTION #83-10

A RESOLUTION AMENDING RESOLUTION NO. 81-4, ADOPTED ON JULY 21, 1981 TO PROVIDE FOR AN ADDITIONAL USE OF INCOME EARNED FROM THE INVESTMENT OF THE PROCEEDS OF CERTAIN BONDS OF THE STATE ISSUED BY THE BOARD PURSUANT TO SAID RESOLUTION NO. 81-4; PROVIDING FOR A TRANSFER OF CERTAIN PART OF SAID INVESTMENT INCOME INTO AN ACCOUNT APPERTAINING TO THE PROJECT ACQUIRED WITH SAID BONDS; AND PROVIDING THE EFFECTIVE DATE HEREOF.

WHEREAS, by Resolution #81-4 (the "8-1-81 Bond Resolution") adopted by the Board of Regents of the University of Nevada (the "Board") on July 21, 1981, the Board authorized the issuance of the "State of Nevada General Obligation (Limited Tax) University System Projects Bonds (Additionally Secured with Pledged Revenues, Series 1981", in the aggregate principal amount of $40,000,000 (the "Bonds"); and
WHEREAS, pursuant to Ch. 679 Statutes of Nevada, 1979
as amended by Ch. 585, Statutes of Nevada, 1981 (the
"Project Act"), the Board was authorized to issue the
Bonds pursuant to the State Securities Law, NRS 349.150
to 349.362, inclusive (the "Bond Act"); and

WHEREAS, subsection 4, ss. 349.304, Bond Act, provides
in part:

4. Any gain from any such investments or reinvest-
ments of taxes, revenues or proceeds of bonds
may be credited to any ... fund or account
appertaining to a project or any facilities ...
subject to any contractual limitations in any
Proceeding appertaining to outstanding State
securities.

and

WHEREAS, the Board intends to create an account apper-
taining to the project financed with the Bonds (the
"Project") for the purpose of paying a portion of the
costs of operating and maintaining the Project (the
"Project Operation and Maintenance Fund"); and
WHEREAS, the Bond desires to credit surplus investment income earned on the proceeds of the Bonds as provided in subsection 4, ss. 349.304, Bond Act, to the Project Operation and Maintenance Fund; and

WHEREAS, ss. 409, 8-8-81 Bond Resolution now in effect requires that surplus monies derived from the proceeds of the Bonds, including surplus investment income earned thereon, be deposited into the Bond Fund, therein created (the "Bond Fund"), and be applied to the payment of the principal of, interest on and any prior redemption premiums due in connection with the Bonds (the "Bond Requirements"); and

WHEREAS, ss. 604, 8-1-81 Bond Resolution requires that sufficient Gross Pledged Revenues (as defined in the 8-1-81 Bond Resolution) be deposited into the Bond Fund by July 31 of each Fiscal Year (as defined in the 8-1-81 Bond Resolution) to pay the Bond Requirements coming due in that Fiscal Year, but permits the deposit into the Bond Fund from Gross Pledged Revenues to be reduced to the extent any other money accounted for in the Bond Fund prior to such annual deposit therein is available to pay the Bond Requirements in that Fiscal Year; and
WHEREAS, pursuant to ss. 604, 8-1-81 Bond Resolution to the extent surplus investment income is transferred into the Bond Fund, the required deposit of Gross Pledged Revenues into the Bond Fund is reduced; thus, the deposit of surplus investment income into the Bond Fund will not enhance the rights of the holders of the Bonds or the security for the Bonds; and

WHEREAS, the Board hereby finds and determines that so long as sufficient Gross Pledged Revenues are paid into the Bond Fund by July 31 of each Fiscal Year to fully pay the Bond Requirements due in that Fiscal Year, the failure to deposit surplus investment income into the Bond Fund will not in any manner prejudice the holders of the Bonds or adversely affect the rights or risks of the holders of the Bonds or the security for the Bonds; and

WHEREAS, the Board hereby further finds and determines that an amendment to the 8-1-81 Bond Resolution to permit transfer of surplus investment income into the Project Operation and Maintenance Fund is not to the prejudice of the holders of the Bonds or the Nevada National Bank, as trustee (the "Trustee") so long as such transfer can be made only after sufficient Gross
Pledged Revenues are deposited into the Bond Fund to pay the Bond Requirements in any particular Fiscal Year; and

WHEREAS, ss. 1311, 8-1-81 bond Resolution permits the Board and the Trustee to amend the 8-1-81 Bond Resolution as may be required in connection with any change which, in the judgement of the Trustee, is not to the prejudice of the Trustee or the holders of the Bonds; and

WHEREAS, the Board has received from the Project Engineer (as defined in the 8-1-81 Bond Resolution) a certificate to the effect that $2,100,000 of money in the Construction Fund (as defined in the 8-1-81 Bond Resolution) will not be necessary for the Project; and

WHEREAS, such $2,100,000 of surplus money in the Construction Fund constitutes a part of the Investment income earned on the proceeds of the Bonds deposited into the Construction Fund.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF REGENTS OF THE UNIVERSITY OF NEVADA:
Section 1. Definitions. All capitalized terms used herein, unless otherwise parenthetically defined herein, shall have the meanings ascribed to them in the 8-1-81 Bond Resolution.

Section 2. Amendment of 8-1-81 Bond Resolution. Section 409, 8-1-81 Bond Resolution is hereby amended to read as follows:

Section 409. Completion of Subprojects. When each Subproject shall have been completed in accordance with the relevant plans and specifications, and when all amounts due therefor, including, without limitation, all proper incidental expenses, shall have been paid, or for which full provision shall have been made, the Trustee upon receipt of an order to that effect from the University Treasurer, and upon receipt by the University Treasurer from the Project Engineer of a certificate so stating, and upon the receipt thereby of an instrument of the Governing Body so ordering, shall cause to be transferred all surplus moneys remaining in the Construction Fund, except for any moneys designated in the instrument to be retained to pay any unpaid accrued costs or contingent obligations and except any such surplus
money derived from investment income on the proceeds of the bonds and directed to be deposited pursuant to Subsection C hereof into a special account created in Subsection C hereof designated as the "Project Operation and Maintenance Fund", to the Bond Fund for the payment of the Bond Requirements of the Outstanding 1981 bonds payable from all or a part of the Gross Pledged Revenues, pursuant to ss. 349.296, Bond Act, and ss. 349.304, Bond Act, as provided in such instrument of the Governing Body. Upon such transfers of all moneys out of that Construction Fund it shall be terminated. Noting herein:

A. Periodic Transfers. Prevents the University Treasurer from causing to be transferred from the Construction Fund at any time prior to the termination of the Construction Fund any moneys which the Project Engineer by certificate and the Governing Body by its instrument determine will not be necessary for either or both Subprojects, to the Bond Fund, as permitted by ss. 349.296 as provided in such instrument, or, to the extent such unneeded monies are determined by the Governing Body to constitute investment income on the proceeds of the
bonds on deposit in the Construction Fund, to the
Project Operation and Maintenance Fund but only at
the times and as otherwise provided in Subsection C
hereof, as permitted by ss. 349.304 as provided in
such instrument, or

B. Limitations Upon Transfers. Requires the trans-
fer to the Bond Fund of any surplus moneys (other
than bond proceeds) received as grants, appropria-
tions, or gifts the use of which moneys is limited
by the grantor or donor to the construction of
specifically designated capital improvements or
otherwise so that such surplus moneys (other than
bond proceeds) may not be properly transferred to
any such fund or account under the terms of such
grants, appropriations, or gifts, or

C. Transfers to Project Operation and Maintenance
Fund. Prevents the University Treasurer from caus-
ing to be transferred from the Construction Fund
prior to or at the time of termination of the Con-
struction Fund any monies which the Project Engineer
by certificate and the Governing Body by its instru-
ment determines will not be necessary for either or
both Subprojects to a special account appertaining
to the Project hereby created and designated as the
"Project Operation and Maintenance Fund", subject
to the following limitations:

(1) Any monies transferred to the Project Operation
and Maintenance Fund from the Construction Fund
must have been derived from investment earnings
on the proceeds of the bonds accounted for in
the Construction Fund as determined by the
Governing Body;

(2) Any such transfers may be made only on July 31
of any Fiscal Year and only if, at the time of
the transfer, sufficient monies have been
credited to the Bond Fund from Gross Pledged
Revenues to fully pay, when due, the Bond Re-
quirements coming due in that Fiscal Year; and

(3) The Project Operation and Maintenance Fund and
all investment earnings on the amounts account-
ed for therein (which investment earnings, not-
withstanding the provisions of ss. 706 hereof,
shall remain in the Project Operation and Main-
tenance Fund) must be used to pay the operation
and maintenance expenses (as defined in ss.
349.188, Bond Act) of either or both Subprojects and may be expended only as directed by the Governing Body for such purpose, by warrant drawn and countersigned by the University Treasurer, and if the Governing Body by its instrument finds any amounts in the Project Operation and Maintenance Fund are not needed for that purpose, such amounts shall be transferred into the Bond Fund.

Section 3. Transfer of Surplus. The Board has found and determined in the preambles hereto that $2,100,000 now accounted for in the Construction Fund is surplus investment income earned on the proceeds of the Bonds accounted for in the Construction Fund and has determined that and has received a certificate from the Project Engineer stating that such $2,100,000 will not be necessary for either or both Subprojects constituting the Project; accordingly, as permitted by ss. 409, 8-1-81 Bond Resolution, as amended by Section 2 hereof, the University Treasurer and Trustee are directed to transfer on July 31, 1983 $2,100,000 from the Construction Fund to the Project Operation and Maintenance Fund, to be used only as provided in ss. 409C, 8-1-81 Bond Resolution, as amended by Section 2 hereof; provided,
however, that such transfer shall be made if and only if at the time thereof there is sufficient money in the Bond Fund derived from Gross Pledged Revenues to pay all Bond Requirements coming due during the Fiscal Year ending July 1, 1984.

Section 4. Effective Date. This Resolution shall become effective on the date the Trustee consents, pursuant to ss. 1311 D, 8-1-81 Bond Resolution, to the amendment made to the 8-1-81 Bond Resolution by Section 2 hereof.

PASSED AND ADOPTED on this June 16, 1983.

7. Special Events Centers, UNR and UNLV

Vice Chancellor Dawson estimated that approximately $2.1
million in interest income has been generated in excess of
the amount needed to fund construction of the UNR and UNLV
Special Events Centers. He proposed the following plan for
the use of these funds;

1) $314,000 to UNR for equipment purchases. (In May, 1983,
the Board approved $314,000 to UNLV for remodeling of their facility.)

2) The unused portion of the fund balance would be invested in order to provide operating support for as long as possible. Two accounts would then be set up with 54% to go to UNLV and 46% to go to UNR. There would be no money available until August 1, 1983. Presidents Goodall and Crowley were instructed to submit to the Board for approval, a plan for the use of these funds prior to any expenditures being made.

Mrs. Whitley moved approval. Mrs. Kenney seconded. Motion carried.

8. Approval of Amendments to the UNS Code

On May 16, 1983, proposed amendments to Sections 3.4.2, 4.4.2, 5.4.7, 5.12.1 and 5.12.2 were accepted by the Board and distributed that day to the Campuses for a 30-day review. See Ref. G, filed with the permanent minutes.

10. Approval of the Proposal for a Joint Council on College Preparation

The State Board of Education has proposed the establishment of a Joint Council on College Preparation, to be sponsored by both the Board of Regents and the State Board of Education, which would advise those Boards, school districts and students regarding the skills and competencies Nevada young people need to improve their likelihood of success in University studies. This Council would identify both general and specific competencies and how they may be acquired through careful selection of academic courses in high school.

The State Board of Education approved this Council at their meeting on April 15, 1983.
Mrs. Kenney moved approval to accept this proposal for a Joint Council on College Preparation. Mrs. Gallagher seconded. Motion carried.

He requested the Administration and Faculty Senates develop a mechanism for improving or raising admissions standards, recommendation for those standards, and whether they would have selective courses.

2) It is recommended that semi-annually transfer reports be submitted to the Board detailing transfer activities and that augmentations to estimative budgets be included in this policy.
