**EXECUTIVE SUMMARY** 

#### **EXECUTIVE SUMMARY**

#### INTRODUCTION

The Government Finance Officers Association recommends that government entities "develop a formal debt policy to establish parameters and to provide general direction in the planning and implementation of a debt program".<sup>1</sup>

Debt can be viewed as the current use of future income. Because debt is a long-term resource, it should be managed with a long-term perspective. The purpose of the Nevada System of Higher Education (the "System") debt management guidelines are to manage the issuance of the System's debt obligations and maintain the System's ability to incur debt and other long-term obligations at favorable interest rates for capital improvements, facilities and equipment beneficial to the System and necessary for essential services. The decision to incur debt may commit revenues for many years into the future, therefore limiting the System's flexibility to respond to changing service priorities, revenue streams or cost structures. The System is governed by the Board of Regents (the "Board"). This document is not intended to review the System's total financial position. Analysis of the System's debt position is important, as growth in the System, aging facilities, and programmatic changes may result in an increased need for capital financing. Resources, as well as needs should drive the System's debt issuance program. Decisions regarding the use of debt will be based in part on the long-term needs of the System and the amount of equity (cash) dedicated in a given fiscal year to capital outlays. The information contained herein reflects the current debt status of the System and provides a framework for the ongoing debt management process the System has implemented. A disciplined, systematic approach to debt management will allow the System to maintain its excellent credit ratings. Unless otherwise noted, the source for the various information presented in this document is the System.

This booklet consists of a Debt Summary followed by the Debt Management Guidelines. The recommendations included herein concur with the System's financing objectives while maximizing the System's ability to finance capital improvements. Debt guidelines have been utilized to maintain the highest possible credit ratings for the System.

<sup>1</sup> An Elected Official's Guide to Debt Issuance, p. 11, by J.B. Jurish and Patricia Tigue, Government Finance Officers Association.

A-1

#### **SUMMARY**

- Bonding should be used to finance or refinance only those capital improvements and long-term assets, or other costs directly associated with financing of a project, which have been determined to be beneficial to the System for which repayment sources have been identified. Bonding should be used only after considering alternative funding sources, such as State appropriations, State ad valorem bonds and Federal or State grants. (See "FINANCING ALTERNATIVES" on page C-1.)
- Each institution should respond to a specific set of questions when seeking added debt to ensure an understanding of the implications on resources. (See "Controlling the Financing Process" on page C-9.)
- The System will provide the rating agencies who maintain a rating on System securities with all material that has a pertinent bearing on System finances. (See "Continuing Disclosure of System Financial Information" on page C-15.)
- All bond issue requests should be coordinated by the Chief Financial Officer during the annual budget and Capital Improvement Program ("CIP") formation process. Opportunities for refunding outstanding bonds should be communicated to the Chief Financial Officer. (See "Administration of Debt" and "Initial Review and Communication of Intent" on page C-8.)
- The System should encourage the use of competitive sales for all bond issues unless circumstances dictate otherwise. Negotiated sales will be considered by the Chief Financial Officer only under the conditions set forth herein. (See "Method of Sale" on page C-10.)
- The System should structure all long-term debt with prepayment options except when alternative structures are more advantageous to the System. The System will consider prepaying or defeasing portions of outstanding debt when available resources are identified, and an economic benefit is provided. (See "Prior Redemption" on page C-17.)
- The scheduled maturity of bond issues should generally not exceed the expected useful life of the capital project or asset(s) financed, or 30 years, whichever is less. (See "Maturity Structures" on page C-17.)
- The Chief Financial Officer should consider refunding outstanding bonds if one or more of the following conditions exist: (1) present value savings is at least 3 percent of the par amount of the refunded bonds, (2) the bonds to be refunded have restrictive or outdated covenants or (3) restructuring debt is deemed to be desirable. (See "Refunding" on page C-18.)
- Institutions seeking "unsecured" bank financing should state the anticipated source of repayment as well as an acknowledgment that the institution will pay debt service if the anticipated source of repayment is not sufficient. (See "Initial Review and Communication of Intent" on page C-9.)
- The Chief Financial Officer should review/update the System's Debt Management Guidelines periodically.

# **SECTION B**

**DEBT SUMMARY** 

#### **DEBT SUMMARY**

#### **CURRENT DEBT POSITION**

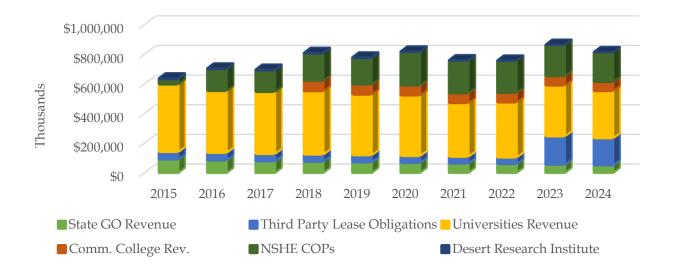

It is recognized that all System debt, regardless of the source of revenue pledged for repayment, represents some sort of cost to taxpayers, facility users, or students. Therefore, all types of System debts/obligations are considered herein.

#### **Debt Issuance History**

The following table and chart illustrate the outstanding bonds as well as the categories of the outstanding bonds as of June 30 for the past ten years.

OUTSTANDING LONG-TERM BONDED DEBT (excludes direct loans and leases)

FY Ending June 30	State GO Revenue	Third-Party Lease Obligations	Universities Revenue	Community College Revenue	NSHE COPs	DRI Lease- Revenue Bonds	TOTAL
2015	\$90,745,000	\$50,445,000	\$455,445,000	\$0	\$36,205,000	\$4,930,000	\$637,770,000

			NSU TOTAL	\$498,940
TOTAL DIRECT LOANS/LEASES				\$4,749,952
GRAND TOTAL OUTSTANDING DEBT				\$819,414,952

<sup>&</sup>lt;sup>1</sup> General obligation bonds secured by the full faith, credit and taxing power of the State. The property tax available to pay these bonds is limited to the \$3.64 statutory and the \$5.00 constitutional limit. These bonds are additionally secured by pledged revenues; if revenues are not sufficient, the State is obligated to pay the difference between such revenues and debt service requirements of the respective bonds.

SOURCE: The System; compiled by JNA Consulting Group, LLC

Lease revenue bonds secured by annual lease payments from NSHE (or the State of Nevada on behalf of NSHE) to the borrower under a lease revenue bond indenture of trust.

<sup>&</sup>lt;sup>3</sup> Lease revenue bonds issued by the National Finance Authority on behalf of NCCD – UNR Properties, LLC. The System has entered into a lease with NCCD – UNR Properties, LLC which forms the foundation of the lease revenue bonds.

<sup>&</sup>lt;sup>4</sup> Universities Revenue Bonds are special obligations of the System payable solely from and secured by a lien on the Net Pledged Revenues. See page B-18 herein.

<sup>&</sup>lt;sup>5</sup> Community College Revenue Bonds are special obligations of the System payable solely from and secured by a lien on the Net Pledged Revenues. See page B-28 herein.

<sup>&</sup>lt;sup>6</sup> These certificates are payable from "all legally available funds of the System." See page B-33.

<sup>&</sup>lt;sup>7</sup> Direct loans are payable from "all legally available funds of the System". See page B-41 herein. Does not include authorized but unissued or undrawn balances of direct loans/leases or direct loans/leases that were entered into after June 30, 2024.

The following table illustrates the debt service to maturity of outstanding System debt by institution.

### OUTSTANDING STATE GENERAL OBLIGATION REVENUE BONDS June 30, 2024

	Date Issued	Final Payment Date	Original Amount	Outstanding
University System Bonds	03/10/15 ΓAL	08/01/32	\$78,335,000	\$50,785,000 \$50,785,000

SOURCE: The System; compiled by JNA Consulting Group, LLC

The State General Obligation Revenue Bonds were issued for the following projects:

2015 Bonds Used to finance improvements to the Thomas & Mack Arena at UNLV and various capital improvements at UNR.

Security for the Bonds - The State of Nevada General Obligation Revenue Bonds (the "State GO/Revenue Bonds") are direct general obligations of the State to which the full faith and credit of the State are pledged. Principal, interest and any prior redemption premiums on the State GO/Revenue Bonds are payable from general (property) taxes levied against all taxable property within the State (except to the extent any other revenues are made available therefor), subject to Nevada constitutional and statutory limitations on the aggregate amount of such taxes.

In any year in which the total property taxes levied within the State by all overlapping units (i.e., the State and any county, city, town, school district or special district) exceed such tax limitations, the reductions to be made by those units (including the State) must be in taxes levied for purposes other than the payment of their bonded indebtedness, including interest on such indebtedness, subject to any implied police power exception.

Nevada Revised Statute ("NRS") 349.150 to NRS 349.326 (the "Bond Act") provides that the faith of the State is pledged that the Project Act (NRS 463.385), the Bond Act, the laws authorizing the slot machine tax (as hereafter defined), any law supplemental or otherwise appertaining thereto and any other act concerning the bonds or other State securities, taxes or pledged revenues, will not be repealed, amended or modified in such a manner as to impair adversely any outstanding State securities, until all such securities have been discharged in full or provision for their payment and redemption has been fully made.

Pledged Revenues – The State GO/Revenue Bonds are further secured by an irrevocable pledge and lien (but neither an exclusive pledge nor an exclusive lien) on a portion of the State's annual \$250 tax on slot machines. Pursuant to NRS 463.385, the State levies an annual tax of \$250 per slot machine in operation within the State (the "Slot Machine Tax"). The proceeds of the Slot Machine Tax are allocated each year as follows: the first \$5,000,000 to the Capital Construction Fund for Higher Education (the "Capital Fund"), 20 percent of the total Slot Machine Tax to the Special Capital Construction Fund constitutes the Pledged Revenues.

The slot machines taxed include all coin-operated gaming devices, including typical slot machines and electronic poker, "21" and craps. If one slot machine is replaced by another, the replacement is not considered a different slot machine for the purpose of the Slot Machine Tax. The Slot Machine Tax is not dependent upon the gaming revenues generated by the slot machine nor upon the size of bet required to play.

The Project Act provides that the Slot Machine Tax credited to the Capital Fund and the Special Fund will not be repealed or diminished so as to impair the payment of principal or interest on the bonds. The payment of the bonds is not secured by any encumbrance, mortgage or other pledge of the property of the System or the State.

#### SLOT MACHINE REVENUE DEBT SERVICE COVERAGE

Fiscal Year Ended June 30	Collections	Revenues <sup>1</sup>	Maximum Annual Debt Service Coverage on the State GO/Revenue Bonds <sup>2</sup>
2014	\$44,317,162	\$13,863,432	2.13

# DEBT SERVICE REQUIREMENTS State General Obligation Revenue Bonds

Use of Refunding Savings – If State GO/Revenue Bonds payable from the Pledged Revenues are refunded and if the amount required to pay the principal of and interest on the refunding State GO/Revenue Bonds in any fiscal year during the term of the bonds is less than the amount that would have been required in the same fiscal year to pay the principal of and the interest on the original bonds if they had not been refunded, there is appropriated to the System an amount sufficient to pay the principal of and interest on the original bonds, as if they had not been refunded. The amount required to pay the principal of and interest on the refunding bonds must be used for that purpose from the amount appropriated. The amount equal to the savings realized in that fiscal year from the refunding must be used by the System to defray wholly or in part the expenses of operation and maintenance of the facilities acquired in part with the proceeds of the original bonds.

#### Third Party Lease Revenue Obligations

The following table outlines lease revenue bonds issued by a third-party borrower which are secured by rental payments from the System to the borrower. For the Nevada State University Project, the rental payments are made by the State of Nevada on behalf of NSHE and are subject to annual appropriation by the legislature. The lease-revenue bonds are not an obligation of NSHE.

### OUTSTANDING THIRD-PARTY LEASE REVENUE OBLIGATIONS June 30, 2024

	Date Issued	Final Payment Date	Original Amount	Outstanding
UNR College of Business Building Project Nevada State University Project	06/28/23 03/07/24	06/01/53 06/01/43	\$148,590,000 37,160,000	\$145,845,000 <u>37,160,000</u>
Total				\$183,005,000

SOURCE: The System; compiled by JNA Consulting Group, LLC

The third-party lease revenue obligations were issued for the following projects:

University in Henderson.

2023 Obligations Used to finance a 128,000 sq. ft. academic and instructional facility for the College of Business on the principal campus of the University of Nevada Reno.
 2024 Obligations Originally issued in 2013 to finance a 60,000 sq. ft. nursing/science/education facility and a 60,000 sq. ft. student activities/administration facility on the principal campus of Nevada State

The System's obligation to pay rent shall not constitute or give rise to a general obligation or indebtedness of the State or a general obligation of the System within the meaning of any constitutional, statutory or debt limitation. The rental payments shall not constitute a general obligation of the System and the rental payments shall not create any pecuniary liability on the part of the directors or officers of the System. The System does not pledge its full faith and credit for the payment of the rental payments. The System has no taxing power.

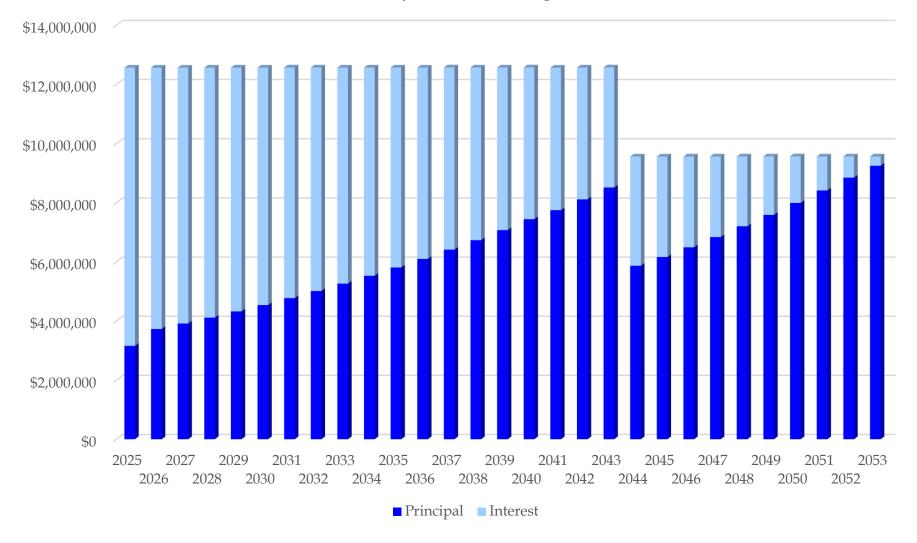

The following table and chart illustrate the existing debt service for the outstanding third-party lease obligations.

THIRD PARTY LEASE REVENUE OBLIGATION DEBT SERVICE REQUIREMENTS June 30, 2024

REMAINDER OF PAGE INTENTIONALLY LEFT BLANK

The Universities Revenue Bonds were issued for the following projects.

Parity Lien Bonds	
March 2014A Bonds	Proceeds used to construct a Student Achievement Center and the Peavine dormitory on the campus of UNR and to finance the refurbishment of the James E Rogers Center for Administration and Justice at UNLV.
February 2015A Bonds	Proceeds used to improve Mackay Stadium on the campus of UNR, improve the Thomas & Mack Arena on the campus of UNLV, and to refinance portions of the 2005B Universities Revenue Bonds and the 2006F Promissory Note for debt service savings.
February 2015B Bonds	Proceeds used to improve Mackay Stadium on the campus of UNR.
April 2016A Bonds	Used to refinance portions of the 2008A and 2009A University Revenue Bonds for debt service savings.
October 2016B Bonds	Proceeds used to acquire the Gateway Parking Garage on the campus of UNLV.
November 2017A Bonds	Proceeds used to refinance the 2010A Bonds for debt service savings.
October 2019A Bonds	Proceeds used to finance the cost of constructing Phase II of the Tropicana parking garage on the campus of UNLV.
August 2021 Bonds	Proceeds used to finance the cost of constructing the Advanced Engineering Building on the campus of UNLV and to refinance the 2011 Bonds for debt service savings.
April 2022 Bonds	Proceeds used to refinance the 2012A Bonds for debt service savings.
April 2023 Bonds	Proceeds used to refinance portions of the 2013A and 2013B Bonds for debt service savings.
April 2024 Bonds	Proceeds used to refinance portions of the 2014A Bonds for debt service savings.

Security for the Bonds - The Universities Bonds are special, limited obligations of the System payable from certain "Net Pledged Revenues" described in the following paragraph. The Universities Bonds do not constitute a debt or an indebtedness of the System within the meaning of any constitutional or statutory provision or limitation and are not general obligations of the System or general, special or other obligations of the State. The owner of any Universities Bond may not look to any general or other fund of the System for the payment of the Universities Bonds except the special funds pledged for the Universities Bonds. The System does not pledge its full faith and credit for the payment of the Universities Bonds. The System has no taxing power.

Pledged Revenues - The Universities Bonds are payable solely out of and secured by an irrevocable pledge of certain income derived from: (i) the gross fees collected from students attending the Universities, which fees are commonly designated as the General Fund Fee, the Capital Improvement Fee, the Student Union Capital Improvement Fee and the General Improvement Fee (collectively, the "Student Fees"), (ii) the gross revenues derived from or otherwise pertaining to the operation of certain special event facilities located on the UNLV campus (known as the Thomas and Mack Center, the Cox Pavilion, and the Sam Boyd Stadium), the operation of all System-owned student housing facilities, dining facilities and parking facilities, whether or not presently existing, situated on the campus of UNLV, after the deduction of the expenses of operation and maintenance of such facilities (other than salaries and the costs of utility services) (collectively, the "UNLV Facilities Revenues"), (iii) the gross revenues derived from or otherwise pertaining to the operation of all System-owned student housing facilities, dining facilities and parking facilities, whether or not presently existing, situated on the campus of UNR, after the deduction of the expenses of operation and maintenance of such facilities (other than salaries and the costs of utility services) (collectively, the "UNR Facilities Revenues"), and (iv) all grants, conditional or unconditional, from the United States of America, the State of Nevada, or any other donor for the payment of the Universities Bonds, if any (the "Grant Revenues") (collectively, the "Net Pledged Revenues"). Other funds of the Universities, including tuition and summer school fees, are not pledged to pay the Universities Bonds. Only non-resident students are charged tuition in addition to a registration fee.

Student Fees - Both resident and nonresident students must pay registration fees that are established by the Board annually. The Board's current policy (which may be changed at any time) is to set the increase in tuition and fees to at least the most recent Higher Education Price Index available for each year of the biennium. Additional factors are considered when setting professional school tuition and fees. There is no legal limit on the Board's ability to raise fees and tuition. The Board's current policy (which may be changed at any time) is to give certain in-state and out-of-state students grants-in-aid waivers of certain of the Student Fees for up to 3% of the enrollment for the prior fall semester. The Board historically has not provided grants-in-aid funding for the full 3% allowed by the policy.

Registration fees are generally payable upon registration for the fall and spring semesters.

UNLV Facilities Revenues - The UNLV Facilities Revenues consist in part of gross revenues derived from or otherwise pertaining to the operation of UNLV's special event facilities after the deduction of expenses of operation and maintenance of those facilities (other than salaries and the costs of utility services). The special event facilities include Thomas and Mack and the Cox Pavilion. Thomas and Mack is a multi-purpose pavilion constructed on the UNLV campus in 1983. Thomas and Mack, which seats 18,500, houses many of the intercollegiate athletic offices as well as a portable basketball court and concession stands. Various sporting events, concerts, rodeos and miscellaneous University events are held in Thomas and Mack. The Cox Pavilion, which opened in the spring of 2001, is a 3,000-seat venue adjacent to Thomas and Mack. The Cox Pavilion houses UNLV's volleyball and women's basketball program. It is also used for academic functions, concerts, trade shows and other functions.

A special event facility that provided a portion of the UNLV Facilities Revenues prior to June 30, 2020 is Sam Boyd Stadium which was constructed in 1971 and seated 32,000. The venue was the home to UNLV's football team until 2019 and other athletic and motor sport events. The UNLV football team moved to the Allegiant Stadium in 2020 and under the terms of an agreement relating to Allegiant Stadium, Sam Boyd is no longer in service as of fiscal year 2021. Accordingly, the System does not anticipate any additional UNLV Facilities Revenues attributable to Sam Boyd Stadium. Prior to the UNLV football team's move to Allegiant Stadium, the Net Pledged Revenues attributable to Sam Boyd Stadium did not constitute a significant portion of Net Pledged Revenues.

The UNLV Facilities Revenues also include gross revenues derived from or otherwise pertaining to the operation of all System-owned student housing and dining facilities, whether or not presently existing, situated on the campus of UNLV, after the deduction of the expenses of operation and maintenance of such housing and dining facilities (other than salaries and the cost of utility services). UNLV currently has twelve resident halls organized into four complexes and a separate dining commons. The residence halls have an aggregate capacity, based on the current configuration, of 1,765 students and can vary depending on single/double configurations and staff assignments.

The UNLV Facilities Revenues also include gross revenues derived from or otherwise pertaining to the operation of all University-owned parking facilities, whether or not presently existing, situated on the campus of UNLV, after the deduction of the expenses of operation and maintenance of such parking facilities (other than salaries and the cost of utility services). Currently, UNLV has 41 parking lots/structures of various sizes with 15,486 total parking spaces available. There are 36 parking lots/structures with 14,617 spaces on the Maryland Campus and 5 parking lots with 869 spaces on the Shadow Lane Campus. Parking fees are based upon status (i.e., student, faculty/staff, resident in oncampus housing or vendor) and whether spaces are reserved.

**UNR Facilities Revenues** – The UNR Facilities Revenues include gross revenues derived from or otherwise pertaining to the operation of all System-owned student housing and dining facilities, whether or not presently existing, situated on the campus of UNR, after the deduction of the expenses of operation and maintenance of such facilities (other than salaries and the cost of utility services). UNR has eight residence halls and a resident dining facility. The eight residence halls have a design capacity of 3,407 students.

The UNR Facilities Revenues also include gross revenues derived from or otherwise pertaining to the operation of all System-owned parking facilities, whether or not presently existing, situated on the campus of UNR, after the deduction of the expenses of operation and maintenance of such parking facilities (other than salaries and the cost of utility services). Currently, UNR has 8,414 total parking spaces available, including permit-required spaces, motorcycle spaces, parking meters and visitor spaces. The parking spaces have fees generally based upon the zone for which a permit is purchased; zones are priced according to their proximity to certain campus buildings.

*Historical Pledged Revenues* – The following table shows the Net Pledged Revenues for the System's Universities Revenue Bonds for each of the five fiscal years ending June 30, 2020 through June 30, 2024.

#### HISTORICAL URB NET PLEDGED REVENUES

	Fiscal Year <sup>1</sup>

Coverage of Maximum Annual Debt Service (\$35,210,416 in 2024) <sup>3</sup>	7.53	7.35	7.65	8.06	8.37
Statutory Coverage of Maximum Annual Debt Service (\$35,210,416 in 2024) <sup>3,4</sup>	1.70	1.39	1.67	2.00	2.05

<sup>&</sup>lt;sup>1</sup> Unaudited

<sup>&</sup>lt;sup>2</sup> The increases in each fiscal year are primarily a result of increased General Fund Fees. See "Student Fees" on page B-19.

<sup>&</sup>lt;sup>3</sup> See Debt Service Requirements in the following table.

<sup>&</sup>lt;sup>4</sup> Statutory revenues include the UNR Capital Improvement and Student Union Capital Improvement Fees, the UNLV Capital Improvement and Student Union Capital Improvement Fees, all UNR Facilities Revenues, and all UNLV Facilities Revenues.

<sup>&</sup>lt;sup>5</sup> For fiscal year 2021, includes revenues received pursuant to the Higher Education Emergency Relief Fund Lost Revenue program ("HEERF Revenues"). HEERF Revenues of \$5,000,000 for Special Event Facilities, \$6,207,000 for Dining & Housing Facilities, and \$1,670,511 for Parking Facilities were received in fiscal year 2021.

The following table and chart illustrate the existing debt service for the outstanding Universities Revenue bonded debt currently paid by Net Pledged Revenues.

## DEBT SERVICE REQUIREMENTS UNIVERSITIES REVENUE BONDS – UNR AND UNLV

### **Community College Revenue Bonds**

The following table illustrates the outstanding Community College Revenue Bonded debt. See page B-44 for a listing of authorized but unissued Community College Revenue Bonds.

## OUTSTANDING COMMUNITY COLLEGE REVENUE BONDS June 30, 2024

	Date Issued	Final Payment Date	Original Amount	Outstanding
Comm. College Rev. Bonds, Series 2017A TOTAL	11/21/17	07/01/47	\$70,915,000	\$61,875,000 \$61,875,000

The Community College Revenue Bonds were issued for the following projects.

Senior Lien Bonds	
November 2017A Bonds	Proceeds used to construct student union buildings on the three principal
	campuses of the College of Southern Nevada.

The community colleges consist of the College of Southern Nevada ("CSN") in North Las Vegas, Great Basin College ("GBC") in Elko, Truckee Meadow Community College ("TMCC") in Reno, and Western Nevada College ("WNC") in Carson City (collectively, the "Community Colleges").

**Special Limited Obligations** – The Community College Revenue Bonds are special, limited obligations of the System payable from certain "Net Pledged Revenues" described in the following paragraph. The Community College Revenue Bonds do not constitute a debt or an indebtedness of the System within the meaning of any constitutional or statutory provision or limitation and are not general obligations of the System or general, special, or other obligations of the State. The owner of any Community College Revenue Bond may not look to any general or other fund of the System for the payment of the Community College Revenue Bonds except the special funds pledged for the Community College Revenue Bonds. The System does not pledge its full faith and credit for the payment of the Community College Revenue Bonds. The System has no taxing power.

Net Pledged Revenues – The Community College Revenue Bonds are payable solely out of and secured by an irrevocable pledge of certain income derived from: (i) the gross fees collected from students attending the Community Colleges, which fees are commonly designated as the General Fund Fee, the Capital Improvement Fee, the Student Association Fee and the General Improvement Fee (collectively, the "Student Fees"), (ii) all grants, conditional or unconditional, from the United States of America, the State of Nevada, or any other donor for the payment of the Community College Revenue Bonds, if any (the "Grant Revenues"), and (iii) net revenues, if any, from income-producing buildings, structure and improvements located at the Community Colleges and to which the Net Pledged Revenues pertain by an extension hereafter thereto (collectively, the "Net Pledged Revenues"). Other funds of the Community Colleges, including tuition and summer school fees, are not pledged to pay the Community College Revenue Bonds. Only non-resident students are charged tuition in addition to a registration fee.

*Historical Pledged Revenues* – The following table shows the Net Pledged Revenues for the System's Community College Revenue Bonds for each of the five fiscal years ending June 30, 2020 through June 30, 2024.

TOTAL				\$200,920,000

SOURCE: The System; compiled by JNA Consulting Group, LLC

The Certificates of Participation (the "Certificates") were issued to finance the following projects.

Certificates of Participation	
August 2014A Certificates	Proceeds used to finance construction of the E.L. Wiegand Fitness Center on the campus of UNR and to finance construction of the William N. Pennington Health Science Center at TMCC's Redfield Campus.
February 2016A Certificates	Proceeds used to finance construction of the New White Pine Residence Hall on the campus of UNR and to refinance the outstanding 2005B Universities Revenue Bonds for debt service savings.
March 2016B Certificates	Proceeds used to acquire 42 acres of vacant land adjacent to the main UNLV campus.
November 2017A Certificates	Proceeds used to partially finance construction of a new School of Engineering Building on the campus of UNR.
April 2018A Certificates	Proceeds used to finance construction of a new fitness center on the campus of TMCC.
January 2020A Certificates	Proceeds used to acquire the Ponderosa Village student housing complex and to construct a parking garage on the campus of UNR.
April 2024 Certificates	Proceeds used to refinance portions of the 2014A Certificates for debt service savings.

Special, Limited Obligations – The Certificates are special, limited obligations of the System payable from "all legally available funds of the System." Each campus taking part in the issuance of Certificates must identify a specific revenue stream to make payment on the Certificates. The revenue stream is not formally pledged to Certificate holders and the Certificate holders have no right to force the System to maintain rates and charges such that the revenue stream is not impaired. The Certificate holders do not have a lien on any asset being financed. The Board covenants in the resolution authorizing the issuance of the Certificates to make sufficient provision annually in its budget to pay principal and interest on the Certificates when due. The Certificates do not constitute a debt or indebtedness of the State, nor a charge against the State's taxing power.

The table and chart on the following pages illustrate the existing debt service for the outstanding Certificates.

**Use of Direct Loans** – Direct loans have been used by various institutions for a variety of purposes. In some cases, direct loans are used to provide temporary financing pending long term bond financing, to provide funds payable from expected donations, or used to provide permanent financing for various projects.

Security for Direct Loans – Direct loans are payable from "all legally available funds of the System." In most cases, the institution seeking direct financing has a specific revenue stream informally dedicated to make the debt service payments. Such revenue stream is not formally pledged to the loan and the lender has no rights to force the System to maintain rates and charges such that the revenue stream is not impaired. In general, the lender does not have a lien position in the asset being financed.

When the Board adopts a resolution authorizing direct financing, it covenants to make sufficient provision annually in its budget to pay the principal and interest on the loan when due. System direct loans do not constitute a debt or indebtedness of the State, nor a charge against the State's taxing power.

*Direct Loan Attributes* – The advantage of direct financing generally relates to their inherent flexibility. The specifications on a direct loan can be tailored to the needs of the institution. Such specifications include, whether or not the loan will be fully funded at closing or will be structured as a line of credit with a draw down component, the frequency of debt service payments (monthly, quarterly, semiannually, etc.), the term of the loan and the term of an interest only period before amortizing payments begins. The transaction costs associated with obtaining direct financing are normally relatively small. The System enjoys the flexibility to refinance direct loans or to retire loans prior to maturity, since most loans are fully pre-payable.

## *Use of Direct Loan/Lease Proceeds* – The Direct loans/leases were used for the following projects.

University of Nevada, Reno	
450 Sinclair Street Lease	Lease of a building by UNR. The System will own the building at the end of the lease period.
MEB Refunding Note	Refinanced the 2009 MEB Note which funded construction of the Medical Education Learning Lab on the campus of UNR.
Athletics Note	Financed construction of ADA improvements at Mackay Stadium on the campus of UNR.
Nevada State University	
Laerdal Equipment Lease	Financed acquisition of equipment for use in the nursing simulation lab.
Lenovo Equipment Lease	Financed acquisition of 200 Lenovo computers
Lenovo Data Center Lease	Financed acquisition of a Lenovo data center
Dell Equipment Lease	Financed acquisition of 50 Dell Opti-Plex computers
	·

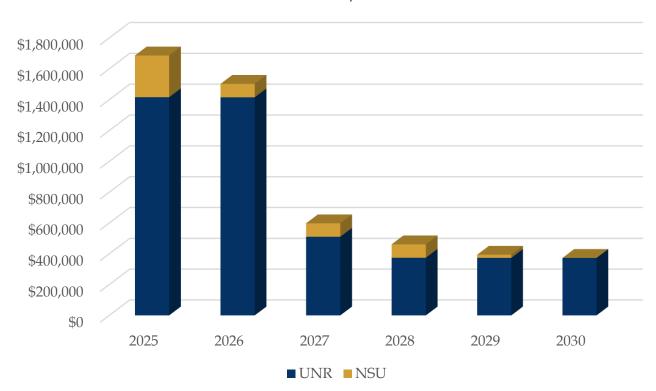

The following table and chart illustrate the annual direct loan/lease payments by institution.

## DEBT SERVICE REQUIREMENTS TO MATURITY Direct Loans/Leases

### **DEBT LIMIT/AUTHORIZATION**

The State of Nevada general obligation revenue bonds are subject to the State's general obligation debt limitation. There is no formal debt limit for revenue bonds or direct loans. However, the System's ability to issue bonds is limited to existing additional bonds tests found in the authorizing legislation, authorizing resolutions, and to projects or other revenues available for debt service.

The System has a total of \$203,505,000 in bonds authorized by the Legislature but unissued as of June 30, 2024.

The following table presents the authorized but unissued bonds of the System.

## AUTHORIZED BUT UNISSUED BONDS June 30, 2024

Campus/Project	Principal	Expiration of Authorization
UNR Student Housing, Dining, Library, Parking Facilities and/or	Φ <b>2 7</b> 00 000	01 /2020

#### **RATING AGENCY ANALYSIS**

The most recent rating agency reports from Moody's Investors Service, Standard & Poor's, and Fitch Ratings have been inserted in Section J.

Rating agencies provide an independent assessment of the relative creditworthiness of municipal securities. The rating system consists of letter grades that convey each company's assessment of the ability and willingness of a borrower to repay its debt in full and on time. Many investors rely upon these letter grades as a means of assessing the likelihood of repayment.

Credit ratings issued by the bond rating agencies are a major factor in determining the cost of borrowed funds in the municipal bond market. Determination of a credit rating by a rating agency is based on the rating agency's assessment of the credit worthiness of an issuer with respect to a specific obligation. In addition to analyzing the administrative and fiscal management of the System, the rating analysts analyze the debt burden and economic base. Rating analysts review many factors not addressed in this document to determine bond ratings.

#### **DESCRIPTION OF BOND RATINGS**

Moody's	Standard & Poor's	Description
High Grade		
Aaa	AAA	The highest rating assigned to a debt instrument, indicating an extremely strong capacity to pay principal and interest. Bonds in this category are often referred to as "gilt-edge" securities.
Aa1	AA+	High-quality bonds by all standards with strong capacity to pay
Aa2	AA	principal and interest and are judged to be of high quality by all
Aa3	AA-	standards. These bonds are rated lower primarily because the margins of protection are less strong than those for Aaa and AAA.
Medium Inv	estment Grade	
A1	A+	These bonds possess many favorable investment attributes, but
A2	A	elements that suggest a susceptibility to impairment given adverse
A3	A-	economic changes may be present.
Baa1	BBB+	Bonds are regarded as having adequate capacity to pay principal and
Baa2	BBB	interest, but certain protective elements may be lacking in the event of
Baa3	BBB-	adverse economic conditions that could lead to a weakened capacity
		for payment.
Spec	ulative	
Ba1	BB+	Bonds regarded as having only moderate protection of principal and
Ba2	BB	interest payments during both good and bad times.
Ba3	BB-	
B1	B+	Bonds that generally lack characteristics of other desirable investments
B2	В	and have greater vulnerability to default. Assurance of interest and
B3	В-	principal payments over any long period of time may be small.

## The following table illustrates the System's various debt ratings:

## **CURRENT DEBT RATINGS**

	Ratings			
Type of Debt	Moody's	Standard & Poor's	Fitch	
State GO/Revenue Bonds	Aa1	AA+	AA+	
Universities Revenue Bonds	Aa2	AA-		
Community College Revenue Bonds	Aa3	AA-		
NSHE Certificates of Participation		AA-	AA	
UNR College of Business Lease-Revenue Bonds		A+	AA	

# **SECTION C**

**DEBT MANAGEMENT GUIDELINES** 

#### **DEBT MANAGEMENT GUIDELINES**

#### FINANCING ALTERNATIVES

#### General

Before considering which method of financing may be the most appropriate, the System should evaluate all potential funding sources. These sources include intergovernmental grants from federal, state or other sources, current revenues and fund balances, private sector contributions, or public/private partnerships and leasing.

### **State Funding**

Many System capital projects are funded directly by the legislature with appropriated State funds. Other System projects are funded by the sale of State property tax supported bonds. This funding source should be reserved for the most essential projects.

## Pay-As-You-Go Financing

The pay-as-you-go method of funding means simply that capital projects are paid for from the current revenue base (i.e., the entity does not issue bonds.)

The use of pay-as-you-go financing has several advantages. For example, pay-as-you-go financing will result in saving the amount of interest which otherwise would be paid on bonds to finance the project. Furthermore, when economic conditions deteriorate due to normal business cycles, the entity is not encumbered by as much debt service. Pay-as-you-go contributions provide greater budgetary flexibility than does a debt issue, as contributions can be reduced in a given budget year. At the same time, the entity's long-term debt capacity is preserved for the future. Finally, lower debt ratios may have a positive effect upon the jurisdiction's credit rating.

There are several disadvantages to relying on current revenues to finance capital improvements. Exclusive reliance upon pay-as-you-go funds for capital improvements means that existing residents/users are obliged to pay for improvements that will benefit residents/users that relocate to the area or use the facility after the expenditure is made. Also, the large capital outlay required for some projects may result in an onerous debt service payment if the expenditure is financed within a single budget. The use of current revenues for capital projects may diminish the System's ability to respond to emergencies.

Many improvements and pieces of equipment are included in the operating budget on a pay-asyou-go basis. Ongoing operating costs should be supported by stable revenue sources. Thus, recurring equipment replacement needs, such as, cars, office equipment and recurring maintenance costs, should be funded through the operating budget.

In addition to these recurring needs, capital improvements can also be partially or completely paid for on a cash basis in order to avoid the interest costs incurred with other financing mechanisms.

In many cases, pay-as-you-go financing is impractical due to the cost of the capital improvement and the need to build the project in a limited time frame instead of in phases over a period of years.

#### Grants

Government grants stem from a variety of sources, but the majority of grant revenues for capital projects come from the national and state governments. Often, they require a matching contribution. Most grants require an application, identifying specific improvements or equipment that will be purchased with the grant money.

#### **Bonds**

The following section illustrates financing structures which have been used in previous financings and may be used in the future. Because of the high cost of funding certain capital improvements, governmental entities are generally not able to accumulate enough cash from current revenues to pay for necessary improvements. Bonds permit these organizations to acquire assets as needed rather than wait until a sufficient amount of cash has been built up.

Within each category there are many different types of financing instruments available depending on legal constraints, investor demand, capital market activity and the type of project being financed. The different types of financing instruments are discussed in the next section. Included here are brief summaries of financing alternatives that are currently available to the System.

State General Obligation/Revenue Bonds – The security for a general obligation ("GO") bond is the taxing power of the state or local government. An issuer selling a GO bond secured by its full faith and credit attaches to that issue its broadest pledge, making the security of these bonds very high. The full faith and credit backing of a GO bond includes the pledge of all general revenues, unless specifically limited, as well as the legal means to raise tax rates to cover debt service. The public entity is authorized to levy and property taxes or to draw from other unrestricted revenue streams such as sales or income taxes to pay the bonds' principal and interest. Primarily due to this superior security, interest rates on these bonds are generally the lowest of any public securities. From time to time, the State Legislature has authorized the Board of Regents to issue general obligation bonds on behalf of the State of Nevada which are additionally secured by pledged revenues. (See "State General Obligation Revenue Bonds" on page B-10.)

The following table illustrates the timing and events associated with the issuance of this type of bond.

## STATE GENERAL OBLIGATION/REVENUE BONDS Sample Bond Issuance Schedule

#### **Number of Weeks From Event** Start 0 State Legislature authorizes issuance of bonds 1 Board of Regents adopts Bond Sale Resolution 3 State Board of Finance adopts Sale Resolution 4 Due Diligence Meeting to Review the Preliminary Official Statement 7 Bond Sale State Treasurer executes Award Certificate 10 **Bond Closing**

Revenue Bonds - Revenue bonds that are issued to finance a specific revenue-generating project are sometimes secured by the revenues of that project. Reserve funds (when appropriate), certain restrictive covenants and additional bonds coverage tests also provide security on revenue bonds. Revenue bond financing provides a method of matching the capital cost of a facility to the ultimate user by amortizing the bond issue in annual installments including: bridges, airports, water and sewer treatment facilities, health care facilities, waste water recovery, public power projects and housing projects. Depending on the type of project financed, the issuing entity pays debt service from either user fees, tolls, concessions, lease back arrangements or revenues from the acquired or constructed facility.

Because revenue bonds are not backed by the full faith and credit of the issuer and the underlying security is only the revenue stream pledged to pay bond principal and interest, revenue bonds do not affect the state's constitutional or statutory debt limitation placed on municipal entities.

The following table illustrates the timing and events associated with the issuance of Nevada System of Higher Education Revenue Bonds.

## ISSUANCE OF NEVADA SYSTEM OF HIGHER EDUCATION REVENUE BONDS Sample Financing Schedule

Number of Weeks From	
<b>Start</b>	<b>Event</b>
0	Legislature authorizes issuance of bonds
1	Board of Regents adopt Bond Sale Resolution*
3	Business Officers coordinate "Bank-Qualified" status (if needed)
6	CPA reviews Additional bonds test
7	Due Diligence Meeting to Review Official Statement
10	Board of Regents adopts Bond Resolution*
	Bond Sale
13	Bond Closing

<sup>\*</sup>May be combined into one action.

**Direct Loans** – Direct loans can be used by these institutions for a variety of purposes. In some cases, direct loans have been used to provide temporary financing pending long term bond financing. Direct loans can be used to provide current funds payable from expected donation, or to provide permanent financing for a variety of projects.

Direct loans are payable from "all legally available funds of the System". In most cases, the institution seeking direct financing has a specific revenue stream informally dedicated to make debt service payments. Such revenue stream is not formally pledged to the loan and the lender has no rights to force the System to maintain rates and charges such that the revenue stream is not impaired. Generally, the lender does not have a lien position in the asset being financed.

When the Board adopts a resolution authorizing direct financing, they covenant to make sufficient provision annually in its budget to pay the principal and interest on the loan when due. System direct loans do not constitute a debt or indebtedness of the State, nor a charge against the State's taxing power.

The following table illustrates the timing and events associates with obtaining direct financing:

## ISSUANCE OF NEVADA SYSTEM OF HIGHER EDUCATION DIRECT LOANS Sample Financing Schedule

Number of Weeks From	
<b>Start</b>	<b>Event</b>
0	Institution requesting direct financing sends request letter to Chief Financial Officer
3	Board of Regents authorize financing bids to be solicited
5	Bank-Qualified Status memo distributed to Business Officers (if necessary)
7	Financing Request distributed to Banks
8	Business Officers confirm Bank-Qualified Status
11	Financing Proposals due Board of Regents adopts Resolution awarding financing
15	Loan Closing/First Draw Down

Lease-Purchase Obligations – Lease-purchase financing is a contractual arrangement between a unit of government, usually a state, city or municipality, (the "lessee") for financing the acquisition of assets for the governmental unit and the lessor who is responsible for acquiring the assets per instructions given by the lessee. The lessor receives lease payments from the lessee over the life of the agreement. The lessee has complete control and responsibility for the assets during the contract term and must provide maintenance, insurance and general safekeeping of the assets. At the end of the term of the contract and upon fulfillment of all contractual obligations, title to the assets is normally transferred to the lessee.

Leases are generally funded as an operating expense. The security for lease-purchase financing may include the lease payments made by the lessee, the asset being financed and other legally available revenues. Lease payments may be subject to annual appropriation. This financing technique provides long-term financing through a lease (with mandatory purchase provision) that does not constitute indebtedness under a state or local government's constitutional debt limit and does not require voter approval. In a lease-purchase transaction the asset being financed can include a new capital asset needed, assets under existing lease agreements, or, in some cases, equipment purchased in the past for which the government or municipal unit would prefer to be reimbursed and pay over time.

The following table illustrates the timing and events associates with obtaining direct financing:

## ISSUANCE OF NEVADA SYSTEM OF HIGHER EDUCATION LEASE-PURCHASE OBLIGATIONS Sample Financing Schedule

#### **Number of Weeks From Start Event** 0 Board of Regents authorize process (may be delegated) Developer/Construction Manager, Underwriter selected (may occur prior to Regent action) 3 Financing terms established 6 Due Diligence meeting to review the Preliminary Official Statement 7 Preliminary Official Statement distributed 9 Pricing (after construction costs finalized) Board of Regents adopt Resolution 12 Closing

The following table generally illustrates various financing options (i.e., ways to leverage a revenue stream) as opposed to sources of debt repayment. Before a financing method can be selected, a source of repayment (revenue stream), must be selected.

## SUMMARY OF CAPITAL FINANCING OPTIONS

Financing Method	Security	Source of Debt Payment	Approval Process	Cost of Funds 1=Best	Notes
1 State General Obligation Bonds / Appropriations	General obligation of State	State-wide property tax	<ul><li>Legislative authorization</li><li>State Board of Finance</li><li>Timing: Varies</li></ul>	1	- Generally, no direct cost to System
2 State Lease Purchas	e State promise to pay	State funds (can include other funds)	<ul> <li>- Legislative authorization or Interim Finance Committee</li> <li>- State Dept. of Admin, Treasurer</li> <li>- State Land Registrar</li> <li>- State Board of Finance</li> <li>- Board of Regents</li> <li>- State Board of Examiners</li> <li>Timing: 4-6 months</li> </ul>	1	<ul> <li>No direct cost to System to the extent that the lease purchase paid with State funds</li> <li>Subject to annual appropriation</li> <li>State controls issuance process</li> </ul>
3 Slot Tax Revenue (State) Bonds	Pledged slot tax revenues / general obligation of State	Slot tax revenues	<ul><li>Legislative authorization</li><li>Board of Regents</li><li>State Board of Finance</li><li>Timing: 3-5 months</li></ul>	2	<ul><li>Historically used for pavilions</li><li>Coverage test limits usage</li><li>Used infrequently</li></ul>
4 Universities/ Community College Revenue Bonds	Pledged student fees; revenues from various facilities	Most revenue streams	- Legislative authorization - Board of Regents Timing: 2-3 months	3	<ul> <li>"Statutory" coverage may become an issue</li> <li>Fast process: 1 Regent meeting</li> <li>Most frequently used funding mechanism (\$362 million outstanding 06/30/21)</li> </ul>

<sup>-</sup> Table continued on following page -

Financing Method	Security	Source of Debt Payment	Approval Process	Cost of Funds 1=Best	Notes
5 System Certificates of Participation	All legally available System revenues	Most revenue streams	- Board of Regents Timing: 2-3 months	4	<ul> <li>No lien upon asset to be financed</li> <li>Legislative authorization not required</li> <li>Interest rates slightly greater than revenue bonds due to lack of specific lien</li> </ul>
6 Direct Loans	All legally available system revenues	Most revenue streams	- Board of Regents Timing: 2-3 months	5	<ul><li>Flexible terms (can do via line of credit, prepayable)</li><li>Fast process: 1 Regent meeting</li><li>Difficult to obtain fixed rates beyond 15 years</li></ul>
7 Installment Purchase or Lease Purchase Financing	Generally, collateral in asset being financed and/or promise of System to pay	Most revenue streams	- Board of Regents Timing: 4-6 months	6 or higher	<ul><li>Can do COPs</li><li>May have an annual appropriation clause</li><li>May need to do an appraisal</li></ul>
8 Industrial Development Revenue Bonds	Revenue stream / collateral (asset being financed)	Most revenue streams	<ul><li>- City or County</li><li>- Board of Regents or a foundation</li><li>Timing: 3-6 months</li></ul>	6 or higher	
9 Vendor / Developer Financing	Revenue stream / collateral (asset being financed)	Most revenue streams	- Board of Regents Timing: 3-6 months	7 or higher	- Generally, the most expensive source of funds

#### **Bond Variations**

The following is a list of financing vehicles currently available:

Capital Appreciation Bonds – Capital Appreciation Bonds ("CABS") are deeply discounted bonds bearing little or no interest. The yield is derived from the purchase price of the bond. For example, a current interest bond with a 20-year maturity bearing a 7% coupon would be sold at par (\$1,000). However, a \$1,000 bond yielding 7% without a semiannual coupon payment would be sold initially for \$252; at maturity the investor would receive \$1,000.

The purpose and benefit of a CAB is to delay debt service payments to later years. CABs are sometimes used to place debt burdens on eventual users of public facilities. Such a financing mechanism might be used in conjunction with more commonly used interest-bearing bonds to homogenize the total debt service. CAB's can only be used if the enabling legislation permits their use. (See "Use of Long-term Debt" on page C-17 for the System's procedures regarding the use of CAB's.)

Variable Rate Debt – Variable rate instruments permit the municipality to capture the lower interest rates available to borrowers for very short debt maturities. While the issuer may receive an interest rate benefit, it assumes the risk of upward movements in the levels of tax-exempt interest rates or shifts in the market acceptability of short-term debt. (See "Use of Long-term Debt" on page C-17 for the System's procedures regarding the use of variable rate debt.)

Taxable Alternatives – The taxable municipal market has developed as a consequence of the impact of the Tax Reform Act of 1986 which eliminated the tax-exempt market as an alternative for many municipal financing needs. The area most dramatically affected is the issuance of industrial development bonds commonly used by municipalities to encourage economic development within their boundaries. The yield on these obligations is closely tied to Treasury obligations with a comparable average life and is more expensive debt than would be attainable in the tax-exempt market. The System has issued several taxable obligations in the past.

#### **DEBT ISSUANCE PROCEDURES AND GUIDELINES**

#### Administration of Debt

The Chancellor is the Chief Executive Officer of the System. The Chief Financial Officer (the "CFO") is the Chief Financial Officer of the System. With the exception of those responsibilities specifically assigned by state statute to the Chancellor, the CFO is responsible for administration of System financial policies. The Board of Regents must approve any form of System borrowing and the details associated therewith. The Director of Banking and Investments coordinates the administration and issuance of debt, as designated by the CFO.

The CFO is also responsible for attestation of disclosure and other bond related documents. References to the Chancellor in bond documents are hereinafter assumed to be assigned to the CFO as the "designee" for administration of these procedures.

### **Controlling the Financing Process**

The System and each institution should ask the following questions<sup>2</sup> to assess the cost and benefit of added debt:

- What are the capital needs of the institution for the next five years? Ten years?
- What other resources will be available to support added debt in the future?
- What funding will be necessary to meet the gap between capital needs and available resources?
- In the long-term capital plan, how much of the funding comes from continuing operating resources, i.e., student fees versus other sources?
- How restricted is the operating budget in sustaining existing debt service payments?

The questions demand institutional and System attention to present and future resources. The inaccurate assumption of resource availability will create a ripple effect over a number of years given the necessity to pay debt service and defer other program priorities.

The System will seek answers to the previous questions with each institutional request to incur additional debt, i.e., loans, bonds and leases. Further, presidential approval of debt with specific attention to the short and long-term implications on institutional resources is required.

#### Initial Review and Communication of Intent

All borrowing requests (bonds, direct loans, leases, etc.) shall be communicated to and coordinated by the CFO, prior to seeking Board approval to incur debt. Opportunities for refunding shall originate with or be communicated to the CFO. Justification and requested size of the proposed financing must be presented as well as the proposed timing of the transaction.

For direct loans, the institution requesting financing will send a request letter to the CFO stating the following:

- size of direct loan
- anticipated source of repayment
- acknowledgment that the institution will make loan payments if anticipated source of repayment is not sufficient
- preferred timing

The CFO will evaluate each debt proposal comparing it with other competing interests within the System. All requests will be considered in accordance with the System's overall adopted priorities. The CFO will coordinate the issuance of all debt including: size of issuance, debt structuring, repayment sources and determination of mix (e.g., debt financing versus pay-as-you-go) and method of sale.

<sup>&</sup>lt;sup>2</sup> Handbook on Debt Management for Colleges and Universities, p. 23, R.T. Forrester and Coopers and Lybrand, NACUBO. 1988.

### Authorization of Debt

All debt of the System (bonds and/or direct loans) must be approved by the Board of Regents. Capital leases, if the principal amount is less than \$100,000, may be approved by the president of the institution after consultation with the CFO.

#### **Business Officers**

The Business Officers meet frequently to coordinate financial issues which have System wide implications. This group consists of the institutional Vice Presidents for Finance or other finance representatives. The Business Officers coordinate pending new or refunding bond issues, the method of bond sale (competitive or negotiated), contracts for bank and bond related services and the determination of the bank-qualified status.

The Business Officers meet under the direction of the CFO. Technical information and coordination related issues (e.g., bank-qualified status) are provided by the System's Financial Advisor.

#### Method of Sale

There are two ways bonds can be sold: competitive (public) or negotiated sale. Competitive and negotiated sales provide for changing issue size, maturity amounts, term bond features, etc. The timing of competitive and negotiated sales for the System is generally related to the requirements for agenda publication and the Nevada open meeting law.

Competitive Sale – With a competitive sale, any interested underwriter(s) is invited to submit a proposal to purchase an issue of bonds. The bonds are awarded to the underwriter(s) presenting the best bid according to stipulated criteria set forth in the notice of sale. The best bid is usually determined based on the lowest overall interest rate. Competitive sales should be used for all issues unless circumstances dictate otherwise.

**Negotiated Sale** – A negotiated sale is a securities sale through an exclusive arrangement between the issuer and an underwriter or underwriting syndicate. At the end of successful negotiations, the issue is awarded to the underwriter(s).

Negotiated sale may be considered upon recommendation of the CFO based on one or more of the following criteria:

- Extremely large issue size
- Complex financing structure (i.e., variable rate financings, new structure and certain revenue issues, etc.) which provides a desirable benefit to the System
- Comparatively low credit rating
- Other factors which lead the CFO to conclude that a competitive sale would not be effective

### **Underwriter Selection for Negotiated Sale -**

- The CFO may establish a list of pre-qualified underwriters when a negotiated sale is anticipated. The list will be based on firms that have submitted, as a part of the syndicate, bids for System competitive bond issues during the past five years.
- The request for proposal ("RFP") will be sent by the CFO or his designee to underwriters on the list, as well as to other qualified underwriters. The format of the RFP will be determined by the CFO. Spread quotation for, (1) a management fee, (2) direct expenses, (3) an underwriting fee and (4) takedown (or sales concession) will be obtained from each firm.
- The proposals will be evaluated on responsiveness, experience, and cost.
- An underwriting syndicate will be designated by the CFO and ratified by the Board of Regents. It is the System's intent, once an underwriting syndicate is established, to provide equal opportunity for the position of "book-running senior manager" of the underwriting syndicate. The CFO may rotate the book-running senior manager on a deal by deal basis (i.e., when more than one issue is being sold for the same project having different dated dates), to provide equal opportunity to all members of the syndicate.
- The underwriting syndicate should be balanced with firms having institutional, retail, and regional sales strengths. Qualified minority and/or woman owned firms may be included in the underwriting syndicate and if included will be given an equal opportunity to be book-running senior manager.
- The size of issue will determine the number of members in the underwriting team and whether more than one book running senior manager is desirable.

*Underwriting Spread* – Before work commences on a bond issue to be sold at negotiated sale, the underwriter shall provide the CFO a detailed estimate of all components of their compensation. Such estimates should be contained in the RFP or provided immediately after their designation as underwriter. An updated estimate of the expense component of gross spread must be provided to the CFO by the book-running senior manager no later than one week prior to the day of pricing.

**Establishment of a Selling Group** - When deemed appropriate by the CFO, a selling group will also be established to assist the underwriting syndicate in the marketing of the bond issue.

*Priority of Orders -* The priority of orders to be established for negotiated sales is as follows:

- Nevada Investors
- Group Orders
- Designated Orders
- Member Orders

For underwriting syndicates with three or more underwriters, a three-firm rule for net designated orders will be established as follows:

- The designation of takedown on net designated orders is to benefit at least three firms of the underwriting syndicate.
- No more than 50% of the takedown may be designated to any one firm. No less than 10% of the takedown will be designated to any one firm.

**Retentions** – If the use of retentions is desirable, the CFO will approve the percentage (up to 30%) of the takedown to be set aside. The amount of total retention will be allocated to each member of the underwriting syndicate in accordance with their respective underwriting liability, which is approved by the CFO.

Allocation of Bonds – The book-running senior manager will be responsible for ensuring that the overall allocation of bonds meets the System's goals of obtaining the best price for the issue and a balanced distribution of the bonds. The CFO must approve the final bond allocation process with input from the book-running senior manager.

#### Use of Bond Insurance

Bond insurance is an insurance policy purchased by an issuer or an underwriter for either an entire issue or specific maturities, which guarantees the payment of principal and interest. This security provides a higher credit rating and thus lowers the borrowing cost for an issuer.

Bond insurance can be purchased directly by the issuer prior to the bond sale (direct purchase) or at the underwriter's option and expense (underwriter's option). The System will attempt to qualify its bond issues for insurance with bond insurance companies rated higher than the underlying rating on the bonds.

The decision to purchase insurance directly versus underwriter option is based on:

- volatile markets
- current investor demand for insured bonds
- level of insurance premiums
- ability to purchase bond insurance from bond proceeds
- more complicated financing structure

When insurance is purchased directly by the System, the present value of the estimated debt service savings from insurance should be at least equal to or greater than the insurance premium. The bond insurance company will usually be chosen based on an estimate of the greatest net present value insurance benefit (present value of debt service savings less insurance premium).

It is the System's preference to have insurance purchased at underwriter's option, if at least two insurance companies are expected to qualify the issue for insurance.

#### **Derivatives**

The term "derivatives" refers to a wide array of financial products that are dependent for their value on (or "derived" from) an underlying financial instrument (e.g., stocks, bonds or foreign currencies), a commodity, or an index representing values of groups of such instruments or assets. Some of the most commonly used derivatives are swaps, options, futures, forwards and a variety of structured securities.

The System may use interest rate swaps, derivatives, and similar instruments (collectively, "Derivatives") to meet its financial and management objectives, if appropriate. The System will adhere to sound financial and risk management policies when considering or entering into Derivatives.

- 1- The System will obtain the approval of the Board prior to entering into any Derivative agreement. The System, in consultation with its bond counsel and financial advisor will determine whether a proposed agreement complies with State law, applicable Commodities Futures Trading Commission ("CFTC") Regulations, any other applicable law, and any other applicable provisions of the System's bond resolutions or agreements with respect to its outstanding debt.
- 2- The System will engage the services of a swap advisor prior to entering into any Derivative agreement. The qualifications of the swap advisor will meet the requirements outlined in Appendix 1 to this Section.
- 3- The System may execute a Derivative agreement to the extent the transaction can be reasonably expected to achieve one or more of the following objectives:
  - a. Result in a lower net cost of borrowing with respect to the System's debt,
  - b. Reduce exposure to changes in interest rates either in connection with a particular debt financing or investment transaction or in the management of interest rate risk with respect to the System's overall debt and investment portfolios, or
  - c. Enhance financing flexibility for future capital projects.
- 4- The System will not execute a Derivative agreement under the following circumstances:
  - a. When a Derivative is used for speculative purposes, such as potential trading gains, rather than for managing and controlling interest rate risk in connection with System debt or investments,
  - b. When a Derivative creates extraordinary leverage or financial risk,
  - c. When the System lacks sufficient liquidity to terminate the Derivative at current market rates, or
  - d. When insufficient price information prevents the System and its advisors from reasonably valuing the Derivative.
- 5- The System does not currently have any outstanding Derivatives. Prior to entering into such transactions, the System will consult with its bond counsel and financial advisor on appropriate limits to the System's exposure to Derivatives.
- 6- The System will execute Derivative agreements only with counter parties rated "A" or above by one or more major credit rating agencies (e.g. Standard & Poor's).

- 7- All Derivative agreements entered into by the System must include provision for optional termination by the System, with or without premium, not later than 10 years from the commencement date or the redemption provisions of the underlying bond or transaction covered by the Derivative.
- 8- The System may require collateralization to secure Derivative payment obligations of the counter party if the counter party's rating falls to "A-" or below by one or more major credit rating agencies (e.g. Standard & Poor's). At minimum, such collateralization must meet or exceed the System's exposure to the counter party.
- 9- The Chancellor or the CFO will report annually to the Board regarding the System's outstanding Derivatives and review actual Derivative performance with the System's goals.
- 10- The System will promptly provide all Derivative documentation to any rating agency with a rating on System bonds.

#### Arbitrage Rebate

Arbitrage is the practice of simultaneously buying and selling an item in different markets to profit from a spread in prices or yields resulting from market conditions.

With reference to municipal bonds, arbitrage profits are made by selling tax-exempt bonds and investing the proceeds in higher-yielding taxable securities. Municipal issuers are allowed to make arbitrage profits under certain, restricted conditions, but Section 103(c) of the Internal Revenue Code prohibits the sale of tax-exempt bonds primarily for the purpose of making arbitrage profits.

Arbitrage rebate refers to the amount of arbitrage that must be "rebated" to the federal government. For example, if an issuer sells bonds at 6%, it can keep all interest earning up to 6%. Interest earnings above 6%, if any, represent "arbitrage" and must be "rebated" to the federal government.

The System will calculate its arbitrage rebate liability on an annual basis. In conformity with generally accepted accounting principles, the System will segregate current arbitrage for future payment or credit to enter such an amount as a liability on its books.

Whenever feasible, the System will structure its financings in such a way as to reduce or eliminate the future arbitrage rebate liability.

#### **Bank-Qualified Status**

The Tax-Reform Act of 1986 placed some restrictions on banks and other financial institutions in their ability to lend money to tax-exempt entities. If an issuer (the System, not the individual campuses) borrows less than \$10 million in a calendar year, the System can designate all tax-exempt borrowing (bonds, direct loans, leases, installment purchases, etc.) to be "bank-qualified". A bank-qualified borrowing is not subject to federal taxation for banks, hence, they will lend funds at lower interest rates. If a borrowing is not bank-qualified, the bank will charge a higher rate of interest to compensate for the federal taxes that must be paid.

The System's Business Officers (see page C-10) will make a recommendation to the CFO regarding whether or not to designate the current calendar year bank-qualified. This decision does not need to be made until the Board has taken action authorizing the solicitation for the first financing of the calendar year. Generally, the System's Financial Advisor distributes a memorandum to the Business Officers and other interested parties informing them of pending financings and seeking information about possible future financings.

#### **Continuing Disclosure of System Financial Information**

The System will provide annual financial statements and other pertinent credit information, upon request to and at the expense of the persons making the request. Copies of all periodic reports may also be made available by any other means maintained by the System to provide information to persons wishing to receive it.

The System will provide the rating agencies who maintain a rating on System securities with all material that has a pertinent bearing on System finances.

The System makes no representation as to the frequency with which it may issue bonds in the future.

The System will remain in compliance with Securities & Exchange Commission ("SEC") Rule 15c2-12 ("Rule") by filing, and posting to the Municipal Securities Rulemaking Board through its Electronic Municipal Market Access system (EMMA), the Audited Financial Statements; annual information and operating data and notice of those material events which may occur during the year as the Rule requires. Presently, annual financial statements and information subject to continuing disclosure must be submitted within either 270 days of the end of the fiscal year or by the March 31st following the end of the fiscal year and notice of material events must be filed within 10 business days. Material events include:

- (1) Principal and interest payment delinquencies;
- (2) Non-payment related defaults, if material;
- (3) Unscheduled draws on debt service reserves reflecting financial difficulties;
- (4) Unscheduled draws on credit enhancements reflecting financial difficulties;
- (5) Substitution of credit or liquidity providers, or their failure to perform;
- (6) Adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701-TEB) or other material notices or determinations with respect to the tax status of the bonds, or other material events affecting the tax status of the bonds;
- (7) Modifications to rights of bondholders, if material;
- (8) Bond calls, if material, and tender offers;
- (9) Defeasances;
- (10) Release, substitution or sale of property securing repayment of bonds, if material;

- (11) Rating changes;
- (12) Bankruptcy, insolvency, receivership or similar event of the obligated person<sup>3</sup>;
- (13) The consummation of a merger, consolidation, or acquisition involving an obligated person or the sale of all or substantially all of the assets of the obligated person, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms, if material;
- (14) Appointment of a successor or additional trustee or the change of a name of a trustee, if material;
- (15) Incurrence<sup>4</sup> of a Financial Obligation of the obligated person, if material, or an agreement to covenants, events of default, remedies, priority rights, or other similar terms of a Financial Obligation of the obligated person, any of which affect security holders, if material; and
- (16) Default<sup>4</sup>, event of acceleration, termination event, modification of terms, or other similar events under the terms of a Financial Obligation of an obligated person, any of which reflect financial difficulties.

In November 1994, the SEC amended the Rule to prohibit any broker, dealer or municipal securities dealer from acting as an underwriter in a primary offering of municipal securities unless (1) the issuer or "obligated person" promises in writing to provide certain ongoing information or (2) the offering satisfies certain exemptions. The Rule impacts nearly every issuer of municipal securities. The stated purpose of the Rule is to deter fraud and manipulation in the municipal securities market by prohibiting the underwriting and subsequent recommendation of securities for which adequate information is not available.

The System intends to fully comply with the Rule, as amended.

For the purposes of the event identified in subparagraph (b)(5)(i)(C)(12) of the Rule, the event is considered to occur when any of the following occur: the appointment of a receiver, fiscal agent or similar officer for an obligated person in a proceeding under the U.S. Bankruptcy Code or in any other proceeding under state or federal law in which a court or governmental authority has assumed jurisdiction over substantially all of the assets or business of the obligated person, or if such jurisdiction has been assumed by leaving the existing governing body and official or officers in possession but subject to the supervision and orders of a court or governmental authority, or the entry of an order confirming a plan of reorganization, arrangement or liquidation by a court or governmental authority having supervision or jurisdiction over substantially all of the assets or business of the obligated person.

<sup>&</sup>lt;sup>4</sup> Effective for continuing disclosure undertakings entered into on or after February 27, 2019.

#### **Prior Redemption**

Bonds issued by the System should be subject to optional redemption no later than ten years from the date of issuance. With each issuance of bonds, the System should assess market conditions to determine if a more aggressive (shorter) call can be obtained without significant impact on the bond interest rate. In order to reduce its outstanding debt, the System should consider prepaying or defeasing outstanding debt when available resources are identified.

#### **Investment of Bond Proceeds**

The System will invest bond proceeds in accordance with its Policy Governing Investment of Cash Assets (Title 4, Chapter 10, Section 6) or as provided in the resolution authorizing the issuance of the bonds.

#### **Expenditure of Bond Proceeds**

Bond proceeds shall be expended for the projects authorized by the Board of Regents and relevant statutes and Board Policies. As applicable, in the event bond proceeds are accumulated with non-bond proceeds to finance a project, bond proceeds shall be expended first before other institutional funds.

In compliance with the Internal Revenue Code, the System will not issue obligations except for identifiable projects with very good prospects of timely initiation. Obligations will be issued as closely in time as reflected in the cash flow model provided by the institution to initiate a bonded project. The minimum goal will be that within three years 85% of the proceeds will be spent.

#### **Use of Long-term Debt**

#### **Not for Operations**

Long-term debt issued by the System will be used for capital improvements that cannot be funded with operating funds. Long-term debt will not be used for operations.

#### Maturity Structures

The term of debt issues should not extend beyond the useful life of the project or equipment financed. The repayment of principal should generally not extend beyond 30 years unless there are compelling factors which make it necessary to extend the term beyond this point.

Debt issued should be structured to provide for either level principal or level total debt service payments. Term bonds may be used only if they are subject to mandatory prior redemption. Deferring the repayment of principal should be avoided except in select instances where it will take a period of time before project revenues are sufficient to pay debt service or where the deferral of principal allows the System to achieve combined level debt service with other outstanding bonds. Ascending debt service should generally be avoided.

#### Variable Rate Debt

Variable rate debt will be considered on a case-by-case basis. When used, a cap on the rate is recommended.

#### Capital Appreciation Bonds

Capital Appreciation Bonds ("CABS") should be considered only to achieve level debt service with other outstanding bonds. CABS may also be considered in order to achieve an economic benefit as compared to a traditional current interest bond structure. CABS can only be used if the enabling legislation permits their use. CABS issued by the System should be subject to optional redemption no later than ten years from the date of issuance.

#### **Use of Short-term Debt**

Short-term debt, such as revenue anticipation notes ("RANS"), bond anticipation notes ("BANS") and tax anticipation notes ("TANS") should generally not be used. Short-term debt can be avoided by maintaining appropriate fund balances and timing bond issues to coincide with construction draws.

#### Refunding

A refunding is generally the underwriting of a new bond issue whose proceeds are used to redeem an outstanding issue. Key definitions are described as follows:

**Advance Refunding** – A method of providing for payment of debt service on a bond until the first call date or designated call date. Advance refunding is done by issuing a new bond or using available funds and investing the proceeds in an escrow account consisting of a portfolio of U.S. government securities structured to provide enough cash flow to pay debt service on the refunded bonds.

*Current Refunding* – Same as an Advance Refunding, except the duration of the escrow account is 90 days or less.

*Gross Savings* – Difference between debt service on refunding bonds and refunded bonds less any contribution from a reserve or debt service fund.

**Present Value Savings** – Present value of gross savings discounted at the refunding bond yield to the closing date plus accrued interest less any contribution from a reserve or debt service fund.

Prior to beginning a refunding bond issue the System will review an estimate of the savings achievable from the refunding. The System may also review a pro forma schedule estimating the savings assuming that the refunding is done at various points in the future.

The System will generally consider refunding outstanding bonds if one or more of the following conditions exist:

- Present value savings are at least 3% of the par amounts of the refunding bonds.
- The bonds to be refunded have restrictive or outdated covenants.
- Restructuring debt is deemed to be desirable.

The System may pursue a refunding not meeting the above criteria if:

- Present value savings exceed the costs of issuing the bonds.
- Current savings are acceptable when compared to savings that could be achieved by waiting for more favorable interest rates and/or call premiums.

#### **Bond Closings**

All bond closings shall be held in the State of Nevada unless an out-of-state closing is able to be combined with other System business or circumstances dictate otherwise.

REMAINDER OF PAGE INTENTIONALLY LEFT BLANK

#### Appendix 1

#### NEVADA SYSTEM OF HIGHER EDUCATION SWAP GUIDELINES AND PROCEDURES ADOPTED PURSUANT TO 17 CFR SECTION 23.450

It is the purpose of the following policies and procedures to satisfy the requirements of 17 CFR Section 23.450, so that the Nevada System of Higher Education (the "System") is able to make the representation described in paragraph (d)(1)(i) of that Section in connection with Swap transactions.

- A. Selection of a Swap Advisor. The System shall select one or more independent swap advisors to act as a resource in evaluating and monitoring proposed and existing swaps as requested. Additionally, the firm or firms shall act as the System's designated Qualified Independent Representative (QIR) pursuant to Schedule 4 to the ISDA August 2012 Dodd-Frank Supplement which the System has agreed to follow.
- B. Required Advisor Qualifications. To be selected to act as the System's swap advisor and QIR, a firm engaged must demonstrate that it and the persons at the firm providing services to the System meet the following requirements:
  - (i) The firm and the persons at the firm providing services to the System have sufficient knowledge to evaluate the transaction and risks;
  - (ii) Neither the firm nor any person at the firm who provides services to the System is subject to a "statutory disqualification" as that term is used in 17 CFR Section 23.450(b)(1)(ii);
  - (iii) The firm and the persons at the firm providing services to the System are independent of any swap counter party on a swap on which the firm is providing advice to the System within the meaning of 17 CFR Section 23.450(c);
  - (iv) The firm undertakes a duty to act in the best interests of the System;
  - (v) The firm makes appropriate and timely disclosures to the System;
  - (vi) The firm evaluates, consistent with any guidelines provided by the System, fair pricing and the appropriateness of the swap; and
  - (vii) The System's QIR must be subject to restrictions on certain political contributions imposed by the Commodity Futures Trading Commission, the Securities and Exchange Commission or a self-regulatory organization subject to the jurisdiction of the Commodity Futures Trading Commission or the Securities and Exchange Commission.
  - (viii) The firm has written policies and procedures consistent with the requirements above.

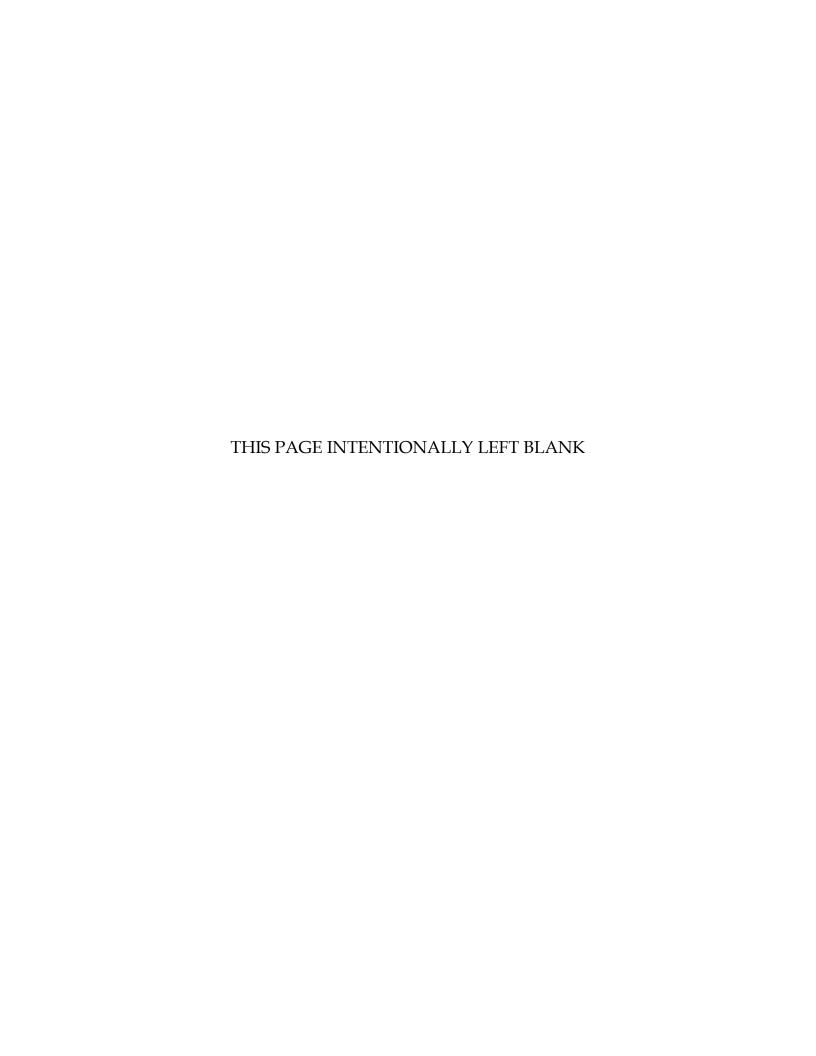

#### C. Ongoing Monitoring

- (i) In order to continue to be engaged by the System, the selected QIR must continue to meet, and perform in accordance with, the requirements under B above.
- (ii) On an annual basis the QIR must confirm its compliance with these policies and procedures in writing.
- (iii) The performance of each firm selected to be a QIR to the System will be subject to review by the System's Chief Financial Officer, and the Chancellor, or his or her designee.
- D. Contractual Arrangement. Each firm selected to be a QIR to the System must enter into a contract with the System whereby it agrees to comply with the applicable requirements of 17 CFR Section 23.450(b).

**REFUNDING ANALYSIS** 

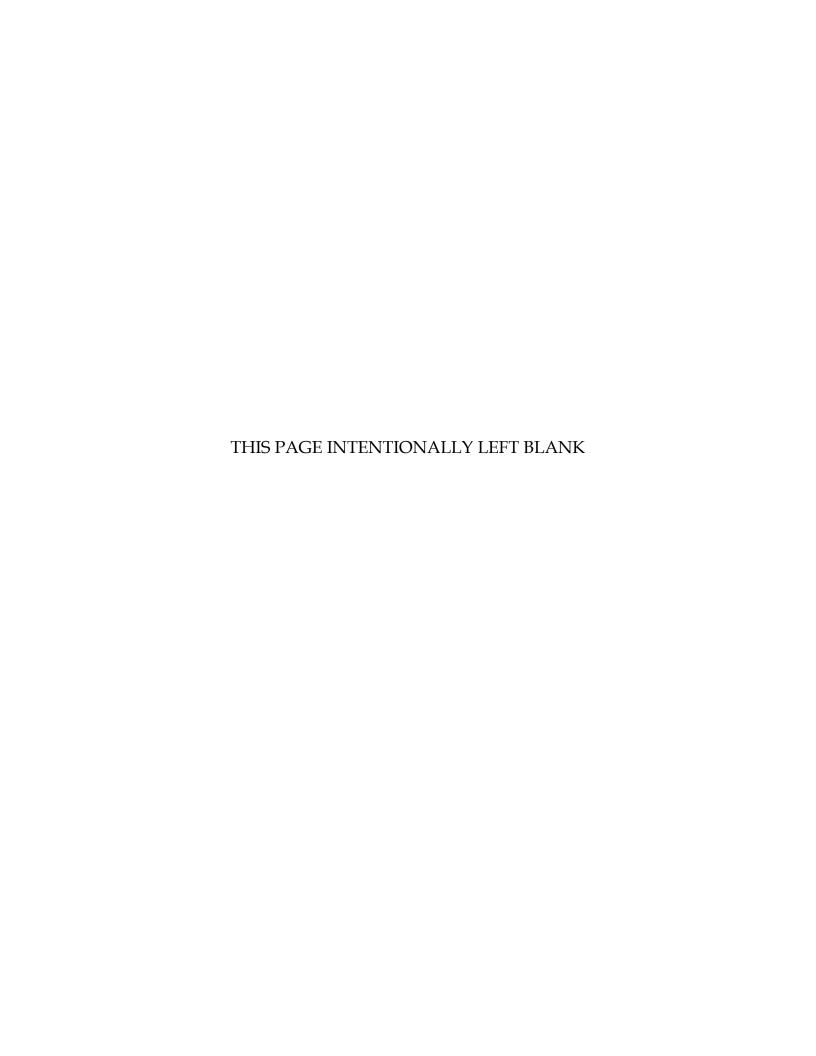

In December 2017, Congress passed, and the President signed the Tax Cuts and Jobs Act of 2017 (H.R. 1). The law changed provisions governing the issuance of tax-exempt bonds to refinance existing obligations. The most significant of these changes removed the ability of municipal bond issuers to issue tax-exempt bonds to refinance existing debt in situations where the refunded bond is not callable within 90 days of the issuance date of the new debt.

This section of the Debt Summary has been revised from prior years' analysis. It now illustrates the outstanding bonds of NSHE, when those bonds are callable, and the principal amount of bonds which are redeemable prior to maturity.

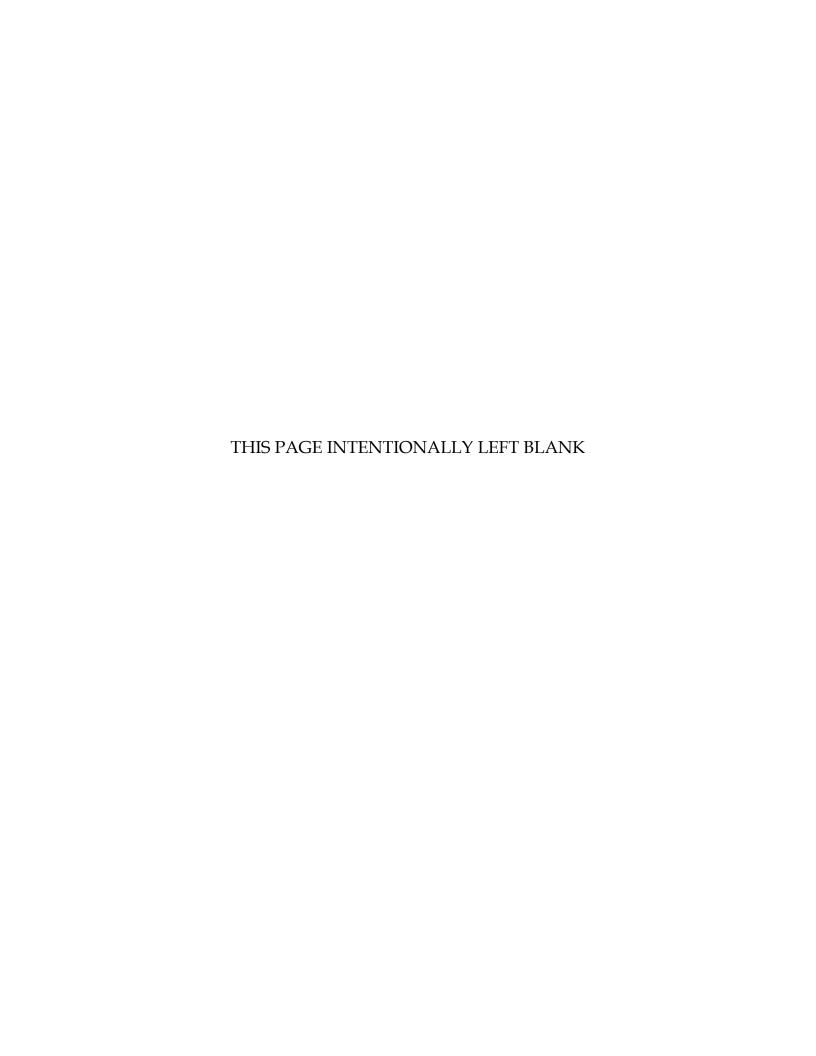

Refunding Analysis of Outstanding Bonds June 30, 2024

Bond Issues Outstanding	Amount Outstanding as of 06/30/2024	Callable Portion of Outstanding Bonds	Interest Rates	Call Date	Maturity Date
2014A Revenue Bonds	\$1,860,000	\$ 0	4.25-5.00%	07/01/24	07/01/24
2015A Revenue Bonds	51,335,000	44,195,000	4.00-5.00%	07/01/25	07/01/35
2015B Revenue Bonds	2,420,000	n/a	2.40-3.00%	n/a	07/01/26
2016A Revenue Bonds	48,185,000	40,775,000	3.13-5.00%	07/01/26	07/01/38
2016B Revenue Bonds	10,310,000	8,315,000	2.50-5.00%	07/01/26	07/01/36
2017A Revenue Bonds	23,300,000	19,180,000	3.25-5.00%	07/01/27	07/01/40
2019A Revenue Bonds	17,600,000	15,005,000	3.00-5.00%	07/01/29	07/01/49

ARBITRAGE REBATE

### Nevada System of Higher Education Arbitrage Rebate Summary

As of June 30, 2024, the System does not have any outstanding obligations with unspent proceeds which are subject to arbitrage rebate compliance. The System will track its ongoing arbitrage liability for all obligations subject to arbitrage rebate. If any liability is owed to the IRS on a payment due date, the System will transfer funds available to make such a payment. See page C-14 for more information on the System's arbitrage rebate compliance policies.

### **SECTION G**

**TAX-EXEMPT COMPLIANCE** 

#### TAX-EXEMPT POST-ISSUANCE COMPLIANCE

The following information illustrates the System's voluntary compliance to various IRS suggested post-issuance compliance guidelines. This section is loosely formatted after IRS Form 13907 – "Tax-Exempt Bond Financings Compliance Check Questionnaire".

#### Part I - Post-Issuance Compliance - General

- 1. The System has written procedures and guidelines that ensure that their tax-exempt financings remain in compliance with various federal tax requirements after the bonds are issued. The System generally updates annually the "Debt Summary and Guidelines" document, which this subsection is a part of. This document includes guidelines on a variety of bond pre- and post-issuance topics. For example, the System's procedures regarding Arbitrage Rebate compliance are on page C-14.
  - A. To assure the proper and timely use of bond proceeds and bond-financed property, The System prepares annual arbitrage rebate calculations. The System also sends to the Business Offers (See page C-10 regarding Business Officers) an annual letter, reminding them that facilities financed with tax-exempt debt are subject to certain limitations and compliance with bond covenants. See Appendix 1 to Section F for the form of the letter that is sent annually to the business officers.
  - B. The System monitors arbitrage related issues annually by reviewing the arbitrage rebate calculations.
  - C. The System's Bond Counsel prepares and files IRS Form 8038-G upon issuance of tax-exempt debt. The System monitors future filing requirements annually when they review the arbitrage rebate calculations.
- 2. As noted on page C-8, the Vice-Chancellor for Finance is the Chief Financial Officer of the System, and is ultimately responsible for the post-issuance compliance of the System's debt. The Director of Banking and Investments coordinates the administration and issuance of debt, as designated by the Vice-Chancellor for Finance. During the bond issuance process, the Director of Banking and Investments works closely with financial officers from the institution who will be the beneficiary of such debt.
- 3. When the System incurs debt, multiple participants are involved. In addition to System staff, the institution that is the beneficiary of the debt will have significant involvement with various debt related decisions. "Initial Review and Communication of Intent" "Authorization of Debt" and "Business Officers" on pages C-9 and C-10, describe various debt coordination issues.
  - Records relating to debt are maintained at both the System office and the participating institution.
- 4. Educational resources regarding post-issuance limitations are provided to the Business Officers (see page C-10) as specific questions arise. In addition, post bond issuance training has been provided in the past and is available for presentation as needed in the future. The Business Officers are invited to request information when they receive a letter requesting updated debt information as explained in Section 1.A., above.

- 5. A and B. The System's tax-exempt status has never been revoked or reclassified.
- 6. A and B. The System is aware of their ability to voluntarily correct post-issuance compliance failures.

#### Part II - General Record Keeping

- 7. The System maintains records pertaining to their tax-exempt bonds for the life of the bond issue, plus three additional years. If the bonds are called, the System keeps the records for three years past the final redemption date.
- 8. Since 2006, the System has kept bond records in both paper and electronic format.
- 9. The System maintains the following records:
  - All correspondence between the System and the IRS
  - Transcript of proceedings for transaction (Which includes: IRS Form 8038-G, or similar document as appropriate, copies of all appropriate Board resolutions, Federal Tax Certificate, Offering Document, etc.)
  - Audited Financial Statements
  - Trustee bank statements for financings
  - Correspondence directly related to tax-exempt financings

#### Part III - Investments and Arbitrage Compliance

- 10. The System maintains documentation of the allocation of bond proceed investments and investment earnings. This information is also maintained with the System's arbitrage calculations.
- 11. The System also maintains records of any bond proceed investment bidding, etc.
- 12. The System maintains copies of the bond yield calculation, and computation of rebate or yield reduction payments and related reports with its arbitrage calculations.
- 13. The System reviews any applicable yield restriction requirements annually when the arbitrage calculations are updated. If yield restriction activity is required, then bond counsel is consulted, and the System takes appropriate action to remain in full compliance with IRS rules.
- 14. The System reviews bond financings for the application of a temporary period or spending exceptions each year as part of the annual arbitrage calculation process. Generally, the System contracts with a third party to perform their arbitrage rebate calculations. The System directs their arbitrage advisor to review the transactions for any exemptions prior to performing the arbitrage calculations.

#### Part IV - Expenditures and Assets

- 15. The System maintains documentation of allocations of bond-financed proceeds to expenditures. Such documentation is part of the System's arbitrage record keeping activities.
- 16. A bond issuance budget is prepared prior to the issuance of tax-exempt bonds.

- 17. The institutions maintain copies of requisitions, draw requests, invoices and cancelled checks relating to bond proceeds during the construction period.
- 18. The institutions maintain copies of all construction contracts of tax-exempt bond financed facilities. In the case of projects administered by the State of Nevada, such documents are maintained by the State Public Works Board.
- 19. Institutions are responsible for maintaining records relating to expenditure reimbursements incurred prior to bond issuance, for which the institution intends to be reimbursed with tax-exempt bond proceeds.
- 20. The System maintains a list of all tax-exempt debt financed facilities and/or equipment. This list is updated annually and is found in section B of this document.
- 21. The institutions maintain depreciation schedules for bond-financed depreciable property.
- 22. The institutions maintain documentation that tracks the purchase and sale of bond-financed assets.

#### Part V - Private Business Use

- 23. The institutions are responsible for maintaining records of all unrelated trade or business activities allocated to tax-exempt bond financed facilities.
- 24. The institutions are responsible for maintaining records related to trade or business activities by third parties allocated to tax-exempt bond financed facilities.
- 25. The System has entered into some of the following arrangements for bond-financed property:
  - Management and other service agreements
  - Research contracts
  - Naming rights contracts
  - Ownership
  - Leases
  - Subleases
  - Leasehold improvement contracts
  - Joint venture arrangements
  - Limited Liability corporation arrangements
  - Partnership arrangements
- 26. Prior to entering into such arrangements, the System and/or the institution consults with bond counsel to determine if there is an impact on outstanding or proposed tax-exempt debt. The System also requests that bond counsel provide details of any post-issuance obligations. Copies of such agreements will be maintained by the participating institution.
- 27. In general, to ensure that its tax-exempt bonds remain exempt after they are issued, the System takes the following measures:
  - Includes various business officers involved in the tax-exempt issuance process. This helps them to understand the various post-issuance compliance not only for the pending issue, but serves as a reminder for all outstanding issues.

- Educates personnel as to the responsibilities of maintaining compliance with various taxexempt covenants. The System has promoted educational seminars in the past on various post-issuance issues, and will do so in the future as needed.
- Calculates annual arbitrage rebate liability. The results of the annual calculation are shared with the System and the institution.
- Sends a letter to each institution on an annual basis, which requests information as to postissuance activity, and reminds each institution of their post-issuance tax-exempt limitations.
- Assembles a working group (consisting of: The System, the institution, bond counsel, financial advisor, and others as needed) to discuss the transaction and related limitations/rules if tax-exempt debt is being considered as a part of unconventional transactions.

#### Appendix 1

#### Form of Annual Letter to Business Officers

The following letter is sent annually to the various NSHE Business Officers as well as others who have debt related responsibilities.

Date

Name/title of Business Officer Institution

re: Post Issuance Compliance of Tax-Exempt Debt

Dear (insert name)

In order for the Nevada System of Higher Education ("NSHE") to issue tax-exempt debt at favorable interest rates, various Federal tax rules and regulations must be followed. These were likely discussed when the debt was originally issued. In some situations, it may have been prudent for NSHE to issue debt that was not tax-exempt due to certain restrictions.

When tax-exempt debt was initially issued, Bond Counsel provided an opinion to investors/lenders that the debt qualified for tax-exempt status. However, this opinion is based on the assumption that NSHE and the institutions who are the beneficiary of the debt, continuously comply with various covenants made at the time the debt was originally issued. NSHE covenanted in the bond resolution that it will take all steps to comply with the requirements of the Federal Tax Code to the extent necessary to maintain the tax-exempt status of the debt.

The Federal Tax Code requirements relate to, among other things, the use of the facility being financed, and the use of management contracts. NSHE coordinates Arbitrage Rebate compliance. You are strongly encouraged to consult with me <u>before</u> you pursue changing the use of the facility or negotiating a management contract for a tax-exempt facility.

Below are some examples (for tax-exempt financed facilities) of situations that would need to be analyzed further to determine if there are any compliance issues:

- -A building that has been used for classrooms, is converted to research, including private or Federal Government research activities.
- -A food court is being planned.
- -A private manager is being considered to run a parking garage
- -A facility is being rented out for private use (concerts, etc.)

If you are aware of a change in the use of the facility or the imposition of a management contract, please contact me at your earliest convenience to discuss any impacts on the tax-exempt status of the debt.

Each institution is required to maintain documentation that tracks the purchase and sale of bond-financed assets. Also, each institution is required to maintain records of all unrelated trade or business activities allocated to tax-exempt bond financed facilities as well as records related to trade or business activities by third parties allocated to tax-exempt bond financed facilities.

Please contact me with any questions.

Sincerely,

Director of Banking and Investments

#### Appendix 2

#### Supplemental Written Procedures for Issuances of Direct Pay Build America Bonds ("BABs") and Tax Credit Bonds by the Nevada System of Higher Education (the "System")

The following supplemental procedures apply to issues of BABs, including but not limited to Direct Pay Build America Bonds and Direct Pay Recovery Zone Economic Development Bonds, and Tax Credit Bonds (collectively, "Bonds") unless the chief financial officer of the System (the "CFO") otherwise directs for a particular issue of Bonds, based on particular circumstances that relate to those Bonds, changes in guidance promulgated by the IRS, changes in law, the advice of bond counsel, or other factors the CFO deems relevant.

These procedures are intended to supplement and explain the procedures already followed by the System and evidenced in writing by the certificate of the Underwriter described in Section A2 below, the federal tax certificate (the "Tax Certificate"), the Form 8038-B or 8038-TC, as applicable, the Form 8038-CP and the instructions thereto, and to provide a more formal record of the procedures followed and to be followed by NSHE when it issues BABs or Tax Credit Bonds.

### A. <u>Procedures to ensure BABs and Tax Credit Bonds are issued with no more than a de minimis premium.</u>

1. In a negotiated sale: the lead underwriter will be notified in writing (by being given a copy of these supplemental procedures and the certificate described in Section A2 below) prior to the bond sale that either (1) none of the maturities of the BABs or Tax Credit Bonds may be issued at a premium or (2) none may be issued with more than a "de minimis amount" of premium. The lead underwriter is responsible for discussing with bond counsel the computation of the "de minimis" amount of premium under Section A3 hereof.

In a competitive sale, either premiums will be prohibited, or a maximum premium (or premiums) which bond counsel has determined is not in excess of the "de minimis" premium under Section A3 hereof will be specifically listed in the official notice of bond sale.

- 2. The lead underwriter in a negotiated sale or successful bidder in a competitive sale will be required to certify that none of the Bonds were issued at a price in excess of par (if premiums are prohibited) or in excess of par plus a de minimis amount of premium as calculated under Section A3 hereof (herein the "Maximum Price"). This certificate may take the form of a certificate to the effect that none of the Bonds had an issue price in excess of the Maximum Price, that none of the Bonds were or will be sold to the public (excluding bond houses, brokers or similar persons acting in the capacity of underwriters or wholesalers) at a price in excess of the Maximum Price, or other form acceptable to bond counsel.
- 3. For purposes of this policy, "de minimis" amount of premium will be calculated to be **one-quarter** of one percent <u>less</u> than the maximum de minimis amount of premium as calculated under the Internal Revenue Code and regulations promulgated thereunder applicable to Bonds.

- B. <u>Procedures designed to comply with other BAB and Tax Credit requirements or provisions in Federal Tax Certificate.</u> The provisions of the Tax Certificate executed by the System at the time of closing of the Bonds constitutes the System's written procedures designed to ensure that Bonds remain in compliance with the following federal tax requirements after the Bonds are issued:
  - 1. Timely expenditure of bond proceeds.
  - 2. Correct calculation of available project proceeds.
  - 3. Arbitrage yield restriction and rebate.
  - 4. Cost of issuance financed by the Bonds does not exceed 2% of proceeds of sale.
  - 5. (Tax Credit Bonds only): Prevailing wage requirements
  - 6. (Tax Credit Bonds only): No conflict of interest requirement
  - 7. (Tax Credit Bonds only): Redemption of non-qualified Bonds requirement.
- C. <u>Procedures designed to comply with BAB and Tax Credit Bond requirements contained in 8038-G, 8038-B or 8038-TC.</u>

The exhibit to the Form 8038-B or 8038-TC filed in connection with the Bonds which shows the amount of interest payable on each payment date and the amount of the refundable credit, will be prepared by the financial advisor or lead underwriter on the issue, and will be examined by the System. The preparation and examination of this exhibit will constitute the System's written procedure to ensure the proper determination of the amount of interest payable on each interest payment date and the proper amount of the refundable credit reportable on Form 8038-CP.

D. Procedures designed to comply with Capital Expenditure Requirements and Other Specific Expenditure Requirements. The provisions of the Tax Certificate and an examination and approval as a capital expenditure of proposed expenditures of BAB and Tax Credit Bond proceeds by a person with knowledge of the federal tax rules as to what expenditures constitute "capital expenditures" for federal tax purposes constitute the System's written procedures that the Bonds remain in compliance with the rules that the applicable amount of available proceeds (100% less any amount of reasonably required reserve, in the case of BABs) be used only for capital expenditures. The provisions of the Tax Certificate and an examination and approval of each proposed expenditure of Tax Credit Bond proceeds as being for a "qualified purpose" for that Tax Credit Bond by a person with knowledge of the qualified purpose for which the Tax Credit Bonds were issued constitute the System's written procedures that the Bonds remain in compliance with the requirement that available proceeds be used only for qualified purposes.

### E. <u>Procedures designed to comply with BAB and Tax Credit requirements in 8038-CP and instructions thereto.</u>

The instructions for filing a Form 8038-CP, which describe how and when to file the Form 8038-CP will constitute the System's written procedures for timely filing of the Form 8038-CP. The CFO shall be responsible for making such filing or causing it to be made. Payment of the refundable credit will be made to the System or the trustee for the System, as determined by the CFO, unless otherwise provided by the CFO. The System's completion and examination of the Form 8038-CP constitute its procedure for ensuring that the refundable credit is made to the proper person.

#### F. Ongoing Procedures.

This policy and to the extent incorporated herein the Tax Certificate for the issue, the Form 8038-B, or 8038-TC for the issue, the Form 8038-CPs and instructions therefor for the issue, will be reviewed by the CFO or his designee (i) on or prior to each five-year anniversary date of the issue date of the Bonds; (ii) on or within 30 days of the date the Bonds are retired, defeased or refunded; (iii) on or prior to the dates of any rebate payment made if that date is not within 60 days of one of the date mentioned in (I) or the date the Bonds are retired, defeased or refunded; (iv) at the time of any change in use of any asset that was funded with a material amount of Bond proceeds; and (v) at the time of the occurrence or non-occurrence of any other event that could affect the tax status of the Bonds as indicated in the Tax Certificate (e.g., the occurrence of an event which the Tax Certificate represents will not occur or is not expected to occur, or the nonoccurrence of an event the Tax Certificate represents will or is expected to occur). This review will be made for the purposes of identifying any possible violation of federal tax requirements related to BABs or Tax Credit Bonds and to ensure the timely correction of those violations for remedial action described in Treasury Regulations or through the Tax-Exempt Bonds Voluntary Closing Agreement Program. If a possible violation is identified, the CFO will consult with the System's bond counsel.

#### G. Record Keeping.

Records necessary to support the status of Bonds as qualified to receive a refundable credit or other tax credit will be maintained for the life of the Bonds, and any bonds that refund the Bonds, plus three years. These records may be maintained on paper, or by electronic media, or by any combination thereof.

Adopted:

#### Appendix 3

#### Procedures for ongoing compliance with Sections 141 and 148 of the Internal Revenue Code

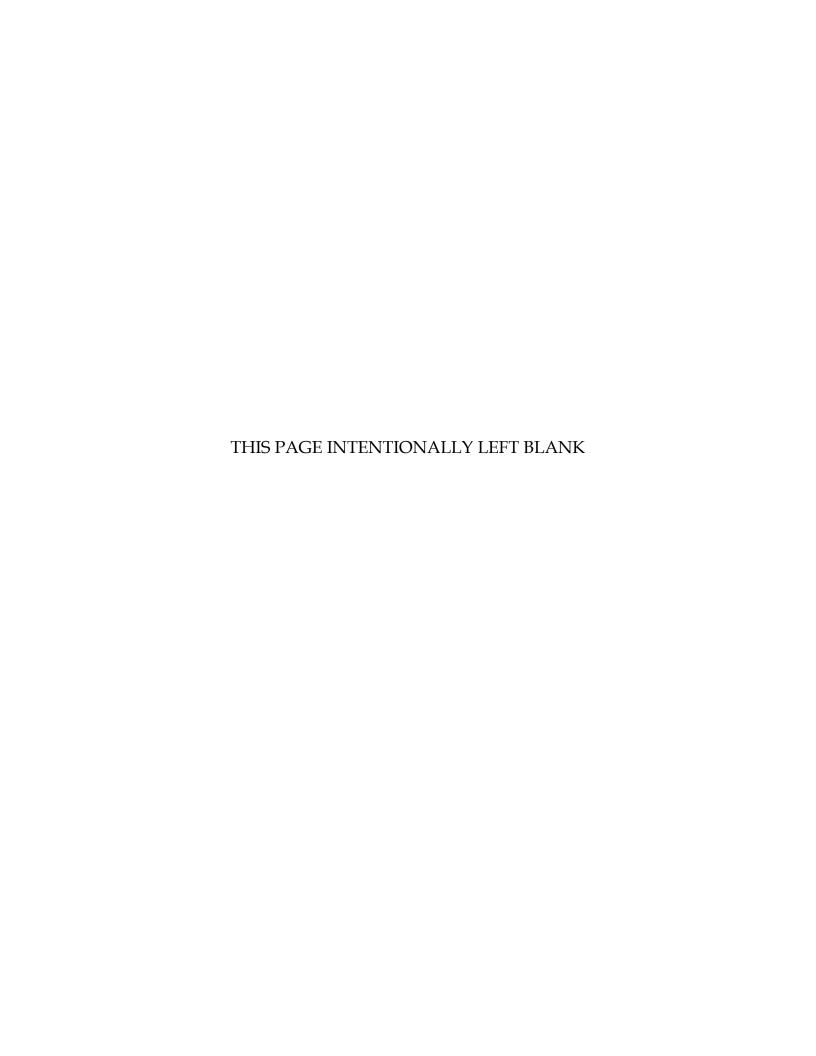

These procedures and the tax certificate and Form 8038-G filed for each issue of tax-exempt bonds will be reviewed by the Chief Financial Officer or another officer or employee of the Nevada System of Higher Education designated by the Chief Financial Officer in writing (the "Compliance Officer") (I) on or prior to each five-year anniversary date of the issue date of the bonds; (ii) on or within 30 days of the date the bonds are retired, defeased or refunded; (iii) on or prior to the date of any rebate payment made if that date is not within 60 days of one of the dates mentioned in (I) or the date the bonds are retired, defeased or refunded; (iv) at the time of any change in use of any asset that was funded with a material amount of bond proceeds; and (v) at the time of the occurrence or non-occurrence of any other event that could affect the tax status of the Bonds as indicated in the tax certificate (e.g., the occurrence of an event which the tax certificate represents will not occur or is not expected to occur, or the non-occurrence of an event the tax certificate represents will or is expected to occur). In addition, the Compliance Officer will conduct annual compliance checks of the current status of the proceeds of each issue of tax-exempt bonds and the current use of the facilities financed by tax-exempt bonds. These reviews will be made for the purposes of identifying any possible violation of federal tax requirements and to ensure the timely correction of those violations with remedial action described in the regulations of the United States Department of the Treasury or through the Tax-Exempt Bonds Voluntary Closing Agreement Program. If a possible violation is identified, the Compliance Officer will consult with bond counsel as to the appropriate steps to take.

In addition, it is the Nevada System of Higher Education's policy to retain rebate consultants to assist in monitoring the compliance of its bond issues with the rebate and yield restriction requirements of Section 148 of the Internal Revenue Code in appropriate circumstances (e.g., where investments are made during a temporary period at a yield in excess of the bond yield, and if any the investments above the bond yield extend beyond the temporary period). If any event of non-compliance is discovered by the Compliance Officer, by the rebate consultants, or otherwise, the Compliance Officer will consult with bond counsel as to the appropriate action to take to remedy the non-compliance, including payment of late payment interest and penalties on rebate and yield reduction payments and through use of the Tax-Exempt Bond Voluntary Closing Agreement Program.

As part of the training of any successor, the Chief Financial Officer and Compliance Officer will review the requirements of these procedures, the tax certificate and Form 8038-G for each issue of tax-exempt bonds with the successor as part of the successor's transition into office. Any successor Chief Financial Officer will be encouraged to adopt these procedures as his or her own.

The Nevada System of Higher Education will retain all records relating to tax-exempt bonds and compliance with the requirements of the Internal Revenue Code until at least three years after the last bond of an issue (or any later issue that refinances the issue) is paid and discharged.

#### Notes to GASB Statement No. 88 Checklist:

- I. Property located at 450 Sinclair Street represents additional security for the lease.
- II. Upon the occurrence and continuance of an Event of Default, the Note will bear interest at the Default Rate, which consists of the summation of the following: (A) three percent (3.0%), and (B) the greatest of (i) the Prime Rate (as defined in Exhibit A of the Note) plus one percent (1.0%), (ii) the Federal Funds Rate (as defined in Exhibit A of the Note) plus two percent (2.0%), and (iii) seven percent (7.0%).
- III. Assets pledged include equipment purchased with proceeds of the lease. Upon an event of default, the Lessor may by notice in writing to Lessee, as liquidated damages for the loss of bargain and not as a penalty, accelerate and declare to be immediately due and payable the Stipulated Loss Value.

## **SECTION I**

**DEFINITIONS** 

#### **DEFINITIONS**

**Additional Bonds Test** – A requirement that future additional bonds, that will have a claim to revenues already pledged to outstanding revenue bonds, can only be issued if certain financial or other requirements are met.

**Advance Refunding** – A method of providing for the payment of debt service on a bond until the first call date or maturity. Advance refundings are generally pursued to achieve debt service savings for the issuer. Advance refundings are done by issuing a new municipal bond and investing the proceeds in a portfolio of U.S. government securities structured to provide enough cash flow to pay debt service on the refunded bonds. The old issue can then be said to be advance refunded.

**Amortization** - The payment of debt through scheduled payments.

**Arbitrage** – Generally, transactions by which securities are bought and sold in different markets at the same time for the sake of the profit arising from a difference in prices in the two markets. With respect to the issuance of municipal bonds, arbitrage generally refers to the difference between the interest paid on the bonds issued and the interest earned by investing the bond proceeds. Arbitrage profits are permitted on bond proceeds for various temporary periods after issuance of municipal bonds. Internal Revenue Service regulations govern arbitrage of municipal bond proceeds.

**Balloon Payment** - An inordinately large loan principal payment on a single date.

**Bid** – A proposal to purchase bonds, offered for sale either in a competitive offering or on a negotiated basis, specifying the interest rate(s) for each maturity, plus a premium or minus a discount.

**Bond** – Interest-bearing written obligation issued by governments and corporations when they borrow money. The issuer agrees to pay a fixed principal sum on a specified date and at a specified rate of interest.

**Bidding Syndicate** – Groups of underwriters that act together to submit a proposal to underwrite a bond issue.

**Bond Counsel or Bond Approving Counsel** – An attorney (or firm of attorneys) retained by the issuer to give a legal opinion that 1) the issuer is authorized to issue bonds, 2) the issuer has met all legal requirements necessary for issuance and 3) interest on the proposed bonds will be exempt from federal income taxation. Typically, bond counsel will prepare, or review and advise the issuer regarding authorizing resolutions, official statements, validation proceedings and litigation.

**Bond Insurance** – Insurance purchased by an issuer or underwriter which guarantees the payment of principal and interest on the bonds. This additional security usually provides a higher credit rating and thus a lower borrowing cost for an issuer.

**Bond Proceeds** - The funds the issuer receives form its bond sale.

**Bond Holder** – The owner of a bond to whom payments of principal and interest are made. The owner of a bearer bond is the person having possession of it, while the owner of a registered bond is the person whose name is noted on the bond register.

**Bond Register** - a record of the names and addresses of bondholders kept on behalf of an issuer. Generally, the Bond Registrar is the paying agent.

**Bond Resolution** – The document representing action of the issuer authorizing the issuance and sale of municipal bonds. Issuance of the bonds is usually approved in the authorizing resolution or ordinance, and the sale is usually authorized in a separate document known as the "sale" or "award" resolution. All of such resolutions, read together, constitute the bond resolution, which describes the nature of the obligation and the issuer's duties to the bondholders.

**Callable Bond** – A bond which permits or requires the issuer to redeem the obligation before the stated maturity date at a specified price, usually at or above par by giving notice of redemption in a manner specified in the bond resolution.

Closing – The meeting of concerned parties on the date of delivery to sign bonds and various legal documents and to physically deliver the bonds in exchange for payment of the purchase price. The parties at closing usually include representatives of the issuer, financial advisor, bond counsel and the purchaser (underwriters). Sometimes a pre-closing meeting is held on the day before delivery to review the adequacy of the closing procedures and documents.

**Competitive Bid or Competitive Bidding** – A method of submitting proposals to purchase a new issue of bonds by which the bonds are awarded to the underwriting syndicate presenting the best bid according to stipulated criteria set forth in the notice of sale; usually the lowest interest cost. Underwriting bonds in this manner is also referred to as a competitive or public sale.

Covenant or Bond Covenant – The issuer's enforceable promise to do or refrain from doing some act. With respect to municipal bonds, covenants are generally stated in the bond resolution. Covenants commonly made in connection with a bond issue include covenants to charge fees for use of the financed project sufficient to provide required pledged revenues (rate covenant); to maintain casualty insurance on the project; to complete, maintain and operate the project; not to sell or encumber the project; not to issue parity bonds unless certain earnings tests are met (additional bond covenant); and not to take actions which would cause the bonds to be arbitrage bonds, i.e., violate IRS regulations, concerning levels of permitted investment earnings.

**Coverage** – The ratio of annual pledged revenues available to pay debt service, as compared to the annual debt service requirement. This ratio is one indication of the margin of safety for payment of debt service.

**Dated Date** – The date of a bond issue, printed on each bond, from which interest usually starts to accrue.

**Due Diligence** – The investigation of a bond issue, generally by the financial advisor and bond counsel, or other issuers counsel, to ensure that all material facts relating to the issue have been disclosed to potential buyers in the official statement.

**Financial Advisor** – With respect to a new issue of municipal bonds, a consultant who advises the issuer on matters relating to the bonds, such as structure, timing, marketing, fairness of pricing, terms and bond ratings. Such consultant may be employed in a capacity unrelated to a new issue of municipal securities, such as advising on cash flow and investment matters. The financial advisor is sometimes referred to as a fiscal consultant or fiscal agent.

**Good Faith Deposit** – An amount of money, usually 2% of the par value of an issue of securities, given by bidders to issuers when they bid for competitive issues. The sum, given as a cashier's, certified check or surety bond, is returned to the bidder if the bid is rejected.

**Lease** – A conditional sales agreement under which a municipal government leases equipment, using borrowed funds, that it acquires at the end of the lease period. The loans are secured by the equipment itself and are renegotiated annually.

**Legal Opinion** – The written statement of a lawyer trained in municipal bond law that the bond complies with bond law, especially with regard to its tax-exempt status.

**Negotiated Sale** – A securities sale through an exclusive arrangement between the issuer and an underwriter or underwriting syndicate. This form of issuance provides one or more pricings, where the underwriters solicit potential buyers for the securities. Based on investor interest, the features of the securities may be altered to accommodate market demand. At the end of successful negotiations, the issue is awarded to the underwriters.

**Notice of Sale** – A printed document announcing and soliciting bids for the bonds. It is generally an appendix to the Preliminary Official Statement. It includes pertinent details of bidding requirements, date and time of sale and a brief description of the purpose of the issue.

**Official Statement** - An offering document prepared by the issuer that contains information on the municipality and the security pledged to meet principal and interest; also known as a prospectus. Before the issue is priced it is known as the Preliminary Official Statement (POS); afterwards a final Official Statement is distributed (OS).

**Parity Bonds** – Separate bond issues which have the same lien against pledged revenues as a prior issue.

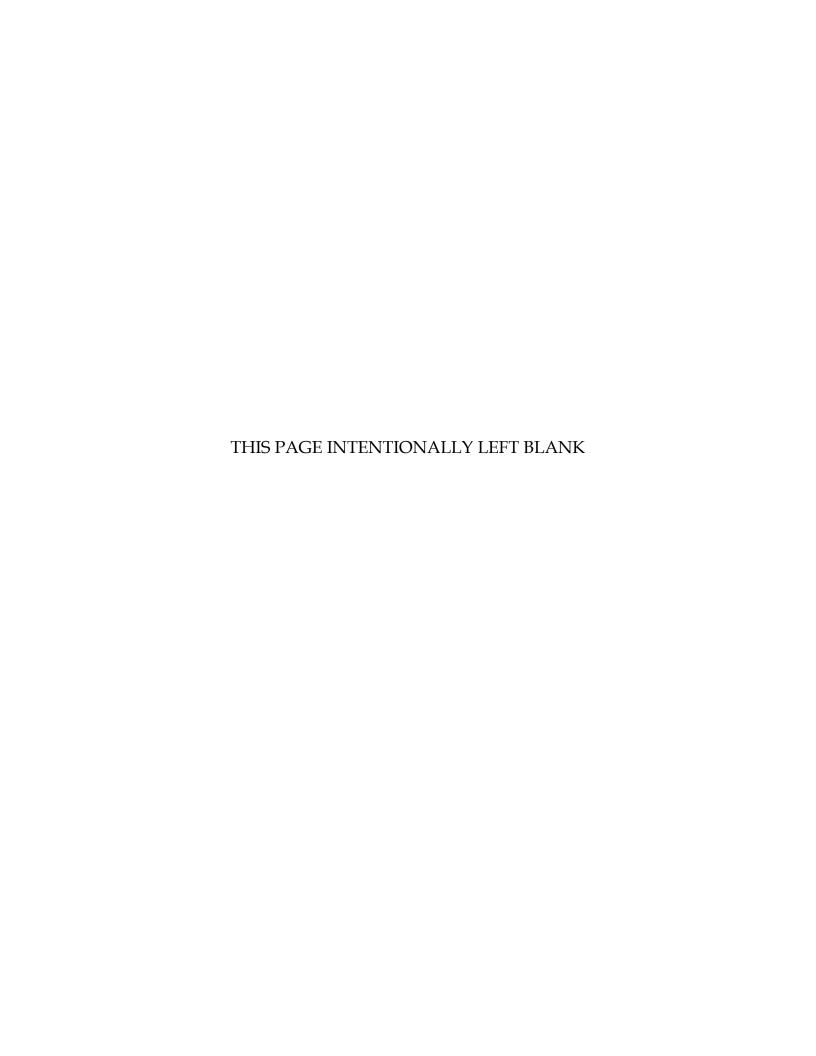

**Pledged Revenues** – The money promised to the payment of debt service and other deposits required by the resolution.

**Ratings** – Generally, the series of letters used by the bond rating agencies to designate the credit quality of a bond issuer's securities.

**Serial Bonds** - Bonds whose principal is repaid in installments, generally once a year.

**Underwriting** – The process of purchasing an issue of municipal bonds from the issuer and selling the bonds to investors.

**Underwriter** – The broker or dealer who buys the new issue of securities from the issuer and sells the bonds to investors.

Long Term Rating	AA-/Stable	Affirmed

#### **Credit Highlights**

- S&P Global Ratings assigned its 'AA-' long-term rating to the approximately \$30.7 million series 2024 university revenue refunding bonds and the approximately \$15.1 million series 2024 certificates of participation (COPs) issued by the Nevada System of Higher Education (NSHE, or the system).
- At the same time, S&P Global Ratings affirmed its 'AA-' long-term rating and underlying rating (SPUR) on NSHE's outstanding debt.
- S&P Global Ratings also affirmed its 'A+' long-term rating on the series 2023A and 2023B National Finance Authority, N.H., lease revenue bonds issued on behalf of NCCD -- UNR Properties LLC (NCCD -- UNR), Nev.
- The outlook on all ratings is stable.

#### Security

The series 2024 university revenue refunding bonds and the series 2024 COPs will refund the university's 2014A bonds and 2014 COPs, respectively. As of June 30, 2023, NSHE had \$788.3 million in long-term debt. The debt included about \$342.8 million in university revenue bonds (URBs), \$211.8 million in COPs, and \$63.4 million in community college revenue bonds (CCRBs).

We view both the COPs and revenue bonds as unlimited student fee bonds. The system's URBs are payable from certain student fees and facilities revenue as well as unrestricted grant revenue. The COPs are payable from all legally available funds, including student tuition and fees, sales and services, unrestricted contributions, investment income, and cash and investments. Revenue pledged to the revenue bonds is available to pay debt service on the COPs after revenue bond debt service is paid. We do not notch the rating on the COPs because of the broad availability of revenue.

The system's pro forma maximum annual debt service (MADS) burden is a low 2.8% of fiscal 2023 adjusted operating expenses. Management anticipates a modest amount of new debt within the two-year outlook period. We will evaluate the impact of new debt when details are finalized, but we believe the system has some capacity for additional leverage at the current rating.

#### Credit overview

We assessed NSHE's enterprise risk profile as very strong, characterized by a large enrollment base of 72,835 full-time-equivalent (FTE) students, which has been stable over the last two years. We also assessed NSHE's financial risk profile as very strong, supported by solid cash and investments relative to peers' and a conservative debt profile, although operations are historically negative on a full-accrual basis. We believe these combined credit factors lead to an anchor of 'aa-' and a final rating of 'AA-'.

The 'AA-' long-term rating on NSHE's debt reflects our opinion of:

- The system's position as the sole comprehensive provider of public higher education in Nevada with a range of university, college, and community college offerings;
- · Relatively stable demand metrics, particularly for the system's universities in Reno and Las Vegas; and
- The system's conservative debt profile, with a low MADS burden and a somewhat front-loaded debt service.

Partly offsetting the above strengths, in our view, are NSHE's:

- · Historically negative operations on a full-accrual basis, and
- Weak selectivity and graduation rates compared with peers'; however, these metrics are consistent with the system's access-oriented mission.

NSHE is the sole provider of public higher education in Nevada. In addition to University of Nevada, Reno (UNR), and University of Nevada, Las Vegas (UNLV), NSHE includes four community colleges, a state university, and a research institute. In July 2022, NSHE was gifted a campus at Lake Tahoe when Sierra Nevada University transferred its assets and operations to UNR, becoming the University of Nevada, Reno, at Lake Tahoe. UNR offers 123 baccalaureate majors and more than 130 advanced fields of study, such as agriculture, biotechnology, and natural resources; business administration; education; engineering; journalism; and medicine. UNLV has more than 80 baccalaureate degrees and 120 advanced-degree programs, including business, dentistry, education, engineering, hotel administration, urban affairs, and medicine.

#### Environmental, social, and governance

We analyzed the system's environmental, social, and governance factors related to its market position and financial performance. We view the environmental risks for NSHE as elevated given the state's exposure to pervasive drought conditions, which could add complexity to the system's operations. We view the system's social and governance factors as neutral in our credit rating analysis.

#### Outlook

The stable outlook reflects our expectation that NSHE will maintain a large enrollment base and benefit from increased state support in the outlook period. The stable outlook also reflects our view of the system's solid cash and investments relative to debt and operations and recent margins near break even on a full-accrual basis.

#### Downside scenario

We could consider a negative rating action if the system generated operating deficits that significantly weakened cash and investments or if the system issued substantial additional debt without commensurate growth in cash and investments. As the rating on the NCCD -- UNR bonds is tied to NSHE's anchor, we could consider a lower rating on that debt if the system's credit profile weakens.

#### Upside scenario

We could consider a positive rating action if NSHE saw material growth in cash and investments relative to debt and operations with at least stable demand metrics. We would also expect the system to generate operations near break even on a full-accrual basis.

#### **Credit Opinion**

#### **Enterprise Risk Profile--Very Strong**

#### Market position and demand

Prior to the pandemic, NSHE saw gradual, consistent growth in enrollment. During the peak of the pandemic, enrollment fell primarily at the community colleges, consistent with trends across the sector. Enrollment has been stable over the last two academic years. FTE enrollment measured 72,835 in fall 2023 with headcount over 103,000. Management projects modest enrollment growth for fall 2024.

The system is not very selective, partially due to the inclusion of access-oriented institutions. Retention at UNLV and UNR is solid at around 80%. Student quality remains above average compared with national averages but varies by institution. Approximately 72% of NSHE's students come from Nevada. The system successfully recruits students from California with competitive tuition pricing. NSHE is building its recruitment pipeline through marketing to international students and by building relationships with K-12 schools in Nevada.

#### Management and governance

A 13-member board, which is selected by a general election in the state, governs NSHE. The board is involved in all major NSHE policy decisions, approves administrative and faculty salaries, and appoints a chancellor. Within the outlook period, voters could elect to change the board's constitutional status. Additionally, the board's size and term lengths could decrease. However, we do not expect these changes will have a material impact on our view of NSHE's governance.

NSHE's management has experienced some turnover since our last review. The chancellor position remains filled on an interim basis. The system chief financial officer transitioned to the same role at UNR. The system and UNLV gained new chief financial officers. The system also gained a new vice chancellor for academic and student affairs. The finance team has otherwise been stable. In our view, the system and institutions maintain good leadership and coordinate operations well.

NSHE has formal policies for investments, reserves, and liquidity. The system also has strong debt policies, including prescribed limits to revenue debt subject to authorizing legislations and resolutions.

#### Financial Risk Profile--Very Strong

#### Financial performance

NSHE typically achieves break-even operations on a cash basis with full-accrual operating deficits. The system ended fiscal 2023 on budget and with a small deficit of 0.2% of adjusted operating expenses. While net tuition revenue fell, state appropriations and grant revenue increased. Both UNR and UNLV maintain Carnegie R1 classification for very high research activity.

Prior to the pandemic, state appropriations made up over 30% of NSHE's adjusted operating revenues. Funding levels have been lower in recent years, with federal relief funds making up some of the difference. State appropriations increased modestly to \$647.9 million in fiscal 2023, up from \$639.1 million the prior year but still below fiscal 2020 levels. In the outlook period, management expects a strong increase in state appropriations, which will help cover cost-of-living adjustments for employees. Additionally, the 2023-2025 biennial budget approved enrollment recovery funds, funds to expand nursing programs, and capital contributions of over \$70 million, largely for deferred maintenance. The state also approved funds to review the system's funding formula.

Tuition, fees, and auxiliary revenues make up approximately a third of NSHE's operating revenues. Discounting is comparable with peers' at approximately 33%. Tuition remains competitively priced for in-state students.

#### NCCD -- UNR

The series 2023A tax-exempt lease revenue bonds are financing the design, construction, and furnishing of a College of Business at UNR. The building will be a key part of the Matthewson University Gateway District, linking UNR to downtown Reno. NSHE is leasing the land for the project to NCCD -- UNR, a Nevada limited liability company. NCCD -- UNR in turn subleases the project to NSHE. Both the ground lease and sublease terms extend through maturity of the series 2023A bonds in 2053. Ownership of the building will revert to NSHE on maturity of the bonds. The series 2023B taxable bonds financed a ground lease rent reserve fund which will mature in 2024.

Debt service payments are level at approximately \$10 million annually. Sublease payments are sufficient to make debt service payments and are a contractual obligation of NSHE, payable from all legally available funds after debt service on the system's bonds has been paid. Legally available funds include student tuition and fees and auxiliary revenue. The NCCD -- UNR bonds are also secured by a first lien on the leasehold interest in the project and a security interest in certain property and collateral, including sublease payments, insurance proceeds, and proceeds of condemnation. Appropriations from the state of Nevada to NSHE are not available to make sublease payments. As the NCCD -- UNR bonds have a narrower source of available revenues compared to NSHE's outstanding bonds, we consider this debt subordinate and rate the bonds one notch below the system rating. There is no debt service coverage ratio requirement for the bonds. The project benefits from sublease terms that extend through maturity of the bonds, a prime location on campus, and key role in UNR and NSHE's strategic plan for growth.

Management reports that construction of the business school facility is proceeding on schedule with competition expected in summer 2025.

#### Financial resources

NSHE's cash and investments, including those held at the system's related foundations, totaled a strong \$1.991 billion as of fiscal 2023. This was slightly below financial resource levels in fiscal 2022, largely due to strategic property purchases by UNLV. Cash and investments relative to operations were stable at 84%. Relative to the system's modest total pro forma debt, resources were strong at 255%.

The endowment held at the NSHE level grew by 1.8% to a market value of \$295.6 million in fiscal 2023. The combined market value of the endowments of NSHE, UNR, and UNLV was approximately \$969.5 million, which we consider consistent with the rating. NSHE's endowment spending policy is 4.5%, which we view as sustainable.

NSHE's fundraising efforts have gained momentum in recent years with notable campaigns and gifts. UNR successfully completed a campaign in 2023, surpassing its target of \$500 million. Additionally, UNR recently received its largest-ever gift of \$36 million to create an aerospace engineering department. UNLV has also seen fundraising momentum and has achieved growth in its donor base, including more engagement with businesses.

#### Debt and contingent liabilities

The system's URBs are payable from (i) net pledged revenue (i.e., student fees, which do not include tuition payable by nonresident students; any fees collected during summer sessions; certain registration fees; or fees collected at the community colleges or Nevada State University), which are commonly designated as the general fund fee, the capital improvement fee, the student union capital improvement fee, and the general improvement fee; (ii) UNLV facilities revenue; (iii) UNR facilities revenue; and (iv) unrestricted grant revenue at UNLV and UNR.

NSHE's CCRBs are secured irrevocably by income derived from certain gross fees collected from students attending community colleges; all unrestricted grants from the U.S., Nevada, or any other donor for the payment of the CCRBs; and net revenue, if any, from income-producing buildings, structure, and improvements located at NSHE's community colleges. These community colleges include the College of Southern Nevada, Great Basin College, Truckee Meadows Community College, and Western Nevada College.

NSHE is a public employer under the State Public Employees' Retirement System (PERS), a cost sharing multiple-employer defined benefit plan that covers substantially all public employees of the state of Nevada, its agencies and its political subdivisions. All classified employees and some professional employees are covered under PERS. Those professional employees not covered by PERS are covered by three self-directed, defined contribution plans, and hence have no unfunded liability. The PERS funded status was approximately 75% in fiscal 2022, which we view as sufficient.

## Nevada System of Higher Education, NV

Update to credit analysis

#### **Summary**

The Nevada System of Higher Education's (NSHE; Aa2 stable) credit profile reflects its excellent strategic positioning as the sole system of public higher education for the State of Nevada (Aa1 stable issuer rating) through its multiple two-year and four-year institutions. Revenue sources are diverse, with the fiscal 2023 (unaudited) \$2 billion in operating revenue primarily a mix of student-charges, government grants and state appropriations. Good revenue and expense management has led to adequate EBIDA margins, recording 7% for fiscal 2023 (unaudited) and providing ample overall debt service coverage of about 2x. Favorably, operations are expected to remain sound over through the next two years due to a significant increase in state appropriations for fiscal years 2024-25, including restoration of around \$75 million in funding cuts enacted during the pandemic. While NSHE's financial leverage is on par with rated peers, with wealth to total adjusted debt of 0.8x, the recent execution of a public-private partnership (PPP) to build a new school of business on the UN-Reno campus introduces potential long-term organizational risks. Total cash and investments of \$1.9 billion relative to expenses is in line with rated peers, though liquidity remains moderate at 143 monthly days cash on hand due to modest surpluses and recent planned cash draws.

Exhibit 1
Strong wealth and steady, manageable leverage

Total adjusted debt includes system debt, Moody's adjusted net pension liability, and a PPP alternative-financing project for a business school.

Source: Moody's Ratings

#### **Credit strengths**

» Excellent strategic positioning as the sole provider of public higher education in Nevada, with system-wide full time equivalent (FTE) enrollment of over 70,000 students

- » Increasing state operating appropriations aids tuition affordability mission
- » Solid overall wealth relative to debt and operations
- » Strong net pledged revenue coverage of debt service; maximum annual debt service: over 8x for university revenue bonds and over 18x for community college revenue bonds

#### **Credit challenges**

- » High reliance on state funding for operations exposes NSHE to state economic conditions
- » Highly competitive student demand environment; student fees secure universities and community college revenue bonds
- » Moderate liquidity relative to rated peers
- » Exposure to state's unfunded pension liability and execution risks around a new public-private partnership

#### **Rating outlook**

The stable outlook reflects expectations of generally balanced operations with cash flow margins in the 7-10% range and continued strong state operating support. It incorporates maintaining stable unrestricted reserves and strong coverage from net pledged revenues from at least stable enrollment with implemented tuition and fee increases.

#### Factors that could lead to an upgrade

- » Significant growth of cash and investments relative to debt and operations, nearing 1.5x and 1.4x, respectively
- » Substantial and sustained improvement of EBIDA margins exceeding 10% annually, providing incremental growth in unrestricted reserves
- » Expansion of student market and research profile

#### Factors that could lead to a downgrade

- » Deterioration of the state's credit quality or sustained decline in state funding
- » Material reduction in liquidity
- » Substantial increase in leverage without offsetting growth of pledged revenues or financial reserves

This publication does not announce a credit rating action. For any credit ratings referenced in this publication, please see the issuer/deal page on https://ratings.moodys.com for the most updated credit rating action information and rating history.

Fiscal year end June 30 Source: Moody's Ratings

#### **Profile**

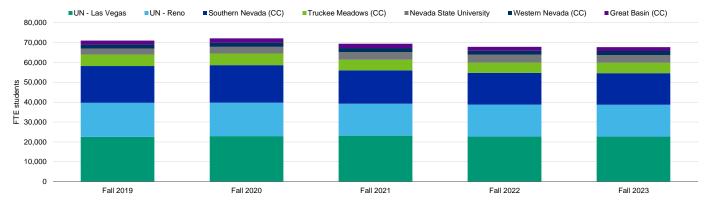

NSHE is comprised of two four-year public universities: University of Nevada, Las Vegas (UNLV) and University of Nevada, Reno, (UNR) both comprehensive universities; Nevada State University, a four-year state university in Henderson near Las Vegas; the Desert Research Institute, the system's basic and applied environmental research division; and four two-year community colleges with limited bachelor's degrees. The community colleges, College of Southern Nevada, Great Basin College; Truckee Meadows Community College; and Western Nevada College, are located throughout the state. Starting in fiscal 2022, Sierra Nevada University was merged into UNR. Total system full-time equivalent (FTE) enrollment was 72,836 in fall 2023. Total operating revenue was \$2 billion in fiscal 2023 (unaudited).

#### **Detailed credit considerations**

#### Market

Student demand across NSHE will remain generally sound due to the system's significant presence throughout the state, which includes seven academic institutions and a research institute, with fall 2023 FTE enrollment of 72,836 students. NSHE's excellent strategic positioning is supported by its broad academic offerings across its various campuses, including two academic medical centers in Reno and Las Vegas, as well as broader work force and community development training programs. The breadth of operations as well as its position as the sole provider of all public higher education in the state are key credit strengths.

Exhibit 3
Stable enrollment trends post-pandemic demonstrate good system demand despite labor market draw

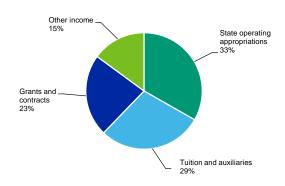

Source: Moody's Ratings and NSHE

UNLV and UNR are the two comprehensive universities within the system and continue to demonstrate steady student demand. While the community colleges (CCs) did experience an 11% in overall FTEs in the fall 2019-23 period, the majority of this occurred during the pandemic, a trend seen nationally. Favorably, CC enrollment remains steady despite growing labor force opportunities. The system continues to look for geographic and program reach, expanding digital learning and certifications.

#### **Operating performance**

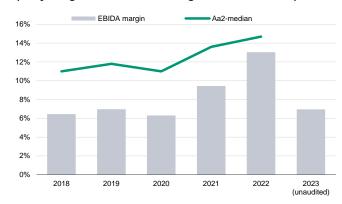

Modest, but positive EBDIA margins will continue due to the system's adherence to budgetary controls and more recently with a substantial increase in state operating appropriations to support COLA increases. The fiscal 2023 (unaudited) EBIDA margin of 7% was in line with prior period margins and provided overall debt service coverage of 2x. Favorably, the 2023-25 biennial operating budget is up 15.9% over the prior 2021-23 biennial, and reflects a substantial 32% increase in state appropriations from fiscal 2023 to 2024. The increase funds wage and salary COLA increases of 12% in fiscal 2024 and 11% for fiscal 2025. Similar to many public universities nationally, improved EBIDA margins in fiscal years 2021-22 was due largely to pandemic-related federal aid (HEERF funds) and heightened expense controls.

Exhibit 4
Strong state operating support and revenue diversity...

Fiscal 2023 (unaudited) revenue Source: Moody's Ratings

## Exhibit 5 ...partly mitigate modest EBIDA margins relative to rated peers

Source: Moody's Ratings

#### Wealth and liquidity

The system's overall wealth levels and liquidity will remain sound, benefitting from ongoing philanthropic efforts at UNR and UNLV, and the potential for modest improvement in operating performance. Large overall reserves provide good operating flexibility and help mitigate variability associated with the state's economy and the impact on funding for higher education. For fiscal 2023 (unaudited), NSHE's total cash and investments of \$1.9 billion were up 17% over fiscal 2019. Total cash and investments cover operating expenses 0.9x relative to the Aa2-median of 1.1x. Fundraising is highly supportive, particularly at UNR and UNLV, with the system's fiscal 21-23 (unaudited) average gift revenue totaling \$78 million.

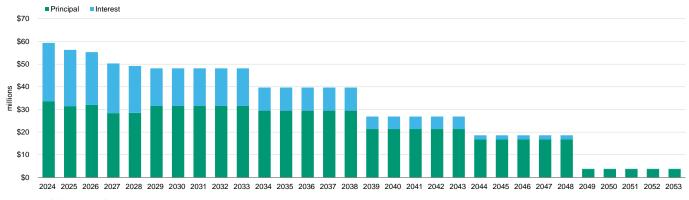

One-time allocation of unrestricted reserves in fiscal 2023 reduced liquidity to \$746 million or 144 monthly days cash on hand, which is well below the Aa2-median of 208 days. Authorized use of reserves was for UNLV to purchase assets (\$100 million) and UNR to transfers funds to its support UNR Foundation (\$50 million). Limited calls on liquidity across the system due to fixed rate debt and modest unfunded commitments partially mitigate the lower liquidity level.

#### Leverage and coverage

Leverage will remain manageable due to continued principal amortization, diversified capital funding sources, and limited near-term borrowing plans. Over the past five years, capital reinvestment and facility maintenance have more than covered depreciation, with average capital spending of 1.7x for fiscal 2019-23 (unaudited) and nearly \$1 billion in total capital investments. Wealth relative to total direct debt is ample at 2.6x. Inclusive of the system's proportionate share of the state's unfunded pension liability, wealth to total adjusted debt declines to 0.8x, but remains on par with the Aa2-median of 0.7x.

The predictability of NSHE's amortizing and fixed rate debt structure is important given its modest annual cash flow. In addition to the approximately \$343 million of university revenue bonds (URBs), the system has approximately \$63 million of community college revenue bonds, and \$334 million of outstanding non-parity debt. Non-parity debt consists of \$212 million of Certificates of Participation (unrated) with the remainder being leases and notes.

Exhibit 6
Fixed rate and amortizing debt provides budget predictability

Source: Moody's Ratings and NSHE

The University of Nevada at Reno has engaged a third-party developer to construct a business school as part of the Mathewson Gateway Project. The business school is currently under construction, with the opening date planned for summer 2025. UNR's annual lease payment will be \$9.6 million, and is expected to be funded with a mix of student fees, investment income from a quasi-endowment, and ground lease revenue from a future hotel/conference center. UNR does not intend to own or operate the hotel/conference center and timing for its construction is to be determined. The business school project cost of approximately \$149 million, which was financed through a tax-exempt financing, is incorporated into NSHE's debt profile.

NSHE is considering issuing \$56.5 million in new money bonds during fiscal 2025 for a parking garage at the UNLV campus. The project would add 1,250 additional parking spaces.

#### **ESG** considerations

Nevada System of Higher Education, NV's ESG credit impact score is CIS-2

Source: Moody's Ratings

NSHE's **CIS-2** indicates that ESG considerations are not material to the rating. The system's excellent strategic position as the sole provider of higher education within the state, with sound financial operations, helps mitigate ESG risk exposure.

## Exhibit 8 ESG issuer profile scores

Source: Moody's Ratings

#### **Environmental**

NSHE's environmental issuer score is **E-3**. The system has campuses throughout the state of Nevada and is aligned with the state's exposure to water stress. Despite a growing population, demand for water in Nevada has declined because of aggressive water conservation measures. Nearly 75% of the state's population resides in Clark County in Southern Nevada. The Southern Nevada Water Authority maintains a comprehensive Water Resource Plan and is developing new water resources. The system itself has a commitment to sustainability, and in 2019, negotiated a contract that allows all eight NSHE institutions, as well as administrative buildings, to obtain energy from 100 percent renewable sources.

#### Social

NSHE's **S-2** compares favorably to the sector and reflects its excellent strategic position and brand. The breadth of NSHE's academic offerings, as well as its position as the sole provider of all public higher education in the state of Nevada, will allow the diverse system of colleges and universities to continue to attract students despite some challenging state demographic trends. NSHE has a good relationship with the state as evidenced by generally increasing annual appropriations which support tuition affordability. Likewise, steady donor support and success in garnering sponsored research awards informs the customer relations score. The system's exposure to human capital risks includes the relatively inflexible tenured faculty structure, as well as participation in both defined benefit and defined contribution pension, and OPEB plans.

#### Governance

The system's governance issuer score is **G-2**. Very good management credibility and track record help absorb historically elevated risk exposure around NSHE's board structure. NSHE has a publicly elected Board of Regents currently comprised of 13 members serving staggered terms of six years and subject to 12-year term limits. A publicly elected board is rare in public higher education and can raise issues of potential conflicts of managing the system to meet its long-term mission that may run counter to issues driven by popular opinion. The relationship between the board and NSHE management has strengthened over time. Although the universities within the system have a good degree of autonomy, the system provides strong oversight and acts as an advocate with the state. Operationally, the system is strong, and benefits from a seasoned leadership team that has successfully managed expenses relative to revenues resulting in stable margins, steadily increasing cash reserves, and investment in capital without materially increasing leverage.

ESG Issuer Profile Scores and Credit Impact Scores for the rated entity/transaction are available on Moodys.com. In order to view the latest scores, please click <a href="here">here</a> to go to the landing page for the entity/transaction on MDC and view the ESG Scores section.

#### Rating methodology and scorecard factors

The <u>Higher Education</u> rating methodology includes a scorecard that summarizes the factors that are generally most important to higher education credit profiles. Because the scorecard is a summary and may not include every consideration in the credit analysis for a specific issuer, a scorecard-indicated outcome may or may not match an assigned rating. We assess brand and strategic positioning, operating environment, and financial strategy on a qualitative basis, as described in the methodology.

Exhibit 9

Nevada System of Higher Education

Scorecard	Factors and Sub-factors	Value	Score
Factor 1:	Scale (15%)		
	Adjusted Operating Revenue (USD Million)	2,008	Aa

### Rating Action: Moody's assigns Aa2 to Nevada System of Higher Education's (NV) Series 2024 bonds, affirms Aa2 and Aa3 ratings; outlook stable

05 Apr 2024

New York, April 05, 2024 -- Moody's Ratings has assigned a Aa2 rating to Nevada System of Higher Education (NSHE), NV's proposed \$31 million in Universities Revenue Refunding Bonds, Series 2024 (fixed rate, final maturity in fiscal 2043). Concurrently, we have affirmed the Aa2 issuer rating, Aa2 ratings on outstanding universities revenue bonds, and Aa3 ratings on outstanding community college revenue bonds. NSHE recorded \$740.2 million of debt outstanding as at fiscal end 2023. The outlook is stable.

#### RATINGS RATIONALE

Affirmation of NSHE's Aa2 issuer rating incorporates the system's excellent strategic positioning as the sole system of public higher education for the State of Nevada (Aa1 stable issuer rating) through its multiple two-year and four-year institutions. Revenue sources are diverse, with the fiscal 2023 (unaudited) \$2 billion in operating revenue primarily a mix of student-charges, government grants and state appropriations. Good revenue and expense management has led to adequate EBIDA margins, recording 7% for fiscal 2023 (unaudited) and providing ample overall debt service coverage of about 2x. Favorably, operations are expected to remain sound over the next two years due to a significant increase in state appropriations for fiscal years 2024-25, including restoration of around \$75 million in funding cuts enacted during the pandemic. While NSHE's financial leverage is on par with rated peers, with wealth to total adjusted debt of 0.8x, the recent execution of a public-private partnership (PPP) to build a new school of business on the UN-Reno campus introduces potential longterm organizational risks. Total cash and investments of \$1.9 billion relative to expenses is in line with rated peers, though liquidity remains moderate at 143 monthly days cash on hand due to modest surpluses and recent planned cash draws.

Affirmation and assignment of the Aa2 rating on university revenue bonds (URBs) incorporates the issuer rating and the scale, scope and essentiality of the two four-year universities, with steady enrollment and strong net pledged revenue primarily

from mandatory student fees.

Affirmation of the Aa3 on the community college revenue bonds (CCRBs), one notch below the system's Aa2 issuer rating, reflects a more limited pool of pledged revenue available for debt service though with very strong annual debt service coverage.

#### **RATING OUTLOOK**

The stable outlook reflects expectations of generally balanced operations with cash flow margins in the 7-10% range and continued strong state operating support. It incorporates maintaining stable unrestricted reserves and strong coverage from net pledged revenues from at least stable enrollment with implemented tuition and fee increases.

#### FACTORS THAT COULD LEAD TO AN UPGRADE OF THE RATINGS

- Significant growth of cash and investments relative to debt and operations, nearing 1.5x and 1.4x, respectively
- Substantial and sustained improvement of EBIDA margins exceeding 10% annually, providing incremental growth in unrestricted reserves
- Expansion of student market and research profile

#### FACTORS THAT COULD LEAD TO A DOWNGRADE OF THE RATINGS.

- Deterioration of the state's credit quality or sustained decline in state funding
- Material reduction in liquidity
- Substantial increase in leverage without offsetting growth of pledged revenues or financial reserves

#### LEGAL SECURITY

The universities revenue bonds are secured by net pledged revenue consisting of mandatory student fees collected at UNR and UNLV, gross revenue from a variety of auxiliary enterprises at the universities and all unrestricted federal and state grant revenue. Excluded are other funds of the universities, including tuition and summer school fees. Unaudited fiscal 2023 net pledged revenue totaled \$269 million and provided robust coverage of maximum annual debt service (MADS, \$35.2 million) of 8.1x, well above the minimum required coverage of 1.5x. There is no debt service reserve fund, but there are tests for additional indebtedness.

The community college revenue bonds are secured by the net pledged revenue of the system's community colleges, including gross student fees, the capital improvement fee, the student association fee and the general improvement fee. Net pledged

revenue also includes all grants, conditional or unconditional (federal, state or any other donor) and net revenue from income-producing buildings, structures and improvements at the community colleges. Unaudited fiscal 2023 net pledged revenue provided 18.1x coverage of MADS (\$3.9 million), well above the minimum required coverage of 1.5x.

Pledged revenue for all outstanding debt excludes state appropriations and is susceptible to fluctuations in student fees from enrollment.

#### **USE OF PROCEEDS**

Proceeds of the Series 2024 bonds will be used to refund the Series 2014A bonds and to pay costs of issuance.

#### **PROFILE**

NSHE is comprised of two four-year public universities: University of Nevada, Las Vegas (UNLV) and University of Nevada, Reno, (UNR) both comprehensive universities; Nevada State University, a four-year state college in Henderson near Las Vegas; the Desert Research Institute, the system's basic and applied environmental research division; and four two-year community colleges with limited bachelor's degrees. The community colleges, College of Southern Nevada, Great Basin College; Truckee Meadows Community College; and Western Nevada College, are located throughout the state. Starting in fiscal 2022, Sierra Nevada University was merged into UNR. Total system full-time equivalent (FTE) enrollment was 72,836 in fall 2023. Total operating revenue was \$2 billion in fiscal 2023 (unaudited).

#### **METHODOLOGY**

The principal methodology used in these ratings was Higher Education Methodology published in August 2021 and available at <a href="https://ratings.moodys.com/rmc-documents/72158">https://ratings.moodys.com/rmc-documents/72158</a>. Alternatively, please see the Rating Methodologies page on <a href="https://ratings.moodys.com">https://ratings.moodys.com</a> for a copy of this methodology.

#### REGULATORY DISCLOSURES

For further specification of Moody's key rating assumptions and sensitivity analysis, see the sections Methodology Assumptions and Sensitivity to Assumptions in the disclosure form. Moody's Rating Symbols and Definitions can be found on <a href="https://ratings.moodys.com/rating-definitions">https://ratings.moodys.com/rating-definitions</a>.

For ratings issued on a program, series, category/class of debt or security this announcement provides certain regulatory disclosures in relation to each rating of a subsequently issued bond or note of the same series, category/class of debt, security or pursuant to a program for which the ratings are derived exclusively from existing ratings in accordance with Moody's rating practices. For ratings issued on a support provider, this announcement provides certain regulatory disclosures in relation to the

credit rating action on the support provider and in relation to each particular credit rating action for securities that derive their credit ratings from the support provider's credit rating. For provisional ratings, this announcement provides certain regulatory disclosures in relation to the provisional rating assigned, and in relation to a definitive rating that may be assigned subsequent to the final issuance of the debt, in each case where the transaction structure and terms have not changed prior to the assignment of the definitive rating in a manner that would have affected the rating. For further information please see the issuer/deal page for the respective issuer on <a href="https://ratings.moodys.com">https://ratings.moodys.com</a>.

Regulatory disclosures contained in this press release apply to the credit rating and, if applicable, the related rating outlook or rating review.

Please see https://ratings.moodys.com for any updates on changes to the lead rating analyst and to the Moody's legal entity that has issued the rating.

Please see the issuer/deal page on https://ratings.moodys.com for additional regulatory disclosures for each credit rating.

Moody's Investors Service, Inc., a wholly-owned credit rating agency subsidiary of Moody's Corporation ("MCO"), hereby discloses that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by Moody's Investors Service, Inc. have, prior to assignment of any credit rating, agreed to pay to Moody's Investors Service, Inc. for credit ratings opinions and services rendered by it fees ranging from \$1,000 to approximately \$5,000,000. MCO and Moody's Investors Service also maintain policies and procedures to address the independence of Moody's Investors Service credit ratings and credit rating processes. Information regarding certain affiliations that may exist between directors of MCO and rated entities, and between entities who hold credit ratings from Moody's Investors Service, Inc. and have also publicly reported to the SEC an ownership interest in MCO of more than 5%, is posted annually at <a href="https://www.moodys.com">www.moodys.com</a> under the heading "Investor Relations — Corporate Governance — Director and Shareholder Affiliation Policy."

Additional terms for Australia only: Any publication into Australia of this document is pursuant to the Australian Financial Services License of MOODY'S affiliate, Moody's Investors Service Pty Limited ABN 61 003 399 657AFSL 336969 and/or Moody's Analytics Australia Pty Ltd ABN 94 105 136 972 AFSL 383569 (as applicable). This document is intended to be provided only to "wholesale clients" within the meaning of section 761G of the Corporations Act 2001. By continuing to access this document from within Australia, you represent to MOODY'S that you are, or are accessing the document as a representative of, a "wholesale client" and that neither you nor the entity you represent will directly or indirectly disseminate this document or its contents to "retail clients" within the meaning of section 761G of the Corporations Act 2001. MOODY'S credit rating is an opinion as to the creditworthiness of a debt obligation of the issuer, not on the equity securities of the issuer or any form of security that is available to retail investors.

Additional terms for Japan only: Moody's Japan K.K. ("MJKK") is a wholly-owned credit rating agency subsidiary of Moody's Group Japan G.K., which is wholly-owned by Moody's Overseas Holdings Inc., a wholly-owned subsidiary of MCO. Moody's SF Japan K.K. ("MSFJ") is a wholly-owned credit rating agency subsidiary of MJKK. MSFJ is not a Nationally Recognized Statistical Rating Organization ("NRSRO"). Therefore, credit ratings assigned by MSFJ are Non-NRSRO Credit Ratings. Non-NRSRO Credit Ratings are assigned by an entity that is not a NRSRO and, consequently, the rated obligation will not qualify for certain types of treatment under U.S. laws. MJKK and MSFJ are credit rating agencies registered with the Japan

Financial Services Agency and their registration numbers are FSA Commissioner (Ratings) No. 2 and 3 respectively.

MJKK or MSFJ (as applicable) hereby disclose that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by MJKK or MSFJ (as applicable) have, prior to assignment of any credit rating, agreed to pay to MJKK or MSFJ (as applicable) for credit ratings opinions and services rendered by it fees ranging from JPY100,000 to approximately JPY550,000,000.

MJKK and MSFJ also maintain policies and procedures to address Japanese regulatory requirements.

# **Credit Highlights**

- S&P Global Ratings assigned its 'AA-' long-term rating to the approximately \$30.7 million series 2024 university revenue refunding bonds and the approximately \$15.1 million series 2024 certificates of participation (COPs) issued by the Nevada System of Higher Education (NSHE, or the system).
- At the same time, S&P Global Ratings affirmed its 'AA-' long-term rating and underlying rating (SPUR) on NSHE's outstanding debt.
- S&P Global Ratings also affirmed its 'A+' long-term rating on the series 2023A and 2023B National Finance Authority, N.H., lease revenue bonds issued on behalf of NCCD -- UNR Properties LLC (NCCD -- UNR), Nev.
- The outlook on all ratings is stable.

# Security

The series 2024 university revenue refunding bonds and the series 2024 COPs will refund the university's 2014A bonds and 2014 COPs, respectively. As of June 30, 2023, NSHE had \$788.3 million in long-term debt. The debt included about \$342.8 million in university revenue bonds (URBs), \$211.8 million in COPs, and \$63.4 million in community college revenue bonds (CCRBs).

We view both the COPs and revenue bonds as unlimited student fee bonds. The system's URBs are payable from certain student fees and facilities revenue as well as unrestricted grant revenue. The COPs are payable from all legally available funds, including student tuition and fees, sales and services, unrestricted contributions, investment income, and cash and investments. Revenue pledged to the revenue bonds is available to pay debt service on the COPs after revenue bond debt service is paid. We do not notch the rating on the COPs because of the broad availability of revenue.

The system's pro forma maximum annual debt service (MADS) burden is a low 2.8% of fiscal 2023 adjusted operating expenses. Management anticipates a modest amount of new debt within the two-year outlook period. We will evaluate the impact of new debt when details are finalized, but we believe the system has some capacity for additional leverage at the current rating.

#### Credit overview

We assessed NSHE's enterprise risk profile as very strong, characterized by a large enrollment base of 72,835 full-time-equivalent (FTE) students, which has been stable over the last two years. We also assessed NSHE's financial risk profile as very strong, supported by solid cash and investments relative to peers' and a conservative debt profile, although operations are historically negative on a full-accrual basis. We believe these combined credit factors lead to an anchor of 'aa-' and a final rating of 'AA-'.

The 'AA-' long-term rating on NSHE's debt reflects our opinion of:

- The system's position as the sole comprehensive provider of public higher education in Nevada with a range of university, college, and community college offerings;
- · Relatively stable demand metrics, particularly for the system's universities in Reno and Las Vegas; and
- The system's conservative debt profile, with a low MADS burden and a somewhat front-loaded debt service.

Partly offsetting the above strengths, in our view, are NSHE's:

- · Historically negative operations on a full-accrual basis, and
- Weak selectivity and graduation rates compared with peers'; however, these metrics are consistent with the system's access-oriented mission.

NSHE is the sole provider of public higher education in Nevada. In addition to University of Nevada, Reno (UNR), and University of Nevada, Las Vegas (UNLV), NSHE includes four community colleges, a state university, and a research institute. In July 2022, NSHE was gifted a campus at Lake Tahoe when Sierra Nevada University transferred its assets and operations to UNR, becoming the University of Nevada, Reno, at Lake Tahoe. UNR offers 123 baccalaureate majors and more than 130 advanced fields of study, such as agriculture, biotechnology, and natural resources; business administration; education; engineering; journalism; and medicine. UNLV has more than 80 baccalaureate degrees and 120 advanced-degree programs, including business, dentistry, education, engineering, hotel administration, urban affairs, and medicine.

#### Environmental, social, and governance

We analyzed the system's environmental, social, and governance factors related to its market position and financial performance. We view the environmental risks for NSHE as elevated given the state's exposure to pervasive drought conditions, which could add complexity to the system's operations. We view the system's social and governance factors as neutral in our credit rating analysis.

# Outlook

The stable outlook reflects our expectation that NSHE will maintain a large enrollment base and benefit from increased state support in the outlook period. The stable outlook also reflects our view of the system's solid cash and investments relative to debt and operations and recent margins near break even on a full-accrual basis.

#### Downside scenario

We could consider a negative rating action if the system generated operating deficits that significantly weakened cash and investments or if the system issued substantial additional debt without commensurate growth in cash and investments. As the rating on the NCCD -- UNR bonds is tied to NSHE's anchor, we could consider a lower rating on that debt if the system's credit profile weakens.

#### Upside scenario

We could consider a positive rating action if NSHE saw material growth in cash and investments relative to debt and operations with at least stable demand metrics. We would also expect the system to generate operations near break even on a full-accrual basis.

# **Credit Opinion**

# **Enterprise Risk Profile--Very Strong**

### Market position and demand

Prior to the pandemic, NSHE saw gradual, consistent growth in enrollment. During the peak of the pandemic, enrollment fell primarily at the community colleges, consistent with trends across the sector. Enrollment has been stable over the last two academic years. FTE enrollment measured 72,835 in fall 2023 with headcount over 103,000. Management projects modest enrollment growth for fall 2024.

The system is not very selective, partially due to the inclusion of access-oriented institutions. Retention at UNLV and UNR is solid at around 80%. Student quality remains above average compared with national averages but varies by institution. Approximately 72% of NSHE's students come from Nevada. The system successfully recruits students from California with competitive tuition pricing. NSHE is building its recruitment pipeline through marketing to international students and by building relationships with K-12 schools in Nevada.

# Management and governance

A 13-member board, which is selected by a general election in the state, governs NSHE. The board is involved in all major NSHE policy decisions, approves administrative and faculty salaries, and appoints a chancellor. Within the outlook period, voters could elect to change the board's constitutional status. Additionally, the board's size and term lengths could decrease. However, we do not expect these changes will have a material impact on our view of NSHE's governance.

NSHE's management has experienced some turnover since our last review. The chancellor position remains filled on an interim basis. The system chief financial officer transitioned to the same role at UNR. The system and UNLV gained new chief financial officers. The system also gained a new vice chancellor for academic and student affairs. The finance team has otherwise been stable. In our view, the system and institutions maintain good leadership and coordinate operations well.

NSHE has formal policies for investments, reserves, and liquidity. The system also has strong debt policies, including prescribed limits to revenue debt subject to authorizing legislations and resolutions.

# Financial Risk Profile--Very Strong

#### Financial performance

NSHE typically achieves break-even operations on a cash basis with full-accrual operating deficits. The system ended fiscal 2023 on budget and with a small deficit of 0.2% of adjusted operating expenses. While net tuition revenue fell, state appropriations and grant revenue increased. Both UNR and UNLV maintain Carnegie R1 classification for very high research activity.

Prior to the pandemic, state appropriations made up over 30% of NSHE's adjusted operating revenues. Funding levels have been lower in recent years, with federal relief funds making up some of the difference. State appropriations increased modestly to \$647.9 million in fiscal 2023, up from \$639.1 million the prior year but still below fiscal 2020 levels. In the outlook period, management expects a strong increase in state appropriations, which will help cover cost-of-living adjustments for employees. Additionally, the 2023-2025 biennial budget approved enrollment recovery funds, funds to expand nursing programs, and capital contributions of over \$70 million, largely for deferred maintenance. The state also approved funds to review the system's funding formula.

Tuition, fees, and auxiliary revenues make up approximately a third of NSHE's operating revenues. Discounting is comparable with peers' at approximately 33%. Tuition remains competitively priced for in-state students.

#### NCCD -- UNR

The series 2023A tax-exempt lease revenue bonds are financing the design, construction, and furnishing of a College of Business at UNR. The building will be a key part of the Matthewson University Gateway District, linking UNR to downtown Reno. NSHE is leasing the land for the project to NCCD -- UNR, a Nevada limited liability company. NCCD -- UNR in turn subleases the project to NSHE. Both the ground lease and sublease terms extend through maturity of the series 2023A bonds in 2053. Ownership of the building will revert to NSHE on maturity of the bonds. The series 2023B taxable bonds financed a ground lease rent reserve fund which will mature in 2024.

Debt service payments are level at approximately \$10 million annually. Sublease payments are sufficient to make debt service payments and are a contractual obligation of NSHE, payable from all legally available funds after debt service on the system's bonds has been paid. Legally available funds include student tuition and fees and auxiliary revenue. The NCCD -- UNR bonds are also secured by a first lien on the leasehold interest in the project and a security interest in certain property and collateral, including sublease payments, insurance proceeds, and proceeds of condemnation. Appropriations from the state of Nevada to NSHE are not available to make sublease payments. As the NCCD -- UNR bonds have a narrower source of available revenues compared to NSHE's outstanding bonds, we consider this debt subordinate and rate the bonds one notch below the system rating. There is no debt service coverage ratio requirement for the bonds. The project benefits from sublease terms that extend through maturity of the bonds, a prime location on campus, and key role in UNR and NSHE's strategic plan for growth.

Management reports that construction of the business school facility is proceeding on schedule with competition expected in summer 2025.

#### Financial resources

NSHE's cash and investments, including those held at the system's related foundations, totaled a strong \$1.991 billion as of fiscal 2023. This was slightly below financial resource levels in fiscal 2022, largely due to strategic property purchases by UNLV. Cash and investments relative to operations were stable at 84%. Relative to the system's modest total pro forma debt, resources were strong at 255%.

The endowment held at the NSHE level grew by 1.8% to a market value of \$295.6 million in fiscal 2023. The combined market value of the endowments of NSHE, UNR, and UNLV was approximately \$969.5 million, which we consider consistent with the rating. NSHE's endowment spending policy is 4.5%, which we view as sustainable.

NSHE's fundraising efforts have gained momentum in recent years with notable campaigns and gifts. UNR successfully completed a campaign in 2023, surpassing its target of \$500 million. Additionally, UNR recently received its largest-ever gift of \$36 million to create an aerospace engineering department. UNLV has also seen fundraising momentum and has achieved growth in its donor base, including more engagement with businesses.

### Debt and contingent liabilities

The system's URBs are payable from (i) net pledged revenue (i.e., student fees, which do not include tuition payable by nonresident students; any fees collected during summer sessions; certain registration fees; or fees collected at the community colleges or Nevada State University), which are commonly designated as the general fund fee, the capital improvement fee, the student union capital improvement fee, and the general improvement fee; (ii) UNLV facilities revenue; (iii) UNR facilities revenue; and (iv) unrestricted grant revenue at UNLV and UNR.

NSHE's CCRBs are secured irrevocably by income derived from certain gross fees collected from students attending community colleges; all unrestricted grants from the U.S., Nevada, or any other donor for the payment of the CCRBs; and net revenue, if any, from income-producing buildings, structure, and improvements located at NSHE's community colleges. These community colleges include the College of Southern Nevada, Great Basin College, Truckee Meadows Community College, and Western Nevada College.

NSHE is a public employer under the State Public Employees' Retirement System (PERS), a cost sharing multiple-employer defined benefit plan that covers substantially all public employees of the state of Nevada, its agencies and its political subdivisions. All classified employees and some professional employees are covered under PERS. Those professional employees not covered by PERS are covered by three self-directed, defined contribution plans, and hence have no unfunded liability. The PERS funded status was approximately 75% in fiscal 2022, which we view as sufficient.

Cash and investments including foundation to debt (%)	N.A.	252.6	280.8	222.0	182.9	278.4
Cash and investments including foundation to pro forma debt (%)	N.A.	254.9	N.A.	N.A.	N.A.	MNR

Total adjusted operating revenue = unrestricted revenue less realized and unrealized gains/losses and financial aid. Total adjusted operating expense = unrestricted expense plus financial aid expense. Net operating margin = 100\*(net adjusted operating income/adjusted operating expense). Student dependence = 100\*(gross tuition revenue + auxiliary revenue) / adjusted operating revenue. Current MADS burden = 100\*(maximum annual debt service expense/adjusted operating expenses). Cash and investments = cash + short-term and long-term investments. Average age of plant = accumulated depreciation/depreciation and amortization expense. N.A.--Not available. MNR--Median not reported. MADS--Maximum annual debt service.

# Fitch Rates Nevada System of Higher Education's 2024 COPS 'AA'; IDR Affirmed at 'AA'; Outlook Stable

Fitch Ratings - Austin - 08 Apr 2024: Fitch Ratings has assigned a 'AA' rating to the approximately \$15.1 million series 2024 certificates of participation (COPs) to be issued by the Nevada System of Higher Education (NSHE).

Fitch has also affirmed NSHE's Issuer Default Rating (IDR) and the approximately \$212 million in outstanding COPs at 'AA'.

The Rating Outlook is Stable.

The series 2024 COPs are expected to sell competitively April 9, 2024. Bond proceeds will be used to refund certain outstanding COPs maturities for debt service savings.

Underpinning the 'AA' IDR and COPs ratings is NSHE's leading market position as the sole provider of public post-secondary education in the state of Nevada (IDR, AA+/Stable), which is supportive of NSHE's solid 'aa' Revenue Defensibility assessment despite generally sluggish enrollment performance post-pandemic.

Fitch expects NSHE will continue to maintain resilience in its operating and financial profile. This is based on a generally improved state funding environment on which NSHE relies for significant operating and capital support, historically solid balance sheet resources bolstered by foundations' assets, and management's likely measured pace of leverage going forward.

Still, these generally favorable credit elements are balanced against NSHE's thin (typically not exceeding 6%) adjusted cash flow margins, which Fitch believes are likely to persist. It also suggests to Fitch there are practical limits to NSHE's ability to further manage its costs, which may lend added fiscal pressure to NSHE when addressing its future budget gaps.

# **SECURITY**

The 2024 COPs are payable from all legally available NSHE funds after payment of debt service on the system's outstanding senior-lien University Revenue Bonds (URB)s. The COPs are an absolute and unconditional pledge of the system and are not subject to annual abatement or appropriation risk. Fitch does not differentiate the COPs security from the URB security pledge, and considers them to be parity obligations.

# **KEY RATING DRIVERS**

# Revenue Defensibility - 'aa'

Strong Demand Fundamentals; State-Wide System with Historically Solid State Support

The 'aa' Revenue Defensibility assessment is anchored by NSHE's role as the state's only public provider of higher education with multiple campuses located throughout the state and a largely instate draw across the system. Demographic trends for Nevada's high school graduates are favorably projected to be stable or slightly growing. NSHE also seeks to further expand its out-of-state, regional reach that currently hovers at around 20% at its two large co-flagship research institutions (University of Nevada Reno [UNR] and University of Nevada Las Vegas [UNLV]).

Demand metrics vary widely within the system's eight institutions, with strong demand characteristics at UNR and UNLV that include strong matriculation rates near 50%, stable to more recent modest enrollment gains, and consistent freshman-sophomore retention of about 79%. By contrast, the two-year, community colleges have open admissions and economically cyclical enrollments.

System-wide enrollment has modestly eroded after a recent pre-pandemic peak, due in large part to significant enrollment loss at NSHE's community colleges over the pandemic. Headcount over the last five years (fiscal 2019-2024) declined by a modest annual average of 1%, although Fitch recognizes fall 2023 (FY24) may be the start of a change in trend given the approximate 2% YoY gain to reach 107,163 total student headcount across all NSHE campuses.

NSHE retains relatively balanced revenue diversity with three key revenue streams of about 30% each in unaudited fiscal 2023: state operating appropriations, student tuition/fees and auxiliary revenues, as well as total grants and contracts. Nonetheless, overall net tuition/fees have largely remained flat over fiscal years 2021-2022 and declined by just under 3.5% in unaudited fiscal 2023.

While total grants and contracts are otherwise largely representative of NSHE's research funding, sizeable federal stimulus dollars received by NSHE (the system was awarded \$369 million) have boosted this level of funding in recent years. Fitch considers NSHE to have some pricing flexibility; the system has increased tuition about 3%-6% annually at the four-year institutions over the last several years. Fundraising primarily benefits the two flagship institutions.

# **Operating Risk - 'bbb'**

Slim Operating Margins, Flexible Capital Needs

NSHE has a history of thin adjusted cash flow margins. Stronger margins in fiscal years 2021-2022, as calculated by Fitch, were bolstered in part by one-time federal stimulus funding received. However, near-final unaudited fiscal 2023 results point to a low and declining adjusted cash flow margin of approximately 3.9% as compared to roughly 10.4% in fiscal 2022.

For fiscal 2024, state general fund revenues to NSHE of approximately \$848 million in FY24 were up significantly YoY (\$200 million or by 30%) due mainly to legislative actions that authorized a 12% cost of living adjustment (COLA) for employees with an additional \$66 million in funding for one-time

expenditures, including \$10 million for a grant program to expand undergraduate and graduate nursing programs and nearly \$15 million for enrollment recovery at five institutions.

Despite the additional state funding, NSHE also grew its revenue base by increasing student registration fees across the board by roughly 2.5%. NSHE management expects actual fiscal performance at June 30, 2024 YE will largely trend in line with fiscal 2024's roughly \$2.5 billion operating/self-supporting/other sources revenue budget, outside of \$10 million (less than 1% of combined budget) in revenue underperformance for UNLV athletics to date.

For fiscal 2025, state appropriations will again authorize a hefty 11% COLA, although the COLA is only funded at 66% by the state and the NSHE Board has approved funding the difference. While details are yet be finalized, Fitch maintains some concern on the year's wider, structural budget gap, and NSHE's ability to close it both in this and future fiscal years without slimming reserves.

The associated \$65 million NSHE portion is currently anticipated to be made up by a mix of additional expenditure cuts and personnel reductions in the form of managing personnel vacancies, a delay in COLA implementation until Oct. 1, 2024, and added revenue-raising in the form of a 5% increase in non-resident tuition and student registration fees. Fitch expects to continue monitoring the progress of these budget developments.

Fitch believes NSHE has healthy flexibility to continue supporting its capital needs given its solid fundraising track record and typically stable state capital support with the flexibility to shift capital project funding and timing. With an average age of plant of at or just under 15 years, NSHE's lifecycle needs are expected to be manageable in the near term. Per statute, NSHE typically receives at least a modest \$15 million each biennium for capital spending.

UNR has taken initial steps towards developing its "University Gateway District" over 2.2 acres near campus that will eventually combine a new business school as part of a complex with retail shops, a public convention space and hotel on the south end of campus. A self-funded parking garage was also constructed.

#### Financial Profile - 'aa'

**Sufficient Financial Cushion** 

NSHE's percentage of available funds (AF)-to-adjusted debt (including pension obligations) was stronger than usual over fiscal years 2021-2022, but Fitch believes this is likely not representative of future years due to the boost from the receipt of one-time federal stimulus funds.

At June 30, 2022, NSHE had approximately \$756 million in long-term obligations. The system's bonded debt is all fixed rate, with no derivative instruments. Aggregate debt service is front-loaded. State-funded employees at NSHE usually participate in the state's cost-sharing Public Employees Retirement System (PERS) pension plan. In calculating adjusted debt, Fitch includes pension liabilities (adjusted to a 6% discount rate), which were substantial at \$619 million. NSHE had just under \$1.4 billion in fiscal 2022 available funds (AF), including \$385 million at the foundation level, relative to \$1.37 billion in

adjusted debt, or a solid 102% AF-to-adjusted debt.

In a Fitch-modeled investment and debt stress scenario, Fitch expects AF coverage in the out years will moderate down closer to the 'aa' Financial Profile assessment. Gifts and periodic state funding for key capital projects have been consistent and should continue to offset a portion of NSHE's capital funding needs. However, this is counterbalanced by NSHE's own debt and capital investments planned or underway, which have not been insignificant.

Key projects include a roughly \$150 million lease/leaseback transaction in fiscal 2023 to fund construction of UNR's new business school, pay-go cash funding of roughly \$100 million in fiscal 2023 to acquire two properties near UNLV, and a roughly \$57 million debt issuance anticipated for fiscal 2025 to finance a UNLV parking garage. Fitch rates the UNR lease bonds for the business school 'AA/ Stable'.

# **Asymmetric Additional Risk Considerations**

No asymmetric additional risk considerations were applied to the rating.

# **RATING SENSITIVITIES**

# Factors that Could, Individually or Collectively, Lead to Negative Rating Action/ Downgrade

- --Sustained cash flow margin deterioration below the trend of historical performance of 3%-6%;
- --Weakened debt leverage ratios, including adjusted pension liabilities, staying below 60% through a stress scenario;
- --Significant or sustained decline in state operating or capital support;
- --Erosion in total enrollment or a weakening in NSHE's demand profile, which pressures our demand assessment;

# Factors that Could, Individually or Collectively, Lead to Positive Rating Action/Upgrade

- --Meaningful improvement in operating performance, generating cash flow consistently in excess of 10%;
- --Sustained debt leverage ratios, including adjusted pension liabilities, exceeding 80% of adjusted debt.

#### **PROFILE**

Established in 1864, the system consists of two principal university campuses: University of Nevada, Reno (UNR) and the University of Nevada, Las Vegas (UNLV), four community colleges, the Nevada State University (a four-year teaching institution located in Henderson), and the Desert Research Institute (the system's basic and applied environmental research division). Both UNR and UNLV are accredited by the Northwest Commission on Colleges and Universities (NWCCU) and designated as R1

research institutions ("very high research activity") by the Carnegie Classification system.

NSHE's 13-member board has historically been elected for six-year terms, with members representing specific districts within Nevada. However, this is expected to be modified in the near to intermediate term given a higher education reform bill recently signed into law by Governor Lombardo that directs both the shortening of elected service to four-years starting in January 2029 and reduction of the number of representatives to nine.

On Nov. 5, 2024, state voters will again consider a proposed amendment to the state constitution (broadly similar to those presented to voters in prior years) which would remove the constitutional status of the Board and require the state legislature to provide by law for the governance, control and management of NSHE.

# Sources of Information

In addition to the sources of information identified in Fitch's applicable criteria specified below, this action was informed by information from Lumesis.

# REFERENCES FOR SUBSTANTIALLY MATERIAL SOURCE CITED AS KEY DRIVER OF RATING

The principal sources of information used in the analysis are described in the Applicable Criteria.

# **ESG Considerations**

Nevada System of Higher Education (NV) has an ESG Relevance Score of '4' for Management Strategy due to {DESCRIPTION OF ISSUE/RATIONALE}, which has a negative impact on the credit profile, and is relevant to the rating[s] in conjunction with other factors.

The highest level of ESG credit relevance is a score of '3', unless otherwise disclosed in this section. A score of '3' means ESG issues are credit-neutral or have only a minimal credit impact on the entity, either due to their nature or the way in which they are being managed by the entity. Fitch's ESG Relevance Scores are not inputs in the rating process; they are an observation on the relevance and materiality of ESG factors in the rating decision. For more information on Fitch's ESG Relevance Scores, visit https://www.fitchratings.com/topics/esg/products#esg-relevance-scores.

All Fitch Ratings (Fitch) credit ratings are subject to certain limitations and disclaimers. Please read these limitations and disclaimers by following this link: https://www.fitchratings.com/understandingcreditratings. In addition, the following https://www.fitchratings.com/rating-definitions-document details Fitch's rating definitions for each rating scale and rating categories, including definitions relating to default. ESMA and the FCA are required to publish historical default rates in a central repository in accordance with Articles 11(2) of Regulation (EC) No 1060/2009 of the European Parliament and of the Council of 16 September 2009 and The Credit Rating Agencies (Amendment etc.) (EU Exit) Regulations 2019 respectively.

Published ratings, criteria, and methodologies are available from this site at all times. Fitch's code of conduct, confidentiality, conflicts of interest, affiliate firewall, compliance, and other relevant policies and procedures are also available from the Code of Conduct section of this site. Directors and

shareholders' relevant interests are available at https://www.fitchratings.com/site/regulatory. Fitch may have provided another permissible or ancillary service to the rated entity or its related third parties. Details of permissible or ancillary service(s) for which the lead analyst is based in an ESMA- or FCA-registered Fitch Ratings company (or branch of such a company) can be found on the entity summary page for this issuer on the Fitch Ratings website.

In issuing and maintaining its ratings and in making other reports (including forecast information), Fitch relies on factual information it receives from issuers and underwriters and from other sources Fitch believes to be credible. Fitch conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction. The manner of Fitch's factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third- party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors. Users of Fitch's ratings and reports should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating or a report will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to the market in offering documents and other reports. In issuing its ratings and its reports, Fitch must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings and forecasts of financial and other information are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings and forecasts can be affected by future events or conditions that were not anticipated at the time a rating or forecast was issued or affirmed. Fitch Ratings makes routine, commonly-accepted adjustments to reported financial data in accordance with the relevant criteria and/or industry standards to provide financial metric consistency for entities in the same sector or asset class.

The complete span of best- and worst-case scenario credit ratings for all rating categories ranges from 'AAA' to 'D'. Fitch also provides information on best-case rating upgrade scenarios and worst-case rating downgrade scenarios (defined as the 99th percentile of rating transitions, measured in each direction) for international credit ratings, based on historical performance. A simple average across asset classes presents best-case upgrades of 4 notches and worst-case downgrades of 8 notches at the 99th percentile. For more details on sector-specific best- and worst-case scenario credit ratings, please see Best- and Worst-Case Measures under the Rating Performance page on Fitch's website.

The information in this report is provided "as is" without any representation or warranty of any kind, and Fitch does not represent or warrant that the report or any of its contents will meet any of the

requirements of a recipient of the report. A Fitch rating is an opinion as to the creditworthiness of a security. This opinion and reports made by Fitch are based on established criteria and methodologies that Fitch is continuously evaluating and updating. Therefore, ratings and reports are the collective work product of Fitch and no individual, or group of individuals, is solely responsible for a rating or a report. The rating does not address the risk of loss due to risks other than credit risk, unless such risk is specifically mentioned. Fitch is not engaged in the offer or sale of any security. All Fitch reports have shared authorship. Individuals identified in a Fitch report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only. A report providing a Fitch rating is neither a prospectus nor a substitute for the information assembled, verified and presented to investors by the issuer and its agents in connection with the sale of the securities. Ratings may be changed or withdrawn at any time for any reason in the sole discretion of Fitch. Fitch does not provide investment advice of any sort. Ratings are not a recommendation to buy, sell, or hold any security. Ratings do not comment on the adequacy of market price, the suitability of any security for a particular investor, or the tax-exempt nature or taxability of payments made in respect to any security. Fitch receives fees from issuers, insurers, guarantors, other obligors, and underwriters for rating securities. Such fees generally vary from US\$1,000 to US\$750,000 (or the applicable currency equivalent) per issue. In certain cases, Fitch will rate all or a number of issues issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor, for a single annual fee. Such fees are expected to vary from US\$10,000 to US\$1,500,000 (or the applicable currency equivalent). The assignment, publication, or dissemination of a rating by Fitch shall not constitute a consent by Fitch to use its name as an expert in connection with any registration statement filed under the United States securities laws, the Financial Services and Markets Act of 2000 of the United Kingdom, or the securities laws of any particular jurisdiction. Due to the relative efficiency of electronic publishing and distribution, Fitch research may be available to electronic subscribers up to three days earlier than to print subscribers.

For Australia, New Zealand, Taiwan and South Korea only: Fitch Australia Pty Ltd holds an Australian financial services license (AFS license no. 337123) which authorizes it to provide credit ratings to wholesale clients only. Credit ratings information published by Fitch is not intended to be used by persons who are retail clients within the meaning of the Corporations Act 2001. Fitch Ratings, Inc. is registered with the U.S. Securities and Exchange Commission as a Nationally Recognized Statistical Rating Organization (the "NRSRO"). While certain of the NRSRO's credit rating subsidiaries are listed on Item 3 of Form NRSRO and as such are authorized to issue credit ratings on behalf of the NRSRO (see https://www.fitchratings.com/site/regulatory), other credit rating subsidiaries are not listed on Form NRSRO (the "non-NRSROs") and therefore credit ratings issued by those subsidiaries are not issued on behalf of the NRSRO. However, non-NRSRO personnel may participate in determining credit ratings issued by or on behalf of the NRSRO.

# **Credit Highlights**

- S&P Global Ratings assigned its 'AA-' long-term rating to the approximately \$30.7 million series 2024 university revenue refunding bonds and the approximately \$15.1 million series 2024 certificates of participation (COPs) issued by the Nevada System of Higher Education (NSHE, or the system).
- At the same time, S&P Global Ratings affirmed its 'AA-' long-term rating and underlying rating (SPUR) on NSHE's outstanding debt.
- S&P Global Ratings also affirmed its 'A+' long-term rating on the series 2023A and 2023B National Finance Authority, N.H., lease revenue bonds issued on behalf of NCCD -- UNR Properties LLC (NCCD -- UNR), Nev.
- The outlook on all ratings is stable.

# Security

The series 2024 university revenue refunding bonds and the series 2024 COPs will refund the university's 2014A bonds and 2014 COPs, respectively. As of June 30, 2023, NSHE had \$788.3 million in long-term debt. The debt included about \$342.8 million in university revenue bonds (URBs), \$211.8 million in COPs, and \$63.4 million in community college revenue bonds (CCRBs).

We view both the COPs and revenue bonds as unlimited student fee bonds. The system's URBs are payable from certain student fees and facilities revenue as well as unrestricted grant revenue. The COPs are payable from all legally available funds, including student tuition and fees, sales and services, unrestricted contributions, investment income, and cash and investments. Revenue pledged to the revenue bonds is available to pay debt service on the COPs after revenue bond debt service is paid. We do not notch the rating on the COPs because of the broad availability of revenue.

The system's pro forma maximum annual debt service (MADS) burden is a low 2.8% of fiscal 2023 adjusted operating expenses. Management anticipates a modest amount of new debt within the two-year outlook period. We will evaluate the impact of new debt when details are finalized, but we believe the system has some capacity for additional leverage at the current rating.

#### Credit overview

We assessed NSHE's enterprise risk profile as very strong, characterized by a large enrollment base of 72,835 full-time-equivalent (FTE) students, which has been stable over the last two years. We also assessed NSHE's financial risk profile as very strong, supported by solid cash and investments relative to peers' and a conservative debt profile, although operations are historically negative on a full-accrual basis. We believe these combined credit factors lead to an anchor of 'aa-' and a final rating of 'AA-'.

The 'AA-' long-term rating on NSHE's debt reflects our opinion of:

- The system's position as the sole comprehensive provider of public higher education in Nevada with a range of university, college, and community college offerings;
- · Relatively stable demand metrics, particularly for the system's universities in Reno and Las Vegas; and
- The system's conservative debt profile, with a low MADS burden and a somewhat front-loaded debt service.

Partly offsetting the above strengths, in our view, are NSHE's:

- · Historically negative operations on a full-accrual basis, and
- Weak selectivity and graduation rates compared with peers'; however, these metrics are consistent with the system's access-oriented mission.

NSHE is the sole provider of public higher education in Nevada. In addition to University of Nevada, Reno (UNR), and University of Nevada, Las Vegas (UNLV), NSHE includes four community colleges, a state university, and a research institute. In July 2022, NSHE was gifted a campus at Lake Tahoe when Sierra Nevada University transferred its assets and operations to UNR, becoming the University of Nevada, Reno, at Lake Tahoe. UNR offers 123 baccalaureate majors and more than 130 advanced fields of study, such as agriculture, biotechnology, and natural resources; business administration; education; engineering; journalism; and medicine. UNLV has more than 80 baccalaureate degrees and 120 advanced-degree programs, including business, dentistry, education, engineering, hotel administration, urban affairs, and medicine.

#### Environmental, social, and governance

We analyzed the system's environmental, social, and governance factors related to its market position and financial performance. We view the environmental risks for NSHE as elevated given the state's exposure to pervasive drought conditions, which could add complexity to the system's operations. We view the system's social and governance factors as neutral in our credit rating analysis.

# Outlook

The stable outlook reflects our expectation that NSHE will maintain a large enrollment base and benefit from increased state support in the outlook period. The stable outlook also reflects our view of the system's solid cash and investments relative to debt and operations and recent margins near break even on a full-accrual basis.

#### Downside scenario

We could consider a negative rating action if the system generated operating deficits that significantly weakened cash and investments or if the system issued substantial additional debt without commensurate growth in cash and investments. As the rating on the NCCD -- UNR bonds is tied to NSHE's anchor, we could consider a lower rating on that debt if the system's credit profile weakens.

#### Upside scenario

We could consider a positive rating action if NSHE saw material growth in cash and investments relative to debt and operations with at least stable demand metrics. We would also expect the system to generate operations near break even on a full-accrual basis.

# **Enterprise Risk Profile--Very Strong**

### Market position and demand

Prior to the pandemic, NSHE saw gradual, consistent growth in enrollment. During the peak of the pandemic, enrollment fell primarily at the community colleges, consistent with trends across the sector. Enrollment has been stable over the last two academic years. FTE enrollment measured 72,835 in fall 2023 with headcount over 103,000. Management projects modest enrollment growth for fall 2024.

The system is not very selective, partially due to the inclusion of access-oriented institutions. Retention at UNLV and UNR is solid at around 80%. Student quality remains above average compared with national averages but varies by institution. Approximately 72% of NSHE's students come from Nevada. The system successfully recruits students from California with competitive tuition pricing. NSHE is building its recruitment pipeline through marketing to international students and by building relationships with K-12 schools in Nevada.

# Management and governance

A 13-member board, which is selected by a general election in the state, governs NSHE. The board is involved in all major NSHE policy decisions, approves administrative and faculty salaries, and appoints a chancellor. Within the outlook period, voters could elect to change the board's constitutional status. Additionally, the board's size and term lengths could decrease. However, we do not expect these changes will have a material impact on our view of NSHE's governance.

NSHE's management has experienced some turnover since our last review. The chancellor position remains filled on an interim basis. The system chief financial officer transitioned to the same role at UNR. The system and UNLV gained new chief financial officers. The system also gained a new vice chancellor for academic and student affairs. The finance team has otherwise been stable. In our view, the system and institutions maintain good leadership and coordinate operations well.

NSHE has formal policies for investments, reserves, and liquidity. The system also has strong debt policies, including prescribed limits to revenue debt subject to authorizing legislations and resolutions.

# Financial Risk Profile--Very Strong

#### Financial performance

NSHE typically achieves break-even operations on a cash basis with full-accrual operating deficits. The system ended fiscal 2023 on budget and with a small deficit of 0.2% of adjusted operating expenses. While net tuition revenue fell, state appropriations and grant revenue increased. Both UNR and UNLV maintain Carnegie R1 classification for very high research activity.

Prior to the pandemic, state appropriations made up over 30% of NSHE's adjusted operating revenues. Funding levels have been lower in recent years, with federal relief funds making up some of the difference. State appropriations increased modestly to \$647.9 million in fiscal 2023, up from \$639.1 million the prior year but still below fiscal 2020 levels. In the outlook period, management expects a strong increase in state appropriations, which will help cover cost-of-living adjustments for employees. Additionally, the 2023-2025 biennial budget approved enrollment recovery funds, funds to expand nursing programs, and capital contributions of over \$70 million, largely for deferred maintenance. The state also approved funds to review the system's funding formula.

Tuition, fees, and auxiliary revenues make up approximately a third of NSHE's operating revenues. Discounting is comparable with peers' at approximately 33%. Tuition remains competitively priced for in-state students.

#### NCCD -- UNR

The series 2023A tax-exempt lease revenue bonds are financing the design, construction, and furnishing of a College of Business at UNR. The building will be a key part of the Matthewson University Gateway District, linking UNR to downtown Reno. NSHE is leasing the land for the project to NCCD -- UNR, a Nevada limited liability company. NCCD -- UNR in turn subleases the project to NSHE. Both the ground lease and sublease terms extend through maturity of the series 2023A bonds in 2053. Ownership of the building will revert to NSHE on maturity of the bonds. The series 2023B taxable bonds financed a ground lease rent reserve fund which will mature in 2024.

Debt service payments are level at approximately \$10 million annually. Sublease payments are sufficient to make debt service payments and are a contractual obligation of NSHE, payable from all legally available funds after debt service on the system's bonds has been paid. Legally available funds include student tuition and fees and auxiliary revenue. The NCCD -- UNR bonds are also secured by a first lien on the leasehold interest in the project and a security interest in certain property and collateral, including sublease payments, insurance proceeds, and proceeds of condemnation. Appropriations from the state of Nevada to NSHE are not available to make sublease payments. As the NCCD -- UNR bonds have a narrower source of available revenues compared to NSHE's outstanding bonds, we consider this debt subordinate and rate the bonds one notch below the system rating. There is no debt service coverage ratio requirement for the bonds. The project benefits from sublease terms that extend through maturity of the bonds, a prime location on campus, and key role in UNR and NSHE's strategic plan for growth.

Management reports that construction of the business school facility is proceeding on schedule with competition expected in summer 2025.

#### Financial resources

NSHE's cash and investments, including those held at the system's related foundations, totaled a strong \$1.991 billion as of fiscal 2023. This was slightly below financial resource levels in fiscal 2022, largely due to strategic property purchases by UNLV. Cash and investments relative to operations were stable at 84%. Relative to the system's modest total pro forma debt, resources were strong at 255%.

The endowment held at the NSHE level grew by 1.8% to a market value of \$295.6 million in fiscal 2023. The combined market value of the endowments of NSHE, UNR, and UNLV was approximately \$969.5 million, which we consider consistent with the rating. NSHE's endowment spending policy is 4.5%, which we view as sustainable.

NSHE's fundraising efforts have gained momentum in recent years with notable campaigns and gifts. UNR successfully completed a campaign in 2023, surpassing its target of \$500 million. Additionally, UNR recently received its largest-ever gift of \$36 million to create an aerospace engineering department. UNLV has also seen fundraising momentum and has achieved growth in its donor base, including more engagement with businesses.

### Debt and contingent liabilities

The system's URBs are payable from (i) net pledged revenue (i.e., student fees, which do not include tuition payable by nonresident students; any fees collected during summer sessions; certain registration fees; or fees collected at the community colleges or Nevada State University), which are commonly designated as the general fund fee, the capital improvement fee, the student union capital improvement fee, and the general improvement fee; (ii) UNLV facilities revenue; (iii) UNR facilities revenue; and (iv) unrestricted grant revenue at UNLV and UNR.

NSHE's CCRBs are secured irrevocably by income derived from certain gross fees collected from students attending community colleges; all unrestricted grants from the U.S., Nevada, or any other donor for the payment of the CCRBs; and net revenue, if any, from income-producing buildings, structure, and improvements located at NSHE's community colleges. These community colleges include the College of Southern Nevada, Great Basin College, Truckee Meadows Community College, and Western Nevada College.

NSHE is a public employer under the State Public Employees' Retirement System (PERS), a cost sharing multiple-employer defined benefit plan that covers substantially all public employees of the state of Nevada, its agencies and its political subdivisions. All classified employees and some professional employees are covered under PERS. Those professional employees not covered by PERS are covered by three self-directed, defined contribution plans, and hence have no unfunded liability. The PERS funded status was approximately 75% in fiscal 2022, which we view as sufficient.

# Fitch Rates Nat'l Finance Authority (Univ of Nevada, Reno Proj) Lease Revs at 'AA'; Outlook Stable

Fitch Ratings - Austin - 05 Jun 2023: Fitch Ratings assigns an 'AA' rating to the following National Finance Authority's (NCCD-UNR Properties, LLC -- University of Nevada, Reno Project) (the authority) lease revenue bonds:

- --Approximately \$159,488,000, series 2023A (tax-exempt);
- --Approximately \$225,000, series 2023B (taxable).

The Rating Outlook is Stable.

The Nevada System of Higher Education (NSHE) Board of Regents govern the University of Nevada, Reno (UNR). Fitch currently rates NSHE 'AA' IDR/Stable.

The 2023AB lease revenue bond are expected to sell the week of June 22nd via negotiation. Proceeds from the bonds are being loaned to the borrower (NCCD-UNR Properties, LLC -- UNR Project, a 501c3 special purpose non-profit) pursuant to a loan agreement and will be used in large part to construct an academic and instructional facility for the College of Business on UNR's campus (2023 project).

#### **SECURITY**

The series 2023 A and B lease revenue bonds are underpinned by a number of direct agreements established between key parties: NSHE, UNR, developer (Edgemoor), borrower (NCCD-UNR Properties, LLC -- UNR Project, a 501c3 special purpose non-profit), trustee (US Bank), and a conduit issuer (National Finance Authority).

The series 2023 bonds are limited obligations of the authority, payable from funds due under the loan agreement, primarily rent payments from UNR. Payment of the 2023 bonds are also secured by a trust estate, a grant to the trustee under of first lien on the leasehold interest in the premise. The sublease provides that public money shall not be used to finance any part of the series 2023 project that is non-recourse to NSHE and the State of Nevada.

The 2023 project and the land on which it will be constructed (the premises) is to be leased by the NSHE Board of Regents to the borrower (NCCD-UNR Properties, LLC -- UNR Project, a 501c3 special purpose non-profit) pursuant to a ground lease. In turn, the borrower subleases the ground and improvements to NSHE in exchange for a monthly lease payment. Pursuant to the sublease, lease

payments are required to be sufficient to make debt service payments on the series 2023 bonds, are paid monthly starting Aug. 1, 2023 and are therefore not subject to project completion. A debt service reserve will not be funded.

#### SUBLEASE LEGALS

The base sublease payments and the administrative expenses are not subject to abatement, deduction or delay. These payments have been assigned to and will be paid directly to the trustee.

Except in the event of a fiscal fund-out termination, the obligation of NSHE to make the base sublease payments is absolute and unconditional during the sublease term and such payment obligations shall not be subject to any claim for setoff, diminution, or abatement for any reason.

A non-curable event of default under the development agreement which results in the termination thereof is a cross default under the sublease and gives the university a right to terminate the sublease.

#### **KEY RATING DRIVERS**

#### LEGALLY AVAILABLE REVENUES

The series 2023AB bond ratings of 'AA' are informed by Fitch's assessment of NSHE's general credit quality in the form of its 'AA' IDR rating. The lease bonds are subject to repayment from NSHE's "legally available funds", which are largely comprised of student tuition and fees across the broad system's base in addition to revenue from sales and services and investment income. NSHE's state and federal revenue sources are not included in the definition of legally available funds.

Fitch conservatively expects at least modest growth in these revenues given current enrollment trends and NSHE's ability to adjust student tuition/fees and charges. Fitch views the 'AA' lease revenue bond rating as sensitive to material shifts in trend and/or Fitch's forward look in a stress case for NSHE's operating profile, student enrollment, revenue trends, as well as additional debt leverage.

#### AMPLE REVENUE COVERAGE IN FY22

Legally available funds are not formally pledged to the sublease contractual obligations (similar to NSHE's COPs) and are calculated net of the university revenue bonds (URB) and community college revenue (CCR) bond payments that carry a first lien on certain revenue streams. Both the outstanding COPs and the sublease obligation are payable from residual legally available funds.

Fitch expects coverage of the outstanding COPs, in addition to the projected sublease obligation, will remain robust. Additional leverage from the sublease is relatively modest (flat \$10 million/year ADS) and net of senior lien annual debt service (ADS), legally available funds totaled about \$611 million or 13x coverage of ADS (\$13 million) for the outstanding fiscal 2022 COPs. The outstanding COPs also have a broadly flat debt service schedule.

NSHE management reports no plans to further leverage the associated revenue streams within the next year or so. The borrower is ringfenced as to any additional borrowing for the project, but NSHE

retains the ability to issue additional debt for it under certain circumstances. As projected, leverage of the legally available funds currently supports the rating, but increased leverage not coupled with accompanying revenue growth would likely prompt rating pressure.

#### **PROJECT SUMMARY**

The new facility will be located in a two-acre site (the Gateway District) at the south end of campus, connecting UNR with downtown Reno. The five-story, 128,000 square-foot building will become a new home for the College of Business after an expected 26 months of construction that is anticipated to break ground late August 2023. Other phased development is planned for this site in the future, including a hotel and convention center, along with some mixed-use development.

Fitch believes construction risk to the involved parties should be manageable. Both the developer and design-builder have significant experience building projects on active university campuses, and have completed over \$3.5 billion of construction projects together. Contractual provisions include a fixed price contract and delay credits. A \$4.5 million budget allowance for change orders has been established. Close coordination also exists between the UNR and their counterparties at the city of Reno.

#### FISCAL FUND-OUT CLAUSE

Pursuant to state law, NSHE may terminate the sublease without penalty in the event any funding authority (state or federal government) fails to appropriate funds to enable obligations of the sublease to be fulfilled. However, neither revenue stream is part of the legally available funds to be used for sublease payment. Fitch believes this risk is relatively modest as a number of mitigating factors otherwise counter this situation.

Early termination of the sublease does not cause an early termination of the ground lease, and the ground lease extends five years beyond the sublease, with the right to re-let premises during the remaining term of the ground lease. Ground lease rent is also planned to be funded up for five years with the taxable 2023B bond proceeds. Importantly, NSHE has never terminated any of its leases as the result of a failure to appropriate.

#### **RATING SENSITIVITIES**

Factors that could, individually or collectively, lead to negative rating action/downgrade:

- --Downward pressure on NSHE's 'AA' IDR would prompt bond rating pressure, given the project's currently elevated reliance on NSHE available revenues before future site development of revenue-generating components;
- --The rating is sensitive to increases in debt leverage not coupled with commensurate growth in legally available revenues.

Factors that could, individually or collectively, lead to positive rating action/upgrade:

--Upward rating movement is not expected outside the constraints of NSHE's credit profile and current IDR.

# **Best/Worst Case Rating Scenario**

International scale credit ratings of Sovereigns, Public Finance and Infrastructure issuers have a best-case rating upgrade scenario (defined as the 99th percentile of rating transitions, measured in a positive direction) of three notches over a three-year rating horizon; and a worst-case rating downgrade scenario (defined as the 99th percentile of rating transitions, measured in a negative direction) of three notches over three years. The complete span of best- and worst-case scenario credit ratings for all rating categories ranges from 'AAA' to 'D'. Best- and worst-case scenario credit ratings are based on historical performance. For more information about the methodology used to determine sector-specific best- and worst-case scenario credit ratings, visit https://www.fitchratings.com/site/re/10111579.

#### **CREDIT PROFILE**

KEY RATING DRIVERS for NSHE's IDR:

Revenue Defensibility: 'aa'; Strong Demand Fundamentals; State-Wide System with Historically Solid State Support

Operating Risk: 'bbb'; Slim Operating Margins, Flexible Capital Needs

Financial Profile: 'aa'; Sufficient Debt Leverage

For additional details, please see "Fitch Affirms Nevada System of Higher Education Revs at 'AA'; Outlook Revised to Stable", dated Dec. 2, 2022.

#### **DISCLAIMER & DISCLOSURES**

All Fitch Ratings (Fitch) credit ratings are subject to certain limitations and disclaimers. Please read these limitations and disclaimers by following this link: https://www.fitchratings.com/understandingcreditratings. In addition, the following https://www.fitchratings.com/rating-definitions-document details Fitch's rating definitions for each rating scale and rating categories, including definitions relating to default. ESMA and the FCA are required to publish historical default rates in a

central repository in accordance with Articles 11(2) of Regulation (EC) No 1060/2009 of the European Parliament and of the Council of 16 September 2009 and The Credit Rating Agencies (Amendment etc.) (EU Exit) Regulations 2019 respectively.

Published ratings, criteria, and methodologies are available from this site at all times. Fitch's code of conduct, confidentiality, conflicts of interest, affiliate firewall, compliance, and other relevant policies and procedures are also available from the Code of Conduct section of this site. Directors and shareholders' relevant interests are available at <a href="https://www.fitchratings.com/site/regulatory">https://www.fitchratings.com/site/regulatory</a>. Fitch may have provided another permissible or ancillary service to the rated entity or its related third parties. Details of permissible or ancillary service(s) for which the lead analyst is based in an ESMA- or FCA-registered Fitch Ratings company (or branch of such a company) can be found on the entity summary page for this issuer on the Fitch Ratings website.

In issuing and maintaining its ratings and in making other reports (including forecast information), Fitch relies on factual information it receives from issuers and underwriters and from other sources Fitch believes to be credible. Fitch conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction. The manner of Fitch's factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third- party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors. Users of Fitch's ratings and reports should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating or a report will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to the market in offering documents and other reports. In issuing its ratings and its reports, Fitch must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings and forecasts of financial and other information are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings and forecasts can be affected by future events or conditions that were not anticipated at the time a rating or forecast was issued or affirmed.

The information in this report is provided "as is" without any representation or warranty of any kind, and Fitch does not represent or warrant that the report or any of its contents will meet any of the requirements of a recipient of the report. A Fitch rating is an opinion as to the creditworthiness of a security. This opinion and reports made by Fitch are based on established criteria and methodologies that Fitch is continuously evaluating and updating. Therefore, ratings and reports are the collective work product of Fitch and no individual, or group of individuals, is solely responsible for a rating or a

report. The rating does not address the risk of loss due to risks other than credit risk, unless such risk is specifically mentioned. Fitch is not engaged in the offer or sale of any security. All Fitch reports have shared authorship. Individuals identified in a Fitch report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only. A report providing a Fitch rating is neither a prospectus nor a substitute for the information assembled, verified and presented to investors by the issuer and its agents in connection with the sale of the securities. Ratings may be changed or withdrawn at any time for any reason in the sole discretion of Fitch. Fitch does not provide investment advice of any sort. Ratings are not a recommendation to buy, sell, or hold any security. Ratings do not comment on the adequacy of market price, the suitability of any security for a particular investor, or the tax-exempt nature or taxability of payments made in respect to any security. Fitch receives fees from issuers, insurers, guarantors, other obligors, and underwriters for rating securities. Such fees generally vary from US\$1,000 to US\$750,000 (or the applicable currency equivalent) per issue. In certain cases, Fitch will rate all or a number of issues issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor, for a single annual fee. Such fees are expected to vary from US\$10,000 to US\$1,500,000 (or the applicable currency equivalent). The assignment, publication, or dissemination of a rating by Fitch shall not constitute a consent by Fitch to use its name as an expert in connection with any registration statement filed under the United States securities laws, the Financial Services and Markets Act of 2000 of the United Kingdom, or the securities laws of any particular jurisdiction. Due to the relative efficiency of electronic publishing and distribution, Fitch research may be available to electronic subscribers up to three days earlier than to print subscribers.

For Australia, New Zealand, Taiwan and South Korea only: Fitch Australia Pty Ltd holds an Australian financial services license (AFS license no. 337123) which authorizes it to provide credit ratings to wholesale clients only. Credit ratings information published by Fitch is not intended to be used by persons who are retail clients within the meaning of the Corporations Act 2001. Fitch Ratings, Inc. is registered with the U.S. Securities and Exchange Commission as a Nationally Recognized Statistical Rating Organization (the "NRSRO"). While certain of the NRSRO's credit rating subsidiaries are listed on Item 3 of Form NRSRO and as such are authorized to issue credit ratings on behalf of the NRSRO (see <a href="https://www.fitchratings.com/site/regulatory">https://www.fitchratings.com/site/regulatory</a>), other credit rating subsidiaries are not listed on Form NRSRO (the "non-NRSROs") and therefore credit ratings issued by those subsidiaries are not issued on behalf of the NRSRO. However, non-NRSRO personnel may participate in determining credit ratings issued by or on behalf of the NRSRO.
