Trends & Themes

# Things to keep in mind...

Trends and themes related to sexual violence vary depending on data source, and metrics used in definition

Official statistics (Clery, UCR, NCVS, etc.) will be lower than self-report surveys such as the AAU Campus Climate Survey or others

40+ years of college campus research consistently showing 20–25% of females sexually assaulted over course of college career—this will be higher for other marginalized identities, but most never report...In a snapshot of UNLV then, at any given time approximately 3600 female students will be sexually assault or already have been

(Backes, 2006; Fisher, Daigle, & Cullen, 2010)
