Vice Chancellor Richardson clarified that this particular item would address the non-budget legislative issues, while Item 7 would address the budget issues. A slide presentation was given on the non-budget legislative issues and a copy of the slides is filed in the Regents' Office.

Vice Chancellor Richardson informed the Board that it has just been learned that a proposed amendment to an appropriations bill would provide $5 million to UCCSN to purchase equipment and services for the Distance Learning Network. UCCSN has been diligently working throughout this legislative session to obtain appropriations for this project, which was not included in the Governor's recommended budget. The amendment would include language specifying that UCCSN work in cooperation with the Department of Education.

Mr. Klaich questioned the status of an appropriation for a Law School study and Vice Chancellor Richardson responded that an appropriation has been made for such a study. Mr. Klaich stated that a proposed Law School is inconsistent
with UCCSN's strategic directions. There are other needs throughout the System that should be addressed. Mr. Klaich pledged that he would be looking at this proposal very carefully and will need much convincing that UCCSN needs a Law School.

Mrs. Gallagher reminded the Board that this will constitute a third study on a Law School for Nevada. She agreed with Mr. Klaich that there are other needs to be addressed and she too would need much convincing.

Mrs. Price requested General Counsel Klasic to review Assembly Bill 582, because the language refers to "government agency" and is not clear if UCCSN is included as a government agency.

Referring back to the study of a Law School, Mr. Alden agreed with Regents Klaich and Gallagher and requested the UNLV President to review this issue. Nevada is partners in the WICHE Program which provides for Nevada students to attend out-of-state Law Schools.

Mr. Graves stated that it was his understanding that the Law School would specifically teach gaming law, and water/
land law. He stated that a Law School would upgrade UCCSN's reputation. Although it is a great expense and there are other needs that should be addressed, Mr. Graves encouraged the members of the Board to keep an open mind to implementing a Law School at UNLV.

Mrs. Sparks informed the Board that she was a member of the last Law School study. At that time there was a potential donation to establish a Law School at UNLV. She encouraged the members of the Board to consider substantial private donations and possibly incorporate a Law School into UCCSN's strategic directions.

7. Approved Continuation of UCCSN Expenditures at the FY 1995 Rate and Information Only on the FY 95-97 Operating Capital Budgets and FY 96 Operating Budget

Vice Chancellor Anderes presented a slide presentation on the tentative pending final legislative action regarding the 1995-97 Capital Budgets and the 1995-96 Operating Budget. The slides are filed in the Regents' Office.

Inasmuch as the Nevada State Legislature is still in session, it is recommended to continue UCCSN expenditures at
the FY 1995 rate until the Legislature has approved fund-
ing for FY 1996 and an operating budget can be prepared
for Board consideration.

Vice Chancellor Anderes stated that discussions were being
held during this time at the Legislature regarding the
cost-of-living adjustment for the UCCSN faculty and other
non-classified employees and the State classified person-
nel. The proposal is for the UCCSN faculty and other non-
classified employees to receive a cost-of-living adjustment
of 4% in FY 1996 and 3% in FY 1997. Classified employees
will receive an increase of 5% in FY 1996 and 3% in FY
1997.

An increase in UCCSN's merit pool from 2% to 2.5% has been
approved which will put UCCSN closer to other State agencies
in terms of merit pool resources and a biennial increase of
$900,000 for part-time Community College salaries.

Vice Chancellor Anderes stated that the Legislature has
approved a budget of $604.2 million for UCCSN which is a
17.8% increase over the 1993-95 current operating budget.
In terms of State General Fund support, UCCSN will re-
ceive $462.4 million, representing a General Fund increase
of 18.6%. Although student tuition and fees have increased
their percentage of the total budget has decreased. The
State did step up to the plate, along with the students,
for higher education.

Mrs. Price questioned if there was a report of the aggre­
gate figures from all increased fees to students, and Vice
Chancellor Anderes responded that he could be developing a
reporting format to obtain this information.

Mrs. Price questioned whether there was a way to provide
information to include non-general fund expenditures,
not just operating budget expenditures. Vice Chancellor
Anderes responded that the self-supporting budgets will
address this later in the meeting, although grants and
contracts are not categorized in a reporting format.

Vice Chancellor Anderes stated that he felt UCCSN fared well
during this legislative session.

Upon questioning, Vice Chancellor Anderes explained that
both Universities and the Community College salary schedules
would have to be changed to reflect the cost-of-living in­
crease for professional staff.
Vice Chancellor Anderes proceeded with the slide presentation on the UCCSN capital construction/renovations for FY 95-97, which is a total of $64.7 million for construction; $12 million for Campus improvements; and $8,960,000 for other projects.

Dr. Derby left the meeting.

Mrs. Price questioned whether there had been any changes toward the actual way UCCSN prepared its budget, and whether Vice Chancellor Anderes anticipated any other changes to include linking the budget to academic programs. Vice Chancellor Anderes responded that he would be discussing this issue with Chancellor Jarvis and the System Business Officers to create an internal planning process.

Regents Price and Klaich commended Vice Chancellor Anderes for the presentation.

Mr. Klaich moved approval to continue UCCSN expenditures at the FY 1995 rate until the Legislature has approved funding for FY 1996 and a FY 1996 operating budget can be prepared for Board consideration. Mr. Alden seconded.
Motion carried.

Mrs. Gallagher left the meeting.

8. Approved 1995-96 Self-Supporting Budgets, UCCSN

Vice Chancellor Anderes presented the 1995-96 Self-Supporting Budgets for UCCSN. These budgets were distributed at the meeting and are filed in the Regents’ Office. A slide presentation was conducted and the slides are filed in the Regents’ Office. Vice Chancellor Anderes explained that no State funds are expended in the self-supporting budgets; activities rely generally on the revenues from sources other than the State.

Mrs. Price questioned whether there was oversight and assurances that the unrelated business income tax regulations were consistent throughout the System. Vice Chancellor Anderes responded that the System business officers and controllers have discussed this issue and have attended seminars addressing this very issue.

Mrs. Price questioned how self-supporting programs are established, and Vice Chancellor Anderes responded that
the institutions initially establish the program, then,
at the System level, budget information is requested and
compiled. The System Administration office does not con-
duct an extensive review of the programs. However, the
budgets do go through the System Administration office.
UNR Vice President Ashok Dhingra explained that UNR does
have a process whereby the budgets are established and
reviewed by his office. After the program elevates to
a certain funding level, then it becomes a self-supporting
budget.

Mr. Graves moved approval of the 1995-96 Self-Supporting
Budgets. Mr. Phillips seconded. Motion carried.

9. Approved the Appointment, Interim Vice President for

Financial and Administrative Services, CCSN

Approved the appointment of Michael Saurer as Interim Vice
President for Financial and Administrative Services at CCSN,
effective June 26, 1995. The College will initiate the
process for a permanent Vice President by the end of 1995.

President Moore stated that he has accepted Mr. Ruell
Fiant's resignation and Mr. Fiant will be able to return
to the classroom. He thanked Mr. Fiant for his support.

Dr. Derby and Mrs. Gallagher returned to the meeting.

Mr. Alden moved approval of the appointment of Michael Sauer as Interim Vice President for Financial and Administrative Services at CCSN, effective June 26, 1995. Mr. Klaich seconded. Motion carried.

10. Approved the Appointment of Interim President, WNCC

Chairman Eardley presented a recommendation to the Board for the appointment of Dr. John Richardson as Interim President at Western Nevada Community College for the period July 1-9, 1995. Dr. James Randolph, newly appointed WNCC President, will begin service on July 10, 1995.

Mr. Klaich moved approval of the appointment of Dr. John Richardson as Interim President of WNCC until July 10, 1995. Dr. Derby seconded. Motion carried.

11. Approved the Appointment of Vice President for Academic Affairs, DRI
Mr. Graves moved approval of the appointment of Dr. John 
Hess as Vice President for Academic Affairs at DRI. Mrs.
Gallagher seconded. Motion carried.

The open meeting recessed at 11:40 A.M. for lunch and Foundation 
meetings and reconvened at 1:10 P.M. Thursday, June 29, 1995 
with all Regents present except Regents Berkley and Foley.

12. Approved Resolution: Anthony Calabro, WNCC

Approved the following resolution in honor of Western Nevada 
Community College's President Anthony Calabro:

accomplishments, Dr. Anthony Calabro will retire from 
his distinguished term as the second President of West-

ern Nevada Community College through a period of

Dr. Derby moved approval of the resolution honoring WNCC President Anthony Calabro. Mrs. Gallagher seconded.

Motion carried.

13. Information Only: Chancellor Evaluation Procedure

Chairman Eardley and Vice Chancellor Richardson presented the principles for evaluation of the Chancellor, as contained in Ref. D, filed in the Regents' Office. Chairman Eardley requested the members of the Board to review the reference material and to contact either himself or Vice Chancellor Richardson if they should have any suggestions.
Mrs. Price stated that a broader constituency would assure varied points of view on the person being evaluated. She also felt that the evaluation process should include a measurable indicator.

Dr. Derby stated that by conducting a closed session, the evaluation from every member of the Board would be included.

Mr. Klaich noted that the meetings to be conducted throughout the evaluation process may constitute public meetings which would then have to be noticed.

In response to Mrs. Price, Vice Chancellor Richardson stated that the proposed evaluation process stated, "The Chair of the Board of Regents is responsible for conducting the evaluation of the Chancellor. The Chair shall be assisted by 2 members of the Board selected by the Board." Dr. Richardson explained that these evaluators represent the Board along with outside constituencies. These evaluators will interview the other members of the Board and an annual closed session will be held. Regarding the measurable outcomes, Dr. Richardson suggested that Appendix I (Performance Areas for Review) could allow for measurable indicators or quantifiable numbers.
Mrs. Gallagher noted that the contact with the very broad
constituencies during President Crowley's evaluation
process did not work, and she cautioned the Board.

Chairman Eardley stated for the record that Chancellor
Jarvis was not involved in developing this process, and
Dr. Richardson added that Chancellor Jarvis had reviewed
the reference material as it was released in the agenda
packet.

14. Approved UCCSN Diversity Information and Goals

Information on UCCSN student and staff demographics for
Fall 1994 was presented by Mrs. Karen Steinberg, Director
of Institutional Research.

Mrs. Steinberg made a slide presentation, and the slides
are filed in the Regents' Office. She presented the
annual report on diversity within the UCCSN. The "1994
Affirmative Action Report" provides statistics on both
the UCCSN student and employee populations. Over the 9-year
period between 1985 and 1994; the data show that the UCCSN
student body has become more diverse. During this period,
female enrollment increased 2% from 54% to 56% Systemwide, while minority enrollment increased 7% from 11% to 18%.

In the Fall of 1994 of the 63,271 students enrolled in UCCSN institutions, 5% (3067) were Black, 6% (4081) were Hispanic, 5% (3274) were Asian and 2% (959) were Native American. Asian and Native American students were represented in the UCCSN student body in approximately the same proportions as in the 1993-94 Statewide high school graduating class, while Black and Hispanic students remained under-represented Systemwide.

The statistics on UCCSN employees indicate a mixed pattern with regard to diversity. Budget reductions in recent biennia have limited the opportunity for recruitment of women and minorities. During the 4-year period between 1991-94, while the proportion of female employees increased 2% from 47% to 49%, the proportion of minority employees slipped 1% Systemwide from 14% to 13%. Women, Asians and Native Americans were represented in the UCCSN labor force in approximately the same proportion as in the Nevada State-wide labor force, while Blacks and Hispanics remained under-represented.

A report on UCCSN diversity goals was also presented to the
Board. The long-range goals for diversity among UCCSN students are generally to reflect the diversity found in the service populations as defined as the State population, composition of high school graduates, composition of service counties, etc. The long-range goals for diversity among UCCSN employees are based on institutional affirmative action programs.

Mrs. Steinberg explained that the extensive reports will be distributed to the institutions and to others upon request. Summary reports were distributed at the meeting and are filed in the Regents' Office.

Mrs. Price stated that it is important that the Chancellor's Office emphasize its commitment to diversity.

Mrs. Steinberg reported that only through self-reported data are the data compiled. Students report this data during registration; however, telephone registration is making this more difficult, along with the difficulty of establishing classifications. She did note that all of society, not just Nevada, is working on the classification issue.

Mrs. Steinberg noted that this is the first time the "UCCSN
Diversity Goals" has been compiled and the institutions have provided long-range goals and a 5-year benchmark for measuring the data.

Nevada leads the western states in minority students. Each institution is different, therefore different goals are mentioned in the report. The institutions are encouraged to work with the Chancellor's Office in setting goals.

Mr. Klaich moved to adopt the UCCSN Diversity Goals as presented. Mrs. Sparks seconded.

Dr. Derby applauded the progress that has been made in this area and commended the staff for compiling the data.

Motion carried.

A question was posed whether an identifiable position in Chancellor's Office would be created for facilitating diversity efforts, and Mrs. Steinberg indicated that the Chancellor would be addressing this issue and would report to the Board the reorganization efforts for the Chancellor's Office staff.
Mrs. Steinberg assured the Board that every effort would be made to work with the institutions’ diversity committees and affirmative action officers to enhance communication, professional development and Campus climate issues.

Mrs. Steinberg indicated that future reports would include assessment of progress against the goals in the annual diversity reports, and would include institutions' progress in diversity as one criteria for Presidential evaluations.

Mr. Robert D. Fess, law partner and executive assistant to Governor Sawyer, spoke on behalf of Governor Sawyer and related his deepest appreciation for this honor. Governor Sawyer had recently suffered a stroke and was unable to attend the meeting.

Mr. Klaich stated that too often UCCSN needs to thank individuals in the private sector and does so by naming projects after them; however, the Board does not often enough honor someone for their lifetime contributions of giving to the State of Nevada. By naming this institute after Governor Sawyer it gives the Board the opportunity to say "Thank You" and the opportunity to preserve Governor Sawyer's greatest contributions to the State of Nevada and to society.

Mrs. Sparks added that she was pleased to make this announcement while the Governor can enjoy the honor. Governor Sawyer has done so much for Nevada and higher education and she stated that he would take much pride in the

20. Approved Resolution: Federal Student Loan Programs

Approved the following resolution concerning Federal student
Loan Programs:

RESOLUTION #95-10

WHEREAS, for nearly half a century, the federal govern-
ment has attempted to ensure that the lack of financial
resources is not a barrier that prevents any qualified
student from going to College, and

WHEREAS, that commitment to access for all qualified
students is now threatened by legislative proposals
to reduce federal spending, and

WHEREAS, Nevada is experiencing unprecedented growth
in the number of high school graduates seeking access
to the Community Colleges and Universities, and

WHEREAS, helping American families meet the costs
of College has paid handsome dividends in the past
and will continue to do so in the future; NOW THEREFORE, BE IT

RESOLVED that the Board of Regents of the University and
Community College System of Nevada urge the federal government to maintain student loan programs that encourage College participation and make tangible higher education as a key element of the American Dream.

Mr. Todd Story, UNLV student, addressed the Board stating
that as a full-time student, who has worked 40 hours per
week, he still needed to receive financial aid. It is
because of the financial aid he has received that he was
able to continue seeking his education.

Dr. Derby moved approval of the resolution supporting the
federal student loan programs. Mrs. Berkley seconded.

Mr. Graves stated that he was having a difficult time
speaking against scholarship money for students, but he
felt that the testimony and this resolution does not address the other important implications that are involved.

He stated that this was a political resolution that would be endorsing UCCSN's current policy on the federal level, and that this is where he had a problem with the issue.

Mr. Graves stated that he would oppose this resolution unless further clarification was given.

Dr. Derby stated that this resolution opposes any reductions in federal spending for student loans. Mr. Graves stated that the repayment of these loans is an issue with many problems. Dr. Derby stated that the resolution was written in broad terms to urge continuation of the student loan program.

Mrs. Berkley stated that she was approached by some students that were concerned with the federal loan programs. She did not feel that higher education should be balanced on the backs of students and explained that for every $1 spent on education, the federal government receives $5.

She stated that she would not have completed her education without the student loan program. She stated that there is legislation before Congress to eliminate this program and this resolution has nothing to do with politics.
She stated that as Regents, the Boards need to deliver higher education at an affordable cost to the students and the Board should take a stand on this issue.

Dr. Derby added that the language was specifically written in broad terms to speak to this issue. It is an issue of higher education that goes beyond a partisan ship. She stated that the Board of Regents is elected on a non-partisan ballot because education is non-partisan. The financial aid programs impact access for students.

Chairman Eardley requested that the resolution be distributed to the appropriate persons, including Nevada's Congressional Delegation.

Motion carried.

Mrs. Gallagher returned to the meeting.

26. Information Only: Public Comment

UNLV Faculty Senate Chairman Jerry Landwer reported to the Board that he has started a telephone campaign to the Legislature on the issue of the cost-of-living adjustment. He noted that the reduced cost-of-living adjustment for professional University staff is being based on the increase of the merit pool, which does not seem logical. He questioned whether there was anything else the UNLV faculty could be doing to persuade the Legislature to keep the cost-of-living adjustment equal to that of the State's classified employees.
Mr. Graves stated that the Board of Regents is in total support of the University professional staff receiving the same cost-of-living increase as the State's classified employees and reported that the Chancellor is at the Legislature at this time trying to persuade the Legislators.

USA President Jeanine Powers expressed her appreciation to the Regent members who served on the ad hoc WNCC Presidential Search Committee and wanted them to know that they are very appreciated.

The meeting adjourned at 4:55 P.M.
