

**PROPOSED AMENDMENT
TITLE 4, CHAPTER 8, SECTION 6.4
Reporting of Diversity Data**

Additions are underlined and deletions are ~~stricken~~

The following proposal is offered for consideration of Title 4, Chapter 8, Section 6.4 concerning the reporting of diversity data to the Board of Regents:

4. ~~Annual reports shall be made by each institution to the Board of Regents~~
The Chancellor's Office shall collect and maintain information on (1) the number of minorities, women, and members of other protected classes employed in professional and classified positions; and (2) the number of minorities, women, and members of other protected classes registered as students. Annually, periodically, or upon request, this information shall be reported to the Board of Regents.

This option amends the policy to align with current practice, whereby the Chancellor's Office, not the individual institutions, periodically provides the Board with a report on diversity. By revising the language to include the phrase "annually, periodically, or upon request" it allows the Board the additional discretion to request diversity information at any time and not just once a year.
